# The Fordson - Oliver COMBINATION.

Among the various factors which are influential in maintaining the prosperity of farmers are few of more vital importance: increased production and reduced production cost. Attention must be given to both if a satisfactory income is to be achieved.

The Modern Farmer has within his reach in the Fordson Tractor and the Oliver Plow, equipment the means of controlling both his produce, the way that enables him to be both efficient and prosperous.

Represents the concentrated effort of two of the world's greatest manufacturers to produce efficient and economical power farming equipment at a cost that brings it within the reach of all.

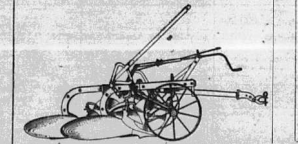

Low First Cost

Low Upkeep Cost

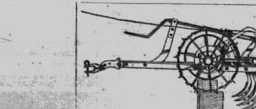

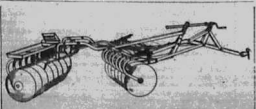

£155 Delivered Nairobi

The importance of suitable equipment on a farm or in farm production should be given the greatest possible emphasis. The tools of the worker must be adequate and carefully designed for the work they have to do.

High farm produce prices paid by supply and demand the farmers' most serious problem is found in low production cost and in a just and equitable low first cost expenditure for suitable farm equipment.

Economy and efficiency also must prevail. The greatest economy will be effected through the use of Fordson power and its efficiency will be enhanced by its application to machines designed especially for it.

THE KILALI CASE—AND AFTER.

The Secretary of State has agreed to the introduction of amending legislation which will have for its object the imposition of the 25th penalty in cases of assaults upon women and children of the existing character which was recently abolished by the Government. The history of the colonization of Africa has been repeated in this portion of the Empire and the fact alone makes many reasons for reflection. It is no doubt desirable to have some provision in Kenya that commensurate with the decision upon the country; it may be accepted as a wise provision of the Government of Kenya over which it is almost impossible to start a contest which brings total annihilation and the whole Government will be thankful to Government for so promptly making the elements of danger to the Secretary of State for the Colonies who has unhesitatingly accepted the advice of the men on the spot. Kenya is as yet at the beginning of its work of civilizing the native people—land and laborious task, full of disappointment and discouragement which will occupy centuries of constant endeavor towards the attainment of civility and it is not this in the earliest stages, we should hope our fields in strength of their own rather than built upon a foundation of abandoned lawlessness which would crumble under the strain and bring down the whole structure of civilization and the relations of man to man.

Let there be still at the earliest stages, we should hope our fields in strength of their own rather than built upon a foundation of abandoned lawlessness which would crumble under the strain and bring down the whole structure of civilization and the relations of man to man.

Let there be still at the earliest stages, we should hope our fields in strength of their own rather than built upon a foundation of abandoned lawlessness which would crumble under the strain and bring down the whole structure of civilization and the relations of man to man.

THE DOOR OF DIFFICULTY.

The abolition of the 25th penalty from the fact that for a period immediately preceding 1914 the statistics of the 25th penalty were not reported on an official basis. When the official papers were prepared the 25th penalty was not included in the aggregate figures for that year. The price of the 25th penalty was not reported in every district, but only 71 per cent of the total was reported as 25th.

BETTER ORGANISATION.

The East African Chamber of Commerce has been informed that a further step in the organization of the Chamber of Commerce is being taken. It is proposed that the Chamber should be organized on a basis of representation from all the principal industries of the Colony.

## THE BIG CAR.

Its Place in the World of Motoring.

A FEW COMPARISONS.

This is the biggest of the small cars, a writer in the "Cape Times," "In our range one of the most interesting little of the two-transporter."

Many of the cars are not seen for economy by doing one thing. I fancy we have a lot of our cars, too—why, not get on going in real cars out over the hills, who like being a writer, who like being a body to go on, who like being a body to go on, who like being a body to go on.

## Roll-top Hood.

A NEW SUGGESTION FOR DESIGNERS.

RESULTS OF TESTS AT FORD WORKS.

It is surprising that no coach-builder or motor-body designer seems to have exploited the possibilities of a hood on the "roll-top" principle.

It is surprising that no coach-builder or motor-body designer seems to have exploited the possibilities of a hood on the "roll-top" principle.

## B.S.A. LEADS THE WAY IN AMERICA

MAN HATTEN M.C. HALF DAY TRIAL

MARCH 14, 1926

Over a snow-bound course some 50 miles in length, the only British motor cycle entered in this event, a B.S.A. 350 cc. O.H.V. MODEL, ridden by Hoggie Pisk, gained the highest number of points, viz. 977 out of a possible 1000.

The following extracts from the "Motor Cycle" magazine's "Motor Cycling" dated March 31st, 1926, emphasizes the victory of this trial.

"We know you 'Mane Man' Hoggie. No one could make head way, getting lost now and then, but that was not the case. The machine kept on going, and the rider was never out of the saddle. The machine was never out of the saddle. The machine was never out of the saddle."

The fact that the only competing British motor cycle—a B.S.A.—made the best performance, is in itself conclusive testimony to B.S.A., and incidentally, English, manufacturing.

THE JUNIOR T.I. RACE FARMING JOTTINGS.

Won at Speed of over 66 Miles per Hour. A Resume of Current Topics.

THE WINNERS. The Junior T.I. Race was held on June 14 at Douglas Park, near London. It was won by Alan Bennett on his 1937 Buick. The runner-up was John Smith on a 1936 Buick. The winner's time was 10 minutes 30 seconds for the distance of over 66 miles.

The Cape to Rand. CHRYSLER TOUR JOURNEY OF RECORD TIME.

One cannot fail to appreciate the remarkable motoring performance of the Cape to Rand tour recently by Messrs D. B. Rowser and T. Kay on a South African party. This was the vehicle of a Chrysler touring car. The party covered the distance of 900 miles in 20 hours 18 minutes.

It is understood that the car had travelled throughout the trip without any breakdown. The maintenance was in the hands of the driver and his assistant. The car was driven by D. B. Rowser and T. Kay.

## AFRICAN HOUSING IN NAIROBI.

Of the total African population of Nairobi only a small proportion can be stated to be housed in a satisfactory manner, and of the remainder a large number live in dwellings that are unfit for human habitation. Not only are present conditions responsible for a large amount of sickness and death amongst the natives, but they are a distinct menace to the health of the community in general, and many Public Health problems are intimately connected with this housing question. At night thousands of natives are to be found sleeping in dilapidated sheds, compounds, verandahs, balconies, kitchens, stores, etc., and in the streets. The chief difficulty lies in providing housing for the poorer class of natives, a class which will never be in a position to provide its own housing. A similar class of people exists in all European towns and in every new housing has to be provided for them.

The situation has improved to a certain extent during the past few years. The Uganda Railway in particular having commenced work on a big scheme to provide modern sanitary housing for all African employees. The Municipal Corporation and several private employers of labour have provided a certain amount of new native housing and the development of the Native Location has also eased the situation, a limited amount of accommodation being available in the form of "Poncha" towns and in every new housing has to be provided for them.

The Municipal Corporation has given much serious consideration to the problem and has approached Government with a view to raising a loan for the purpose of starting a Municipal housing scheme. Plans, specifications and contracts have been prepared and when funds are available work can be commenced almost immediately. The provision of good sanitary housing at an economic rental will do much to solve the problem and it would appear to be quite possible to recover the capital expended by means of an interest and sinking fund in a comparatively short period.

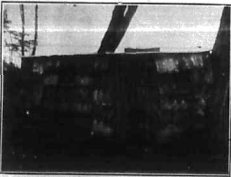

The photographs show different types of dwellings occupied by natives in the town at the present time.

This Studebaker Big Six Sport-Phaeton £525

—Can be sold at this low price because it is built on the famous One-Propit basis.

The Studebaker Big Six Sport-Phaeton won instant popularity in the export market in 1925, when its Studebaker export sales showed an increase of 63% over the best previous year.

Studebaker's great facilities result, too, in cars designed, engineered and built in units. The hundreds of Studebaker parts function as a unit, resulting in scores of thousands of miles of increasing transportation.

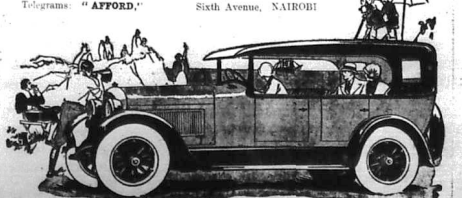

The world-wide popularity of this car is based on values that are made possible by Studebaker's unique plan of One-Propit manufacture.

Direct manufacturing control enables Studebaker to keep cars constantly up-to-date. Improvements are not saved up for spectacular annual announcements. Resale values are thus stabilized.

Studebaker builds all its own bodies. All engines, all clutches, gear boxes, springs, differentials, steering gears, brakes, axles, greynon castings and drop forgings, eliminating the profits of outside parts and body makers.

Before you buy any car, see the Studebaker. In features of design as in value, it offers you advantages.

477,728, which may not be far from the actual number of cattle and sheep in the country.

**EXPORTS.**—The growth of exports during the last six years can be seen from the following figures: In 1924 the value was £297,000, and in 1929 £723,481, an increase of more than half million in value, or three times as much.

The principal export is coffee, which has increased in value from £15,000 in 1924 to £1,000,000 in 1929. Other important exports are sisal, tea, and rubber.

There is a distinct increase in the value of exports from sisal, which in 1924 was valued at £100,000, and in 1929 at £1,000,000. This is due to the fact that sisal is now exported in much larger quantities than in the past.

**COFFEE.**—The coffee exported was 171,411 cwt. as against 117,411 cwt. in 1928. The increase is due to the fact that the quality of the coffee has improved, and the price has risen.

The quantity of sisal exported was 1,000,000 cwt. in 1929, as against 500,000 cwt. in 1928. This is due to the fact that the quality of the sisal has improved, and the price has risen.

**OBAMA, PULAE AND PLANTAINS.**—Obama is not far from the actual number of cattle and sheep in the country. The value of plantains exported was 1,000,000 cwt. in 1929, as against 500,000 cwt. in 1928.

The quantity of tea exported was 1,000,000 cwt. in 1929, as against 500,000 cwt. in 1928. This is due to the fact that the quality of the tea has improved, and the price has risen.

The quantity of rubber exported was 1,000,000 cwt. in 1929, as against 500,000 cwt. in 1928. This is due to the fact that the quality of the rubber has improved, and the price has risen.

The quantity of sisal exported was 1,000,000 cwt. in 1929, as against 500,000 cwt. in 1928. This is due to the fact that the quality of the sisal has improved, and the price has risen.

And how tired, too! This is the time when any other when the child should be given a Resting plan of Quaker Oats. Quaker Oats is only as healthy as the appetite it nourishes and replaces the energies lost in study. It fortifies the muscles and helps in the digestion of food. It stimulates the nervous system and gives extraordinary vigour to the entire organism. Quaker Oats is equally as beneficial for the child in the morning before leaving for school. It can be very well combined with wheated in the study of play and study.

#### THE ROMAN SINGERS

To the Editor, "E. A. Standard."—I have read with much interest the account of the Roman Singers, and I am glad to hear that they are to have a concert in Nairobi on Wednesday or Saturday, next. As I have never seen anything of the kind in this district to have some really good music, I am glad to hear that they are to give a concert here. It is a pity that it is not possible to have a concert of this kind in Nairobi. It is a pity that it is not possible to have a concert of this kind in Nairobi.

#### CHILD WILFIRE—THE INDIAN NEED

To the Editor, "E. A. Standard."—Six or seven days ago I read with great interest a report in your paper concerning a meeting of the Indian women held at the Theatre Royal under the presidency of Lady Gifford. I do not think she will have a very marked effect on the minds of the establishment of an Indian Nurseries House if the scheme is supported by various societies in Nairobi.

On Sunday last a very interesting meeting of the Nairobi Dramatic Society, with the presence of the Hon. Mr. Justice, took place at the Theatre Royal. The meeting was held in the presence of the Hon. Mr. Justice, and was a most interesting one. It was held in the presence of the Hon. Mr. Justice, and was a most interesting one. It was held in the presence of the Hon. Mr. Justice, and was a most interesting one.

In order to gain the sympathy of the Indian people, the three dramatic societies might do well to have a meeting of their own. It would be a pity if they did not do so. It would be a pity if they did not do so. It would be a pity if they did not do so.

It is also my belief that the three societies are not doing enough for the Indian people. It is also my belief that the three societies are not doing enough for the Indian people. It is also my belief that the three societies are not doing enough for the Indian people.

In all probability the Indian Dramatic Society will be able to do more for the Indian people. It is also my belief that the three societies are not doing enough for the Indian people. It is also my belief that the three societies are not doing enough for the Indian people.
