By Order of the Secretary

I am sorry that this has been overlooked

The Paper, like the various Ordinances does not make any special provision for native but only for certain classes of ships e.g. immigrant or coasting vessels (Art 30 & 34) and it is possible that some educated African - the white subject of a foreign power might make difficulties. But unless the L.G.C. is present, I think that the Ordinance might stand. An copy should go to the  
for information
