The New BUICK LUXE IS NOW HERE

The most Talked-of Car in the World To-day!

The new British made BUICK SPECIAL DE LUXE TOURING has been instantly recognized as one of the most outstanding accomplishments in motor car history—regardless of price.

THE unanimous crowd throughout the world who have inspected the new Buick De Luxe touring car realized at once that Buick had produced a car which in performance, excellence of design and completeness in detail stands supreme.

Self Elevating! The new Buick De Luxe has a top which is entirely self elevating! When the top is down it is only necessary to unfasten the hold-down straps and the top will unfold and raise itself, giving you freedom into position in readiness for clamping to the wind shield supports.

Many other improvements make this new model unsurpassable in a best locker in right front door... A vibrationless, self silent car. More than power enough for any emergency, or for any day. Rugged construction and possible for a car to go.

Adjustable The driving seat of this model is adjustable. Front Seats need to be cramped when driving. If more leg room is required the seat can be instantly moved back. For the average woman driver the seat can be brought forward to a position where the foot pedals can be easily and conveniently operated.

Trunk A folding type trunk rack at the rear is supplied for carrying luggage while touring. Rack light. The spare tyre is carried on the right hand running board near the front fender. Rigid Tyre The Buick De Luxe touring car is equipped with rigid side car Side Curtains with draw vision. The car may be driven with the top down but curtains up. When not in use these curtains are stored in a neat compartment in back of the rear cushion.

The NEW BUICK DE LUXE TOURING is now on exhibition at our Sixth Avenue Showrooms.

### LAND TENURE IN KENYA.

We publish today a column  
concerning article, which has  
appeared in the columns of the  
journal, which is primarily concerned  
with African Affairs. The article  
is not concerned with the task  
of setting Mr. Sturges' views  
in relation to British East Africa  
has been most informative, our  
principal desire in so doing  
being to make it clear to the  
people who are making a  
home in this country. We have  
no doubt that if the East African  
Information Bureau in its  
columns, Mr. Sturges has taken  
steps to correct the public's  
knowledge. It is somewhat  
surprising in fact, that the African  
Society itself should not have  
corrected the accuracy of a picture  
of a part of the Empire which has  
had so much publicity recently  
and from which many members  
of the Society undoubtedly come.  
We are writing to give the author  
of an endorsement to do good  
but we are afraid the possibility  
of harm are indefinitely greater  
when on the part of the African  
Society in regarding land tenure.  
The background of the article  
approval of the establishment of  
an East African Office in London.  
The office should not have  
initiated and is not merely con-  
cerned with answering queries.  
It will be able to effect much in  
consequence of the number of  
articles which we are dealing  
with. The article also gives direct sup-  
port to our contention that Kenya

farm buildings of wood and iron  
not made to last of fixtures  
created at considerable loss and  
of dangerous position, legally,  
of the London Information Bureau  
and may feel himself benefi-  
of his possession at the hands  
of a Government which  
judges in land matters  
without compensation. It is  
a dreadful picture and we  
wonder there would be no white  
settlers in Kenya today, we  
are not concerned with the task  
of setting Mr. Sturges' views

has been most informative, our  
principal desire in so doing

It will be able to effect much in

port to our contention that Kenya

suffers through not having a land  
policy which can be applied  
and, incidentally, that the value  
of the London Information Bureau  
will not be fully gained unless  
the article is published in the  
columns of the paper. The  
"Land Settlement Commission"  
some body which will form  
a link between East Africa and  
the London Office and will  
quarters start in the provision  
of up to date information and pub-  
licity ideas.
