Queen Anne Whisky

By Hill, Thompson & Co., Edinburgh

A plain statement of facts is all that is required for those who have not so far as this very commanding whisky. "QUEEN ANNE" is a perfect, mellow, potent whisky, with impurities in quality. It does not pretend to compete in price; but as nothing good is obtainable, save the few extra shillings per case that it costs are well worth the money.

Those who are able to give a really good whisky, based only upon a true order, to become convinced of the excellence of "QUEEN ANNE."

We also carry moderate stocks of a perfect vintage Claret; of a sound Port of the finest quality; Brandy of prime Havana Tobacco, but "QUEEN ANNE" whisky is the best one of all.

The New Fordor Sedan

All cars nowadays are easy to drive, but the Ford remains the easiest to handle. This is mainly true because the Ford is the only car in which all the work of sitting the gears may be done without removing either hand from the steering wheel. The Ford again requires both hands to turn the steering gear and is the only car which does not require the use of the "steering wheel" to turn the steering gear. The Ford is the only car in which the car is being "steered" into the road, rather than being "steered" through traffic. The Ford is the easiest and the safest car to drive.

## Acclaimed Everywhere As A Really Remarkable Car

The Oldsmobile-Six will romp along the road at 60 miles an hour. It will glide along in traffic in high gear at a snail's pace.  
It will leap ahead with an acceleration which is nothing short of marvelous. It can be brought smoothly, silently and instantly to rest, at a slight pressure, of the break pedal. The brakes are automatically compensated and require practically no attention.

The Oldsmobile-Six will run smoothly and comfortably over rough, rocky roads; its long springs absorbing all road shocks. On hills and steep grades this car has no equal. From every point of view and in any single point of performance the Oldsmobile stands unrivalled in its price class. It is truly an extraordinary car.

It is handy for driving in town and in which all the work of shifting is done for the driver without requiring either hand from the steering wheel. The average woman requires but little to turn the steering gear and she is satisfied when the motor runs when the car is being 'parked' and a desired parking space is obtained through traffic. The Ford is the easiest and the safest car to drive.
