Audit Estimate 1912-13

B. Miller

I enclose an estimate of the amount which  
will be required in 1913-14 for the cost of an audit of  
the accounts of the State Police Dept., together with an  
explanatory memorandum.

B. Miller

Enclosed you will find a copy of the  
audit report of the State Auditor for the  
year ending June 30, 1912, showing the  
amount of the audit fees paid by the  
State of California to the State Police  
Department.

This is intended

M.B.  
1/2

for the general use of members

PAB  
200-13

Auditor has some time before he can  
be away, and I believe we'd like him  
to have a talk with the Auditor  
before he leaves to see what  
he thinks.

H. C. G.

Sir, you will be pleased to know  
that Mr. Stephenson has been appointed  
to the Auditor's office. He is a  
lively and a capable man.  
Very truly yours,

H. C. G.

Mr.

W. H. G.

7/21

Sir & Madam,

You referred to my paper 1004, so do because you were  
puzzled by the arrangement made by Mr. Stephenson in support  
of his proposal that the Assistant Surveyors who are now on the  
scale of £300-15-00 should have increments of 10/- hereafter,  
as well as those who are in future to be appointed on the  
scale of £250-15-00. I think the memorandum gives suffi-  
ciently good ground for the arrangements, but I feel bound to  
call

call attention to one omission. You may remember that, when I spoke to you about this, told you, on the strength of a discussion with Mr Stephenson, that the majority of the Assistant Auditors already in the service had reached the salary of £300 from an original salary of £250 rising by £10 increments to £300, and that therefore they would be uniformly treated if new men also appointed at an initial salary of £250 got increments of £10 as against their £10. I called up Stephenson's attention to the omission of this argument from his memorandum, and he now tells me that it is not justified by the facts. He has gone carefully into the individual history of each of the Assistant Auditors, and he finds that some of them have been transferred from West Africa and brought with them a commencing salary of £300 or more, and others were appointed under the system without remuneration except a fixed allowance of £100 a month (as previously received in the Home Service), and these also started in East Africa at some figure above £100. In these circumstances the argument which Mr Stephenson gave me in conversation and which I retailed to you cannot be used, but I think that the reasons which he is able to give in his supplementary memorandum are quite sufficient. It would be very awkward to have senior, and with increments of £10 and junior men with increments of £10 and the awkwardness can be avoided at very trifling cost, if we adopt, as I think we should, the scale of £200 ~~per~~ for all future appointments for Assistant Auditors, it would be much more convenient now to make all increments in that grade £10. I hope that you will be able to agree to the Audit estimates for the East African Protectorate, Uganda, and Nyassaland being put before the Treasury on this basis. There will be an initial saving of £50 on each Assistant Auditor appointed hereafter to set off against the small increase in the

increments of the seniors. In the case of East Africa there must also be put against the decrease in the commanding salary of the Assistant Auditors the raising of one Assistant Auditor to the rank of Senior Assistant on the scale of £400-20-500 with duty pay of 240. The latter appointment would, in my opinion, be required in any case. A staff of one Auditor with six Assistants of equal grade is not a very convenient arrangement.

## ESTIMATE OF AUDIT COST, 1912-13

EXPLANATORY NOTES.

- (A) Minimum salary and Duty Pay in accordance with Scale C. of the revised rates of salary which, I understand, are being adopted.
- (B) Proposed new post graded in accordance with Scale B. of revised rates. This post is recommended on the general ground of the increase in the volume and responsibility of the work of audit in East Africa. In order to provide satisfactorily for the work of the Department it is necessary to maintain a branch Audit Office at Mombasa and this circumstance alone demands an amount of local supervision such as, having regard to his other duties, cannot be exercised entirely by the Auditor himself and it is considered that the time has arrived when the responsibility of the officer who assists him in this work should be recognised by assigning to him a scale of salary somewhat higher than that of the Assistant Auditor.

Minimum salaries and the amounts in accordance with Scale A. of the revised rates.

Includes the unauthorised additional Post - Grade Clerk for Railway work (see 27002/11).

Includes for the first time provision for the cost of passages of Clerks to India (286).

Provision for this expenditure is asked for in order to replace one of the two official bicycles, stated to be worn out.

Includes the estimated salary during 1912/13 of the additional Fourth Grade Clerk referred to above.

4<sup>th</sup> December,  
November 1911.

DIRECTOR OF COLONIAL AUDIT.

\* See also Supplementary Estimate (attached).

## ESTIMATES OF AUDIT COST, 1912-13.

Supplementary Information

In the draft estimates already submitted in 39098/11, 39099/11 and 39100/11 I have suggested, in accordance with the proposed revision of salaries, that the Assistant Auditors serving in the above mentioned Protectorates should be placed on the new Scale A, and the effect that I have anticipated from this change is that the minimum salaries of Officers hereafter appointed will be £250 (instead of £300) but that they, together with the other Assistant Auditors on the same scale, will be given annual increments of £10.

At the present time the increments of the Assistant Auditors serving in the East African Protectorates (who are receiving salaries of £300 to £400 a year) are £10 only, and I have been the more ready to recommend the adoption of the change above referred to, although it involves in each case a reduction of £50 in the commanding salary, for the reason that it appears to me to provide ~~adequate~~ for an increase in the increments of the officers concerned from £10 to £15, thus enabling them to correspond with the increments of their colleagues serving in the West African Colonies.

In this connection I would wish it to be remembered that the Auditors and Assistant Auditors are members of one Department and that they are liable to be transferred inter-colonially (Rule 3 of the Colonial Audit Department Instructions). In the case of the Auditors this liability may be largely discounted, but it represents an actual possibility in the case of the Assistant Auditors, and for this reason it seems to me to be desirable that whatever variations may be necessary in the minimum salaries payable in the various Colonies or groups of Colonies, all the Assistant Auditors in the Department should be given the same rate of increment.

so that at least all such officers serving at any time in  
any one Colony may, as regards salary, retain their proper  
relative positions.

In addition to this "departmental" reason, I might also  
refer to the representations which accompanied the East  
Africa Audit Estimates for 1911-12 (18813/10). I there  
endeavoured to show that, compared with other Officers in  
the Protectorate, Audit Officers are placed at a financial  
disadvantage owing to the nature of their duties. This con-  
dition is common to all three Protectorates and, I suggest,  
may be taken as justifying a recommendation for slightly  
exceptional treatment.
