**WILL MAKE THE BEST OF HIS TASK.**

Introducing the Port and Railways Bill to the Legislative Council on Monday of this date, the Government announced that it was the intention of the Government to introduce the Bill before the Legislative Council on Monday of this date.

That the Bill is a measure of great importance and that it will be a great benefit to the country.

**MUMBAI REPORTS**

The estimates as prepared for the Government are expected to be the best that can be made of the situation.

The three or four days on the bill in the Legislative Council...

A hand is shown here, the mechanism being operated by the power take-off of the McCormick-Deering Tractor.

# Do You Know About the McCormick-Deering Power Take-Off?

Besides the belt and drawbar McCormick-Deering Tractors have a third power source—the power take-off, for running; the mechanism of binders, maize-pickers, harrow-threshers, etc., direct from the tractor engine. This handy properly located, properly protected, power take-off always runs at the same speed whether the tractor is in high or low. It can be operated when the tractor is standing still, so a pulled machine can be cleared if clogged. It is gear driven. It runs at a uniform speed. The McCormick-Deering is the original triple-power tractor.

McCormick-Deering tractors are specially designed to operate by means of their power take-off the following equipment

- 8-20 tractor 1200
- 15-20 tractor 1200
- 15-20 Horse tank tractor, for ploughing and cultivating between rows of Cofee and Rice 1200

McCormick-Deering Harrower,  
McCormick-Deering Harrow-Thresholder,  
McCormick-Deering Maize Picker

If you are farming in maize or wheat the McCormick-Deering tractor is indispensable to you.

A leader in show here, its mechanism being operated by the power take-off of the McCormick-Deering Tractor.

# Do You Know About the McCormick-Deering Power Take-Off?

Besides the belt and drawbar McCormick-Deering Tractors have a third power source—the power take-off, for running the mechanism of binders, mowers, pickers, harvesters, threshers, etc., direct from the tractor engine. This handy property located, properly protected, power take-off always runs at the same speed whether the tractor is in high or low. It can be operated when the tractor is standing still, so a pulled machine can be cleared if clogged. It is gear driven. It runs at a uniform speed. The McCormick-Deering is the original triple-power tractor.

McCormick-Deering tractors are specially designed to operate by means of their power take-off the following equipment

- 20-30 tractor 1200
- 18-20 tractor 1200
- 15-20 Blower-trail tractor for ploughing and cultivating between rows of cotton and flax 1200

- McCormick-Deering Harrows
- McCormick-Deering Mowers-Threshers
- McCormick-Deering Pick-Up Trucks

If you are farming in maize or wheat the McCormick-Deering tractor is indispensable to you.

### Government House Retention.

The entirely new and improved retention has appeared from the Colonial Engineering Co. Ltd. The Government House at Nairobi and Mombasa. In the Legislative Council on Tuesday an amendment was made by Government to reply to a question asked by the Member from Mombasa. It appears from the answer that at March last, with the concurrence of the Governor of Uganda, the Secretary of State for the Colonies authorized the expenditure of £10,000 in extra expenditure for the High Commissioner of Transport, a position held by the Governor of Kenya. This money was to come from Railway funds. The Secretary later talking about the proposal was to increase public knowledge through advertisement campaign. Now it is reported that the Railway authorities declined to agree the suggestion that their funds should be utilized and at least in the opinion from the Government work had already been carried out in a manner satisfactory to the Minister. However, the Minister admits it is apparently likely to cost the estimate by last twenty per cent, which may be added to the sum of £10,000 which. Thus the Railway authorities agreed that in addition to the money they would also make another sum of £10,000 as a special contribution to his estimate and that of his and they will have to make up the

sum and will not attention to Nairobi. When the Colonial Secretary was asked by the Opposition on this proposal, as an answer to a question asked, he declared that the sum had gone to the Government House and that the Government House had agreed to provide suitable for the Government House. Naturally and other Legislative Chambers in addition to the domestic expenditure. There was strong criticism very strong criticism of the last proposal and of the matter of this proposal in the country and public attention was drawn to the Nairobi Government House proposal. The Hon. Member who has introduced at that time. Subsequently, His Excellency the Governor decided to appoint a Committee consisting of Members of the Legislative Council, a representative of the Press and others nominated by the House to consider the plan and make recommendations. In August the report of that Committee was published. The Committee suggested that the money allocated to this House was insufficient to provide for the Legislative Council Chambers and for the other necessary expenditure and recommended that the Legislative Council should contribute a sum of £10,000 to Government House for that provision should be made for it at some later date. By debating the one of the Legislative Council Chambers the Committee was able to agree at a new bill proposed by His Excellency the Government Administrator, whereby it was assumed that the addition to Government House, including the Government House, should be completed by £10,000 by debating the capital value of the contribution from the Government House of £10,000. This proposal was accepted by the Revenue the Governor and he proposed a further saving of £5,000 by utilizing the same amount of new fixtures and outfitting the building in Nairobi and cutting the total cost to Kenya to £4,500. He proposed further that the sum of £2,500 should be laid out for the necessary expenditure during the building process. Now it is believed that all matters which have been prepared for Government House, Nairobi will be taken to the next of the Government House. However, while the Railway authorities appear to have somewhat hesitatingly suggested that the money set out on the Nairobi scheme can be utilized to fund the House, His Excellency the Governor stated he would not be prepared to do so until he had received the approval of the Government House. He said that he would not be prepared to do so until he had received the approval of the Government House. He said that he would not be prepared to do so until he had received the approval of the Government House.

**RECREATION**

There are plenty of people in Kenya who do not get full value for their money and spend their leisure hours in idleness. Many of these people are young men and women who are in the prime of life and are full of energy and ambition. They are looking for a way to spend their leisure hours in a healthy and profitable manner. The Kenya Recreation Club was formed to meet this need. It is a club for all who are interested in sports and recreation. It has a wide variety of sports and games, and it is open to all who are interested in them. The club has a large membership and is growing all the time. It is a great place to spend your leisure hours and to meet new people. It is a great place to spend your leisure hours and to meet new people. It is a great place to spend your leisure hours and to meet new people.

### THE NEW VOTE.

At the election of the 10th Dec 20, the electors of Nairobi were asked to elect a representative to the Legislative Council of Kenya.

The result of the election was as follows:—  
The Hon. Mr. J. G. ARNOLD, M.P., was elected for the Nairobi constituency.

The Hon. Mr. ARNOLD was elected by a majority of 1,000 votes over his nearest competitor, the Hon. Mr. J. M. H. SMITH, M.P.

It is a pleasure to announce that the Hon. Mr. ARNOLD will be the representative of Nairobi in the Legislative Council of Kenya.

The Hon. Mr. ARNOLD was elected by a majority of 1,000 votes over his nearest competitor, the Hon. Mr. J. M. H. SMITH, M.P.
