delivered and its opinon, expressed
in resolutions published this mornme, can be accepted as an accurate in resolutions published this morn-ing, can be secepted as an accurate reflection of the impression those speeches made upon a gathering or business men who have had suffi-cent time to study them. The views of the commercial community reduction of the impression these speciedes made upon a galaxing of bulbourses must be have had out the control of the control Arroan Board and while it main-ten that position of indistan-whether it is a corresp policy or not does not matter—in views must gain in strength from its complete dissociation from influences like-frances and includes the indisponent. During the assistent influences into puring the assistences measured impor-nant arisements have been made which, taken tengther, distates the error assess preventing the companies at a second of the contraction of the con-traction of the financial situation. It has been efacted that aspital to

white withheld this the ext of body is determine those who are interested in the Colony turn throwing in their let with the corremanty and that the colone many and that the position significant through the control of the colony turn throwing in their let with the corremanty and the position of the control of the colony of the colon of the colony of t Increase and production 2n very successive to the proper solution of the problem. Unfortunately the delayed appearance of the Ungelow and the problem. Unfortunately the delayed appearance of the Underland will not affect the country of the tendency of the hands of the Colonial Office official in the trapector entitles of the tendency of the tendenc

cannot fail to reap an advantage from the earts time provided in which to relate its ideals and aspirations to financial facts but the appropriate of the Budget at the state of the state of the whole respeciability of adjustments whole respeciability of adjustments to position whereas at this par-ticular measure the whole of the window and ex-operation of comcannot fail to reap an adv

tion The subject with which we dealt yesterday—the allenation of further land for settlement—has a direct bearing upon the basis of prosperity which the Amociated Chambers believe to require adjustment—the labour supply and if the commercial or and if the commercial community have any views to express, an early opportunity ought to be taken by the constituent Cham-den before the question takes a definite form as a further means of raising revenue. It is impo-sible unless Government makes v sible unless Government makes very price statescent for criticism, to deal adequately with the new si-tuation to be created in October until the Budget has like in Intro-duced but the country can con-centrate on certain main princi-ples in regard to taxation and loan expenditure which will act as a guide to Elected Members.

Explorers Use This Car Because It Is Dependable

Pioneers and explorers, whose lives depend upon the reliability of the transportation they use, em-ploy Dodge Brothers Motor Cars almost exclusively. Stefanson used Dodge Brothers Cars through the uncharted deserts of Central Australia. Dr. Roy Chapman Andrews, on three different occasions, penetrated the innermost wastes of Mongolia this Dodge Brothers Car.

The car's dependability is proverbial; and its ex-ceptional riding comfort permits long travel over-bed roads without fatigue.

Studebaker. Brockway. Case,

CASE TRACTOR

Has These Advantages :

Moderate Ocst. Nothing to be added. All models are equipped as standard with belt pulley, fenders, governor, magneto ignition, air-cleaner, and radiator temperature confrol.

Advanced Design. Apart from completeness of equip-ment Case Tractors are economical by reason of the valve in head motor from which the power is transmitted with a minimum of frictional loss through spur gears running in oil.

12 20 £290

Reserve Power over its rating prevents overtaxing the the engine on recommended loads, and assures steadiness of operation at drawbar and belt.

Usefulness. Proper weight distribution, wide tyres. effective spade lugs, proper location of belt pulley, width of tractor, unusual flexibility, and ample reserve power are big factors in its all round use-
