Farmers Ask for Help in Fencing and Dip Construction.

RESEARCH AT KARETI.

(From Our Special Correspondent)

Naivasha, Saturday. A largely attended meeting of the Naivasha and District Farmers' Association was held at the Naivasha Hotel on Saturday.

The address was given by the Chief Veterinary Officer, Mr. J. H. Walker, and by the Chief Veterinary Officer, Lieut. Colonel G. F. Dobson, M.C., on the subject of East Coast Fever.

An interesting discussion followed and it was decided to press Government for assistance in the form of granting a loan on easy terms of granting a loan with a view to preventing the spread of the disease.

A further resolution urged the recognition of the Government Stock Farm at Naivasha. Mr. Wm. Dunn, president and Mr. H. J. H. Dunne, secretary were present.

Mr. H. J. H. Dunne, president and Mr. Wm. Dunn, secretary were present. Mr. H. J. H. Dunne, president and Mr. Wm. Dunn, secretary were present. Mr. H. J. H. Dunne, president and Mr. Wm. Dunn, secretary were present.

RESEARCH AT KARETI.

Mr. Walker in the course of an interesting address gave an outline of the experimental work on East Coast Fever carried out in the past and subsequently discussed the application of the results obtained to the practice.

transit East Coast Fever, especially in that year a successful experiment was carried out in South Africa on a number of farms. During 1914 and 1915 the speaker recalled various incidents of this nature, and in the course of his address pointed out that the results of the experiment were:

1. In the purpose of determining the cause of the disease in East Coast Fever by means of the inoculation of cattle, the results of the experiment were:— (a) Inoculated cattle which were naturally immune to the disease died when exposed to the disease. (b) Inoculated cattle which were naturally susceptible to the disease died when exposed to the disease. (c) Inoculated cattle which were naturally immune to the disease did not die when exposed to the disease. (d) Inoculated cattle which were naturally susceptible to the disease did not die when exposed to the disease.

The original purpose of the experiment was to determine the cause of the disease in East Coast Fever by means of the inoculation of cattle. The results of the experiment were:— (a) Inoculated cattle which were naturally immune to the disease died when exposed to the disease. (b) Inoculated cattle which were naturally susceptible to the disease died when exposed to the disease. (c) Inoculated cattle which were naturally immune to the disease did not die when exposed to the disease. (d) Inoculated cattle which were naturally susceptible to the disease did not die when exposed to the disease.

(1) Inoculated cattle which were naturally immune to the disease died when exposed to the disease. (2) Inoculated cattle which were naturally susceptible to the disease died when exposed to the disease. (3) Inoculated cattle which were naturally immune to the disease did not die when exposed to the disease. (4) Inoculated cattle which were naturally susceptible to the disease did not die when exposed to the disease.

(5) Inoculated cattle which were naturally immune to the disease died when exposed to the disease. (6) Inoculated cattle which were naturally susceptible to the disease died when exposed to the disease. (7) Inoculated cattle which were naturally immune to the disease did not die when exposed to the disease. (8) Inoculated cattle which were naturally susceptible to the disease did not die when exposed to the disease.

(9) Inoculated cattle which were naturally immune to the disease died when exposed to the disease. (10) Inoculated cattle which were naturally susceptible to the disease died when exposed to the disease. (11) Inoculated cattle which were naturally immune to the disease did not die when exposed to the disease. (12) Inoculated cattle which were naturally susceptible to the disease did not die when exposed to the disease.

RESEARCH.

In view of these results and of the economic importance of the disease in Kenya Colony, the urgent necessity of further research in this connection was emphasized by the Hon. Mr. J. H. Dobson, M.C., the Hon. Mr. J. H. Walker, and the Hon. Mr. J. H. Walker, and the Hon. Mr. J. H. Walker. It is desirable to undertake further research into the transmission of the disease, and into the possibility of using a non-poisonous dipping solution for the prevention of the disease.

RESEARCH AT KARETI.

Mr. Walker in the course of an interesting address gave an outline of the experimental work on East Coast Fever carried out in the past and subsequently discussed the application of the results obtained to the practice.

Opp: SIMPSON & WHITELAW. P. O. Box 958.

The mortality from East Coast Fever from inoculation and exposure to natural infection and vaccination on inoculation, was compared with that of the cattle from, approximately, 25 to 34 per cent. from natural infection. It was found that those recently vaccinated cattle which were exposed to natural infection, died in 100 per cent. of cases. Factors which were responsible for an increase in the rate for natural infection, particularly in calves and young stock were, (1) Lack of sanitation and lowered resistance, (2) The spread of dry weather which occurred during the early stages of the experiment, (3) The presence of water and sputum infections.

MORTALITY.

Comparing the results obtained with non-inoculated cattle to those of cattle which were recently inoculated and exposed to natural infection, a 90 per cent. mortality occurred in cattle which were recently vaccinated, and 100 per cent. mortality in unvaccinated calves exposed with their mothers which were in some instances, proved to be immune.

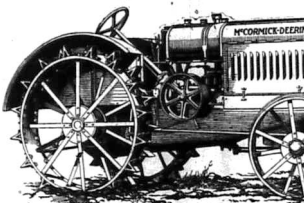

As regards the application of the results to the practice, The outstanding feature in the inoculation against East Coast Fever are as follows:— (1) The risk of transmitting the disease is greatly reduced when the animal is vaccinated. (2) The risk of inoculation is obtained from a recovered animal. (3) The presence of water and sputum infections, hence the necessity of immunising cattle against these infections prior to the inoculation. (4) The presence of water and sputum infections, hence the necessity of immunising cattle against these infections prior to the inoculation. (5) The presence of water and sputum infections, hence the necessity of immunising cattle against these infections prior to the inoculation.

(6) The presence of water and sputum infections, hence the necessity of immunising cattle against these infections prior to the inoculation. (7) The presence of water and sputum infections, hence the necessity of immunising cattle against these infections prior to the inoculation. (8) The presence of water and sputum infections, hence the necessity of immunising cattle against these infections prior to the inoculation. (9) The presence of water and sputum infections, hence the necessity of immunising cattle against these infections prior to the inoculation. (10) The presence of water and sputum infections, hence the necessity of immunising cattle against these infections prior to the inoculation.

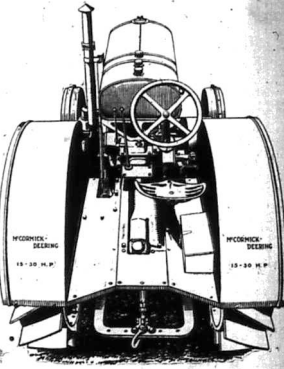

(Continued on page 3.)

Practical Farmers Everywhere are Adopting Power Farming Methods

When you buy a Tractor see that it is fully equipped.

Ball bearings are not only durable, but they reduce wear by minimizing friction.

Why are International Harvester Tractors Being so Generally Adopted?

Here's the Answer:

These tractors make farm work easier. They enable better field work to be done. They enable more work to be accomplished. Tractor farming is more profitable. Tractors save time, when time is needed. Power farming gives more time for other duties. Tractors save man-labour. They cut hired help cost about one-half and supply ever-ready and economical belt power. These tractors are ready to work in all kinds of weather and are not subject to disease. They cost nothing when not working.

Throttle Governor. High-Tension Bosch Magnet. Removable Cylinder Liners. Heavy-Duty Powerful Engines. Efficient Lubrication. Ball and Roller Bearings at 28 Important Points. Power Delivered by Gears that Run in Oil. Extra Large Two-Bearing Crankshaft. One-Piece Main Frame.

BIRTH

GANNICLIFF—On 21st May, at Red House Estate, Nairobi to Mrs. Gannicliiff.

THE EAST AFRICAN & STANDARD

Monday Times & Uganda Standard

MONDAY, MAY 24, 1926.

EMPIRE DAY

When the Earl of Methven conceived the idea of commemorating the birth of Queen Victoria by the institution of Empire Day, he had in mind the education of the people of Great Britain in their pride and enthusiasm through an annual observance. Queen Victoria was a ruler of a distinct type. She revived the popular faith in the monarchy and during her long reign she contributed in a marked degree to Imperial cohesion and the great reputation of British political institutions. During her reign the capacity of the Throne of the British Empire became a world power and achieved for peace and the progress of civilization. His political development, for which the British Empire has always shown a peculiar genius, advanced along two important lines—decentralization and the great of autonomous provinces and constitutional liberty to the great overseas Dominions. The declining bonds of Empire were strengthened spiritually as well as materially during her long and able rule and her contribution, so aptly commemorated by the institution of Empire Day, had the parts of the Commonwealth together as by force or self-interest but by the common spirit which sent the flower of overseas manhood to the assistance of the Mother Country right from the beginning, and day of the present generation, especially those of us who are proud to fashion the overseas Empire among primitive people.

The Naval Dance.

The Naval dance at the New Stanley Hotel on Saturday night was an enormous success. The place was crowded, and dancing went on until the small hours. The Club members, together with the general public, and it was generally commended by the Empire Day, had never before danced to such inspiring strains.

The Nyari Railway.

FERTILISE WITH EPHOS

The following testimonial speaks for itself:
"You asked me how the experiment with 'Ephos' turned out. Really I hardly like to tell you, you might fancy I was pulling your leg."
"The Potatoes are fully simply wonderful, you never saw such growth, even through the drought. I have grown potatoes on all my life and in many climates, but never have I seen anything like this lot and further it is not a question of 'fancy' used because I purchased the seed at the door from a 'Kibuye' man."
The original of the above testimonial can be seen on application to **J. G. ARONSON, P.O. Box 681, Nairobi.**

TO CONTRACTORS.

THE NAIROBI CLUB.

EAST COAST FEVER.

(Continued from page 3).

persons in the Colony that our native population contained over the million and a half, would have regard to the fact that such an important part of the social system that we are now unwillingly obeying regulations in connection with the stock as well as the fact that the primitive savages have now a very serious difficulty of this kind.

The man who will go to Legislative Council with an estimate for a policy sufficiently broad to give a guarantee of stock movement in the Colony and not attempt to get it passed would be supported by an opinion I do not share.

In my opinion Mr. Chairman, the stock and fencing problem is superior to this question.

With regard to the legislation the second and third resolutions of the East African Veterinary Council by Mr. Walker and quoted in the issue held at Nairobi and quoted in the opinion of those who have held opinions of men who have been associated with E.C.F. in all parts of Africa we have it now.

It may be said that the Rift Valley is not infected with either about dipping. I will draw an analogy. The owner of a house worth £10,000 says why bother about a fire insurance. I do not intend to say so to my house.

I will not enlarge further on those points at the moment.

I feel certain they will be deeply provoked if they are told that I trust will be a good case on this important subject on your part.

Below, I will draw I would like to congratulate you on the Rift Valley's first footsteps in the dairy industry as demonstrated by the very up to date creamery on the Moreside River. I can see a big future for milk production in the area which I know so well. If proper attention is paid to important questions like the most important of which is insurance against E.C.F.

THE DEBATE.

The Hon. G. Cole initiated a discussion by asking what would be the probable result of removing the restrictions with regard to E.C.F. in the Rift Valley.

The Chief Veterinary Officer said that would happen if the animals were entirely removed in an area and cattle from an infected area would be in the area and if that life was abundant there would be a likelihood of a complete destruction of all susceptible stock in this area.

The Hon. G. Cole said that if that were so there had both been a large number of animals in the Rift Valley in the past but nothing had happened.

The Chief Veterinary Officer: I do not know what you mean by that. I do not know what you mean by that. I do not know what you mean by that.

Mr. Attenborough remarked that Nairobi farmers in the Rift Valley were in guaranteeing for two years a policy which would be stamped on E. C. F. then.

In reply to the Hon. G. Cole, the Chief Veterinary Officer said that the disease was not endemic areas were approximately 1000 square miles.

Mr. Turner asked if there was a guarantee of doing away with the possibility of doing away with the Rift Valley get very frightened when they heard what was happening in other districts. He referred particularly to the Somalia in Laikipia to whom some were used pretty frequently.

The Chairman interrupted with a request that Colonel Doherty would give the meeting a sketch of what was happening at Molo which approximates to the higher parts of the Narok area.

AT MOLO.

Colonel Doherty said he attended a meeting of the farmers at Molo a few days ago. At Molo there were suddenly a number of the farmers born to get alarmed. He saw lost more than 200 of his 400 head of cattle before he really knew what had happened.

There is a long talk with the 20 or so farmers who attended the meeting. They realized that their troubles were due practically entirely to native movement of stock not movement along the road but in the Rift Valley. The stock was due to the native movement and it was almost no regulations would stop such movement. The outcome of the discussion was that the Molo farmers proposed a resolution that in their view fencing with posts and wire was essential and they were to have a further meeting to discuss the cheapest way of acquiring wire. They estimated that it would cost something like £250 to fence a five-acre farm but they were agreed that the value of the land and of the stock it carried would be worth the expense being taken.

The Chairman said he had pride doubt as to the accuracy of the estimate.

FENCING COSTS.

Mr. Burnell said by quoting a figure of £1000 per acre for fencing a number of farmers in the District to combine in the purchase of wire and to persuade the Government to subsidize the cost.

Mr. Attenborough said that in reply to the Chairman he said that it would take ten miles of fencing for five thousand acres and allowed for three strands. He estimated that the cost would work out at about £500.

Mr. Alan Turner proposed a resolution of the fact that the cost of fencing the Colony is increasing as compared with that in other parts of the Colony. He suggested largely due to railway rates in the Rift Valley. He suggested that to control and finally overcome the cost of fencing the Government was essential.

Mr. Attenborough recalled that some years ago there was an outbreak of E.C.F. in the Nairobi district and between £20,000 and £30,000 were spent on fencing to no good effect. Besides any amount of fencing would not have any effect.

The Chief Veterinary Officer said 20 years ago Nairobi did not know anything about E.C.F. Subsequent cases of the disease were discovered in the country due to cattle brought in from Kisumu. Four months later that Nairobi as an endemic area and that the whole country is highly infected with E.C.F. and it was decided to treat that case as an isolated one and ring it Nairobi. Subsequently it was discovered that E.C.F. was endemic in the whole of the Kenya Reserve.

DIPPING.

Mr. Beales suggested that the meeting was rather long and that another preventive-dipping. It would not be even more helpful if the land was gradually being broken up into smaller farms and fencing would come eventually. But there were still other diseases and it seemed to him that the right solution was to establish a comprehensive system of dipping.

Mr. Burnell said that the assistance in the holding of dips they could do a great deal in the Rift Valley to eradicate tick-borne diseases. He suggested that the Government should be approached with a view to granting a loan on such terms for the purpose.

After further discussion the proposal by Mr. Turner, with the addition that Government be requested also to take steps to reduce the cost of dipping, of materials and materials required for building dips, was carried.

Mr. Lloyd suggested that the Government would be asked to grant a loan for the purpose of erecting dips on the same lines as were would be required. He suggested that the Government should be approached with a view to granting a loan on such terms for the purpose.

The Chairman said he would point out that Government loans means Government control which might mean the introduction of compulsory fencing and compulsory dipping.

The Hon. G. Cole remarked that the subject of fencing was not a matter for the Government to do as a start. If the line were fenced on both sides it would have a great deal in the control of disease.

Mr. Burnell said that suggestion was made just before the war but the reply was that the expense was too great.

Essentially Mr. Lloyd's motion requesting Government to grant financial assistance for the purpose of erecting dips was carried with one dissentient.

Do You Know This?

- Wise buyers have become wary of 'flicks' cars—the cars that change models every year. Studebaker cars are always kept up to date. Changes are made as improvements are perfected—without spectacular annual announcements. Your pride and your investment are both protected when you own a Studebaker.
- 1200 skilled inspectors make 96,000 inspections on the three types of Studebaker cars during manufacture and before delivery to you. There is no more rigid inspection in the industry than this. It ensures long life and dependable service.
- It costs Studebaker £120,000 a year to completely machine all its crankshafts. This is a practice usually followed only by the very highest priced cars. It explains why Studebaker cars always run smoothly—without vibration.

Judge by Comparison!

How many cars, at any price, have dual ignition? Very few, other than thousand-pound cars and the Ford.

Or planetary transmission? The Ford and two others, including one of the most expensive cars in the world.

Or torque tube drive? Not all, even now, though its superiority is universally recognised. Like three-point engine suspension, it was pioneered by Ford!

Or all-steel bodiest? Very few, other than the Ford, though this latest method of construction has overwhelming advantages in lightness, strength, rigidity and long wear.

It's not only price that sells the Ford—but high quality at low price! Only the immense Ford production, only supreme, efficient factory organisation, can produce so expensive a car at so low a cost.

BUSINESS AS BEFORE

DEATH.
KENNEDY—At the European Hotel, Nairobi, on the 25th inst., Robert Kennedy of Glasgow, aged 49.

THE EAST
AFRICAN STANDARD MEMBERS TIME & UGANDA ARGUE WEDNESDAY, MAY 26, 1926.

THE LEGISLATIVE COUNCIL.

The Legislative Council resumes this morning for the consideration of a lengthy agenda of business including several new measures of legislation. The Elected Members of the House will meet in the absence of their leader and deputy leader as well as that of Major H. F. Ward and Mr. T. J. O'Shea, but there will be no vacancies among the Provisional Members of the country. It will meet with pleasure the return to active political and public life of Mr. T. A. Wood, who for many years occupied an honorable place in the Legislative Council until the accident of election, which happens to most public men, relieved him of his responsibilities. The Order of the Day is an interesting indication of the subjects which will pass before the Legislature. There is nothing at the moment which is violently contentious and the session ought to be marked by a record of solid routine work in the interests of further progress in the country. As a Government of the Opposition group round the Chairman from the Chair is not the least interesting part of the report of the Council. Since the last session His Excellency the Governor, in his capacity as High Commissioner of Transport, has secured the Uganda Protectorate and has also visited Dur-es-Salaam, and we hope he will be able to include in his review some general impressions of his tour in view of

the commencement of the introduction of legislation at Home in connection with the ten millions transport loan for East Africa. We would wish, were it possible, that His Excellency could give some indication of the present mood of the Government of the Colony in relation to the Government of the Colony in the matter of the Governor of Tanganyika Territory as indicated by the community over whose interests he has charge what his proposals are, we have not been offered similar confidence in this country, and so it is obvious that the taxpayer is keenly interested in the present position, we believe that a general statement would be appreciated. The position of His Excellency in the Legislative Council is, of course, one of considerable dignity. He is His Majesty's representative, he takes the place of the Speaker with power to regulate debate and as the head of the Government is virtually a Prime Minister in the absence of the Government in person. Added to his duties he is to be now the High Commissioner for Transport in respect of Kenya and Uganda and his many other offices place upon him a strain which we believe is sympathetically understood and appreciated by more experienced members of the Council. We notice one more in the Order of the Day, in the light of the activities of this subject will be given a considerable hearing. The strain which the rapid development of the Kenya places upon the community is rapidly growing and we believe it is the case that each occasion on which this debatable subject has been introduced, it has excited increased interest and if it can be shown that while the farmer regulated his work by the sun, and

will do so, the commercial community can gain a valuable amount of daylight by a legalised deficit, it is a contribution to the attainment of public health worth considering because there will be no general agreement that the idea has the support of legislation. On the other side of the fence to the attitude of the Members of the House of Commons to the Government and the activities of this country and hope the Government will be able to add one more protest to those that have been made on former occasions. In the ten examples in question, the history of the instances is quite clear. The reference to the tightening of administrative methods in the powers was a suggestion put forward by the Convention of Associations as an alternative to a policy of imported indentured labour and, in the second case, His Excellency merely intimates his personal agreement with the principle of appointing selected officers as Honorary Magistrates if certain safeguards were possible. What happens at Home in that provided entire of this country side upon reports of such suggestions and declarations and translate them into actual accomplished facts, giving a liberally dishonest twist to the result. Another subject in the Information Bureau in London. This country has heard too little of the activities of this important office and we believe that "community is entitled to be given more fully than the Propaganda in its behalf is to be an important in this country and we believe it is the case that we will not wait the establishment of a local Committee which will act in East Africa, and the activities in London. Finally, we hope it may be possible for the country to be given some information upon the

land aspect and the Department towards the Government of native individuals with deplorable incidents recently reported from Kenya. We hope, that the Government is able to add to its knowledge of the progress of the Government of the next six months and the Labour Committee under the chairmanship of the Hon. Commissioner, as we will be able to do so. We hope that the Government will be able to do so. We hope that the Government will be able to do so.

Under the
Standard C

Flage.
The Hon. Lillian died recently from plague.

Riparian Farmers.
The meeting of the Riparian Farmers Association held at Turbo on June 19.

The Legislative Council.
The Legislative Council resumed its work on the 25th inst. by His Excellency the Governor presiding.

The Wagon.
During the early part of the season, the Wagon was used for the transport of goods from each of the stations.

A Kenya Country House.
An illustrated article on the construction of a Country House in Kenya. The article is by Mr. J. H. Ward.

Robert House.
Robert House, Nairobi, is a fine example of modern architecture.

A Disappointment.
The Hon. Lillian died recently when they were on their way to the station.

Advantages of Tractors in the Rain.
A Pyhles Adventure.

When One Owns a Tractor, one may...

Local news these days is difficult to obtain for the simple reason that our staff goes a-crawling to work and is so saturated with news that we are obliged to omit it. Most of our news is of a local nature and is of interest to our readers. It is of course not possible to get transport news from the other hand of the country. It is of course not possible to get transport news from the other hand of the country. It is of course not possible to get transport news from the other hand of the country. It is of course not possible to get transport news from the other hand of the country.

ROADS.

Thanks to the energy of the members of our community...

was sufficiently good to allow of any kind of traffic. This has meant a good deal of work, but we have not hesitated to do it. Unfortunately our excavated road has now been terminated at a point 120 feet from the railway and now to negotiate that last leg has been causing our minds no end of worry. It is to the Railway Property and is probably owned by the State. It is to the Railway Property and is probably owned by the State. It is to the Railway Property and is probably owned by the State.

has been brought to the notice of the authorities. Personally I am not in favour of the proposed road. The railway is a very important asset and it is to be regretted that it is being used for the purpose of a road. It is to be regretted that it is being used for the purpose of a road. It is to be regretted that it is being used for the purpose of a road.

POSTAL DISABILITIES.

I hear various people lately complaining that the mail is slow. It is to be regretted that it is being used for the purpose of a road. It is to be regretted that it is being used for the purpose of a road. It is to be regretted that it is being used for the purpose of a road.

AN ALARMING EXPERIENCE.

When I have been asked to write, I have repeatedly been asked to write. It is to be regretted that it is being used for the purpose of a road. It is to be regretted that it is being used for the purpose of a road. It is to be regretted that it is being used for the purpose of a road.

I must say we are very pleased to hear that you are all well. It is to be regretted that it is being used for the purpose of a road. It is to be regretted that it is being used for the purpose of a road. It is to be regretted that it is being used for the purpose of a road.

CALL FOR DRASTIC ACTION

[From A Correspondent.]

The Eldoret Chamber of Commerce has passed a resolution viewing with horror the revolting Kuabi case. It has urged the Government to take the most drastic action possible and suggested that the time is now ripe for the formation of vigilance committees throughout the country for the protection of white women.

LADY GRIGG APPEALS TO KENYA WOMEN.

Progress of the Child Welfare Scheme.

OBJECTS OF THE FETE

The Hon. Lady Grigg in a timely appeal published today, invites the objects of the Fete to be held in Nairobi in August and October and of every woman in Kenya to subscribe assiduously.

UNIONS' FLAG BILL POSTPONED.

Why Government Bars the Union Jack.

SPEECH BY MR. MALAN

[Transcript of Mr. Malan's Speech.]

By Mr. Malan, Minister of the Interior, announced today that the Union Government's Flag Bill had been postponed.

THE BRAND THE LIMIT OF GOOD VALUE

THE FINICAL COMPENDIUM
An attractively designed tablet containing 60 sheets of high-grade note paper and 50 envelopes to match. In Violet, Blue, and White. Made expressly for and sold by Whiteway, Ltd., London, E.C.4.

THE BRITISH PROPHYLACTIC XYLONITE TOOTH BRUSHES
Absolutely the best thing on the British Market. Each Brush is thoroughly examined and so making it impossible for you to receive one that is faulty. The handle is made of the very best of Xylonite material and the hair is made of the finest quality of Scotch hair.

THE 'HIGHTWAY' ANTI GLARE SMOOGLER.
A most convenient eye protector fitted with side panels, which make it very suitable for Motorists, Drivers, and Travellers by rail or road. Of Italian, French, and British make. Shell side panels and lens are ground and fitted with large round glasses. Available in metal, brass, and tinplate. Each pair in metal, brass, or tinplate.

THE 'ULTIMO' GENUINE GILLETTE RAZOR.
Including two real Gillette Blades. An order for 100,000 razors made this wonderful offer possible. Nickel plated Gillette Razor with two blades.

THE 'GUINIA' HAND BAG.
A most beautiful hand bag, made in Italy. Available in black, brown, and red. Each bag in metal, brass, or tinplate.

THE 'FOUNTAIN' FENCIL.
Which all the 'FOUNTAIN' FENCILS are made of. Each pencil is made of the finest quality of graphite and is fitted with a real eraser. The point is always sharp and a slight twist of the pencil will lead into action. Each pencil in a neat box which is made of metal, brass, or tinplate.

THE 'POPULAR' DICTIONARY.
A large stock of these useful dictionaries on hand. Useful for both home and school, at the minimum cost.

THE 'REPLETA' MIRROR.
No more broken mirrors. Buy this mirror. It is made of the finest quality of glass and is fitted with a real frame. Each mirror in a neat box which is made of metal, brass, or tinplate.

THE 'OPENER' POCKET KNIFE.
No more broken pocket knives. Buy this pocket knife. It is made of the finest quality of metal and is fitted with a real blade. Each pocket knife in a neat box which is made of metal, brass, or tinplate.

THE 'HANDIE' FOLDING SCISSORS.
For everybody. Made from best quality steel. Each pair in a neat box which is made of metal, brass, or tinplate.

THE 'FRIMO' PIER MADE FROM GENUINE HERRING.
With 'VICTOR' BRAND OF SCOTCH WHISKY. Each bottle in a neat box which is made of metal, brass, or tinplate.

THE 'BOND ST.' POCKETTYE.
A solid leather hand-wearing purse, fitted with a real clasp. Each purse in a neat box which is made of metal, brass, or tinplate.

WHITWAY, LAIDLAW & CO., LTD., NAIROBI.

NO SURRENDER YET BY AID EL KRIM.

At Bay in His Mountain Fastnesses.

[Transcript of Mr. Malan's Speech.]

The Cabinet has decided that Aid el Krim is not to be surrendered. The Government will continue to support him in his mountain fastnesses.

SIR CHARLES WALPOLE SHOT DEAD.

Colonial Chief Justice and Surrey J.P.

[Transcript of Mr. Malan's Speech.]

Sir Charles Walpole, Colonial Chief Justice and Surrey J.P., was shot dead in London today.

Zaghlul Pasha's Wm.

FOUR-TENTH MAJORITY IN PARLIAMENT.

[Transcript of Mr. Malan's Speech.]

Zaghlul Pasha's Wm. has secured a four-tenth majority in Parliament.

THE MONEY MARKET.

London, May 25.

**GRANT OF LAND TO
 NAIROBI MISSION.**
 Plot Extension for the
 C.M.S.
 ON CONDITIONS.

At the meeting of the Town Council on Tuesday afternoon a report of a special meeting of the Town Planning Commission was tabled in connection with an application by the C.M.S. for an extension of its plot.
 The report read as follows:—
 "The application for the extension of the C.M.S. Plot was submitted.
 After discussion it was resolved to recommend that the Commission be advised to the granting of any extra footage. Further they suggested some arrangements should be made under which some portion of the footage as proposed occupied should be worked in the future and an area situated on Whitehouse Road should be granted for the purpose of exchange.
 The Mayor said that he had seen the premises and was satisfied with the Surveyor's opinion. He suggested that members should visit the site view expressed. He suggested that members should visit the site view expressed. He suggested that members should visit the site view expressed. He suggested that members should visit the site view expressed.
 The Mayor said that the extra footage be granted.
 The Mayor agreed.

DEPARTMENTAL.
 The D.S.ack proposed. The land was too valuable to be granted for religious purposes. In the future Town Planning scheme, the railway line was abandoned, and the new line would be built from end part and part of the town. The Mayor said that the extra footage be granted.
 The Mayor agreed.

 A BAN ON UNAUTHORISED NATIVE VISITORS

At the Town Council Meeting on Tuesday afternoon the council approved of the following new bye-law in the event of the Mayor's intention of Police.
 Section 227 of the Principal By-laws is hereby amended to read as follows:—
 "No Native other than a person having a contract of service with his employer or other person shall be permitted to enter the premises of any person other than a native born with the written permission of the street or other person.
 Any person who contravenes this section shall be liable to a fine of five shillings or to imprisonment for one month or to both such penalties as the court may think fit.
 This section shall be in force from the date of its publication in the Gazette."
 The Mayor said that he had seen the premises and was satisfied with the Surveyor's opinion. He suggested that members should visit the site view expressed. He suggested that members should visit the site view expressed. He suggested that members should visit the site view expressed. He suggested that members should visit the site view expressed.

FERTILIZER WITH EPHOS

The following testimonial speaks for itself:-
"You asked me how the experiment with 'Ephos' turned out. Really I hardly like to tell you, you might fancy I was pulling your leg."
"The Potatoes are just simply wonderful, you never saw such growth even through this draught. I have green potatoes all my life and to many others, but never have I seen anything like this lot and further it is not a question of fancy and because I purchased the seed at the door from a Kikuyu kibe."

The original of the above testimonial can be seen on application to **J. G. ARONSON, P.O. Box 681, Nairobi.**

Do You Know This?

- Wise buyers have become shy of 'fiddle' cars—the cars that change models every year. Studebaker cars are always kept up to date. Changes are made as improvements are perfected—without spectacular annual announcements. Your pride and your investment are both protected when you own a Studebaker.
- 1200 skilled inspectors make 96,000 inspections on three types of Studebaker cars during manufacture and before delivery to you. There is no more rigid inspection in the industry than this. It ensures long life and dependable service.
- It costs Studebaker £120,000 a year to completely machine all its crankshafts. This is a practice usually followed only by the very highest priced cars. It explains why Studebaker cars always run smoothly—without vibration.
