minutes.

We have already asked the Treasury
 to make the Accountants functional, under
 the Accountants committee of 3 attached to
 Treasury/1073 on 5th. I understood that
 committee as referring only to the Accountants
 & 5th committee, but the app't of
 2nd for the app't of 2000 should also have been
 included.

I have also proposed to the Treasury to refer
 some matter of about a 1000 to
 my list but the remuneration should
 be requested as applying to the full of 2000
 also.

certainly do not want a separate staff for the Government, which will be so intimately connected with the Government of the native races and the supply of labour to Government departments and industrial concerns.

4. The same remarks apply to the Assistants in the Government. I find in view of the appointment of officers who would be responsible with the staff of Assistant District Commissioners and the staff of Assistant District Commissioners, it is not possible to have a separate staff for the Government.

if not greater, difficulties than as it did when I had the formation of the Department for Native Affairs before me, whilst the demands are increasing. I regret the delay that must necessarily occur before the organization of the Department can be completed, and I would earnestly solicit Your Lordship's approbation, in view of the reasons recorded in this despatch, that the stipulation as to non-pensionable service may be waived, I can see no reason why one Department - and this Department above all - should be placed on a different footing from the rest of the Protectorate service.

6. I will address Your Lordship shortly with regard to my recommendations for filling the posts of Assistants.

7. In the meanwhile may I request the favour of a reply by telegram to the main questions raised
