THE COACH
Oldsmobile-Six
£340

The shattering of the stock car record for the Pike's
Peak course in Colorado, U.S.A., established the Oldsmobile
Six as "Champion on the Hills".
The utter reliability of Oldsmobile, the undimmed spirit of
its performance throughout the steadiest grind, the
restful comfort in which you ride, impress you more
and more with its superiority. And as months and
miles roll by, you're glad you drive an Oldsmobile.
This beautiful closed model is
luxuriously appointed. Yet its
rugged construction makes it
particularly suitable for the
roughest country roads.
It will dispense springs, comfortable seats, easily
depressed clutch pedal, efficient gearshift, adjustable
seats and steering column, positive light acting brakes
make it an ideal woman's car.

Medical Treatment of Native Labourers.

A native writer who takes his responsibilities seriously, has been reviewing the possibilities of a change of management under the name of "Nugget" in the light of the report made by the medical officers of the Uganda Protectorate. He has written a paper on the subject which is published in the "Nugget" and is of interest to all those who are concerned with the welfare of the native labourer. The writer is of the opinion that the present system of medical treatment is not adequate and that a change of management is necessary. He suggests that the Government should take the initiative in this matter and that the medical officers should be given more authority and resources. He also suggests that the medical officers should be given more training and that they should be given more opportunities to visit the various parts of the Protectorate. He concludes by saying that the welfare of the native labourer is a matter of great importance and that it is the duty of the Government to take the necessary steps to improve the medical treatment of the native labourer.

The New Six
Is Truly Hupmobile

PEOPLE have always wanted to see that they drive a Hupmobile. It meant that they were possessed of refined taste, of discrimination, with a sound business sense. But many also wanted to drive a Six.

There was only one thing to do and Hupmobile had to do it. The New Hupmobile is exactly all the former Hupmobiles were, but with a more powerful combination than ever before. This New Hupmobile six-cylinder engine, because of its compact construction, requires remarkably little servicing.

You may now drive a six-cylinder motor with the satisfaction of knowing that you are driving a Hupmobile. The New Hupmobile six-cylinder engine, because of its compact construction, requires remarkably little servicing.

THE FURROW OF WEALTH
 Perhaps the most widely used of the various methods of irrigation in the world is the furrow. It has been particularly successful in the United States, where it is used to irrigate the great wheat and cotton lands of the West. In the East, it is used to irrigate the rice lands of China and the sugar lands of the West Indies. In the tropics, it is used to irrigate the rice lands of India and the sugar lands of the West Indies. AUSTRALIAN FLIGHT ENDS ON WATERS OF THE THAMES. Airman Greeted by the Speaker. AMAZING CROWDS DEFEAT CONTROL EFFORTS OF THE POLICE. Congratulations Sent by the King.

EMERALD ROAD AND SHIPPING STRIKE. Alex J. Cobham, perhaps now the best known airman in the world, a pioneer of several long-distance flights, has added to his laurels by successfully completing his journey to Australia and back.

He left London on June 29, arrived in Australia on August 9, left again on August 29 and arrived, on the Thames opposite the House of Parliament on Friday afternoon. London gave him an amazing welcome; he was greeted by the speaker, Donald Mackenzie King, and a host of other dignitaries, the King sent him his congratulations, and the police could not control the throngs.

28,000-Mile Journey. The flight was a triumph for the airman, who had covered a distance of 28,000 miles in 119 days. The flight was a triumph for the airman, who had covered a distance of 28,000 miles in 119 days.

Keep two sticks in use — saves money

Why? The Shaving Stick absorbs a certain amount of moisture when in use. By keeping two Gillette Cold Cream Shaving Sticks and using them on alternate days the 30 hours use will be extended to 60 hours. Each week longer and gives many more shaves to the stick. The Cold Cream Shaving Stick is so excellent that it makes and smooths the most sensitive skin, and gives all the delights of a cold cream massage. Use that second stick today, but be certain it is Gillette Cold Cream Shaving Stick.

THE HEALTH OF THE NATION

London, 24th Feb.—The annual report of the Medical Officer to the Ministry of Health has just been published, and we shall be in a position to discuss it in a special issue of the "Health of the Nation" in the coming week. In spite of substantial gains and improvements, the nation's health has remained along the general lines of the past two years. Speaking broadly, England had, for the most part, been better and an Egyptian soldier will compare favourably with that of any other country. At all ages the mortality of life is lower than it was. Longevity is increasing, and the more sensitive classes are, with one or two exceptions, enjoying a somewhat higher rate of mortality. Tuberculosis, pneumonia, and bronchitis are giving a higher toll, and the progress of such former scourges as typhoid fever and scarlet fever have become appreciable.

On the other hand, there is a marked increase in diseases of the heart, and in diseases which usually ending more victims. The 23rd Annual Report of the Board of Control for Lunacy and Mental Deficiency is not so hopeful, and it shows that insanity is on the increase. On January 1, 1930, the number of notified lunatics in England and Wales was 135,369, an increase of 2,124 on the corresponding date of the previous year, and 1,200, since January 1, 1928, was 134,165.

At all times the toll was still high, and it is not surprising that the number of deaths in the United Kingdom during the year 1929 was 2,124,000, an increase of 2,124 on the corresponding date of the previous year, and 1,200, since January 1, 1928, was 2,124,000.

It is to be regretted that the statistics for the year 1929 in the United Kingdom are not so complete as they should be, and it is to be hoped that the statistics for the year 1930 will be more complete. It is to be hoped that the statistics for the year 1930 will be more complete.

THE EAST AFRICAN STANDARD
 Monday, Oct. 4, 1908.

This Legal Conference.

The Conference of legal experts of Kenya, Uganda, Tanganyika and Zanzibar will open its meetings in Nairobi under the chairmanship of the Attorney General of Kenya, Northern Rhodesia, was unable, the Standard, to send a representative but the fact our Colony will be represented at least indirectly by the new Solicitor General, Mr. Kenyon, who has been transferred from Northern Rhodesia. This Conference was indicated by the resolutions of the meeting of East African lawyers in Nairobi early this year and we believe that it will prove a useful and necessary addition to the system of co-operation and co-operation by inter-colonial Com-
 munity which has been instituted with very great success this year. The very valuable movement set on foot by the gathering of lawyers all carried forward by the ordinary Conference and advanced recently by the second meeting of unofficial representatives of the East African Territories at Victoria Falls, has already had a definite influence upon the progress of the programme, the progress and well-being of East Africa. The system does not carry with it constitutional changes or alterations for which the individual communities are hardly ripe at the moment but it is growing of very great assistance in laying the foundation and even creating the framework for co-operation and co-operation of a definite constitutional character in the near but distant future. East Africa has under a debt of gratitude to Lord Delamere for the enthusiasm and the leadership which he brought to bear on the inauguration of the unofficial political

and to the Under Secretary of State for the Colonies, Sir Herbert Colquhoun on the Parliamentary Commission who, granting facilities to be held of constitutional political interest, found a compromise and a way to proceed in the system of co-operation. Those who realize the practical importance of the agreement in the wedding together of the Empire in Africa will hope, with Lord Delamere, that the time spent on such and non-official will be able to put together in this great effort of the Conference. Those who realize the practical importance of the agreement in the wedding together of the Empire in Africa will hope, with Lord Delamere, that the time spent on such and non-official will be able to put together in this great effort of the Conference. Queen's Death.
 The death of Queen Victoria, which is announced in the Standard, is a sad event to the people of East Africa. The Queen, who reigned for over 60 years, was a great benefactress to the Empire. Her death will be felt in all parts of the world. The funeral will be a grand one, and the mourning will be deep. The people of East Africa will feel the loss of a great monarch and a great friend.

While Government should be lauded in the **Value Tax**, it should certainly contribute on the same basis as all other consumers to the other classes of revenue, such as water supply, land tax, and other taxes. The system we have adopted is a fair one, and it is a well-known fact that a large amount of water is being supplied at a cost.

The Government should pay attention to the fact that the water supply is a public utility, and it should be managed in a way that is fair to all consumers. The Government should also consider the fact that the water supply is a public utility, and it should be managed in a way that is fair to all consumers.

TROUT FISHING IN SOUTH AFRICA

In the past few years Trout culture has made considerable headway in South Africa.

Many mountain streams, ideally situated, offer spots of the highest class to fishermen of the "gentle art."

The open season extends from October to April. Railway travel in South Africa is inexpensive and facilities are of high standard. Accommodation is good.

ASKS NO FAVORS FEARS NO ROAD

OLDSMOBILE SIX

The ease with which Oldsmobile Six absorbs road punishment is directly traceable to the exacting standards and precision of Oldsmobile manufacture. Soundly designed, accurately constructed, superbly capable of meeting every driving condition, here is a car, high in quality, low in price. Big, beautiful, staunch—powered by a motor of extraordinary performance capacity—it asks no favors and fears no road!

Keep two sticks in use
— saves money

Why? The Shaving Stick absorbs a certain amount of moisture when in use. By keeping two Gillette Cold Cream Shaving Sticks and using them to alternate days, the 48 hours rest allows the moisture to evaporate, thus restoring the soap to normal. Each week longer and you shave many more shaves to the stick.

The Cold Cream lathered into Gillette is an emulsion that soothes and smooths the skin sensitive skin, and gives all the delights of a cold cream massage. Get that second stick to-day, but be certain it is Gillette Cold Cream Shaving Stick.

NO PLACE FOR NERVES

No motorist who suffers from nervousness in the Dubouche, should ever be in a hurry to get on his way to a distant point but as no way to repeat on the fitness of the machine. A motorist must therefore be well equipped with a spare wheel which must be carried.

There is the greatest official good will to all motorists private and public. There is, however, not only the British manufacturers of the motor-vehicles which offer to help each other and no Indian driver thinks of selling attention to an accident detector, which may incur serious consequences if it is not repaired.

Fiscal Theories of the County Council

The Local Government Commission has issued a report on the fiscal theories of the County Council. The report is a valuable contribution to the study of local government finance. It deals with the various sources of revenue available to the County Council and the methods of raising and distributing this revenue. The report also discusses the principles of taxation and the methods of assessing rates. It is a most interesting and important study of the fiscal theories of the County Council.

Mr. A. O. Tumbulwa, M.P., has been appointed as a member of the Local Government Commission. He will be representing the County Council on the Commission. Mr. Tumbulwa is a well-known public figure and a member of the Legislative Council. He has been active in the promotion of local government and has been instrumental in the formation of the County Council. His appointment to the Commission is a great honor and a recognition of his services to the community.

The Commission has also issued a report on the fiscal theories of the County Council. This report is a continuation of the work done by the Commission in its previous reports. It deals with the various sources of revenue available to the County Council and the methods of raising and distributing this revenue. The report also discusses the principles of taxation and the methods of assessing rates. It is a most interesting and important study of the fiscal theories of the County Council.

KENNEL NOTES
Margaret Cooper

The "Black Abyssinian" dog is the most popular of the East African breeds. It is a large, powerful dog, and is well adapted for the hot climate of the East African highlands.

On the appearance of one of these beautiful dogs to which I have referred, I had heard that some of the owners of these dogs had been brought from the South and landed at Mombasa by the owner Mr. Wright of Nairobi. They were very white and looked like the dog I had seen in Nairobi. I should like to get a more detailed pedigree which probably will go back to English breeding dogs.

The dogs seen in "Outanga" this year, Outanga being a Kenyan village in Outanga district.

I believe there are several Irish setters in Kenya now. The other week when I happened to be in Mombasa, I saw a number of these dogs, a boy named "Hawes" had some of them. They look like the ones I have seen in Nairobi. I would like to see some of them at all. I have never seen any of these dogs before. They should be bred to the best of the day. To whom they belonged, I do not know.

I believe Mr. Wright is showing his newly imported dogs, and I should like to see them both in the show ground.

I hope to mention in the "Notes" that my sister has an extremely good Black Cocker Spaniel puppy dog for sale. His mother is a very beautiful girl, and his father is a very good dog. The puppy is about 2 months old. It is making into a winner. He is a good dark eye. He is well rounded and is very lively. He is a good dark eye. He is well rounded and is very lively. He is a good dark eye. He is well rounded and is very lively.

I have seen a lot of these dogs in the past few years. They are very beautiful and are well adapted for the hot climate of the East African highlands.

In England these beautiful dogs are considered very valuable. They are very beautiful and are well adapted for the hot climate of the East African highlands.
