Sir,

In reply to Lord Howe's Confidential despatch of the 14th ultimo I have the honour to report that the manager of the Uganda Railway is taking the further steps recommended in that despatch to render the vessels of the Lake Steamer Service mosquito-proof. He anticipates that he will be able to provide for the proposed precautionary measures out of the funds at his disposal without asking for any assistance from the Lords of His Majesty's Treasury.

I have the honour to be,

Sir,

Your humble, obedient servant,

Acting Governor.
