W. McIVOR & Co. 8th Avenue.

REAL "MIRZAPUR" CARPETS AND RUGS OF EXCEPTIONAL QUALITY

These Carpets have been specially selected in Mirzapur and are the finest range we have ever seen outside India. The quality is good—quite different to the cheaper grades and imitation carpets made for export. They are good to look at and good to feel and will outlast many cheaper carpets. You could not choose a better or more "upright gift" for Christmas.

AS THESE CARPETS WILL SELL QUICKLY IT IS ADVISABLE TO MAKE A SECOND CHOICE WHEN ORDERING.

No.	Size	Colors.	Shs.	Price
6662	8 x 3'	Rose ground with dark blue borders	Shs. 99/-	99/50
6663	8 x 3'	Blue with gold and fawn design	Shs. 100/-

THE "MATCHLESS"

Range of Models at the Olympia Show.

NEW DESIGN.

All our new models, H.M. Collins and Sons, Ltd., manufacturers of the famous "Matchless" motor, have concentrated entirely on the production of big new machines, combinations of the two forms, the "Spring Motor" and "Matchless" type, which will give the motorist maximum torque and maximum speed in the most efficient manner obtainable. This machine has the maximum torque of 20 lb. ft. at 1,500 r.p.m.

It will be realized that torque, speed and power spring from the same source, and the more torque the more power. The "Matchless" motor, which makes the ideal motor for combination with the "Matchless" engine in country where road conditions are not so good as in our own country, has been improved by the "Matchless" type. The "Matchless" motor has been improved by the "Matchless" type.

The new line of the range at the Olympia Show is the "Matchless" motor, which has undergone little alteration in design with the exception of the fitting of a new handle and a new fuel tank. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

The "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

MOTURING TOPICS

lets fitted with shock absorbers, a steering damper, and two very large metal expanding tank valves and a shock absorber.

The model "M. 1" is 6.5 h.p. "Matchless" with the new big compression overhead valve engine, runs in more than 100 m.p.h. and is fitted with a shock absorber and a steering damper.

The famous big "M. 2" "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

The "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

The "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

The "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

The "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

This machine was also shown fitted with a very handsome open sports seat of the "Matchless" type, with a shock absorber and a steering damper.

It will be seen from these particulars that the "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

The "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

The "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

The "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

The "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

The "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

The "Matchless" motor, which has been improved by the "Matchless" type, is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type. It is a similar machine to the "Matchless" motor, which has been improved by the "Matchless" type.

Clean Sparkling Oil All the Time

BUICK'S Oil Filter removes all carbon, grit and foreign particles by microscopic filtration. All oil is passed through the filter 5 times each 20 miles of running and is returned to the engine pure and clean.

Think what this means to the life of the Buick motor. Consider the saving in oil.

Beauty Depends on Sparkling Teeth

Perfect teeth, gleaming bright, are the essential factor of facial beauty. They focus attention and admiration before any other feature. They constitute the charm of the smile.

The secret of their sparkling brilliancy lies in the enamel which, looking from the outside, maintains its natural whiteness and necessary pliancy. It is this enamel which receives the action of the tooth powder, and it is this powder which cleanses the teeth, and restores the enamel to its natural whiteness and pliancy.

DISTRICT NOTES.

Keru.

LABOUR TROUBLES.
[From Our Own Correspondent.]
The coffee crop, which has been the medium of a new fielded with the exception of about 100,000 lbs. owing to the normal crop of dry weather, there are about 1,000,000 lbs. of coffee being now lying in the hands of the planters, who are trying to get their work up to the level of their disposal.

WAGES INCREASED.

Keru farmers have recently decided to raise their scale of wages and I think they are right in so doing, but from experience it is well to be careful in doing so. It is well to be careful in doing so. It is well to be careful in doing so.

SOUTH AFRICA CHANCE.

Trade Propaganda.

Under the heading "Trade Propaganda for South Africa," the "East African Standard" has published an interview with Dr. Colman, the Director of the Chamber of Commerce in the East African Territory. The article states that while there is now no attention to manufacturers for the time being, South Africa seems to have created the enormous potential market for cotton textiles and lace-trims, which are now being made in the East African Territory, where an every 100 white males are estimated to consume 100 yards of cotton textile.

REAL "MIRZAPUR" CARPETS AND RUGS OF EXCEPTIONAL QUALITY

These Carpets have been specially selected in Mirzapur and are the finest range to be seen anywhere outside India. The quality is good—quite different to the cheaper grades and imitation articles made for export. They are good to look at and good to feel—will outlast many cheaper carpets. You could not choose a better or more acceptable gift for Christmas.

AS THESE CARPETS WILL BEHOLD QUICKLY IT IS ADVISABLE TO MAKE A SWIFT CHOICE WHILE OPPORTUNITY LASTS.

MOTURING TOPICS

STREET LIGHTING.

Necessity for Proper Lighting.

DANGER TO MOTORISTS.

Every motorist has at some time or other suffered from the dazzling effect of street lights which shine in his eyes with results the more serious when they are on a motorist which may be fatal.

The trouble is greatly aggravated in winter months when the rays of light and so rendering themselves into a more or less blinding glare which often affects the eyes of the driver.

The principal aim of street lighting is to provide a certain amount of light which will enable the driver to see the road ahead and to see the road surface.

It has been suggested that the placing of street lights near motorist's eyes will be a great improvement.

Every motorist has at some time or other suffered from the dazzling effect of street lights which shine in his eyes with results the more serious when they are on a motorist which may be fatal.

SIX. DESIGN WANTED.

The time has arrived, therefore, when the design of our street lighting should be considered.

The introduction of novel road lighting has been suggested.

The chief object of a novel highway lighting system is to provide a certain amount of light which will enable the driver to see the road ahead and to see the road surface.

Every motorist has at some time or other suffered from the dazzling effect of street lights which shine in his eyes with results the more serious when they are on a motorist which may be fatal.

Every motorist has at some time or other suffered from the dazzling effect of street lights which shine in his eyes with results the more serious when they are on a motorist which may be fatal.

Every motorist has at some time or other suffered from the dazzling effect of street lights which shine in his eyes with results the more serious when they are on a motorist which may be fatal.

Every motorist has at some time or other suffered from the dazzling effect of street lights which shine in his eyes with results the more serious when they are on a motorist which may be fatal.

Every motorist has at some time or other suffered from the dazzling effect of street lights which shine in his eyes with results the more serious when they are on a motorist which may be fatal.

B.S.A. Cycles.

PROGRAMME OF MODELS FOR NEXT YEAR.

When B.S.A. motor bicycles were first introduced into this country in 1912, they were the only motor bicycles of their kind in the world.

The B.S.A. 4.9 H.P. motor bicycle has been designed in response to the demand for a 500 c.c. dual purpose motor, and has all the high qualities of a first-class motor.

The B.S.A. range is still the most comprehensive offered to the public by any firm, and includes the 1926. comprehensive models of six different horsepower and a complete range of B.S.A. sporting and leisure vehicles.

The year the B.S.A. 4.9 H.P. motor bicycle was introduced, it was the only motor bicycle of its class which was built in England.

Another distinctive feature of the motor bicycle was its extensive use of welded steel, which was a great improvement on the riveted steel of the time.

The B.S.A. 4.9 H.P. motor bicycle was the first motor bicycle to be built in England, and it was the only one of its class which was built in England.

The B.S.A. 4.9 H.P. motor bicycle was the first motor bicycle to be built in England, and it was the only one of its class which was built in England.

Clean Sparkling Oil All the Time

Buick Oil Filter

BUICK Oil Filter removes all carbon, grit and foreign particles by microscopic filtration. All oil is passed through the filter 5 times each 20 miles of running and is returned to the engine pure and clean.

Think what this means to the life of the Buick motor. Consider the saving in oil.

DISTRICT NOTES.

RAIL.

NEW CHURCH SCHEME.

[From Our Own Correspondent.]

Henry Rice has fallen in love with the land west of Nairobi. In a slender stream of some violence broke out between the two parties, and a large quantity of rain, falling from the district general, reported two and a half inches, which was the first rain for three months was recorded. It usually falls between the hours of 3 p.m. and midnight, and it was welcomed by every eye. The continued lack of rain caused very grave anxiety on the part of the natives.

There was practically no rain on Friday or Saturday, but heavy drizzle throughout Sunday heralded the approach of a downpour in the evening. A day-worker there was, but had a very dry day. The natives were very glad to see the rain, and there were only a few more fortunate on the road, and on both sides to be seen. It had fallen. Between four and five inches was recorded. This city has certainly done much to be seen. It was very, and the very much the better for it.

See this part of the account of the meeting of the District Council, which is a matter of some importance to be seen. It is inevitable that the building work, to be left at the disposal of the possibility of a serious deterioration may be taken very carefully into account. It was suggested at the meeting that the effect of the rain, which was not materially increased the already high cost of the building work, and that the possibility of a serious deterioration may be taken very carefully into account. It was suggested at the meeting that the effect of the rain, which was not materially increased the already high cost of the building work, and that the possibility of a serious deterioration may be taken very carefully into account.

Beauty Depends on Sparkling Teeth

Perfect teeth, gleaming bright, are the essential factor of facial beauty. They focus attention and admiration before any other feature. They constitute the charm of the smile.

The secret of their sparkling brilliancy lies in the soft, purely absorbing and fragrant of the richest tooth, being derived from solid and secondary plants, a substance which contains their sweet and tonic, which only through a powerful refining glass. The hard, outer surface of these teeth only radiates the light in all directions, thus producing the sparkling sparkle and bloom, the sense of vitality and joyousness, which distinguishes perfect teeth. Beautiful in itself, this exquisite crystalline product produces the teeth. Once lost it can never be replaced.

REAL "MIRZAPUR" CARPETS AND RUGS OF EXCEPTIONAL QUALITY

These Carpets have been specially selected in Mirzapur and are the finest made in the whole of India. The quality is good—quite different from the cheaper grades and imitation carpets made for export. They are good to look at and good to feel and will outlast many cheaper carpets. You could not choose a better or more acceptable gift for Christmas.

AS THESE CARPETS WILL BE SO QUICKLY IT IS ADVISABLE TO MAKE A SECOND CHOICE WHEN ORDERING.

Table listing various carpet and rug models with their dimensions, colors, and prices. Includes items like 'Rose ground with dark blue borders', 'Dark blue ground with design and border', etc.

THE Sure Cure for Malaria.

Quinine alone is not sufficient to cure malaria. It simply arrests the fever. The cure malaria is necessary to combine other substances with quinine, that has the power of destroying the parasites which have invaded the blood.

Malaria impurities the blood and paralyze the digestive system, causing a steady loss of strength. It is a fatal disease which will kill the patient if not cured. It is a disease which has been known to last for years and about the test for it is the presence of malarial parasites in the blood.

PHOSPHOFERRE can be obtained from all the leading chemists and drug stores in KENYA. LANGATIWA COLONY.
