## The Empire Builders

THE FORD ONE TON TRUCK FOR DEPENDABLE TRANSPORTATION.

New Models—Reduced Prices

From time immemorial Britons have pioneered into unknown and undeveloped countries.

In face of seemingly insuperable difficulties, by co-operation and service, they have developed the remote corners of the earth and have created a world wide trade for their products—a trade that grew in spite of the limitations of those primitive bearers, the native, the ox and the mule.

And then the FORD came and to-day FORDS carry the burden of Empire trade on the trails of Africa, on the roads of Canada, on the tracks of Kenya, on the jungle paths of Borneo, on the plantations of Tanganyika and Ceylon, on the sheep stations of Australia and New Zealand—wherever Britons are, there is the FORD also doing its job, always dependable under all conditions, and where the FORD is, there is FORD co-operation and FORD SERVICE—cheap—efficient—reliable.

THERE IS NO QUESTION OF EXPERIMENT WHEN YOU BUY A FORD.

### THE SHOP BOSS ACT.

After a brief discussion yesterday afternoon, the Nairobi Town Council, presided by a Special Committee that the Shop Boss Act has not yet been applied to Nairobi. It is a most regrettable and retrograde decision and has been taken in defiance of the public opinion which has for many years urged the various legislative bodies to bring the provisions of the act into force. The Nairobi Town Council, with the support of the Chamber of Commerce and the Legislative Council of the Nairobi Town Council, comprising of representatives of both races, has decided that it requires less courage to turn its headstone down than to fight for social improvement. They have not abandoned any second argument in favour of their retrograde action. They have not had the courage to face the facts they have been afraid of the organized opposition which a section of the public have put in the way of their retrograde action. ### TANALON TOPICS.

#### Ambergris Claims Upheld by Government.

(From Our Own Correspondent.)  
The Tanalan District Commission, which has been set up to deal with the claims of the Ambersgris fishermen, has today upheld the claims of the fishermen. The Commission, which was set up by the Government, has been asked to deal with the claims of the fishermen, who have been claiming compensation for the loss of their boats and gear. The Commission has found in favour of the fishermen, and has ordered the Government to pay them the amount claimed.

**THE P.W.D.**  
The most resolution to be read at a meeting of the P.W.D. Council, which was held on the 11th inst., was that the P.W.D. should be asked to consider the possibility of providing a road from the station to the P.W.D. office, which is situated in the town of Tanalan. The Council has agreed to do this, and has ordered the P.W.D. to proceed with the work.

**THIRISH PRINCIPLES.**  
The Thirish people, who live in the district of Thirish, have been claiming compensation for the loss of their boats and gear. The Government has agreed to pay them the amount claimed, and has ordered the P.W.D. to proceed with the work.

**RETIRED TAPE.**  
An interesting and most depressing situation was revealed in the course of a discussion that arose under the head of "Any other business" the subject being the retirement of a man from the service of the Government. The man in question had been in the service of the Government for many years, and had been retired on the ground of ill-health. The Government has agreed to pay him the amount claimed, and has ordered the P.W.D. to proceed with the work.

**TRAVEL AND DIVORCE.**  
Some time in May or early June of last year, one All Hildon and James, a poor man of Kington, was brought to the attention of the Government. He had been claiming compensation for the loss of his boat and gear. The Government has agreed to pay him the amount claimed, and has ordered the P.W.D. to proceed with the work.

Kenya and Uganda Railway TENDERS FOR WOOD FUEL.

Tenders are invited for supplies of up to 100,000 cubic feet of wood fuel per month between Nairobi and Kisumu.

The successful tenderer will be required to enter into a contract the terms of which may be obtained on application to the Chief Storekeeper at Kenya and Uganda Railway, P. O. Box 40, Nairobi.

The usual deposit required by the Railway cannot be paid before or at the time of signing the contract.

Tenders must state the price per 100 cubic feet of wood cut to specifications and properly stacked, and also the area from which deliveries will come.

The area from which the fuel will be cut to be specified and the points at which it will be delivered to the Railway to be stated.

Sealed tenders marked "TENDERS WOOD FUEL" should reach the Chief Storekeeper at Kenya and Uganda Railway, P. O. Box 40, Nairobi, by noon on the 6th March.

Late tenders will not be considered. The lowest or any tender will not necessarily be accepted.

G. D. RHODES, Acting General Manager, Kenya and Uganda Railway.

Nairobi, 6th February 1926.

Kenya and Uganda Railway TENDERS FOR THE SUPPLY OF 36 TONS OF CEDAR FLITCHES

Tenders are invited for the supply of the above cedar flitches for a fit at any Kenya and Uganda Railway Station.

Tenders must state definitely within what period the flitches will be delivered and the earliest date delivery will commence.

The price to be for 100 per ton of 50 cubic feet.

The flitches to be 12" x 6" and cut in length of 12, 14, 16 and 18 feet.

The flitches to be straight and free from knots, shakes, growing bark and decay.

The flitches will be inspected by the Railway at the station before loading into trucks, and payment will be made on or before the 15th of the month following that in which the flitches are received in the railway Workshops Nairobi.

Sealed tenders marked "TENDERS FOR CEDAR FLITCHES" should reach the Chief Storekeeper's Office, Kenya and Uganda Railway, Nairobi (P. O. Box 40) on or before the 1st March, 1926. Tenders received after that date will not be considered.

The lowest or any tender will not necessarily be accepted.

G. D. RHODES, Acting General Manager, Kenya and Uganda Railway.

FORWARDER WELLS.

Carpenter Explodes a Myth.

WHERE HE FAILED

It has often been written that Billy Wells, when in his prime, declined to take advantage of his knock-out punch, because his frontal lobe or opponent was too firm. One reply to this contention is a recollection that Wells only showed his dislike for knock-out punches, when he was met by men better than himself, and to show these sports who had learned what they have read of Wells' resistance to knock-out punches, we merely point out that from 1912 to 1919, in 24 contests, he knocked out himself on seven occasions. Only two contests were lost, and the other two were won and nearly twice out of the arena to the benefit of his opponent.

An article by George Carpenter, the leading English pugilist, in which the Frenchman probably refers to the first time, why Wells failed to make good against the top-notchers. Carpenter states that Wells had been if the hard punch he delivered did not take effect. Just furthermore, Wells showed his feeling through his eyes. That is what the famous pugilist has done in Wells' career, and he has done it in 1913. Now, perhaps, in the opinion of pugilists has degenerated into a mere sport in a fight than in that one.

My mind concerning Wells took place in 1918 and I was then still in my teens, when the knowledge of Wells was in the prime of his pugilistic career. I remember that I was discussing my friends. I was not properly versed in his career, but I was sure that he had a right to be so hard. As I looked back on that time, I recalled how I had been told that Wells was a man who would not be beaten, and I was sure that I had been told that he was a man who would not be beaten.

I did not, but the bombardier is a most, more expert, in his own line. He had a right to be so hard, and I was sure that he had a right to be so hard. As I looked back on that time, I recalled how I had been told that Wells was a man who would not be beaten, and I was sure that I had been told that he was a man who would not be beaten.

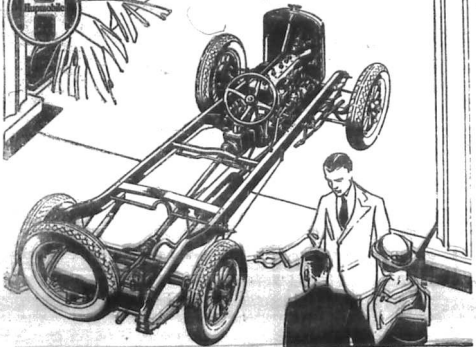

A Firm Foundation for Comfort

The New Hupmobile Six has been particularly designed to make rough roads smooth. A rigid chassis with seven cross members is the foundation of its comfort. Semi-elliptic springs—9 1/2 inches on each side—welcome shocks that rattle highways held in store. All roughness in the roadbed are further smoothed out by big balloon tyres.

You will find your first ride, and every ride thereafter, in the New Hupmobile Six a revelation of enduring smoothness.

Quality Gave This Volume—Volume Gave These Prices

Outstanding leadership of Hudson Essex is simple to understand. It is founded upon increasing quality in the product.

cannot be attained, much less continued, if value is not even more distinctive than the price.

This has resulted in ever larger sales and the growing volume has permitted manufacturing economies that are passed on to the purchaser in lower costs.

Hudson Essex value is outstanding long after the price paid is forgotten.

Without such volume, such prices would be impossible and without increasing quality, such volume would never be reached.

Owners are ever conscious of low operating costs, qualities that alone prove value. The Super-Six principle, exclusive to Hudson Essex, gives added distinction.

For years Hudson Essex have been the World's Largest Selling Six-Cylinder Cars. Each position

WARRIORS

I have had occasion at several occasions to meet players that they regarded offensive players they would find themselves on the field. I think this method of dealing with the matter is met with criticism by all our readers.

ANOTHER VIEW

Mr. W. F. G. Bennett of the Daily Express, who has been very kind to me in the past, has written an article in which he has expressed his views on the subject. He has said that the players who are regarded as offensive players should be dealt with in a different manner.

## The greatest values in motor car history

THE new Buick models for 1926 now offer the greatest values in motor car history.

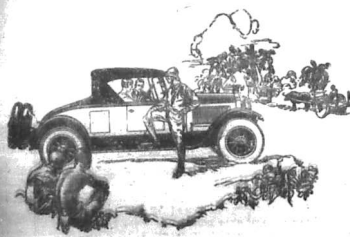

Important improvements in chassis construction add to strength, simplicity and performance. Refinements in body designs increase attractiveness and comfort.

The Buick you buy to-day is unmatched for power, speed, and ease and safety of control. No car of its size and power can rival it in economical petrol consumption.

Quality, refinement and surpassing finish is found at every point. Lift the bonnet and you will be surprised at the beautiful sleek, clean design of the engine. Its gleaming finish is in marked contrast to other engines.

No. even a spark plug is visible—for they are concealed by a quick detachable cover which protects them from injury and moisture. A few turns on the wing nuts and the valve cover is removed and all the overhead valve mechanism is exposed to view. Each valve is instantly accessible and easily adjusted. Every part of this beautiful mechanism is as carefully made and finished as a watch—yet it embodies with this refinement the strongest type of valve construction known.

And so it is with every detail of construction—each part carefully machined—painstakingly finished, but possessing strength and wearing qualities beyond all belief.

Hupmobile

When the 8-Cylinder Hupmobile was launched upon the market it created a sensation throughout the entire world. Due to its superior quality and reasonable price, it is to-day the biggest selling 8-Cylinder car in the world.

The new 6-Cylinder Hupmobile has been on the African market only a few weeks and is selling faster than we can make deliveries. The 6-Cylinder Hup is not being sold on the reputation of the "8," neither is it being sold on sensational advertising. It is being sold on its general appearance and actual performance.

We ask you to ride in it, drive it yourself and permit us to give you the no distant truth that a Hupmobile will be the biggest seller, 6-Cylinder car in the world.

Quality and actual value for the money will always predominate over sensational advertising.

STOP ALL ACHES & PAINS USE SLOAN'S LINIMENT

If you're troubled by Rheumatism, Neuralgia, Sprains, Bruises, Backache, any muscular or nerve pain—just rub a little Sloan's Liniment here and there just where it hurts. You'll find relief in 15 to 30 minutes. It penetrates right down to the seat of the trouble, warming and easing the nerves and tissues. You can almost feel the inflammation, swelling or stiffness subside, as the pain goes down and less.

### A Profit From Every Season

Farm income can be increased on almost every  
farm by careful organization and efficient manage-  
ment.

On the feed grinder, wood saw, hay barker or other  
belt machines as well as for transport the Fordson's  
ready power can add much to the year's profit.  
The Fordson's low cost makes the investment light.  
Operation costs are low. On days when it is not  
working its operative costs are nothing.
