A TYRE JUBILEE

Goodyear Celebrates the 75,000,000th.

HOW THEY ARE MADE

Celebrating the building of the 75,000,000th motor car tyre manufactured under his direction and the completion of his own 20 years of service with the Goodyear Tyre and Rubber Co. P. W. Litchfield, first vice-president associated...

The 75,000,000th tyre, a 4 1/2 x 10 heavy duty truck tyre, was displayed during the celebration of Mr. Litchfield's jubilee...

Under his direction the first Goodyear motor car tyre was built. The total production of 75,000,000 built since that time under his supervision makes it the largest production of any company in the world...

Motorists Who Delight in Passing Others

THE OTHER EXTREME

In most walks of life the unity and use of the law are essential, and the world itself continues up unawares...

It may be the bludgeoning of the law in the form of sentence, poverty and sorrow, it may be that we see slow white others are slow; or in the wake of ambition, others may even overtake or outstep us...

It will not be difficult to understand a sentiment which my own profession for steady the fabric is rampant with petrol, says a writer in an exchange, and the lion of the kind that I see in the some of our lookers at school!

Here offers in conversation with my girl confidante as we stroll the morning passed them on the white journey, and how acutely they refer to needs, alighting and runs over to them, the open road means the open throttle; they go like a flock of the sun in front, and in the morning.

NOVEL METHOD FOR MOTOR OFFENDERS

Magistrates who hesitate to mete out severe penalties to the increase of the hardship on their pockets is believed on their part to be influenced on their part by the fact that they are not paid for the process of maintenance, it should be taken in spirit.

THE PURPOSE OF THE THROTTLE

It will be claimed that all throttles are constructed to be stepped back, but the same objection might be applied to a pump rod.

Sealed to Protect Buick Performance

Buick Chassis is completely sealed. Iron and steel housing protect the operation of all driving parts—seal them in to safeguard Buick performance. Some cars have some of this protection, but Buick is the only car in the world—regardless of price—that has a wall of defence continuous from fan hub to rear axle against road dirt, stones, water and loss of lubricant. And now to these seals Buick has added three more—

- 1 Oil Filter, 2 Air Filter, 3 Petrol Filter

Buick Oil Filter is constantly working within the engine. As the engine is running, air is drawn through the filter and by suction it is rendered clean and pure as soon as it enters the engine. This feature alone adds years of life to the engine.

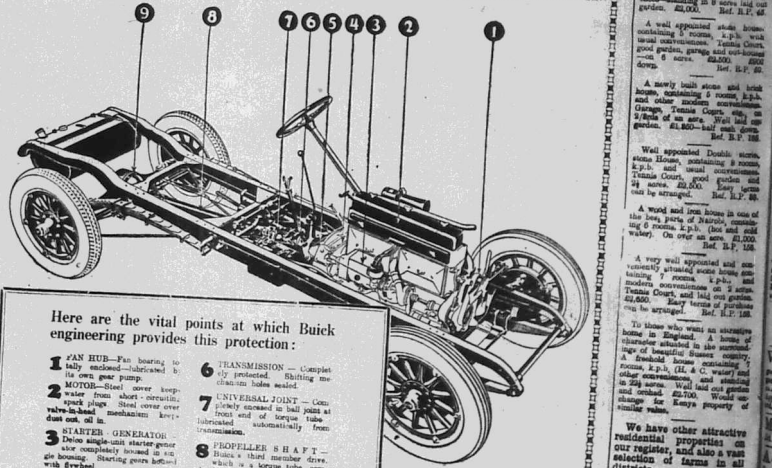

Dust, grit and all impurities are removed from the air by Buick's Air Filter before the air reaches the combustion chamber. This feature alone adds years of life to the engine.

No water, grit or foreign particles can get into the combustion chamber. Buick's Petrol Filter prevents this. This feature alone adds years of life to the engine.

Buick's water pump is completely housed in an die housing. Starting parts isolated with Bywater.

Buick's water pump is completely housed in an die housing. Starting parts isolated with Bywater.

Buick's water pump is completely housed in an die housing. Starting parts isolated with Bywater.

Here are the vital points at which Buick engineering provides this protection:

- 1 FAN HUB - Fan bearing to ball mounted-lubricated by its own gear pump. 2 MOTOR - Steel cover housing water pump. 3 WATER GENERATOR - Delco magneto starter generator completely housed in die housing. 4 WHEELS - Complete housing. Starting parts isolated with Bywater. 5 GEAR CASE - Multiple die-cast completely housed. 6 TRANSMISSION - Complete enclosed. Shifting mechanism sealed. 7 UNIVERSAL JOINT - Completely enclosed. Lubricated automatically from transmission. 8 FROST-FILLER SHAFT - Buick's third member drive shaft is a torque tube, completely encased in a protective housing. It is impossible for road dirt to get into the shaft from the universal joint or rear axle. 9 REAR AXLE - Flange type, completely enclosed in rear axle housing.

SHAKE BITES.

Doctor Tells How to Treat Them

DRASTIC MEASURES

It is extremely unlikely that you will ever be bitten by a snake in Kenya. Yet venomous snakes do bite occasionally...

1. Remove the poison. It does no good to try to suck the poison out of the wound...

2. Wash the wound. Wash the wound with clean water...

3. Apply a hot iron or burning iron to the wound...

4. Neutralize the poison which remains after efforts have been made to bleed it out...

5. Apply a hot iron or burning iron to the wound...

6. Apply a hot iron or burning iron to the wound...

7. Apply a hot iron or burning iron to the wound...

8. Apply a hot iron or burning iron to the wound...

The Parking Ground.

HOW IT IS RECORDED BY
COUNTRY DWELLERS.

Our Nairobi correspondents writes: There has been a good deal of discussion in the district lately on the subject of the new parking ground which was opened in Nairobi last week. The only advice extant is I have however, everywhere seems agreed that a parking ground is an improvement as regards the position and as regards traffic.

Regarding the position, some of our many people who still believe that a more convenient place for the majority of motorists would have been at the "Club Hotel," now known as "Law Court Hotel," for the reason for this being that it is in a more central, and therefore generally useful position.

The arrangement of the present ground is a curious one. As things are at the moment, the Motor office or business men who come down to town at 8.30 or 9.0 a.m. will find it difficult to find a place to park their cars. It is not until 9.30 a.m. that a motorist will be able to find a place to park his car. It is not until 10.0 a.m. that a motorist will be able to find a place to park his car. It is not until 10.30 a.m. that a motorist will be able to find a place to park his car.

IN RHODESIA.

A Loosy Man on a Lonely Mine.

SMALL BEGINNINGS

From the beginning Rhodesia has attracted one race of settlers, at least, by reason of the riches that lie under the surface.

It is in the small mine in Rhodesia that the Loosy Man has found his niche.

The Loosy Man is a man who has been in Rhodesia for a long time, and he has found his niche in the small mine.

He has found his niche in the small mine, and he has found his niche in the small mine.

break the ice, on bringing my gun and Ab's pet dog, the bulldog. He said his "good morning" to me and said, "I have been waiting for you."

As my gun was loaded by the headlamp I saw by the light of the moon that he was not alone.

How paying me my way, I found some money "Oh, yes, I have some money."

How paying me my way, I found some money "Oh, yes, I have some money."

How paying me my way, I found some money "Oh, yes, I have some money."

How paying me my way, I found some money "Oh, yes, I have some money."

and Ab in working on the lower level. When a sharp sound came from the mine, I saw the light of the moon.

How paying me my way, I found some money "Oh, yes, I have some money."

How paying me my way, I found some money "Oh, yes, I have some money."

How paying me my way, I found some money "Oh, yes, I have some money."

How paying me my way, I found some money "Oh, yes, I have some money."

and it stays like that all night long, and the rest from which it comes is the result of the many pumps which are used to get the water out of the mine.

INTO THE DEPTHS

Down into the black depths we slipped the diamond lantern light. The rope held the lamp steady.

How paying me my way, I found some money "Oh, yes, I have some money."

How paying me my way, I found some money "Oh, yes, I have some money."

"E A STANDARD" CROSS WORD PUZZLE.

The 45th and Last Prize Winner.

The following is the solution to the "E. A. Standard" Cross Word Puzzle, 45, last of the series.

We found almost as much to interest in the surface country as Rhodesia's goldmine as in the lower reaches of the mine.

How paying me my way, I found some money "Oh, yes, I have some money."

How paying me my way, I found some money "Oh, yes, I have some money."

RECORD OUTPUT DURING NOVEMBER LAST.

November was a record-breaking month for the Hispanick. It was the largest month in the entire history of the Hippo Motor Car Association...

Continued heavy demand for the Hispanick. It was a demand for the company's new six-cylinder motor car...

It is estimated the November record will be exceeded almost solely by our productive capacity...

Though Hippo's November sales were the largest for any month of the entire 1926 year...

Further progress and responsibility in the schedule of local expenditure the most towns is included in several of large sums which are intended to improve the public services but it is also the apparent policy of Government to expand the scope of Municipalities in the interest of those low funds. That policy is being followed in Nairobi and it is an unquestionable fact that the people of the Capital will not be able to find any amount of revenue to meet the interest and sinking bill on those loans. But Nairobi has a measure of responsibility and Government and Municipalities are served only by a Committee with advisory powers. How far those advisory powers have advanced the interests of the Corporation, or the interests which in the opinion of the Committee should be advanced, can be gathered from the very interesting summary of Government in which our Municipal Corporation placed on record last month. No one realises more completely than the present officials of the Corporation the importance of the Committee the reasons for that absence of attendance the "unpleasant" unaccountable delays at head-quarters in Nairobi and the fact that those responsible for the sympathy with Municipal Affairs. The Ministry in Nairobi writes from the same lack of attention. We question whether it goes so far as to amount to a definite lack of sympathy rather than to the absence of undue confidence with the absence of the delegated powers and responsibility to our rapidly advancing Corporation. Government staff do their work in Nairobi. The Government's policy of criticism perhaps only increased with more sympathetic views on the part of the Ministry of Municipalities to the people of Nairobi. Mr. T. Akuru-Prasad, the Chairman of the Local Government Committee stated at a recent meeting that he hoped, within the next few months, to put forward proposals with regard to some municipal council control. He indicated that if the Committee could find

out a scheme it would be "very sympathetically received." That a promise which must be fulfilled as soon as possible if the people of Mombasa are to be expected to bear taxation to meet the cost of their production, with "no real representation" is a well worn political dogma which is frequently used by politicians older than Kenya. It is the case of Mombasa. It is particularly applicable at a moment when the future of the town is under consideration along definite lines. The people in Mombasa ought to be given their chance to share in the direction of that progress and, in this respect, it is the duty of the Municipal Corporation. The Government will find it more profitable for its interests as they will discover wages and losses. The great advantage of attending to the interests of the people of Mombasa would be a very genuine one by Government at a time when central Government has no other means of having some of the attention they have long required.

Keys Made.
The mails despatched from Mombasa on January 29. Mr. "Dubois" arrived in England on January 29.

Indian Council.
Mr. M. H. Malik, the Town Commissioner and Advocate returned from India yesterday and has resumed his work in Nairobi.

A Question of Precedence.
In a private proceeding in respect of the Mombasa Corporation, it was alleged that the Secretary of the Corporation, Mr. Shreeley, who expressed his opinion that the Corporation was not entitled to the lower level of the Municipal Council, was not entitled to the "lower level" as he was not a member of the Council.

Keys Made.
The mails despatched from Mombasa on January 29. Mr. "Dubois" arrived in England on January 29.

Outgoing Resolutions.
At Nairobi Show two resolutions were passed by the Mombasa Municipal Council in connection with the Mombasa Corporation. One of the resolutions was that the Corporation should be empowered to purchase the Island of Mombasa for the purpose of the Corporation and for the benefit of the people of Mombasa. The other resolution was that the Corporation should be empowered to purchase the Island of Mombasa for the purpose of the Corporation and for the benefit of the people of Mombasa.

Mombasa Water Question.
The Mombasa Water Question is a subject which has been discussed by the Mombasa Municipal Council in connection with the Mombasa Corporation. The Council has decided to purchase the Island of Mombasa for the purpose of the Corporation and for the benefit of the people of Mombasa.

Italian Settlement.
The case in which an Italian employee of the Mombasa Municipal Council was charged with housebreaking and theft of public documents valued at Sh. 4,000, has been heard by the Mombasa Municipal Council. The facts were given by the Italian employee, who was accused of having stolen the documents. The Council has decided to pay the Italian employee a fine of Sh. 100 and to suspend him from his office for three months.

The Government's Reply.
Some readers of the Standard are surprised to find that the Government's reply to the Mombasa Municipal Council's resolution regarding the purchase of the Island of Mombasa is not so detailed as they expected. The reason for this is that the Government's reply is a very general one and does not deal with the specific details of the Mombasa Corporation's proposal. The Government's reply is a very general one and does not deal with the specific details of the Mombasa Corporation's proposal.

Entertainments.
THEATRE ROYAL
The "Standard" which is published at the Theatre Royal, Nairobi, is a very interesting and useful publication. It contains a great deal of information regarding the Theatre Royal and the various entertainments which are held there. It is a very useful publication and is well worth a read.

THE MAJESTY SHOW.

My dog came from Nakuru. I am just back from Nakuru. I was taking from the world and was very much interested in the township and all things were so new and so different under such conditions as you find in a possessive task, and the morning sun tried the dogs severely and prevented them doing their best.

Once more I repeat myself and say that our best dogs should be judged under a set of rules. The new show building was very fine and the dogs were put up in the best possible conditions. I found it was cool and comfortable and the morning sun was not up to the eyes. I did my morning exercise in the best, some very beautiful specimens were brought before me. I was very much interested in the show and had a very good time.

I was taking from the world and was very much interested in the township and all things were so new and so different under such conditions as you find in a possessive task, and the morning sun tried the dogs severely and prevented them doing their best.

I suggested I could not do better for that new breeder Mr. Reed, but his new importation must be made out of the picture that I could not do otherwise than I did.

An extremely nice Steady was put before me. It was a good dog of nice quality indeed, good in coat and color, good in eye and ear, and an upright enough to have for a pet. This dog was very nice, but I am afraid that it was not the best that I could have had.
