AGRICULTURE IN 1924.

Director's Report.

CONFIDENCE IN AGRICULTURE RESTORED.

General Progress.

OPTIMISTIC REVIEW OF YEAR'S WORKING.

In his annual report for 1924 the Director of Agriculture makes the following comments—

GENERAL.

The Agricultural Year 1924 was not so white as the average in respect of prices as was the year ended in 1923...

In a previous report it was stated that in 1922 the weather was not so white as the average...

The total value of agricultural produce in Kenya for 1924, on the basis of 1923 prices, is estimated at £2,162,490...

AGRICULTURAL EXPORTS.

The increase in volume of exports of agricultural produce...

AGRICULTURE IN 1924.

The total area allotted for agriculture in Kenya is 474,000 acres...

MAIN CROPS.

The total area under crop (not-native) as at June 30th, 1924, was 297,877 acres...

IMPORT STATISTICS.

A comparison of 1924 figures with those of 1923 shows that the approximately equal quantities of wheat and wheat flour were imported in these years.

The slight increase in the imports of sugar and flour is probably to be accounted for by larger requirements of supplies for spring planting, but the total is not so high as in the case of previous seasons.
