& Inspector & R. & Inspector. Encloses where as to position & duties  
of Indian Insps. & of Police Act. Reg<sup>s</sup> as in course of preparation  
Encloses annual report on Police  
(Minutes)

Mr. Bond

Dear Sir, I have the 17th minute (enclosed) it is  
advised that these men are under the European  
Reg<sup>s</sup> but that, except for the fact that they  
may not arrest Europeans, their duties are  
practically identical.  
They would be more appropriately named  
Sub-inspectors, I think.

17th report. A comparison with the  
Ghana Police Reg<sup>s</sup> 1904/5 will not make them as  
a model, shows how much there is still to  
be done, & that, under the present Reg<sup>s</sup>, the force  
was not so well looked after.

The following points are worthy of note:-

Entitlement - The men say now range at any time by giving  
a month's notice & at the 17th recommendation which  
for 3 years. This is very necessary I think if  
the force are to have a fair chance of  
improvement. The force will be approved, no further  
measures should be taken & arrangements

Clothing - Includes no blankets, & it is very inconvenient  
sleep in thin great coats and small blankets  
thin. It would be better to have a blanket - the  
long run to issue a blanket, and to give  
and utility, from the municipal office for 100

(16th) but say that in view of the 17th of the  
in there is no of India State. A force of  
nearly 2000 men should certainly have  
a of the, and all members prefer  
the.

Duties. "No books or returns have been kept  
up - most of the Collectors and it  
is impossible to say what duties the Police  
are performing." This is not easy to  
understand. In the absence of P.M. Officers  
in the outstations, both the 17 refers - the  
last para of his report, the detachments  
must have been under the orders &  
control of the Collector or District Officer, and  
I should enquire of the Commissioner what  
provision is made for the proper supervision  
of police training & work & the upkeep  
of the criminal records & returns under  
such cases. [In N. Nigeria the Police Pool,  
K.B. 1901, provides for this contingency].

Amongst the duties which, to his Director's  
knowledge, are performed by the Police,  
are those of Postal & Telegraph runners.  
This is certainly not police work & should  
be discontinued as soon as possible.

The Surveillance 17 refers, has not been kept  
up, and presumably the surveillance  
of known bad characters also.

Training  
(Expenditure)  
& Discipline  
Miscellaneous

With hardly any Officers in the  
different outstations the training  
must obviously be very rudimentary or  
else non-existent and although the  
17 refers that the discipline of the  
force is, on the whole, not bad, I do  
not imagine that it can be what  
it should be.

Miscellaneous information was given of 15  
some extent in 2 stations and not  
at all in the rest of the Protectorate  
and at least where some has been given  
for 4 or 5 years (see 17 report enclosed in  
1929). It is not clear to what extent  
branches by detachments of suitable men

Members, with 25 1927, and 474  
1927 have no suitable range, although the  
latter 250 1927, and  
the best report will not be interesting  
to have a correct report on their performance  
from their C.O.

Training  
This is a question of  
money: see the  
Publications of the  
General Administration  
Committee.

Proper attention does not appear to have been  
paid to the housing of the force; the houses  
at Mambura are bad & at Kauri  
they are worse, while most exist at any other  
place.

There are only 2000 officers in Mambura, Kauri, & Kauri.  
"It is impossible to obtain the full facts, the Collectors  
and other Local Officers without considerable delay."

This is undesirable. Do the Officers in charge of  
Provinces & districts keep no cause lists or records?  
If they do, are they not tabulated & sent to  
headquarters every month or at least quarterly?  
It is reasonable that this should not be done  
& that they should have been able to obtain  
the necessary figures for the Secretariat or the  
General Office.

Not a single Officer in the force is acquainted  
with the system [17 report, SA, in 7429] which  
should be especially useful where natives  
are concerned.

Taking the report as a whole, it reveals an  
unsatisfactory state of things.

The system of recruitment makes directly against  
efficiency, and is rendered still more difficult  
of attainment by lack of any adequate preparation  
by properly qualified European Officers.  
The force is insufficiently disciplined and almost  
entirely untrained in military & it values  
a military force - it is necessary for very slight  
Police the men are not efficient and should  
be for the force - each Inspector in  
the 17 is actually a member of the nature  
of the force which is not that half the force

and the records of military statistics & labor statistics  
have suffered in consequence.

The present state of the force testifies to  
the absence of any and organizing force  
on the part of the State T.G. and it is  
necessary to add, to the absence of  
proper supervision on the part of military  
Commission who have allowed the force  
to drift into its present condition.  
Col. Fisher will be asked to transmit the T.G.  
report without comment.

Glavin has  
perfectly agree  
in effect.

In what does it? What command on the  
military side of affairs is the T.G.  
report in line with his going on for  
some years apparently, draw attention to  
the slow growth, ask for a full  
statement of the steps with his own  
proper to take in order to remedy the  
shortcomings, or say that had to pass with  
understand how the training of the force  
& the upkeep of its various records  
has been allowed to reach its present  
condition.

As regards the Indian hospitals, I would suggest  
that they be called Sub-hospitals, which are  
subsidiary to the Europ. hospitals.

See para 2, and also ~~2000~~ 23002. In para  
8 of this report - 7429 the Commissioner states that  
the vacancies in hospitals should be filled  
by P.V.C. men, but a few more get more  
I think they can be preferable  
employment to the P.V.C. men more  
however would a decision has been  
arrived at on the Commissioner's proposal  
to limit all European alike as regards  
service & leave. I have had to & fully  
concern with the various steps for  
improving the force owing to the T.G. report.

Mr. Gents. obs

I agree generally, but we must not be too severe. The police

never has been properly organized & the necessity of using it for all kinds of purposes now must render it less efficient for strictly police work. The late Inspector General & his Deputy were accomp-

-lice officers: they have now been got rid of, & no blame can be attached to their men for the present condition of the force. The police, as a matter of fact, conducted very successfully & patrolled in the Province country without the aid of the R.I.C.

I think we did it once before to fill 2 of the 5 existing vacancies for Inspectors by getting candidates from the R.I.C. on the sanction of Messrs G

Reilly. MM 11/9

EAST AFRICA PROTECTORATE.

No. 476.

(Incl. 2.)

My Lord,

I have had the honour to receive Your Lordship's despatch No. 146 of March 21st on the subject of the Police Force of this Protectorate.

2. With regard to paragraph 3, I have already recommended (vide my despatch No. 353 of March 26th) that all European employees - no matter whether officers or subordinates - be placed upon the same footing as regards pension and leave. I also desire that European Inspectors, when selected at home, should be appointed and dismissed as in the case of Superior Officers. I should be grateful if other men from the Royal Constabulary could be engaged as

MEMORANDUM.

—0000—

With few exceptions the Indian Inspectors do not know how to read, write or speak English. They hold the same rank as that of an European Inspector, but do not exercise the same authority. They are under the orders and control of the European Inspector and are not allowed to apprehend white men. It would however be impossible to do without Indian Inspectors even though it was supposed that the European Inspectors were in a position to conduct enquiries in any of the languages in vogue in this country for the reasons that in dealing with their own class they possess more tact and are more conversant with the habits and ways of the Indians as well as the natives than the European Inspectors. Their duties comparatively speaking are similar to European Inspectors, but their status is somewhat different.

May 15th 1906.

No. 27.

I. G. P.'s Office,

Nairobi 10th May 1906.

Sir,

I have the honour to submit the Annual Police Report for the year ending March 31st 1906.

I attach the following Returns :-

- (1). Roll of Officers and Clerks
- (2). Distribution of Officers on 31st March
- (3). Strength and distribution of the Force
- (4). Criminal statistical Return.

CHANGES IN OFFICERS AND CLERKS.

Capt. McCaskin held the office of Inspector general of Police up to 24th November 1905 when he was relieved by

me.

Mr. Henderson

Mr. Henderson Deputy Inspector General was allowed to resign and his place was taken by Mr. Riddick who arrived on 7th March 1906.

Inspector Ross was dismissed the force on 26th June 1906.

Inspector Seaton-Winton was allowed to resign on the 1st October 1906.

Inspector Tulloch resigned on 9th January 1906 and Inspector Bowen was appointed temporarily in his place.

Inspector Long-Innes who is temporarily appointed to the Police was transferred on 3rd February 1906 to Embass Cassi as Deputy Superintendent and no one has been appointed in his place.

Sergeant Instructor Fitzgerald deserted about the 1st of November and his duties are being performed by Sergeant Instructor Rainbow who is a temporary hand.

#### ARMS AMMUNITION AND ACCOUTREMENTS.

The whole force is armed with the Martini Henry Rifle and sword bayonet. The rifles were taken over from the King's African Rifles in July 1906.

The accoutrements consist of black leather waist belt

pouch, frog scabbard and bandolier, khaki haversack and water bottle. The black leather equipment is purchased from Cooper & Allen (Cawnpore) India and is quite serviceable.

The ammunition consists of Martini Henry ball, buckshot and blank. What is on issue at present was taken over from the King's African Rifles with the rifles and is unusable. It might be used for marksmanship instruction. A new supply is to hand.

CLOTHING RANK AND FILE.

It consists of khaki drill jumper knickerbockers, black puttees, sandals, red fez with black tassel, black jersey and either a great coat or waterproof according to locality.

The Indians wear boots and turbans instead of sandals and the fez.

This clothing is suitable for the work and the country and is made up locally.

The men are not issued with a blanket, they therefore sleep in their great coats with the result that the great coats soon become worn and shabby.

The issue of all clothing and stores is done through my Office. At present we have no Quartermaster's Stores.

DEPARTMENTAL FINES AND SALES OF STORES.

Under the present system, as all departmental fines, proceeds of sale of condemned Police Stores, money paid by members of the Force for deficiencies etc., are credited to the Sub-head "Judicial Fines and Miscellaneous Sale of Stores" it is impossible to replenish the articles on payment, the money being appropriated by the Treasury and not credited to the Police Vote.

CRIMINAL STATISTICS.

The greater number of criminal cases consist of offences against property, breaches of Township, Game and other Ordinances. There have been a few cases of murder and unnatural offences as will be seen from the return attached. This return includes only the offences committed in the towns of Mombasa, Nairobi and Kisumu.

I regret I am unable to give the return for the whole Protectorate as it is impossible to obtain the information from the Collectorates and other Coast Provinces without considerable delay. In next year's report I hope to be able to give a classified list of the crime in the whole Protectorate.

The Surveillance Register had not been kept up. I am glad to say that in the three above mentioned towns it is now up to date and great care is being taken to exercise proper supervision over really notorious bad characters. There can be no doubt that this important and beneficial preventive provision of law (Sections 109 and 110 of the Criminal Procedure Code) had been very much overlooked but it is now receiving special attention and will I hope soon produce good results. Bad characters being allowed to roam at large without any watch being kept on their movements was undoubtedly the cause of a lot of the crime. The Police might keep a strict supervision over the movements of such characters still I consider it necessary in order to keep a thorough restraint over them that in places like Nairobi where exist villages close to the town with their recognized headmen, the provisions of Section 45 (1) (b) of the Criminal Procedure Code should be enforced.

Towards the close of the financial year two cases of cow ivory smuggling were detected by the Police. In both cases convictions were obtained. The ivory was valued at Rs.17000/- and was confiscated.

A gang of eight notorious bad characters was also hunted up. Three were arrested and sent up for trial under Section 110 Criminal Procedure Code, two of these elected to go back to India, so were not bound over to be of good behaviour. The third was. Of the rest the Police have information that the ring leader is at Dar-es-salaam in German East Africa. I should say the others are with him or have returned to India.

There have been a good number of cattle thefts from settlers in the Naivasha and Ukamba Provinces. This form of crime can best be checked by enforcing tribal responsibility.

Of the criminal class the worst are the Indians and the Swahilis.

DISCIPLINE.

The discipline of the force is on the whole not bad. At present the men enlist and can resign by giving two months notice. I consider if Non-Commissioned Officers and men were enrolled for a definite period say three years it would greatly improve the discipline of the force. Special care is being taken not to enrol men of bad and indifferent characters.

DRILL.

There are four small Depôts vis at Nairobi, Naivasha, Kiambu and Fort Hall. The drilling and training of the Force is entrusted to six European Sergeant Drill Instructors.

DUTIES OF RANK AND FILE.

In addition to all the ordinary Police duties the Force is called upon to provide guards, orderlies, escorts, and many other miscellaneous duties such as in assisting in the collection of Hut Tax, seeing Civil Processes, executing Distress Warrants, guarding cattle, performing Quarantine duties and realizing the effects of deceased persons and postal runners.

*performing the duties of a telegraph*

EXPEDITION.

A detachment of 230 rank and file accompanied the Handi Field Force.

STANDARD OF EFFICIENCY.

- African minimum height 5 ft. 4 in.
- Chest 33" to 34"
- Weight 126 lbs.

Indian

437

Indian minimum height	5 ft. 7 in.
Chest	33" to 36"
Weight	135 lbs.

#### INSTRUCTION.

This is carried on by means of parades etc., In the towns of Mombasa, Nairobi and Kisumu classes hold and lectures in ordinary Police duties given.

#### MUSESTRY.

This has been done partly in the two provinces of Ukamba and Fort Hall and not in the others.

#### QUARTERS, LINES ETC.

The quarters allotted to the the Officers are good. The lines at Kyambu are good. At Mombasa and Nairobi they are bad, especially at the latter place. There are no lines at any other station, but the grass and bamboo huts built by the men at Kisumu are good.

#### VACANCIES.

There are four vacancies of Inspectors and one of Sergeant Instructor. It is very necessary that these vacancies be filled up as soon as possible. At present

I have no Police Officer stationed at the different Col-  
lectorates except in one or two places. In most of the  
Collectorates there are no books and returns kept up so  
that it is impossible to say what duties the Police are  
performing. I have now prepared forms and as soon as they  
are printed I will issue them.

I have the honour to be,

Sir,

Your most obedient,

humble servant,

Inspector General of Police.

3. With regard to the

Dr. Dowd's remarks as to the clothing of the force, it seems very desirable that the men should be provided with blankets. You will no doubt also consider the advisability of establishing a proper store, in order to relieve the Inspector General's Office of the work of issuing clothing.

4. I observe that at the end of his report Mr. Dowd states that no books or returns have been kept up in any of the Collectors

of the districts and it is impossible to say what duties the Police are performing. I can see, very clearly the absence of Police Officers, and that the Office of Police is in the hands of a Collector or Asst. Collector, the Office should be responsible for the management of the work, records, and returns, and instructions should be given to this effect. This applies equally to the prompt rendering of criminal statistics by the subordinate Officers.

The report to the C.A.P. Police  
for the year ending March 31<sup>st</sup> 1906  
below is the last which will  
have been received.

499

I have had some conversation with  
the Deputy Inspector General, Capt. Kiddick,  
about the Police and the state  
of affairs which I gather from his  
reports is not unsatisfactory.

The annual reports since that for  
1905-6 have been duly submitted  
by the I.G. and by Capt. Kiddick while  
acting I.G. In these reports the  
main points were pointed out & the  
necessity of the providing  
lack of organization fully disclosed.

The Governor however has withheld  
these reports and Capt. K. states that  
the more serious parts of his own  
report were cut out.

Had we received these 2 reports  
it is certain that the much needed  
overhaul of the force would not  
have been delayed for over two years  
and their suppression places the matter  
in a very unfavorable light.

I think we should ask for these  
reports by telegraph if only - just  
the I.G. and his Deputy, in a  
brief enquiry the reason for their  
not being submitted. They are also  
necessary in my opinion to gauge the  
value of the report which the  
Governor will bring with him  
for the Board. Will. J. 19/6
