Island development scheme.

now find that Argropoulos has less than 100 acres in cultivation. Matter requires careful investigation.

Mr Reed

In his letter of the 22nd of April (1906) Mr Walford speaks of Mr Argropoulos having cleared about 2400 acres, on which he has been making experimental culture. He has a valuable plant, consisting of agricultural machinery and centrifugal pumps for irrigation, imported from England and landed under tremendous difficulties. The experiments made by him have proved successful, but it will necessitate much money to develop culture on a
