concessions of land to be limited to the ports

(Minutes.)

Mr. Antrobus.

I had an interview with Mr. Nestor
of the firm before the letter of the 6th of
April (12548) was written. They
had referred to most of the matter contained
in the letter at depth, but I gathered that
the only matter which they wished to press
upon me, which at present are those referred
to in 12548. I do not think therefore, that
we need communicate with Mr. Brown as
far as the 2nd part of the draft
with regard to the import duty, you will
see that the 2nd part of the draft that it will be
most undesirable to allow any relaxation to
them. The dates appear to be as follows:-

~~EAST AFRICAN PROTECTORATE.~~

No. 1000

(Encr. T)

My Lord,

In continuation of the correspondence ending with this office despatch No. 48 of the 22nd January last, I have the honour to submit a memorandum by the Lieutenant-Governor of an interview with Mr. Irwin last month.

1. My remarks on the proposals made are noted in the margin of the memorandum and should they meet with Your Lordship's approval, I would suggest that they be communicated to Mr. Irwin who is now in London.

2. I concur in the view that the development of the trade in Abyssinia will be a powerful factor towards the settlement of the Province, but we must proceed carefully still for the present I should limit concessions of land to the Gezira and the neighbourhood of our stations.

I have the honour to be,

With the highest respect,

My Lord,

Your Lordship's most obedient,

Humble servant,

MEMORANDUM

I saw Mr. Irvin of the Emperor Navigation Company by appointment to-day.

He is going home by the French Mail of the 28th to see his Directors, and he wishes to know if Your Excellency favourably consider the question of developing Jubaland Province through the enterprise of his company and others.

The questions touched on were:-

1. STEAMER. He is going to advocate his company sending out a sea-going steamer, costing about £4,000 that will be able to ply between Gobwen and Kiimayu and also run down to Lamu to meet the Juba on her monthly run to that port. This will enable us to communicate with Kiimayu ~~two~~ monthly instead of once as at present. Probably a tri-monthly trip lateron.

2. LAND. To be granted on usual terms to his company and others, in Gobwen and elsewhere along the river, subject to native rights, for cotton and other exportable products.

3. RAILWAY. A short railway between Gobwen and Kiimayu to be constructed by his Company costing about £20,000

4. PIER. The present old pier which does not

lition approved
by Provincial
Commissioner,
Jubaland, is safe.

Yes. No land in
this connection
is asked for.
Details of pro-
posal will have

This should certainly be done by the Government.

not allow loaded barges to come alongside at low water to be extended another 150 feet at Government expense, or this Company to be allowed to construct a new one opposite the Customs House.

He told me that Captain Baldwin is of opinion that the present pier is so shaky that it would scarcely be worth extending.

I do not agree. I would be ~~not inadvisable to allow~~ possible reduction of duty on exports for any relaxation two years. of Customs duties.

6. TRANSPORT DUTY. As the Company is under this must await the pro- contract to transport goods from Kisimayu to fulgation of Italian the new Customs station on the river, and this will be residence. I should not be done by steamer, and not overland, will inclined to re- consider any ~~transit~~ ^{transit} dues be charged? departure from its provisions.

7. SHADS. There being a danger to navigation on the river when low, the cost of removal would be about £150. The Italians agree to pay a third. Will Government pay the third if the Company pay the other third, or remove the shads to the extent of a third to the satisfaction of the Provincial Commissioner.

In this I agree but for the present ~~suspension~~ ^{agreement} should be confined to the Ogada so far as land concessions ^{are} concerned.

In the course of our conversation Mr. Irwin expressed the opinion after two years residence that the development of trade in Jubaland will go more towards the settlement of the Province than the strongly advocated solution of the problem.

problem by the Military authorities, viz.
the establishment of a post at Isandu.

for J. Hayes Madler,

MINUTE.

Mr. Lobb 26/4

23rd instant, to the following observations

Mr. Ellis 11/4

in connection with the development of trade

Mr. Jack

X Mr. Astrobous N (12548) in the Jubaland Province of the East Africa

Mr. Cox May 9 Protectorate.

Mr. Moore

Sir E. Hopwood, T.M. 9/4 - 2. Mr. Nesbitt and Mr. Irwin had an interview with a member of this Department

Colonel Seely

Grewe

shortly before Mr. Nesbitt wrote his letter of

The Earl of ...

C 23 V

the 6th of April, a copy of which accompanied

my despatch above mentioned.

3. The questions dealt with in the

were enclosure to your despatch under reply men-

tioned at this interview; but, since it appeared

essions of APR 13498 TR

that the only matters which these gentlemen
desired to press upon my notice at present are
those referred to in Mr.Nesbitt's letter above
mentioned, I propose to defer the action sug-
gested in the 2nd paragraph of the present
dispatch.

4. The principal question at issue,
therefore, is that of reduction of the
duties on exports from Jubaland.

These duties appear to be as follows:-

Cloves	30 % ad val.
Ivory	15 % "
Gum Copal	15 % " "
India Rubber	10 % " "
Bristles (Zanzibar poles)	10 % " "
Hides	10 % " "
Rhino horns & Hippo teeth	10% " "
Tortoise Shell	10 % " "
Chillies	10 % " "
Ostrich feathers	10 % " "
Ebony & other fine woods	5 % " "
Cowries and other sea shells	5 % " "
Horses	21 Rs each
Camels	4 Rs each
Donkeys	2 rs each

DRAFT.

5. In the facts regarding the situation in Jubaland and the lower rate of duty imposed by the Italian authorities on exports from the Banadir district are as stated by Mr. Nesbitt in his letter of the 6th of April, then I am of opinion that it ~~will~~ ^{is} advisable that the duties in force or proposed for Jubaland exports should be brought down to the same level as those in force in the neighbouring Italian territory.

6. I would point out that such a reduction would not necessitate a general lowering of export duties throughout the ~~whole of the~~ ^{whole of the} Protectorate, for there is no reason, so far as I am aware, why it should not be confined to produce exported from the Jubaland Province only.

7. His Majesty's Minister at Addis Ababa has already reported that trade which

ought

ought properly to have passed through British
hands ~~is~~ being diverted to Italian territory.
~~and I~~
~~now~~
~~see~~
~~that the trade of the port~~
is rapidly increasing.

8. The policy of His Majesty's Govern-
~~in the matter~~
ment is to build up and develop British
trade, and in these circumstances it appears
to me highly undesirable to maintain high rates
of duty on exported produce and thereby bring
about the diversion of British trade to
foreign ports where lower rates are imposed.

9. I shall accordingly be glad if you
will reconsider the ~~matter~~ ^{question} in the light of my
foregoing observations and furnish me with
an expression of your views at an early date.

I have, &c.,
