# DUNLOP REINFORCED BALLOON COVER

30 x 31 BREADED EDGE RIMS!

THE Dunlop Company has produced a new and stronger Balloon Type for the 30 x \$\frac{1}{2}\$ Beaded Edge rim.

This new reinforced type is marked "Dunlop Beaded Edge 31 x 4.45 Messay." It will be found an ideal tyre for heavy duty, and will meet the requirements of

Ford, Durant, Gray, Overland, Bean, Chevrolet

ewners who habitually carry big loads, but who yet desire the benefits of Ballon Tyre equipment.

It is good for any of the above cars and by reason of its particularly out construction, is better able to withstand the risk of accidental damage than the usual 31 x 4.40 Cover.

THIS COVER FITS 30 x 34 BEADED EDGE RIMS, WITHOUT ALTERATION.

- GATURDAY, AUG. 23, 1995 POULTRY NOTES. COLDS Colds seem very prevalent in the sp-country positive yards at the present time.

I do not find birds, unless very

present and find hirds, unless very pump get cell from the ra's. There should be a certain amount of shelter provided so that they can sweld heavy downpoors, but, find that if the rais is not very pleary the birds much prefer to be float cells are the outcome of ball housing. Bad housing lowers the itality of the birds and makes them more gamespille to chills. OVERICHOWIDINO "LLS."

OVERCEOWDING "ILLS."
An overcrowded house is the most ordinary cause of colds. The hirds, through being over-crowded, get hot at night and coming out into the cold, and otten wet, morning sir, they get chilled and develop colds. Bally venitated house, also cause chills, Rirds can house, also cause chills, Rirds can

house, also eause chills, Birds, can stand any amount of fresh ar; but not the foetid air of a house without ventilation. The best type of house is one with wire not ing. all round the top, under the saves, and well-above the hirds, heads when they are perching. The houses most be well drained and water

TREATMENT FOR COLDS.

TRRATMENT FOR COLDS.
Ordinary colds amongst the
birds may be treated by putting a
little occupying oil is all drinking,
water. One must be taken that
they shall not have access to any
other water; they will not drink
the water with anoxytout in it if
they can get any other.
In more average cases, individual

the water with emotypous in it. If. they can get size of them. If they can get size of them. If they can get size of them. If they can get size of the size of the

and have discharge in it, the best method is to wipe sway the dis-charge and drop a speek of bi-carbonate of soda into the eye. This will ciose the eye to mover rapidly issid will bring inty matter to the surface. This matter should be carefully wiped sway and the locate powder discoped in. IHE VALUE OF KEROSINY.

HE VALUE OF REBOSINV. Kerceine is usualistic and is a wonderfully useful remove for sick birds. A film of kerceine over the drinking water prevents colds and kones up the birds.

T always upo a few down of

kerceine if my turkeys look, off-colour, and it appears to do them a power of good, why I do not quite know.

labour was only going to work in its new district they were not going to see you want to be a see that they were not going to a see that they were not going to see you want to be a see that they are the other was increasing the see that they are the other was increasing the see that they are the see that they are the see that they were not got of two any arguedantly increase that again.

Things were not got of two any arguedantly increase that again.

They were not got of two arguedantly increase that a leading with a loading settler the offset day to be toold that he was consign round to be tool that he was consign round consential to the native and he was ential to the native and he was going to support the killing of meat which he hoped would be easily ob-tained from the native reserves and help to do something to settle this problem of overstocking from which they were suffering at present.

Proce one own correspondents.

Ruiru, August 18, 1925.

I remarked lass week on the fact that fresh evidences of the suburban-test of life in Ruiru were frequently otherwable. Yet another has come to my notice. We have for long had a suburban train on which the same people regularly may be met, and in which the same people regularly may be met, and in which the same topicor of conversation are discussed.

ACCOMMODATION.

tax, and it appears to be unnece of for them to hold any licence to for public hire

BAD DHIVING

I read in a Home paper th other day a statement that some of the dest driving on the streets of London to-day is that done by the drivers of motor omnibuses. My

swhich the same profiles the same regional conversation are discussed. There is even the market tesin "on the conversation of the same and the conversation of the same and competition to the Radiway, which is a service of motion bases. These buses are used exclusively a large number of them, and they may be a service of the same and the life flower of the day and life flower is not the terminors. I taken a service of the same I taken even further. As conver-l taken even further. As conver-led to the conversation of the same to form the same and the same to form the same and the same to form the same and the same and the form that is, as they undergut A BETTER DIET. Pisher said that it was dif alt to generalise as tribes differed so much He referred to the question of training and said that a good contractor never worked his people for the first month. On the Union Giahu Railway in one the Usain Gibin Haiway in con-contrastor's comp- the men who had worked longess could be pick-ed out at sight because they were fitter and in better condition. These poople had their ment and insalle meal as they liked. They were fitter and worked better fiber were fed properly from the beginning. Every confrastor gave his loops mean because it cheeves them up. It certainly had a great redices to the Hailway Iney most be formedable, as they undereut the fare. I believe the charge for a native from Builto to Nairobi by train is Shs. 1/14, whereas the motor buses will carry a native for Sh. 1/-.

ACCOMMODATION.

The buses are mostly either Ford or Cherroles truds, convenient by the control of the control o them up. It certainly had a great micral effect.

Dr. Wilson, in replying to the discussion, said that the essential point had been brought out by Colynel Watkins. The object Colonel Weskins. The object should be to train the native to a setter diet, to secisitom him to a balanced diet and so to make sinn adaptable to changes of diet and elimate and resistant to oh a sest warmer than even a such a seat warmer than even a native can withstand, I have no loubt it would also be used. It is unfortunate that these buses should cut up the roads and not not be liable for any additional CORRESPONDENCE
