Buick Performance steps further ahead in World Leadership!

WOMEN who drive cars will appreciate the new Buick models for several reasons. — First of all the new Buicks are nearly effortless in handling. The steering is finger-light. The gentlest pressure on the brake pedal brings the car instantly to a stop without a trace of skidding. The lightest pressure of the foot operates the clutch.

All dangers of night driving are eliminated by Buick's new dipping head lights. There is no dimming. A switch located in the centre of the steering wheel controls the beams of light.

The amazing reserve capacity of the super-powered Buick valve-in-head engine practically eliminates gear changing except in starting.

Never before has a car appealed so strongly to those who take a pride in smartness and sheer beauty of line.

There is an unmistakable air of exclusiveness about the new Buicks which set them apart from all other cars.

Standard Touring £418
Special Standard Touring £445

Master Touring £465
Special 7 Pass. Master Touring £575

Master Sports Touring £545
Master Sports Roadster £538

(But the outward appearance and beauty of the new Buicks is only a suggestion of the remarkable refinements found within.

Experienced Motorists and Engineers will instantly recognize Buick's supreme leadership in engine and chassis design.

They will delight in the beautiful finish and clean design of the engine.

They will appreciate at once the tremendous advantages and economy of Buick's Oil Filter, Air Cleaner, Petrol Filter, Starting System, Four-wheel Brakes and Valve Mechanism.

They will find a new joy and thrill in road performance. You never saw a hill climbed the way this Buick will take it. You never saw such get-away. And speed! A Buick owner can say "they shall not pass" to any one in the world.

The New
BUICK

IS NOW BEING SHOWN
at the Sixth Avenue Showrooms
OF

Gilfillan & Company, Ltd.

Announcing A NEW SERVICE

Complete Alemite
Chassis Lubricating Service
now as convenient as oil
or gasoline service

It takes only 15 minutes to flush out and lubricate thoroughly every vital bearing on the chassis of your car.

Drive onto our rack today and watch the Alemite low-pressure compressor at work.

There are 30 to 60 vital bearings on the chassis of your car. They require lubrication as regularly as the engine, if your car is to function properly as a whole. 80% of repairs on moving parts are due to lack of proper lubrication.

Now you can get complete chassis lubricating service at small cost, as easily and quickly as you have gasoline put in your tank, air in your tires or oil in your engine.

Turn your car over to our experts for regular

MOTURING TOPICS

MAINTENANCE DETAILS.

Things an Owner Sometimes Forgets.

LABORATION.

It is probable in the modern era of the motor car that it is likely to be bought by the laity. It is not an accident that any automobile, even immediately made available by hand and power, is not a success. It is a success only if it is a success in the eyes of the laity. It is a success only if it is a success in the eyes of the laity. It is a success only if it is a success in the eyes of the laity.

EARLY ENTHUSIASM.

Usually the grand possessor of a new car will drive it as if it were his own. He will drive it as if it were his own. He will drive it as if it were his own. He will drive it as if it were his own. He will drive it as if it were his own. He will drive it as if it were his own.

REMEMBER THE NAME.

Another thing that the owner forgets to do is to get the engine properly maintained. It is not an accident that any automobile, even immediately made available by hand and power, is not a success. It is a success only if it is a success in the eyes of the laity. It is a success only if it is a success in the eyes of the laity. It is a success only if it is a success in the eyes of the laity.

DISINTEGRATION.

Disintegration is the process by which the engine breaks down. It is not an accident that any automobile, even immediately made available by hand and power, is not a success. It is a success only if it is a success in the eyes of the laity. It is a success only if it is a success in the eyes of the laity. It is a success only if it is a success in the eyes of the laity.

The Fan.

PART OF THE CAR AFTER THE FAN.

A common cause of cooling system trouble is the fan. It is not an accident that any automobile, even immediately made available by hand and power, is not a success. It is a success only if it is a success in the eyes of the laity. It is a success only if it is a success in the eyes of the laity. It is a success only if it is a success in the eyes of the laity.

If the fan belt is stretched, it will not do its work. It is not an accident that any automobile, even immediately made available by hand and power, is not a success. It is a success only if it is a success in the eyes of the laity. It is a success only if it is a success in the eyes of the laity. It is a success only if it is a success in the eyes of the laity.

The New Buick has arrived. See it to-day

Once you have driven the seventy-five mile-an-hour Buick. Once you have taken it over some particularly steep hill in high gear—gaining speed all the way! Once you have experienced the way it assumes the lead in traffic! Once you have checked its economical petrol consumption against your friend's car! Then you will realize that the new Buick for 1914 with its super-power Valve-in-Head engine, gives you power—speed—and responsive performance like no other car you have known. Women drivers particularly will be enthusiastic over these wonderful new cars. The steering is amazingly light; the clutch and brake pedals require only the lightest pressure; dipping head lights banish forever the danger of night driving; gear changing is practically effortless.

THE MAIZE CONFERENCE. Official Report. NEW MAIZE GRADES. Export Trade Regulations.

DEBATE & RESOLUTIONS (Continued)

Following is the substance of the discussion at the Maize Conference. The first portion was devoted to the report of Mr. Pilling... Mr. Pilling said that he would like to challenge that statement and referred to Mr. Justice... Mr. Shery said that the only individuals who have been the real promoters... Mr. Justice said that the shippers were not 'taking the Maize quickly enough and that the trucks were held up at Kilindini... Mr. Justice mentioned that a large number of bags of maize have been 'taken straight through to Kilindini and loaded direct into lighters... Major Nicholson examined the Conference that it is generally known that in Australia the handling charges on one bush of maize are one halfpenny whereas here maize costs the shippers from truck to steamer about 2s 6d.

Mr. Shery stated that it was not practicable to take this particular matter (defence) into the hands of the Government... Mr. Justice said that he was not at all surprised that the Government should have taken this matter into their hands... Mr. Justice said that he was not at all surprised that the Government should have taken this matter into their hands... Mr. Justice said that he was not at all surprised that the Government should have taken this matter into their hands...

Mr. Justice said that he was not at all surprised that the Government should have taken this matter into their hands... Mr. Justice said that he was not at all surprised that the Government should have taken this matter into their hands... Mr. Justice said that he was not at all surprised that the Government should have taken this matter into their hands...

Mr. Justice said that he was not at all surprised that the Government should have taken this matter into their hands... SAVE YOUR BIG CAR!

£190 Delivered Nairobi

THE big car represents a large investment that is subject to heavy depreciation. To use it for knock-about purposes is costly and wasteful.

To let the FORD car take the wear and tear of daily use is true economy. Low first cost, low depreciation and low operating and maintenance costs in the FORD car add peace of mind to the physical comfort of the owner.

Delivered Nairobi. £190
