**CHANCELLOR ON COMING BUDGET.**

**"If No Great Industrial Upheaval Occurs."**

**A MILLION SURPLUS.**

(From Our Own Correspondent.)  
 London, March 4.—An anticipation of the Budget by Mr. Churchill in a speech at Maidstone. He expressed the opinion that the anticipated surplus will be about a million and the country will emerge from the coal deficit at 17 to 18 million sterling, which must be met by temporary borrowing.

**ARMY ESTIMATES.**

**£11 MILLION INCREASE.**

London, March 4.—The Army Estimates for 1926-27 are expected to be £11 million more than those for the current year. Administrative expenses were not included in the figures, the increase of the force was estimated.

**A "Public Place"**

**PROHIBITARY POINT RAISED IN NAIROBI.**

Whether a public station is a "public place" within the meaning of the Liquor Ordinance 1925, was the question that the Supreme Court has to decide today. A lawyer's Indian Clerk named B. D. Patel, a publican, petitioned the High Court in Nairobi, asking that the publican be allowed to sell beer and spirits at his public station and dispensary at the Nairobi Police Station.

Mr. Justice Brooke and Mr. Justice Gurnea considered the bench. Mr. Justice Brooke said that the publican was not a publican. Mr. Justice Gurnea said that the publican was a publican. Mr. Justice Brooke said that the publican was not a publican. Mr. Justice Gurnea said that the publican was a publican.

**"ALLAIDH" INADEQUATE PARAFFIN LAMPS**

The Allaiddh Inadequate Paraffin Lamp gives a beautiful soft white light—the highest candle-power of any pressure lamp in the world. The Allaiddh consumes a mixture of 64 per cent oil and 6 per cent camellia, costing less than 1/2p an hour to burn. It lights up easily as a candle and does not require pumping up. The Allaiddh is simple to use, and is absolutely safe under all conditions. It cannot explode. It burns without a trace of noise, smoke, or soot. It can be carried safely from room to room.

**ALLAIDH BATTERY LAMPS.**

Complete as illustrated with Allaiddh reflector, mechanical fuel chamber, and one ounce Enkaikim mangle. This lamp is especially suited for use in the kitchen.

No. 1104. Nickel finish as illustrated. Will burn 40 hours on 1/2p.

No. 1104A. Oiled nickel (Copper or brass finish).

No. 1104C. Oiled nickel (Silver or brass finish).

No. 1104D. Oiled nickel (Silver or brass finish).

Complete as illustrated, but without shade. This is an ideal lamp for the purpose of lighting a room. It is especially suited for use in the kitchen.

No. 1104E. Oiled nickel (Silver or brass finish).

No. 1104F. Oiled nickel (Silver or brass finish).

No. 1104G. Oiled nickel (Silver or brass finish).

No. 1104H. Oiled nickel (Silver or brass finish).

No. 1104I. Oiled nickel (Silver or brass finish).

**B**ACK of all the activities of Gilfillan & Company, Limited is the sincere and sober realization of the obligation the company feels toward the public who have purchased and who use its products. It is the aim of this organization to render a service so outstanding and efficient so widely useful and practical, that it will represent a significant contribution to the automotive development of Agriculture and Transportation in East Africa.

It is this thought that has been the stimulus and inspiration in developing our present service organization. In accomplishing its aims the very finest service personal has been secured. All work on Buick, Oldsmobile cars and McCormick Deering tractors is carried out by skilled technical men of long and successful experience. Here repairs and adjustments become a science. Here the most rigid standards of inspection are maintained before any work is passed. The service station staff consisting of highly paid, loyal men work under ideal conditions in a building designed with special regard for the climate and the requirements of the business. Special tools, machines and labour saving equipment assist in increasing efficiency and lowering costs. No factor or element has been overlooked which might lead to the improvement in our programme of service.

The company views its situation to-day with pride in the achievement of these men whose high standards of work and craftsmanship are becoming more widely known and appreciated day by day.

With the steady growth of the company's business the organization is looking beyond immediate demands and is anticipating and preparing for the developments of the years to come.

REVENUE DEPARTMENT. The type of resolution that I should like to see passed in regard to the continuance of the colony would be that the Government should be empowered to raise the rate of the land tax to 10% per annum.

REVENUE DEPARTMENT. The present position may be said to be that the Government is not in a position to raise the rate of the land tax to 10% per annum.

## UNCONSCIOUS CRIMINALS.

### Strange Acts Performed as if in a Deep Sleep.

#### TRANCES AND THE LAW

By Neville Devine, M.B. (Ch.D.)  
It was stated when recently a charge of kidnapping was proven that the defendant was unconscious at the time the crime was committed. In the same case, the defendant was unconscious at the time the crime was committed. In the same case, the defendant was unconscious at the time the crime was committed.

has someone and the accused in some way. And for the fact that he was not sane and ignorant that he was doing anything, he is not liable of punishment or regard for moral or social obligations.

#### DANGEROUSLY QUIET AND

The Dangerous and Unconscious Criminals in a state of unconsciousness are not liable for any act they do while in that state. This is a very serious condition and one that is not to be taken lightly. It is a state of unconsciousness that is not to be taken lightly.

Any acts that he had performed in that time, any delinquencies that he had committed, or any crimes that he had committed, were entirely forgotten. It is a state of unconsciousness that is not to be taken lightly.

#### A FIRST EXPERIMENT

It can be proved that the criminal is unconscious at the time of the crime. This is a state of unconsciousness that is not to be taken lightly. It is a state of unconsciousness that is not to be taken lightly.

from the disease, for the symptoms corresponding to the actual fit may be so slight as to be unobserved, or may occur in sleep.

# THE RAINS ARE COMING

But when they do what sort of motoring comfort are you going to enjoy?

Is your car one of the old fashioned type with side curtains which take half an hour to fix and then are not rain or wind proof? Do you have to disturb your passengers and then stand out in the rain while you wrestle with refractory press buttons and fasteners which never fit properly?

**The Studebaker DUPLIX BODY** does away with all this. It is convertible into a closed rain proof car in 30 seconds without getting out or even moving from the driving seat. It takes an even shorter time to convert it into an open car again. This exclusive STUDEBAKER feature combined with sound chassis design and an engine with great power reserve makes the STUDEBAKER for the best value for money on the market.

# 1-2-3

and the Studebaker Duplex becomes a snug, dry enclosed car

WITHOUT sacrificing the unhindered speed and freedom of the open car - without added weight or additional cost - the new Studebaker Duplex combines the advantages of an open car and an enclosed car. Converted from one to the other in 30 seconds the Duplex represents an outstanding development in motor car design. It is an exclusive feature of the New Studebakers. See it before you buy!

**B**ACK of all the activities of Gilfillan & Company, Limited is the sincere and sober realization of the obligation the company feels toward the public who have purchased and who use its products. It is the aim of this organization to render a service so outstanding and efficient so widely useful and practical, that it will represent a significant contribution to the automotive development of Agriculture and Transportation in East Africa.

It is this thought that has been the stimulus and inspiration in developing our present service organization. In accomplishing its aims the very finest service personnel has been secured. All work on Buick, Oldsmobile cars and McCormick Deering tractors is carried out by skilled technical men of long and successful experience. Here repairs and adjustments become a science. Here the most rigid standards of inspection are maintained before any work is passed. The service station staff consisting of highly paid, loyal men work under ideal conditions in a building designed with special regard for the climate and the requirements of the business. Special tools, machines and labour saving equipment assist in increasing efficiency and lowering costs. No factor or element has been overlooked which might lead to the improvement in our programme of service.

The company views its situation to-day with pride in the achievement of these men whose high standards of work and craftsmanship are becoming more widely known and appreciated day by day.

With the steady growth of the company's business the organization is looking beyond immediate demands and is anticipating and preparing for the developments of the years to come.

## Polity Notes.

### THE GENERAL MEETING OF THE KENYA POLICY CLUB.

There has been some delay in moving the particulars of the general meeting of the Kenya Policy Club, which was held on the 2nd inst. The meeting was held in the evening at the Club and was presided over by Mr. A. H. Havel, Secretary.

The minutes of the previous meeting were read and approved. The Secretary reported that the Club had received a number of contributions towards the purchase of a new building for the Club, which was a gratifying feature of the meeting.

The Secretary also reported that the Club had received a number of contributions towards the purchase of a new building for the Club, which was a gratifying feature of the meeting.

The Secretary also reported that the Club had received a number of contributions towards the purchase of a new building for the Club, which was a gratifying feature of the meeting.

# South African Railways & Harbour

When equatorial heat has brought you the lowest ebb of human endurance GO SOUTH and find recuperation in the equable climate of.

The Union of South Africa.

## Ideal Pleasure and Scenic Resorts

For Particulars apply: **TRADE COMMISSIONER FOR THE UNION OF SOUTH AFRICA.**

**MEMORIAL HALL, Box 624, Nairobi.**

The question of attendance at the meeting of the Kenya Policy Club was discussed. It was suggested that the Club should have a more regular meeting, and that the Secretary should prepare a more detailed report on the Club's activities.

The Secretary reported that the Club had received a number of contributions towards the purchase of a new building for the Club, which was a gratifying feature of the meeting.

The Secretary also reported that the Club had received a number of contributions towards the purchase of a new building for the Club, which was a gratifying feature of the meeting.

## DANCING

## CHILDREN'S TRICYCLES, MAY & CO.

with valves! All tricycles only a better for a dose of olive oil three days after they are laid out. Give the child a few drops of olive oil and feed with chopped onion. Olive oil mixed with the food course continues.

# THE RAINS ARE COMING

But when they do what sort of motoring comfort are you going to enjoy?

Is your car one of the old fashioned type with side curtains which take half an hour to fix and then are not rain or wind proof? Do you have to disturb your passengers and then stand out in the rain while you wrestle with refractory press buttons and fasteners which never fit properly?

**The Studebaker DUPLEX BODY** does away with all this. It is convertible into a closed driving seat. It takes an even shorter time to convert it into an open car again. This exclusive **STUDE BAKER** feature combined with sound chassis design and an engine with great power reserve makes the **STUDE BAKER** for the best value for money on the market.

WITHOUT sacrificing the un hindered speed and airiness of the open car - without added weight or additional cost - the new Studebaker Duplex combines the advantages of an open car and an enclosed car.

Converted from now to the order in 30 seconds - the Duplex represents an outstanding development in motor car design. It is an exclusive feature of the New Studebaker cars. See it before you buy!

## Who Buys Goodyear Tyres?

**I**T is difficult, of course, to assign Goodyear sales precisely to any one great class of motor car users.

Yet this impressive fact is true: Goodyear popularity attains its peak intensity in those localities where road conditions are most severe.

The reason would seem to be that under these sterner service conditions the relative weakness or strength of various tyres is quickly and unmistakably revealed.

Goodyear's conspicuous predominance in those sections of Kenya and Uganda where roads impose heaviest tyre hardship, has surely and steadily grown.

Clearly this tighter hold upon the confidence of an informed and critical public proceeds from some pronounced and private merit in to-day's Goodyear Tyres.

That exclusive merit is the now celebrated cord material "SUPERTWIST" developed and perfected by Goodyear to solve the low pressure tyre's special needs.

The basic advantage of "SUPERTWIST" is its greater elasticity; it far outstretches the breaking point of standard cord material.

When the Goodyear Tyre made of it strikes a stone, the springy "SUPERTWIST" cords s-t-r-e-t-c-h under the blow, yielding and recovering, like rubber bands.

It enables the Goodyear Tyre not alone to resist sudden impact, but to absorb it and thus to distribute it over a greater portion of the tyre.

Who buys Goodyear Tyres? is after all no great puzzle—those people buy them who most seriously want durability and comfort in an extreme money's worth.

If you want these things in true "SUPERTWIST" measure, your Garage can promptly supply them in Goodyear Tyres.

All Goodyear Cord Tyres and Goodyear Tyres only, are now made with "SUPERTWIST"—the latest good reason why "more people ride on Goodyear Tyres than on any other kind."

THE RAINS ARE COMING

But when they do what sort of motoring comfort are you going to enjoy?

Is your car one of the old fashioned type with side curtains which take half an hour to fix and then are not rain or wind proof? Do you have to disturb your passengers and then stand out in the rain while you wrestle with refractory press buttons and fasteners which never fit properly?

The Studebaker DUPLEX BODY does away with all this. It is convertible into a closed rain proof car in 30 seconds without getting out or even moving from the driving seat. It takes an even shorter time to convert it into an open car again. This exclusive STUDEBAKER feature combined with sound chassis design and an engine with great power reserve make the STUDEBAKER for the best value for money on the market.

and the Studebaker Duplex becomes a snug, dry enclosed car.

WITHOUT sacrificing the untended speed and delivery of the open car—without added weight or additional cost—the new Studebaker Duplex combines the advantages of an open car and an enclosed car.

Converted from one to the other in 30 seconds—the Duplex represents an outstanding development in motor car design. It is an exclusive feature of the new Studebaker cars. See it before you buy!

## Who Buys Goodyear Tyres?

**I**T is difficult, of course, to assign Goodyear sales precisely to any one great class of motor car users.

Yet this impressive fact is true; Goodyear popularity attains its peak intensity in those localities where road conditions are most severe.

The reason would seem to be that under these sterner service conditions the relative weakness or strength of various tyres is quickly and unmistakably revealed.

Goodyear's conspicuous predominance in those sections of Kenya and Uganda where roads impose heaviest tyre hardship, has surely and steadily grown.

Clearly this tighter hold upon the confidence of an informed and critical public proceeds from some pronounced and private merit in to-day's Goodyear Tyres.

That exclusive merit is the now celebrated cord material "SUPERTWIST" developed and perfected by Goodyear to solve the low pressure tyre's special needs.

The basic advantage of "SUPERTWIST" is its greater elasticity; it far outstretches the breaking point of standard cord material.

When the Goodyear Tyre made of it strikes a stone, the springy "SUPERTWIST" cords s-t-r-e-t-c-h under the blow, yielding and recovering, like rubber bands.

It enables the Goodyear Tyre not alone to resist sudden impact, but to absorb it and thus to distribute it over a greater portion of the tyre.

Who buys Goodyear Tyres? is after all no great puzzle—those people buy them who most seriously want durability and comfort in an extreme money's worth.

If you want these things in true "SUPERTWIST" measure, your Garage can promptly supply them in Goodyear Tyres.

All Goodyear Cord Tyres and Goodyear Tyres only, are now made with "SUPERTWIST"—the latest good reason why "more people ride on Goodyear Tyres than on any other kind."

**Standard Equipment.**  
**Drop Windows in Place of Detachable Screens.**

**A Stand-by Ignition.**  
**FOR USE IN CASES OF EMERGENCY.**

**PERCENTAGE OF ACCIDENTS "EXTREMELY LOW."**

(By "Automotorist.")  
 The rapid rate of motorizing, resulting in thousands of new automobiles taking to British roads this summer, provides many reasons to believe that the motorist is a more careful driver. Despite the statistics given in this column, it is not surprising that the percentage of accidents is so low.

Motorists cannot fail to appreciate the great improvements represented by the all-weather equipment of the 1920. The body is constructed of sheet metal, which has been so constructed that the motorist is protected from the elements. The body is made of such material that it is not damaged by rain or snow. The motorist is protected from the elements by the use of drop windows in place of detachable screens.

An ingenious self-acting ignition system for use in emergency in case of breakdown is the feature of the new ignition system. This is a self-acting system which will start the engine in case of emergency. The system is so constructed that it will start the engine in case of emergency. The system is so constructed that it will start the engine in case of emergency.

There has been ample evidence that the percentage of accidents is so low. The motorist is a more careful driver. Despite the statistics given in this column, it is not surprising that the percentage of accidents is so low.

The standard equipment of the 1920 is a great improvement. The motorist is protected from the elements by the use of drop windows in place of detachable screens. The motorist is protected from the elements by the use of drop windows in place of detachable screens.

**ON COFFEE.**

national considerations and especially by the progress of that trade by high finance, more particularly in the case of the rubber trees on this island, the effect of the various schemes of the present time. It is a matter of course that the East African Standard has taken an interest in the progress of the coffee industry in this colony, and yet the discussion of the subject has not been given the prominence which it merits. It is a matter of course that the East African Standard has taken an interest in the progress of the coffee industry in this colony, and yet the discussion of the subject has not been given the prominence which it merits.

**THE SAN PAOLO LAIN.**

Very little news has been taken of the San Paolo Lain, a small town in the East African Standard has taken an interest in the progress of the coffee industry in this colony, and yet the discussion of the subject has not been given the prominence which it merits.

**THE EAST AFRICAN BOARD.**

It is a peculiarity of the British Board that it is not possible to get the Board to do anything which is not in its own interest. It is a peculiarity of the British Board that it is not possible to get the Board to do anything which is not in its own interest.

**CENTRAL FACTORIES.**

There have been two diametrically opposed views on this subject, one by a body not directly interested in the trade and holding of the matter from a general and thoroughly unbiased standpoint, while the second is from men whose minds of business and sometimes have been built up probably on the present state of affairs. The latter may possibly be more correct, but the former is the one which is more likely to be adopted.

**TRADING INTERESTS.**

The members of the Coffee Trade Association and our local agents have been very busy in the past few days in connection with the East African Standard has taken an interest in the progress of the coffee industry in this colony, and yet the discussion of the subject has not been given the prominence which it merits.

**SMALLER PLANTATIONS.**

One of the great advantages of the coffee industry in this colony is the fact that it is not possible to get the Board to do anything which is not in its own interest. It is a peculiarity of the British Board that it is not possible to get the Board to do anything which is not in its own interest.

**THE EAST AFRICAN BOARD.**

It is a peculiarity of the British Board that it is not possible to get the Board to do anything which is not in its own interest. It is a peculiarity of the British Board that it is not possible to get the Board to do anything which is not in its own interest.

**CENTRAL FACTORIES.**

There have been two diametrically opposed views on this subject, one by a body not directly interested in the trade and holding of the matter from a general and thoroughly unbiased standpoint, while the second is from men whose minds of business and sometimes have been built up probably on the present state of affairs. The latter may possibly be more correct, but the former is the one which is more likely to be adopted.

reference to the plan of the house with a better plan given by way of illustration—there is any very great resistance to the general quality of coffee grown in the colony which will be the result of the type of soil it is all treated by one. But after all, the coffee is not being produced from the time that the plant has been set and provided the land itself has been properly prepared, the coffee will be of a high standard of quality. It is a matter of course that the East African Standard has taken an interest in the progress of the coffee industry in this colony, and yet the discussion of the subject has not been given the prominence which it merits.

advantages to their main crop which have hitherto been almost entirely neglected. There is no doubt that the East African Standard has taken an interest in the progress of the coffee industry in this colony, and yet the discussion of the subject has not been given the prominence which it merits.

**TO LET.**  
 Dwell and Village of Ngora, Rend. Terms moderate.  
 Apply P. O. Box 208.

**THE RAINS ARE GOING**

But when they do what sort of motoring comfort are you going to enjoy?

Is your car one of the old-fashioned type with side curtains which take half an hour to fix and then are not rain or wind proof? Do you have to disturb your passengers and then stand out in the rain while you wrestle with refractory press buttons and fasteners which never fit properly?

**The Studebaker DUPLEX BODY** does away with all this. It is convertible into a closed rain proof car in 30 seconds without getting out or even moving from the driving seat. It takes an even shorter time to convert it into an open car again. This exclusive STUDEBAKER feature combined with sound chassis design and an engine, with great power reserve makes the STUDEBAKER for the best value for money on the market.

INTERNATIONAL RUGBY

How Ireland Defeated England at Dublin.

A VICTORY FOR THE BETTER TEAM.

Stephen Converts to Two from Near the Touchline.

How One Over

London, Feb. 19th. Ireland secured a victory over England at Rugby Dublin on Saturday. They have not won a long time for a victory in England, for they had beaten the English in 1911. This time they had again won the time, the English side was not so good as they were in 1911. The Irish were very good in the first half, but they were not so good in the second half. They were very good in the first half, but they were not so good in the second half.

A CRITICAL PRISON

There were five prisoners in the prison who were very good in the first half, but they were not so good in the second half.
