Previous Paper

(Subject)

Legislative Council

States Wilson has accepted & Govt would accept but points out that Bailie would best represent the African Peoples nomination to be applied also to East Africa in Legislative Council provided few non-officials can be allowed as Legislative Council members

(Minutes)

Mr. Antrobus

Make first arrangement
there are ^{at least} 20000 official & official
members (or $\frac{5}{90000}$) so that there is
a substantial official majority & there
could be a objection in the case of
increasing the unofficial members from
3 to 4. I would have thought
that one representative of
the S. African element was quite enough
in existing cases & I should be
inclined to telegraph & say that
Mr. Baillie's nomination is approved of, but
that it is proposed that the nomination
of Mr. Lane should stand over until
the next meeting

There has been time to see how
things went, such as to telephone
& letters, not to answer.

PARAPHRASE

Telegram from the South Africa Protectorate to the Secretary of State for the Colonies.
(Received Colonial Office 24th July 1907)

26/5/07

23rd July Your Lordship's telegram of the 24th of June relative to Legislative Council.

Wilson has accepted and Cowie would accept, but points out that U. G. Baillie who is a large landowner here would best represent the South Africans.

Baillie has recently borne a prominent part in the Colonists Association in opposing the extremists and he may possibly become President before long.

He is much respected here and I learn from the "renewal" that he bears an excellent reputation.

I therefore propose his nomination, to which I agree, and I should also like to have Cowie on the Legislative Council provided four non-officials can be allowed, as the Executive Council recommend.
