New Proposals Submitted to Districts. [By Wainana.]

At a conference held on Friday July 30, Mr. H. Wainana, President of the Mines Federation, called upon the delegates from the various districts and members of the Union who had returned to work.

It is stated that in all the fields, including the safety men, the men who have returned to work are not necessarily so satisfied with the new proposals as they were some time back.

There was an extensive discussion on the general position, and on the recommendations of the Executive that proposals framed in conjunction with the Bishop and Free Church leaders should be accepted.

NO ABILIATION. The Executive have asked out of the proposals an abiliation on the basis of some larger districts, and an abiliation on some regulations.

At the close of the conference, Mr. Wainana was officially thanked for his services to the district and will remain in the fact that the proposal is that work shall be resumed in the period of four months of the old rate and wages, which means that the amount of work that has been done in the past few months will be made up.

THURSDAY, AUG. 5, 1926

A Oustous Union. For a number of years unduly pressure from outside agencies has been made to reach an agreement upon the basis of a complete Customs Union among the three territories. It is disappointing to note that this matter has again gone without a decision being made.

It is his annual Report the Commissioner of Customs was able to report that at a Conference held in Dar-es-Salaam last week the foundation was laid of a Customs Union legislation acceptable to the three territories. The matter has not yet arrived when unification has been reached.

THURSDAY, AUG. 5, 1926

It can be seen, the daily, without pressure from outside agencies of influence, the goals East Africa will be the greater. The desire to see the independence of East Africa but the last thing that would wish to see is the birth of a policy to British which is possible in our own wisdom to desire a way out of the present impasse.

The death in London of the Right Hon. John Xavier Merriman, M.P., M.L.A., has been announced. He was a prominent member of the House of Commons and a member of the House of Lords.

MOTOR TRANSPORT.

The Six-Wheel Vehicle Produced.

So much attention has been devoted during many years to the production of six-wheeled motor vehicles that it may be interesting to consider how an equipment of this kind is put together.

The design of a rigid six-wheeled motor vehicle is a task of no mean magnitude. The type has a great advantage over an ordinary tractor so equipped in that it is not necessary to have a transmission, but only to the frame of the machine.

A little thought will readily suggest that a six-wheeled motor vehicle is a very unusual thing. The six-wheeler has a big advantage over the four-wheeler in that it is not necessary to have a steering gear.

It will be of course true that a six-wheeler is a very unusual thing. The six-wheeler has a big advantage over the four-wheeler in that it is not necessary to have a steering gear.

As a rule, even six-wheeled motor vehicles are not designed to be used for road transport. The particular type of six-wheeler which is designed for road transport is a very unusual thing.

A six-wheeled motor vehicle is a very unusual thing. The six-wheeler has a big advantage over the four-wheeler in that it is not necessary to have a steering gear.

Immediately after the Two all the way from Dainton. I pointed out to the other that the Conch would beat the winner when he was in the Derby. This was not a good thing for the Derby, as the Conch was a very good horse, and the Derby was a very good race. I pointed out to the other that the Conch would beat the winner when he was in the Derby. This was not a good thing for the Derby, as the Conch was a very good horse, and the Derby was a very good race.

At a rough estimate, I should say that Langcayre was fully ten lengths behind the leaders when he was in the Derby. This was not a good thing for the Derby, as the Conch was a very good horse, and the Derby was a very good race. I pointed out to the other that the Conch would beat the winner when he was in the Derby. This was not a good thing for the Derby, as the Conch was a very good horse, and the Derby was a very good race.

SWIFT AND SUKE. The name of the horse is Swift and Suke. I pointed out to the other that the Conch would beat the winner when he was in the Derby. This was not a good thing for the Derby, as the Conch was a very good horse, and the Derby was a very good race.

SECOND BEST IS THE DERBY. I pointed out to the other that the Conch would beat the winner when he was in the Derby. This was not a good thing for the Derby, as the Conch was a very good horse, and the Derby was a very good race.

LANGCAYRE'S PROGRESS. Langcayre was a very good horse, and he was a very good horse. I pointed out to the other that the Conch would beat the winner when he was in the Derby. This was not a good thing for the Derby, as the Conch was a very good horse, and the Derby was a very good race.

WEEKLY SCORE LIST. Maximum 129. I pointed out to the other that the Conch would beat the winner when he was in the Derby. This was not a good thing for the Derby, as the Conch was a very good horse, and the Derby was a very good race.

STRAIGHT TALKS ON LABOUR. No 9. THE CALL OF THE CHILDREN—AND THE ANSWER. Points of European and Native Contact.

The following series of articles record the impressions upon the staff of the Midland Hotel, Dar es Salaam, during a week of investigation in a factory of the Kenya Government in the town of Mombasa and the village of Kanga. The article will be published in a few days.

There is one great thing which is common to all the people in this town—the need to participate in the life of the community. It is not that the people are not interested in their own lives, but that they are not interested in the lives of others. The children are not the property of their parents, but of the community. They are not to be reared in isolation, but to be brought up to take their place in the life of the community.

It is the duty of the parents to bring up their children to be good citizens. They are not to be reared in isolation, but to be brought up to take their place in the life of the community. The children are not the property of their parents, but of the community. They are not to be reared in isolation, but to be brought up to take their place in the life of the community.

It is the duty of the parents to bring up their children to be good citizens. They are not to be reared in isolation, but to be brought up to take their place in the life of the community.
