Mr Read

I have deleted some considerable
paragraphs. The Report is good, but I think
Mr Butler should see the rosy paragraphs on
pp 66-7, which should perhaps be omitted or
worded less. There is no controversial matter

Mr. Butler,
On 10/12/10 the Governor was requested to send home a
map with the Report for 1909-10. He has not done so. We
have never had a map with the Report on this Protectorate
which is, I suppose, the most interesting of all the East
African Protectorates. It is worth while to try to obtain
a map of this kind from the I. D. M. O.

Mr. Butler,

Proof herewith for consideration and authority
to publish and reprint. The S. O. have not an-
swered our letter of 10/25/22 on 10/25/22 about the map.
They have reason to believe they are doing what we wish.

Mr. Butler,

I have read through the proof
report from certain topographical
errors which I have corrected.
The following notes may be raised:

- ① p. 9. How far cotton export
increase 1882 - yet decrease 1887?
- ② p. 14. That the rayon factory has
been "working successfully" all the
year seems hardly to agree with
what we have recently heard
from the Governor.
? omit "successfully".
- ③ p. 26. For ~~the~~ Peace Ordinance
Does this not get put into force?
- ④ p. 30. There are in a sentence
but the hematic sayings which
shd. I think - come out.

① pp 30, 35, 36 - 9m with Cook
through these papers, understand,
and see if you think this account
to optimistic. Perhaps it is
all right, to be sure but understand
useful, but possible protection

② p 31 - all the part about the
measures with, I think, need
to working in view of the decision
not to transfer the Northern
measures

③ p 33 - have strong that it is
necessary to put in the details of the
radical office, esp. in view of
the rather strange account given
of the cause of death

④ p 34 - I am doubtful about
writing in anything as to nature
manage. No harm would be
done - perhaps troublesome
questions avoided by omitting
the paragraph.

Mr. Butler,

Will you take steps to ask the Governor once more
to provide a map? We do not want an incorrect map from
the Station. It is now that the map
could not be inserted. It should
not be wanted again.

Call on the attention of the
all parts of the map. It is a point out that
no map is to be put with the report
for 1909-10. It is to be noted that particular
care may be taken to make a
map suitable for publication with
the report for 1910-11.
