FOR RAILWAY PURPOSES

Acknowledges receipt of C.O. despatch of 13th October. Cattle trucks and sheep pens referred to in the last para. are to be built locally.

Mr. J. Anderson

I do not take these trucks into account in working out this year's requirements for 1914-15 because the 4 dead-heads will be sent home. The sum of \$5,660, is large but

(a) It is quite probable that the work, if it has been put in hand at all, has been undertaken irrespective of these loan funds. I am sure of it if you or 4831 is interrupted, such preliminary arrangements, or repairs, may be made desirable of a date for materials as can be made before the first resources are actually available.

(b) The £50,000 figure does not include £2,000 for the 1914-15 figure, which may amount to £19,000

(c) by 30% allowance for freight & a certain quantity of steel and iron (E.R. 104)
