Was Bought the Bhs?
A native, complainant in the Court yesterday told the Magistrate he had lost a very nice bicycle purchased from his employer. A native stood in the dock accused of stealing it. The most striking feature of the case, however, was that the accused had bought the bicycle and not the complainant. The Magistrate, after a short hearing, promptly released the man "a native witness" and obtained an acknowledgment to enable him to tell his employer and save the question.

A Stungs Patients.
A duck gunnismen, attending himself by getting live cartridges for live sales outside the country house, was accused by a sixth native who had twenty rounds of ammunition. The gunnismen was charged yesterday with being in possession of these without a permit, the native suggested the Magistrate should issue a warrant. After the reason it will, there was no accounting for the complainant of native, in his view he was ordered 14 days imprisonment and one cartridge was confiscated. The next enquiry concerns where the native got his guns.

BRITISH TRADE
Confident Spirit.

A considerable increase in the volume of the United Kingdom exports of goods and services in the first ten months of the year has been recorded. The total value of exports for the period was £1,200,000,000, an increase of 10 per cent on the corresponding period of the previous year. This increase is due to a number of factors, including a general improvement in the world market, a recovery in the demand for British goods, and a steady increase in the volume of exports to the United States and other leading markets. The confidence of British exporters is reflected in the fact that they are looking forward to a further increase in the volume of their exports in the coming year.

The increase in the volume of exports is also due to a number of factors, including a general improvement in the world market, a recovery in the demand for British goods, and a steady increase in the volume of exports to the United States and other leading markets. The Holy Year.

In the Holy Year, 1925, the British Empire will be celebrating its 50th anniversary. This is a significant event in the history of the Empire, and it is one that should be commemorated in a fitting manner. The British Empire has grown from a small island in the North Sea to a vast empire that covers a large part of the world. This growth has been the result of the courage and enterprise of the British people, and it is a testament to their strength and resilience.
