The New Fordor Sedan

All our new models are easy to drive. In fact the Ford remains the easiest to drive. This is mainly true because the Ford is the only car in which all the work of shifting, gear work, etc. is done without removing either hand from the steering wheel. The average woman requires both hands to turn the steering gear and she is handicapped if she also has to remove one to shift the gears. Easy to drive to men when the car is being "put away" with a limited parking space is assured through the use of the Ford in the standard and the optional car to drive.

Acclaimed Everywhere As A Really Remarkable Car

The Oldsmobile-Six will romp along the road at 60 miles an hour. It will glide along in traffic in high gear at a snail's pace.

It will leap ahead with an acceleration which is nothing short of marvelous. It can be brought smoothly, silently and instantly to rest at a slight pressure of the break pedal. The brakes are automatically compensated and require practically no attention.

The Oldsmobile-Six will run smoothly and comfortably over rough, rocky roads, its long springs absorbing all road shocks. On hills and steep grades this car has no equal. From every point of view and in any single point of performance the Oldsmobile stands unrivalled in its price class. It is truly an extraordinary car.

Car Value is Never Before!

Without any qualified consideration, it can be stated definitely here that the value of a car is never before so high as it is today. On the one hand, because the car itself (looking at all used and new cars) is being sold at a profit, and on the other hand, because the value of a car is being maintained for a long period of time.

A player shall be considered as being in possession of the ball if he has put it into a scrumming under the following conditions:

"In all cases where the referee orders a scrumming, the referee shall award to the team which is not opposing for the scrumming the right of putting the ball into the scrumming on either side, in case of doubt the referee shall award such right to the side which is territorially on the defensive."
