Sir,

I have the honour to forward an application by Mr. F.R.W. James, L.D.S.P., L.R.C.S. Ed. for appointment as a Medical Officer in the East Africa and Uganda medical service.

Mr. James was engaged locally, in lieu of an Assistant Surgeon, in May 1906, and during the fourteen months he has been in the service of the Protectorate, I have had ample opportunity of forming a judgement as to his professional ability and private character.

Professionally he is abreast of modern knowledge, is industrious and painstaking in his work, and of regular and sober habits.

I consider him fitted for an appointment as Medical Officer and would recommend his name being submitted to H.M.'s Secretary of State for one of the vacancies now existing.

Should his application be favourably considered, Mr. James would undergo a course of instruction at one of the Tropical Schools during the period of his first leave.

A certificate as to his physical fitness, and copies of his testimonials are herewith forwarded.

I have the honour to be,

Sir,
Your obedient servant,

Principal Medical Officer

The Secretary,
to the Administration,
Nairobi.

The Principal Surgeon General,
East Africa & Uganda Protectorates,
Nairobi.
Sir,

I have the honour to submit to you this application, praying that I might be placed on the permanent staff of Medical Officers in the East Africa & Uganda Protectorates.

I have now served over one year in the lower grade, on a small salary, trusting that my qualifications becoming known to my higher Medical & Administrative Officers, an application for promotion would not be denied me.

I hold a British qualification, having obtained the Diploma of the Royal Colleges of Physicians & Surgeons of Edinburgh, and of the Faculty of Physicians & Surgeons of Glasgow in 1881, since which time, I have held high and responsible appointments, and some of the testimonials I have received, are now filed in your office; amongst the appointments held are, Civil Surgeon, I.L.S. - House Surgeon to the Royal Gosh Vindia Hospital, India, - Surgeon, T. & C. China Mail Service, - Medical Officer to the Chinese Railway, Manchuria, being employed by the Russian Government, - and further as Surgeon in respect to the Immigration Trust Board of Natal, for over a half year, during which time I acted as District Surgeon of Stanger, Natal.

I need not say, Sir, that should this application be granted, it shall be my constant endeavour, to prove myself worthy of the trust reposed in me.

I have the honour to be,

Sir,

Mr. W.R.W. James has acted as "Locum tenens" for me during the last month, he has given satisfaction both to myself, and my patients, by whom he was generally liked.

He is gentlemanly in manner and appearance, sober and industrious, and a neat dispenser, and I can only add that I hope to obtain his help should I at any future time require a locum.

Dr. W.R. Jones was my Assistant during the year 1904. Socially he was gentlemanly and courteous, professionally he was all that could be wished- kind to his patients, and true to the interests of his employer.

My practice was most varied, and in all the details, Medical, Surgical & Obstetric, he gave every satisfaction.

Nov. 16th 1907.

I have much pleasure in bearing testimony to the assiduity and care with which Dr. James performed the duties of Assistant and House Surgeon to the Kolar Gold Fields Medical Establishment and Hospital, for the period of twelve months during which time he was employed as "locum tenens".

As many as thirteen Gold Mines are at work in this District which has a population of about 30,000 inhabitants, and it is needless to point out that cases of all sorts receive attention during the course of a year. It is with great satisfaction that I state that Dr. James availed himself to the full of the opportunities which the practice afforded, and it has not been my lot to meet with a more willing, painstaking, and hard working colleague.
