THE FRENCH IN SYRIA. Statement by M. Painleve.

LONDON CONFERENCE. Official Statements.

SUPPLEMENT No. LXXXVXV. SATURDAY, AUG. 15, 1926.

A GERMAN GERMAN TARIFF BILL. Tanganyika Discussed.

Many people were killed and wounded and 3000 men were arrested on the receipt of the Chinese guards guard on a big crowd on the morning of August 22. The firing followed upon stone-throwing and the result was the killing of an endevourer and a number of police and troops. The situation is now very serious.

Paris, Aug. 13. M. Painleve has issued a statement of despatches from General de Gaulle and the Chinese generalissimo, and the British and French governments.

RIDE A B.S.A.

AND GET QUALITY, RELIABILITY, AND VALUE.

LISTEN TO WHAT A SATISFIED OWNER SAYS:

"I want to tell you how extremely pleased I am with the 2 1/2 h.p. O.H.V. B.S.A. machine I purchased from you. It has exceeded all my expectations. It is a powerful American machine, and I honestly say that not one of them ever comes up to the high standard of efficiency I find in this machine. The riding position was first surprise, for I found that the bars, and footrests give an admirable comfortable riding position."

North Pole Attempt

THE POWER AND SPEED OF THE ENGINE REMARKABLE. I have tested her for speed all gear with the following results: On gear, climbing a slight incline, she did 40 m.p.h., on second on the same incline the needle registered 55 m.p.h. On level I drove her for half a mile with speedometer needle at 50 m.p.h. She is my opinion, capable of considerably high speeds, but I had to shut off as she became very hot-holy.

"I have had the machine out over roads and find her remarkably easy to control on a grassy surface as I had hardly a slip."

YOU CAN DO THE SAME IF YOU GET A B.S.A. MOTOR CYCLE.

Sole Importers: NEWTONS Ltd., Nairobi.

Always Dependable—Cheapest to run

NO matter how severe the road conditions or how tropical the climate, the British-built Alibon can be relied on for unflinching regularity of service.

Owner records prove conclusively that there is no other vehicle coming so fully up to an uniformly dependable for every kind of commercial work.

Where motor spirit is deficient or expensive to purchase, Alibon vehicles are especially suitable for special patented petrol-less carburetor.

Write for particulars of the Alibon Models specially recommended for East Africa.

New and Lower BUICK PRICES

THE General Motors Corporation announce substantial reductions in the prices of all Buick Models.

These new prices come into operation immediately. All car sales and deliveries in Kenya, Uganda and Tanganyika are now being made on the basis of the new schedule.

The reception of the wonderful new Buick models throughout the world has exceeded all expectations.

The large increase in production, improved manufacturing methods, coupled with the growing facilities made available by the great General Motors Corporation have made lower production costs possible. The benefits of these lower costs are being made instantly available to the public.

The growth and progress of Buick has been steady and certain. Year after year they have been successfully improved and bettered. As present they represent a distinct triumph in motor car engineering and design.

The Buick you buy to-day is as carefully machined as a watch. Its operation is smooth and silent—absolutely silent. Its dose of vibration power is free from all vibration. But—most important of all—it is undeniably rugged. A veritable Buick Crusier for sheer strength and absolute dependability—set us easy and light to control, so effective and certain in braking, that the driver seldom can handle the car without ease.

New Prices

Buick Standard Six 5 pass. Touring	£299
Buick Master Six 5 pass. Touring	£475
Buick Master Six 7 pass. Touring	£525
Buick Master Six Sports Touring	£545
Buick Master Six 7 pass. Sedan	£650

Completely equipped Four-Wheel Brakes, Heavy Duty Ball-Joint Tyres, Spare Cover and Tank, Hot Water Motor, Windscreen Wiper, Deep Finish.

Buick Service

We appreciate that the vital factor in the ownership of any car is "service."
The adjustments, repairs and maintenance of Buick cars are carried out with the utmost care and precision. All work is done by skilled European mechanics. A master mechanic goes over every car, inspects every detail, makes all final adjustments and gives every car a road test before leaving the shop.
In our new building we have the correct conditions for producing the finest service. Special machinery and Buick factory tools—the highest type of equipment, high quality of service and workmanship all combine to insure customer-pleasure by name.

CROSS-WORD PUZZLE

No. 25

21st PRIZE WINNER.

The following is the solution to Puzzle No. 21—

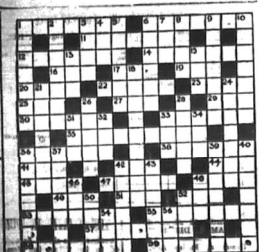

PUZZLE 21.

Puzzle No. 25 follows.

Send the solution together with a correctly filled-in coupon to the Editor, The East African Standard, P.O. Box 300, Nairobi, to reach him on or before Monday, September 7, 1928, and mark the envelope on the top left hand corner "Cross-Word Puzzle No. 25." It is important that the envelope should be so marked in this way. If it is not done the solution will be disqualified from winning a prize, even though it is correct. The East African Standard is offering a prize of Twenty Shillings for the first correct solution received. The Editor's decision must be accepted as final.

The prize of Twenty Shillings for the first correct solution was won by Mr. V. S. Marshall, Port Swarth, Port Swarth.

PLEASE CUT OUT THIS DOTTED LINE

POULTRY NOTES.

THE KENYA POULTRY CLUB MEETING.

The general meeting of the Poultry Club was arranged to be held at 11.30 a.m. on the first day of the show. Unfortunately the meeting was not going on, and I was one was waiting for my dog to be judged and I expect several others were laid up in the same way, either as accidents or as a result of illness.

Under the circumstances we were forced to abandon our meeting for the time being and it was held for 12.15 p.m. on the second day. Our energetic secretary got very busy and managed to get out handbills by first thing the second morning of the show group the charge of programme.

Again, we met with a rebuff. When we turned up in time for the meeting we found the Kenyal Club still making arrangements in the possession of the Kenyal Club and still making arrangements to bring their lengthy discussions to a close. Fortunately being (apparently) "also points of view" we were not refused and found a "hole of our own" in the shape of a vacant bench and seated in on the benches of the Club.

The following is the report of the meeting given to me by Mr. A. O. Thuma the Hon. secretary. Mrs. Dimpson was elected chairman of the meeting.

After agreeing reports for the day, etc., in setting the meeting together the Hon. Sec. read the minutes of the last meeting, gave a summary of the work done in the past year by the Club and delivered a balance to the credit of the Club.

NEW OFFICERS.
The committee occasionally ceasing to hold office with the close of the Poultry Club year the first business of the meeting was to elect the new committee. Mr. Dimpson proposed that the committee should be re-elected as follows:

President, Mr. Mervyn Ray.
Vice-President, Mr. A. M. Dimpson.
Committee: Mrs. Deane, Mr. Pollock, Mrs. Mackay, and Mr. O. O. Freese.

AN OVERTHROW.
Mrs. Dimpson said that at Chairman of a meeting she wished to draw attention to the fact that Mrs. Deane would have won the "Horse and McGeorge Challenge Cup" but owing to an oversight the exhibit of eggs was not displayed in Deane's name. Therefore the points scored in this class should be added to Mrs. Deane and Miss Poultry Farm and the award should stand as joint holders for the year.

NEIGHBORS.
There were several matters discussed and interesting additions made to the rolls.
The Club to make a change of 10s. 10s. per bird for birds registered with the Club. Proposed Mr. Freese, seconded Mrs. Deane.
No signs of any description regarding the club registration were to be allowed on a bird in the show pens. Any bird carrying such identification marks (except club tags) to be disqualified. Proposed Mr. Dimpson, seconded by Mrs. Deane.
A.V.C. classes to be open to birds that have been awarded by other shows and to an additional 10s. per bird, seconded by Mrs. Deane.

THE EAST AFRICAN STANDARD No. 25

CROSS-WORD PUZZLE COMPETITION.
Name: _____
Address: _____
To reach the Editor on or before September 1, 1928.
The Editor's decision must be accepted as final.

OUR WOMEN'S PAGE

Our Paris Letter

(From FORTY FASHIONS)

Shall we take a stroll together to-day, and make a list of the pleasant places about the city, by leaving the cinema set very fully into a deep sleep. The leisurely note is still more pronounced by large double-breasted jackets and a double row of large buttons—no eight of them.

THE DRESS FOR LIFE
I like very much the dress which is made of a material which is embroidered in a finished design on the back, with a very long head and all kinds of details. There should be just enough weight in the head to keep the heavier fabric and not enough to be a burden round the neck.

THE "FLAUNT" EFFECT
Although you will not quite believe it, the skirt is made of the flaring hem, either in the form of the flange, or more and more. There is something very attractive about this movement of a skirt which is made of a single piece, with a hem which is folded piece after piece.

THE "FLAUNT" EFFECT
If you already possess a narrow skirt, you may get the narrow skirt in several ways without making it look obviously the same. One way is to let it "drift" to the ground. Another way is to let it "drift" to the ground. Another way is to let it "drift" to the ground.

GOOD AND BAD TASTE IN LINEN
I do not like the rather aggressive and ostentatious habit of showing off one's linen. It is not the linen which is the best, but the way it is worn. It is not the linen which is the best, but the way it is worn.

THE LATEST IN SHIRT MAKING
There is also a tendency to use much lace trimming, which is very attractive. The French fine needle-work is very attractive. The French fine needle-work is very attractive.

COOKERY CORNER

ALMOND BISCUITS are delicious and very easy to make. They require flour, cream, sugar, three ounces of ground sweet almonds, and a little butter and sherry.

Mix these ingredients thoroughly together with the hand, work for a few minutes, then add three ounces of ground sweet almonds, and a little butter and sherry.

Three minutes' look for a long time if they are in tightly...

THE STANDARD.

Impressions of four-cylinder Model.

GENERAL DESCRIPTION.

The steps of the Standard Motor Co., Ltd., are: "Cover them on the road."
As the light oil movement has progressed so far the Standard motor, today, in its 14 h.p. form, is one of the most popular and most reliable types of motor available.
An 80-horse test of the four-cylinder four-seater, has indicated the economy with which we regard this type of production. The car was comparatively new, that is, it did not present those qualities which usually attend with a vehicle which has been a few hundred miles to its credit.
A careful analysis of its general construction and performance revealed only one point for adverse criticism; this is the somewhat restricted legs in the driving axle. But, in spite of this drawback, no serious objections were expressed, even after an extended shift of the wheel.

enter type, well finished and upholstered, sturdily sprung and equipped with everything that one can desire from the all-weather point of view. Durable halogen tyros applied to the outermost of the car and admirably silencing only a very low road speed.

A SILENT ENGINE.

Vibrations running and almost dead silence are characteristic of the engine, but even more impressive is the marked degree of smoothness and grace of movement at low speed.
The maximum speed, which in the various gears were attained with ease, and, satisfactory as are the results are, it must still be said that the transmission of the engine was hardly run in—First gear in 1.25, second in 1.9, third gear, 8.7, to 1.25, 4.0, 5.4, top gear, 1.6, 3.2, 4.8, 6.4, 8.0, 9.6, 11.2. The car was given a very fine, right-hand gear, which is of a most ample and simple design and which is of a most ample and simple design and which is of a most ample and simple design.

to well within the capabilities of the car. It is not until a speed of 40 m.p.h. is attained that the engine shows any signs of becoming noisy.

WATERPROOF QUALITIES.
The steel equipment of the car is distinctly proof, one of the features which impressed the writer being the sliding underbody, which is fitted to the car.

The 14 h.p. Standard is an example of a well-built motor with a good performance which can be produced at a price well within the means of three who are on the lookout for a reliable family vehicle. It is commended both on points of safety and its maintenance as a minimum of trouble and expense. (Continued on Page 12)

The 14 h.p. Standard is an example of a well-built motor with a good performance which can be produced at a price well within the means of three who are on the lookout for a reliable family vehicle. It is commended both on points of safety and its maintenance as a minimum of trouble and expense. (Continued on Page 12)

A Perfect Position.

The Arthur Lanbourn, of the Daily News Dept., had a narrow escape from a serious injury on Friday night. While driving along the road, he turned off and fell into the river. He was forced to swim for his life, but was picked up by a fisherman who was on the bank. He was then taken to a hospital where he received medical attention. He is now recovering from his injuries.

THE "AGONY RULER."

The owner of the car which was the cause of the accident, the "Agony Ruler," was interviewed. He stated that the car was in perfect condition and that he was not responsible for the accident. He claimed that the driver was the one at fault and that he was only following the car. He also stated that the car was a very reliable one and that he was very satisfied with its performance.

For fine performance—6 cylinders!

Quick acceleration... abundant power, smooth and flexible... long life and maintenance... these qualities characterize the six cylinder performance of the 22 New Studenbaker. Why be content with less!

THE LEGAL ASPECT.

Accidents and the points involved.

DANGER AND NEGLIGENCE.

Have you ever seen a motor car on the road as on the present day? It is not until a speed of 40 m.p.h. is attained that the engine shows any signs of becoming noisy. The steel equipment of the car is distinctly proof, one of the features which impressed the writer being the sliding underbody, which is fitted to the car.

In these circumstances an accident is not so rare as it used to be. It is now a common occurrence, and it is not until a speed of 40 m.p.h. is attained that the engine shows any signs of becoming noisy.

THE "AGONY RULER."
The owner of the car which was the cause of the accident, the "Agony Ruler," was interviewed. He stated that the car was in perfect condition and that he was not responsible for the accident.

The driver of the car which was the cause of the accident, the "Agony Ruler," was interviewed. He stated that the car was in perfect condition and that he was not responsible for the accident.

INEVITABLE ACCIDENTS.
These are unfortunately very common, and it is not until a speed of 40 m.p.h. is attained that the engine shows any signs of becoming noisy.

It is always advisable to take the most prudent and cautious precautions to ensure that the accident should be avoided. It is not until a speed of 40 m.p.h. is attained that the engine shows any signs of becoming noisy.

A Buick has Circed the Globe

A Standard Buick touring car has made the hazardous trip around the world under conditions that will convince anyone of the dependability of this famous motor car.

It went alone—without driver or mechanic. One Buick dealer drove it to the most—350 different drivers handled it during its travels. It went on a schedule and met that schedule to the dot—never missing an arrival date. A full finished its circle of the globe in less time than the Round-the-World Flight.

A Buick did this without repair or replacement. Buick's world-wide authorized Service never was needed, although the car was within the sales and service territory of some Buick dealer at every point in its route across the continents it traversed.

You may never decide to drive around the earth but you will always know you have a car that will take you—a car that has a record of world-wide service—/ your own a Buick.
