## THE BETHREENA FOLDING BABY CARRIAGE.

The "Bethreena" all steel, English made, folding baby-car is the best of this class of car made. Its strong construction, roomy body and remarkably small compass when folded make it the ideal baby vehicle for shamba or traveller's use.

We have at present a fine stock of "Bethreena" cars which embody all the latest additions and improvements to this already popular car. They have the convertible seat which can be used either in bed or sitting position. They can be supplied with the handle in front or behind as shown in the two illustrations. Finished in a great variety of serviceable colours such as Grey, Dark Grey, Slate, Navy, Khaki, Dark Green and Black.

## CATTLE DISEASE GERM.

### Called off "Haurwater."

A highly important discovery was made by the late Mr. H. V. Cowling in his laboratory at the University of Liverpool. He has discovered the germ which causes the disease known as "Haurwater" or "Haurwater's disease." This germ is a small, rod-shaped organism, and it is found in the mucus of the nose and throat of the infected animal. The discovery is of great importance, as it will enable us to identify the germ and to prevent the spread of the disease.

# Nerve Collapse

When weary, mental strain, or overwork causes the nerves to give way, it becomes a mere miserable existence. Do not allow nervous trouble to grip you. Get rid of it—no thousands of others have done by taking Dr. Cassell's Tablets.

Dr. William Whittier, Inventor.

Dr. Cassell's Tablets are a powerful tonic for the nervous system. They contain the purest and most potent form of iron, and they are also rich in calcium and phosphorus. They are especially beneficial for those who suffer from nervous exhaustion, mental strain, and overwork. They will help you to regain your strength and vitality, and they will also help you to resist the effects of stress and worry.

Dr. Cassell's Tablets are available in all leading chemists and druggists. They are also available in bulk for the trade. For more information, write to Dr. Cassell, 11, St. Mark's Place, London, W.1.

EXTRA-ORDINARY STANDING EFFECT. JAMES OKENDER. The Open Chamber of Kenya. France, 1923. writes:—

CONTROL of one's muscles in golf depends largely upon the state of the nervous system. Such facts have been established and invariably moving the hand, the unexpected twisting of the muscle at the wrong moment, knee tremors, will show all the infirmities of a nervous system which a player has not perfect control over his nerves. In every play, a unfortunately at times displaying nervous symptoms, I regard Phosphorine as a remedy for these attacks, and immediately I begin to feel that my nerves are getting the better of it. Ralph R. Clark, Club of Philadelphia, which has an extraordinary standing effect and every one pulls up to a strait jacket. J. J. Taylor, Golf Club, London, S.W.

## CAR CAUSERS

The Headlight Problem.

GARIBO HODGE

is advised to try, upon setting the main beam, to check the position of the reflector in relation to the lens. The reflector should be so placed that the main beam is directed at the top of the lens. If the reflector is not so placed, the main beam will be directed at the bottom of the lens, and the light will be scattered.

The Headlight Problem. This is a problem which is becoming more and more acute. The headlight is the most important part of the car, and it is essential that it should be in the best possible condition. The reflector is the part which is most liable to get out of order, and it is essential that it should be checked regularly.

"Give me a gallon of Oil"
Blind Luck - or Science. Choose!

By saying "Give me a gallon of Oil," you may accidentally get correct lubrication. But you are taking a long chance.

If you are one of the many who know the satisfaction of using Geopline Mollitol, we advise you to avoid this serious error.

Your best insurance of engine results is to ask for Geopline Mollitol, being particularly to specify the correct grade for your car.

Why Geopline Lubricants are busy supplying thousands of motor owners. During the very day, mechanics are busy repairing thousands of motor owners.

When you are cleaning out carbon, fitting a new piston ring, putting in new bearings, replacing the timing mechanism, you will find that Geopline Mollitol is not a by-product.

It is one of the essential reasons for the popularity of Geopline Mollitol.

NATIVE LABOUR Economic and Finance Committee. INTERIM REPORT.

Summary of Evidence Already Taken. PRELIMINARY RECOMMENDATIONS. Considerable Work is in Hand.

The Committee on Native Labour, appointed by the Government on February 11, 1925, has the honor to submit to the Government its interim report. The Committee has held numerous public hearings and has received many suggestions and criticisms from the public.

The Committee has found that the present system of native labour is based on a system of indentured labour, which is not only unjust but also inefficient. It is recommended that the Government should take steps to improve the conditions of native labour and to encourage the development of a free native labour market.

Holeproof Hosiery. To buy Holeproof Hosiery is to show good judgment. In Pure Silk, Silk Faced, Fiber Silk and Lustrated Laid, in the season's popular colors, at the leading shops everywhere.

The Committee has also found that the present system of native labour is based on a system of indentured labour, which is not only unjust but also inefficient. It is recommended that the Government should take steps to improve the conditions of native labour and to encourage the development of a free native labour market.

We desired that most people get some daylight and see for themselves how the law stands in the House between the Government and the people. It is the honest view of those who have seen and heard the speech of Agriculture Secretary (Mr. Hain) had upon the subject that it is a good thing that the Government should support the motion. It is added if there was any country which had conditions similar to those in Kenya. It would be certainly not in favor of supporting the Government's proposal.

The Hon. Treasurer moved the adjournment of the session until the 19th of October. He said that a notice had been given to the House in regard to the proposed extension of the session. He said that the Government had decided to pay out the £100,000,000 in regard to the proposed extension of the session. He said that the Government had decided to pay out the £100,000,000 in regard to the proposed extension of the session.
