THE FORD ONE TON TRUCK

In all these advantages the Ford one-ton truck has established its pre-eminence wherever it has been used and in consequence there are 40-day in operation more Ford trucks than any other make combined in Canada, where the Ford truck is made, sixty-six out of every hundred commercial cars in operation are Fords.

As a further reason for the popularity of the Ford truck, it need only be pointed out that there is scarcely a haulage job in which the Ford truck cannot be profitably adopted. Bodies of almost every type that can be required are obtainable at prices in keeping with the low cost of the truck itself.

We will gladly demonstrate what the Ford Truck can do for you at your own work. There is no charge or obligation for this demonstration.

Your own pleasure will tell you that there is a better, more economical road to travel.

The road of a hundred troubles.

Through troublesome bumpy thousands of potholes in the construction of motor roads. These cheaply made "cut" roads begin to give the protection to which you are entitled. The reputable dealer does not like to sell you such all. He knows that it puts you on the road to trouble. For at least 50 per cent. of all engine troubles are due to the use of inefficient low quality lubricants.

Why not begin today to use **Georgie Mobiloil**?

Every time you say "Give me **Georgie Mobiloil**"—the correct grade for my car?" you naturally think of the way to operating economy.

It is the way to operating economy. Thousands of motor cars and motor trucks in operation all over the world testify to the superior quality. You get the best of both worlds—high quality and low cost.

Georgie Mobiloil costs less to produce and hence may cost you a little more per gallon than other oils. But the **Georgie Mobiloil** gives you a longer service life for the same price.
