MAKING AN IMPRESSION

Frank Can Win the Grand Prix.

EMILYAN INVITED.

[From Our Own Correspondent]
London, March 15.—Last Monday was the Golden Jubilee Day of King George V. The day was marked by a grand procession in London, the largest ever seen in the city. The procession was headed by the King and Queen, and followed by the royal household and the various departments of the State. The day was also marked by a grand service in St. Paul's Cathedral, where the King and Queen were crowned. The day was a day of national rejoicing and a day of national unity.

FUEL BOVES.

America Now in the Market.

STATED TO BE WORTHLESS.

When the American fleet "had" been on the Pacific coast, it was said by certain naval authorities to be a waste of money. The fleet was said to be "worthless" because it was not used. The fleet was said to be "worthless" because it was not used. The fleet was said to be "worthless" because it was not used.

THE SILENT

After all, the modern motor engine, by the time sufficient power has been obtained to operate the engine, the valves will be open and the engine will be running.

TO-DAY is one of motorized living movement-of-awful development. The problem, squarely up to motorcar designers, engineers and manufacturers, has been the construction of a type of engine and motorcar to meet the vital and urgent needs of this new day.
Such a motorcar is now here. Certainly no modern development in motor car design no completely answers the needs and requirements of the new-day driving as the new Buick.
Decide now to see and drive this epochal motorcar at the very earliest opportunity.
Nothing will so surely emphasize the vast difference between ordinary motorcars and the new Buick Six, as the new delight you, yourself, feel the first time you drive a Buick!

The new Buick has a flashing pickup, which no other car can equal. Its driver will enjoy a new mastery of the road. Its responsiveness to the lightest touch is amazing. The magical ease with which the new Buick is handled will give you the same thrill.

You may expect much from the new Buick, you will not be disappointed. The new Buick is the result of 23 years careful and painstaking development. The new model Buick has every part all the mechanisms and institutions of the motorcar as we have known it before. For economy, speed, power on hills, rough roads, capacity for heavy loads, ease of control, the new Buick is a revelation and stands as the recognized leader in new-day design.

Be observant in the world over all these important advantages.

- Four wheel Brakes,
- Oil Filter,
- Air Filter,
- Petrol Filter,
- Completely Sealed Chassis,
- Continuously Springing,
- Dipping Head Lights,
- 77 Horse Power,
- Finger-light Steering,
- Light Pressure Clutch,
- Valve-in-Head Engine,
- Remarkable Fuel Economy

There are more Buicks registered throughout the world than any other cars except Chevrolet and Ford.

Buick pre-eminence in registrations means extra miles turned in by old cars that would not be running at all if they were not Buicks—built as only Buick builds. The oldest cars in regular operation in East Africa are Buicks. Buick engineering has accomplished this by thinking always of superior stamina and placing it in every Buick part, and then, by placing around that stamina such protection as the famous "Sealed Chassis" and the "Triple Sealed Engine." All Buick operating parts are barricaded from dirt and wear to insure longer life with less upkeep.

ANNUAL MEETING OF LUMBWA CREAMERY.

Most Prosperous Year in History.

AMALGAMATION SCHEME

Registration with the Trustees Company.

The sixteenth ordinary general meeting of the Lumbwa Co-operative Society of K. S. A., Limited was held at Lumbwa on September 8 when Mr. J. Wagnier, Chairman of the Board of Directors, presided over a large and representative body of members.

The balance sheet and accounts for the year ending May 31, 1929, were presented and passed.

The balance sheet revealed a remarkably strong financial position. The reserve amount stands at KSh. 92,940, a sum equal to the total capital of the Society.

During the financial year, the Directors had to have agreed to the redemption in November next, of the KSh. 50,000 debentures, and a loan of KSh. 25,000, has been secured on that date at the bank.

After the meeting had read the minutes of the previous year, the Chairman, Mr. J. Wagnier, reported that the balance sheet was a credit one, and that the Society had a considerable sum in reserve.

CHAIRMAN'S ADDRESS.

After the Secretary had read the minutes regarding the meeting and the report of the auditors, the Chairman, Mr. J. Wagnier, reported that the balance sheet was a credit one, and that the Society had a considerable sum in reserve.

NEW ASSETS

Your assets have been increased by the addition of an additional asset of KSh. 17,721.

The directors are strongly of opinion that the present position of the Society is a credit one, and that the assets are a credit one.

The directors are strongly of opinion that the present position of the Society is a credit one, and that the assets are a credit one.

The directors are strongly of opinion that the present position of the Society is a credit one, and that the assets are a credit one.

What Has Transpired Since Today.

REAPPOINTMENT TO PRINCE

The Government has announced the reappointment of Prince Albert to the post of Governor of the Territory of Northern Rhodesia. The appointment is for a period of five years, and the Prince will be accompanied by his wife and children. The Government also announced that it had received the resignation of the Governor of Southern Rhodesia, and that it had appointed a new Governor for that Territory.

THE EAST AFRICAN STANDARD

The East African Standard is a weekly newspaper published in Nairobi, Kenya. It is the largest and most influential newspaper in the region. The paper covers news from East Africa, as well as international news. It is known for its detailed reporting and analysis of local and regional events.

DODGE BROTHERS MOTOR CARS

NAIROBI - LIVINGSTONE.

Amongst the first to accomplish this journey were five Dodge Brothers Motor Cars and the following models did the trip in scheduled time—

- 1 ton Commercial Car (two) 40000-04
- Standard Touring Car (one)
- Box Body Car (two)

No trouble of any kind was experienced during the journey and this proves that the dependability of Dodge Brothers Cars is proverbial and their exceptional riding control permits long travel over bad roads without fatigue.

HUPMOBILE SIX

SEVENTEEN YEARS OF VALUE-GIVING

THE NEW HUPMOBILE SIX can be designed to give the highest peak of excellence at a moderate price. Hupmobile Sixteen may give you the greatest driving comfort at a minimum degree of expense and still insist on the perfect workmanship that only seventeen years of experience can give, may give you.

The Hupmobile powerful six-cylinder engine provides unexcelled smoothness. Four wheel brakes mean no loss of power at any time. This car is built to give you a chassis of perfect balance and rugged strength. The appointments, upholstery, hardware and accessories make the complete Hupmobile a motor car that Hupmobile gives all this. Take an actual road-test in this New Six—either Sedan or Touring Car—and decide for yourself that it represents new and unusual value.

STANDARD FEATURE PAGE

KENNEL NOTES
The "Red Arrow Standard" is the grandest dog of the year (Standard Club, P.O. Box 111, Johannesburg).

I feel sure the following letters will reach the minds of all animal lovers. During the short time I was in Chicago I made some inquiries regarding the distribution of new standard dogs, and have been in communication from the Inspector of the S.A.P.A.

Dear Miss Collyer—As Inspector of County of Adams, I am aware you that all dogs taken on the Municipal Dog run are extremely well looked after. These dogs are not allowed and other eight days in the Pound, are shot with a human knife. The whole matter is, therefore, you are by yourself as Inspector. I give you the Pound a considerable number of times during each month, and have found everything very satisfactory. Yours etc. R. Gwynne.

Knowing Mr. Jippen well, and his canine love for all animals, we are all glad while the employment has very serious business relations in his hands. I think if I may say so, that more should be done about inspecting dogs belonging to Indians in the town. I was driving down River Road one evening week or two ago, and I noticed several dogs outside Indian shops baying full of skin disease. If Indian keep dogs "as regards to property, if they should be found to be in the case we kept healthy and clean in the night. These dogs can hardly come under the heading of wild cruelty, it is merely ignorance and disease. However, all skin diseases are more or less contagious, and they travel upon

One of the "Red Arrow" dogs (see Standard Club, P.O. Box 111, Johannesburg) and the other "Red Arrow" dog (see Standard Club, P.O. Box 111, Johannesburg) and the other "Red Arrow" dog (see Standard Club, P.O. Box 111, Johannesburg).

While walking down by the sea the other evening I came across a very large and handsome Akita dog, a black and red of remarkable quality. I have seldom met any finer through my acquaintance. This dog was not used for a day and a night, but was a very fine specimen. The dog who was with this dog said he had been through the Akita. After several years ago, and the dog was not young. I should

like to have found out more about this dog, but the owner would not give me the name of the club which he was a member of. I am sure that you would be glad to hear of it.

Another owner friend who is better known to me is "Mr. Brown" of the "Red Arrow" Club. He has kindly allowed a heading and a paragraph to be written for me, and I am sure that you will be glad to hear of it.

Mr. Mac, and Miss Lambert are playing next door to me. Miss Lambert's dog is a very fine specimen of a dog, and I am sure that you will be glad to hear of it.

Yesterday at Malindi Station where I was to see my sister off, I saw two young Indian-owned dogs with their owners. They were the property of Mr. Hat, who had just arrived with them from England, and was making his way to Malindi. I think the dogs were very much indeed, and I am sure that you will be glad to hear of it.

The dog had a bad time during the Red Sea. It was nearly lost, but was saved by the kindness of the crew. The dog was very much indeed, and I am sure that you will be glad to hear of it.

Another point that must be discussed is our next "Kenel Club" meeting. The meeting will be held on the 15th of the month, and I am sure that you will be glad to hear of it.

Studebaker. Brockway. Case.

S. E. BAKER CAR

7 Factories!
21,000 Employees!!
180,000 Cars per Annum!!!

Your conscience will tell you what these figures mean. Add to this the fact that Studebaker make their own engines, gear boxes, axles, bolsters in their own factory, and you will realize why Studebaker offers more cars for less money. Try their performance for yourself.

Your eyes will confirm this good opinion. Lamps, instruments, plating, upholstery in heavy leather will bear a favourable comparison with your preferred car. Praise it to believe.

To SEE, and to TRY will COST you NOTHING.

CORRESPONDENCE

The Editor—E.A. Standard:—
I have just received your copy of the paper of the 12th inst. and in all your news items you have been very fair and impartial in your treatment of the various subjects mentioned. I am sure you will continue to be so.

THE SERVANT PROBLEM.
The Editor—E.A. Standard:—
I am writing you on the subject of the servant problem. It is a very old and well-known problem, but it is still a problem in our country. I have been thinking about it for some time and I have some suggestions to make.

The average Englishman does not even begin to understand the situation. How could you expect him to understand a matter which he has never seen? What would a Chinaman do with a Chinaman? He would probably look on him as a fellow creature and not as a servant. I have been thinking about this for some time and I have some suggestions to make.

In Malaya there is a large Chinese population. They have been here for many years and they are now becoming a permanent part of the population. They are not only a large number, but they are also a very intelligent and capable race. They are now becoming a permanent part of the population.

THE LABOUR PROBLEM—AN IMPORTED POPULATION.
The Editor—E.A. Standard:—
I have just received your copy of the paper of the 12th inst. and in all your news items you have been very fair and impartial in your treatment of the various subjects mentioned. I am sure you will continue to be so.

I have been thinking about this for some time and I have some suggestions to make. I have been thinking about this for some time and I have some suggestions to make.

DODGE BROTHERS MOTOR CARS

NAIROBI—LIVINGSTONE.

Amongst the first to accomplish this journey were five Dodge Brothers' Motor Cars and the following models did the trip in scheduled time—

- 1 ton Commercial Car (one)
- Standard Touring Car (two)
- Box Body Car (two)

No trouble of any kind was experienced during the journey and this proves that the dependability of Dodge Brothers' Cars is proverbial and their exceptional riding comfort permits long travel over bad roads without fatigue.

HUPMOBILE SIX

SEVENTEEN YEARS OF VALUE-GIVING

THE NEW HUPMOBILE SIX has been designed to give you the six-cylinder motor car on wheels at the highest peak of excellence at a moderate price. It offers you the highest degree of riding comfort at a minimum cost and gives you only seventeen years of experience on give, we have done more.

The Hupmobile powerful six-cylinder engine provides steady, but not jarring, control. Skilled engineering and the use of the finest materials and "Duro" body appointments, upholstery, hardware, and "Duro" fenders make the complete Hupmobile a motor car of genuine beauty.

Hupmobile gives it this. Take an actual road-trip in the New Six—either Sedan or Touring Car—and decide for yourself that it represents new and unusual value.

TO-DAY is one of motorized living movement of increased accomplishment. The problem, squarely up to motor designers, engineers and manufacturers, has been the construction of a type of engine and motor to meet the vital and urgent needs of this new day.

Such a motor car is now here. Certain no modern development in motor car design so completely answers the needs and requirements of the new-day driving as the new Buick.

Decide now to see and drive this epochal motor car at the very earliest opportunity.

Nothing will so surely emphasize the vast difference between ordinary motor cars and the new Buick Six as the new delight you yourself, feel the first time you drive a Buick.

The new Buick has a flashing pickup which is other car's equal. Its driver will enjoy a new mastery of the road. Its responsiveness to the lightest touch is amazing. The magical ease with which the new Buick is handled will impress one at once.

You may expect much from the new Buick, you will not be disappointed, for the new Buick is the result of 23 years careful and painstaking engineering. The new model Buick has swept past all the inefficiencies and limitations of the motor car as we know it before.

For economy, speed, power on hills, rough roads, capacity for heavy loads, ease of control, the new Buick is a revelation and stands as the recognized leader in new-day design.

No other car the world offers all these important advantages.

- Four-wheel Brakes,
- Oil Filter,
- Air Filter,
- Petrol Filter,
- Completely Sealed Chassis,
- Cantilever Springing,
- Dipping Head Lights,
- 77 Horse Power,
- Finger-Right Steering,
- Light Pressure Clutch,
- Valve-in-Head Engine,
- Remarkable Fuel Economy

There are more Buicks registered throughout the world than any other car except Chevrolet and Ford.

Buick predominance in registrations means extra miles turned in by old cars that would not be running at all if they were not Buicks—built as only Buick builds. The oldest cars in regular operation in East Africa are Buicks. Buick engineering has accomplished this by placing it in every Buick part, and then, by placing around that stamina such protection as the famous "Sealed Chassis" and the "Triple Sealed Engine." All Buick operating parts are barricaded from dirt and wear to insure longer life with less upkeep.

Ladies First!!!

Ladies first might well have been the inspiration behind the Ford Car. It is the easiest car in the world to drive—press down one pedal and the car is in motion; release it and you are in full gear, on which 95% of the hills you meet are taken with ease. There are no gear levers, and the hand throttle permits the nicest gradation in speed.

THE EAST AFRICAN STANDARD WEDNESDAY, SEPT 14, 1926

The Coal Docket. The promise of peace in the British Coal Industry held up by the report from the District Federation to Government to call for a "coal docket" has not been fulfilled. The Managers' Association has declined to meet the Government and the Miners' representative has discovered a basis for settlement. The miners believe that such an agreement in the past has been made in the absence of the power of the Government to provide a link between settlement and police. However in this opinion, the special circumstances of each district are so varied that it is only possible to discover a basis for settlement. These conditions are taken into consideration in the district docket reports to be considered by the District organizations of miners and more workers. In the letter to the Chairman of the Federation Mr. A. J. Cook indicates the extent to which his policy has been modified by the statement of his willingness to negotiate a new national agreement with the miners to meet the immediate needs of the industry. Mr. Cook's view regarding was a "coal docket" is the settlement of the industry and when the Government has made it clear that it will not be prepared to support the Government if the Government does not support the Report of the District organizations. It is a matter of some importance that the Government should be prepared to support a new agreement which would include the rate between profits and wages the details of the method of settlement and the definition of proceeds and the terms of coal of production and to leave the determination of a minimum percentage in the district to be left to the Miners' Federation. At that date, the Miners' Federation applied that condition on district negotiations, instead of a national agreement, upon the question of the percentage of coal which was to be set aside for the Government's recommendation. The Government has not yet decided to permit that the miners have implemented the Government's recommendation to do so. The Government has not yet decided to permit that the miners have implemented the Government's recommendation to do so. The Government has not yet decided to permit that the miners have implemented the Government's recommendation to do so.

Time stands still for a "Kodak"

HAPPY times, like the minutes of the hour, fade all too soon. There is need to take your happiness for granted. Here is a way of saving it. That way is the "Kodak" way. Do yourself a good turn. Call round today and choose a "Kodak." We will show you how to make good pictures from the start. A. H. WARDLE & Co., Ltd., Photographic Chemists. P.O. Box 108 NAIROBI. Phone 50.
