THE COST OF LIVING.

Uplands Managing Director Explains the Bacon Position.

FACTORS IN THE RISE IN PRICE.

The interest of the public in the bacon question, not only as it affects the consumer through the cost of living but in its relation to the general development of the pig industry in South Africa...

It is also declared that the Government has been asked to give tariff aid so that it could be refined with safety if this method in the country could be adopted.

The high prices are attributed by him in part to the competition of other producers against the local industry.

U. S. A. STANDARD SPECIAL.

The East African Standard has reported to the importance of the subject to the public that the position was improving, and that my report was improving.

Why this should be so is difficult to explain. The well-known fact is that the majority of the producers in the Cape Province are engaged in forms of agriculture which are not so easily well pig production.

It is also to be noted that the country is not so well supplied as it was some years ago. The price of bacon has risen to 20 cents per lb.

The fact that my own Commission has shown that the position has improved in the Cape Province since my last visit, during the time 1908-9, is not so much the case in the other parts of the country.

cost of production; (even when the high price of the pig is taken into account) is not so high as it was some years ago.

PROBABLE PRICES.

Now, as regards present bacon prices, the following are the three sections of the economy: (1) The Cape Province.

This is complicated to some extent by the fact that while in the Cape Province the pig is raised on a small scale, in the other parts of the country it is raised on a large scale.

The present price of the bacon trade in the main to the ability of the producer to produce the bacon crop, which would not be so high as it is now.

It is also to be noted that the country is not so well supplied as it was some years ago. The price of bacon has risen to 20 cents per lb.

The fact that my own Commission has shown that the position has improved in the Cape Province since my last visit, during the time 1908-9, is not so much the case in the other parts of the country.

should be adopted wherever one of the three prices mentioned above is the prevailing one.

Uganda Cotton.

The fact in the price of the American cotton in the market is that the price has risen to a point where it is no longer possible to export it to the United Kingdom.

The present price of the cotton trade in the main to the ability of the producer to produce the cotton crop, which would not be so high as it is now.

It is also to be noted that the country is not so well supplied as it was some years ago. The price of cotton has risen to 20 cents per lb.

The fact that my own Commission has shown that the position has improved in the Cape Province since my last visit, during the time 1908-9, is not so much the case in the other parts of the country.

Uganda Cotton. The fact in the price of the American cotton in the market is that the price has risen to a point where it is no longer possible to export it to the United Kingdom.

MONDAY, Nov. 25, 1909.

The fact in the price of the American cotton in the market is that the price has risen to a point where it is no longer possible to export it to the United Kingdom.

The present price of the cotton trade in the main to the ability of the producer to produce the cotton crop, which would not be so high as it is now.

It is also to be noted that the country is not so well supplied as it was some years ago. The price of cotton has risen to 20 cents per lb.

The fact that my own Commission has shown that the position has improved in the Cape Province since my last visit, during the time 1908-9, is not so much the case in the other parts of the country.

THE COST OF LIVING.

Uplands Managing Director Explains the Bacon Position.

FACTORS IN THE RISE IN PRICE.

The interest of the public in the bacon question, not only as it affects the consumer through the cost of living but in its relation to the general development of the pig industry in this country...

FACTORS IN THE RISE IN PRICE.

The East African Standard, having regard to the importance of the subject to the mass in the event where immediate factors in the rise of bacon, framed the following question in the following terms:

During my absence this morning, all reports went to indicate that the position was improving, and on my return I find that the demand is available, as is any reasonable need. What are your views?

The factory that supplies our Company have discontinued pig production but have again been employed by hand, unfortunately, in fact, as they have been in the 7 years for the present situation. I am sorry to have been in the country, as I do not know what we are to do, though our dealings have lately shown a marked improvement.

never be re-established. It is a matter of months or at any rate two or three years in some of our other cheap tracts of land, but in this country as such prices would be raised to such a point that it would be impossible to carry out any scheme in Kenya. It is from this view point that the farmers should consider whether they are to be satisfied with the present price, or whether they are to be satisfied with the present price, or whether they are to be satisfied with the present price...

GOVERNMENT PROPOSES COAL TERMS.

Quarries Warned to Fall into Line.

It might, the Government undertakes to introduce legislation whereby the coal quarries should be treated on the same standard as that of the mines. It is stated that the Government is working day by day that prevailing conditions. After the subject of appeal by either party to it, to a national arbitration board, and the Government in the fourth clause in respect of the coal quarries, the Government is proposing that the standard of appeal should be the same as that of the mines.

Further, the national arbitration board shall be constituted for a period of six months, shall consist of an equal number of members not connected with the coal industry, one appointed by the Government and one by the quarries.

Recently, the Government will probably be asked to consider the provisions of the Mining Industry Act, 1926, relating to quarries.

DISCLAIMER BY OWNERS.

The Government's proposal will likely to prove a blow to the coal quarries. The Government is not to be held of the coalowners. The Government is not to be held of the coalowners. The Government is not to be held of the coalowners.

BRITISH MINEWORKERS' ASSOCIATION.

The British Mineworkers' Association has issued a statement regarding the Government's proposal. The Association is not to be held of the coalowners. The Association is not to be held of the coalowners.

THE GOVERNMENT'S PROPOSAL.

The Government's proposal is to treat the coal quarries on the same standard as that of the mines. The Government is not to be held of the coalowners. The Government is not to be held of the coalowners.

THE MINEWORKERS' ASSOCIATION'S VIEW.

The Mineworkers' Association is not to be held of the coalowners. The Mineworkers' Association is not to be held of the coalowners.

THE GOVERNMENT'S REPLY.

The Government is not to be held of the coalowners. The Government is not to be held of the coalowners.

THE MINEWORKERS' ASSOCIATION'S REPLY.

The Mineworkers' Association is not to be held of the coalowners. The Mineworkers' Association is not to be held of the coalowners.

J. MERRYWEATHER & SONS, Church Street, MALDEN, SURREY, ENGLAND.

Back from School! How hungry!

And how tired, too! This is the time more than any other when the child should be given a helping glass of Quaker Oats. Quaker Oats not only sustains the appetite, it nourishes and replaces the energy lost to study. It fortifies the muscles and helps in the formation of the bones. It enriches the nervous system and gives extraordinary vitality to the entire organism.

THE UGANDA CHAMBERS' 21st BIRTHDAY

Acting Governor Speaks on Past and Future

The Acting Governor of Uganda dealt briefly with the future of the Chamber in his address of view, when he addressed generally the growth of a public opinion in Kampala marking the 21st birthday of the Uganda Chamber of Commerce and Industry.

It is gratifying to me to see that the Chamber is still in existence after 21 years. It is gratifying to me to see that the Chamber is still in existence after 21 years.

It is gratifying to me to see that the Chamber is still in existence after 21 years. It is gratifying to me to see that the Chamber is still in existence after 21 years.

BISHOP'S DECLARATION OF NEW CATHEDRAL

Text of the Special Address read on Sunday.

Following is the text of the special address delivered by the Bishop of Mombasa, the Right Reverend Francis O'Connell, at the Cathedral Church in the High Street, at Nairobi, Kenya, on Sunday, Nov. 27.

The special address was given in the presence of the Bishop-elect, the Rev. Canon J. J. Roche, and a large number of clergy and lay members of the Cathedral.

It is my privilege today to make formal announcement here in the presence of God of a very definite step in the history of this Church and the development of this Diocese.

In 1904 the Diocese of Eastern Equatorial Africa was formed with the central aim of the question of the Bishop of Central Africa, Head of the African Mission. The thirty-nine Hon. Members of the Diocese, Bishop, but as it well knows, I am unwilling that you should be made to make way to Uganda northwards, and in the presence of God, we agreed at an early date that the Hon. Members of the Diocese of Eastern Equatorial Africa should be united with the Hon. Members of the Diocese of Eastern Equatorial Africa, and in the presence of God, we agreed at an early date that the Hon. Members of the Diocese of Eastern Equatorial Africa should be united with the Hon. Members of the Diocese of Eastern Equatorial Africa.

Memorial Cathedral in Mombasa

Memorial Cathedral in Mombasa, in memory of the first Bishop, the Right Reverend Francis O'Connell, Bishop of Eastern Equatorial Africa, was the subject of a special address by the Bishop-elect, the Rev. Canon J. J. Roche, and a large number of clergy and lay members of the Cathedral.

The Bishop-elect, the Rev. Canon J. J. Roche, delivered a special address to the Hon. Members of the Diocese of Eastern Equatorial Africa, in which he announced that the Hon. Members of the Diocese of Eastern Equatorial Africa should be united with the Hon. Members of the Diocese of Eastern Equatorial Africa.

Kenya's Critics.

Down the Kenyan's letter by a Kenya resident writer to the South African newspaper containing severe criticisms of the Governor who writes his critics have not as yet been published here. The letter does not go into details but merely states that the Governor has been found to be a "man of straw".

It is interesting to note that the Governor has been found to be a "man of straw". The Governor has been found to be a "man of straw" by the Hon. Members of the Diocese of Eastern Equatorial Africa.

THE DIVISION

The Hon. Members of the Diocese of Eastern Equatorial Africa were divided into two sections. One section was in favour of the Hon. Members of the Diocese of Eastern Equatorial Africa, and the other section was in favour of the Hon. Members of the Diocese of Eastern Equatorial Africa.

The Hon. Members of the Diocese of Eastern Equatorial Africa were divided into two sections. One section was in favour of the Hon. Members of the Diocese of Eastern Equatorial Africa, and the other section was in favour of the Hon. Members of the Diocese of Eastern Equatorial Africa.

SATURDAY, Nov. 20, 1926.

Experts.

This country has had an adverse financial report, and the country has not had the kind of financial amount will do to be considered. We have had the expenditure and the architectural portion of the Harbert Baker placed at the disposal of a capital amount worthy of Kenya; we have been provided with reports on the financial condition of Nairobi by Mr. W. W. James, the Imperial Commissioner of the country have been investigated by Mr. A. D. Lewis; the housing problem has been studied by Mr. A. E. Hudson who reports published this week; bills amounting of timber has been considered by Mr. Nils D. Rabbo, a Commission under a distinguished Chairman is at the moment bringing an address on a system of local government suited to the requirements of the present and the future; Professor Sir Rowland Hill is engaged in a study of the wool industry; Dr. Orr of the Rhodes Institute has visited Kenya and conducted preliminary investigations into soil and plantations, and we have still to welcome a Martin Bibolet, and a Land Bank expert. That is a very formidable list for a small Colony with the limited financial resources of Kenya and especially in a department in which we have begun just to get our feet on the ground. It is not, however, as actively considered and developed during the Kenya years. We believe that in a short period of time we shall be in a position to obtain it by heavy expenditure on certain lines of development and that, in the long run, a judicious selection of the brains of those who have been regarded in certain subjects will be a profitable investment. That is not an obvious fact, but it is one which they appreciate and we do not doubt whether this is the country employed a different set of men to investigate the managements already studied we should obtain entirely different reports. As a community we are not, of course, entirely lacking in wisdom, although in a metropolitan country it is not an immediate requirement. As an after thought we may add to the list of experts the present Lord Belper and the Hon. Mr. Forster. It is very necessary but it is not an immediate (or difficult) such a man of reports into it at all. It is a very important matter, and we have not yet had a report on the subject. We have not yet had a report on the subject. We have not yet had a report on the subject.

BRITISH WHO SUCCEEDED AS SETTLERS.

Three Thousand Families Canada Scheme.

[By Wireless.] Bicy. Nov. 17. A report is handed by the East of Canada and the Marquis de la Roche, Chairman and Vice-Chairman of the Oversea Settlement Committee, on their recent tour in Canada.

The primary purpose of being on a study had settlement in Canada, and particularly in western Canada, which program has been carried out by the families who went out from Britain during the seasons of 1925 and 1926 under the auspices of the British Government, comprising 8,281 individuals, has already been settled on farms in the Canadian Government, and although the scheme only came into operation in the Spring of 1925 it is considered to have proved a conspicuous success.

The selection of families in Britain had been made by the British Government, though there has been shown for families with farming experience, and it is a striking fact that inexperienced families, particularly those who are not as well as the experienced.

It is believed that, given the climate and markets, between 100,000 and 50,000 per cent of families settled under the scheme will be successful in the long run.

It is believed that, given the climate and markets, between 100,000 and 50,000 per cent of families settled under the scheme will be successful in the long run.

CONTROLLABILITY.

Tests for Lightness of Steering.

CORNERING AND ROAD HOLDING.

THE LOCKED PUMP IS A SEAL'D CONTAINER

You use Shell Petrol because it is well-balanced, combining all the power virtues of a spirit can have with chemical cleanliness that prevents gumming and corrosion.

SHELL THE WELL-BALANCED PETROL

Generally speaking, the lighter the steering the better, but it is not always so. A steering mechanism that is too light can be dangerous.

DOES THE CLUTCH PREFER

It is a question of balance. The clutch mechanism should be balanced so that it can operate smoothly under all conditions.

ALL the comfort, steadfastness, and economy of upkeep that have made Hupmobile cars distinctive for seventeen years are preserved, and now previous triumphs are dwarfed by the remarkable abilities of this new creation—the Hupmobile Six.

You should see it soon for this car will prove the retention of the year.

MOTOR MART & EXCHANGE LTD. Nairobi and Nakuru.

Hupmobile SIX CYLINDERS

It is a question of balance. The clutch mechanism should be balanced so that it can operate smoothly under all conditions.

It is a question of balance. The clutch mechanism should be balanced so that it can operate smoothly under all conditions.

It is a question of balance. The clutch mechanism should be balanced so that it can operate smoothly under all conditions.

GOODYEAR BALLOON TYRES. Made with SUPERWILT. THE balloon tyre, under the touch of Goodyear experience and skill, has been brought from uncertainty and doubt into established international usage.

Advertisement for CHEROKEE Long Springs-88% of Wheel Base. Long semi-elliptic springs of chrome vanadium steel—rear springs underling—total length of one rear and one front spring equalling 88% of the wheel base of the car—imagine the comfort of riding on such spring suspension! This is but one of the features that make for greater riding comfort in the new Cherokees—new from Rayburn to rear axle to provide a new value that is astonishing everybody who sees them at our Show Room.

DEPRECIATION COSTS.

(Continued from page 202.)
preferable to choose a car, the manufacturer of which do not frequently make radical changes in design, as the owner must remember that should he not be content with the out-of-date model its value will substantially become less.

It would also emphasize the fact that it is advisable to select a well-known make which has enjoyed a good reputation for a number of years, as there is always a possibility of obsolete and practically unknown manufacturers ceasing to exist.

Another point to be well understood is that a car which is well advertised is best before the public, and the more widely known a make is, the more likely to come to a manufacturer's aid. The design of a car is also important, and it is advisable to select one which shows conventional lines, as the conventional make may never be discarded to well thought-out production.

EXAMINATION

prospective purchasers should make a careful examination of the car which he is in mind to buy, as whether or not this will

be easy to keep in good tune, for the modern owner is not prepared to spend as much time on maintenance as did the motorist of a few years ago. The result is that a car which is easy to keep in good tune is usually kept in good order, whereas one which entails a great deal of attention should be made frequently in its time comes out of tune, and is neglected. That of course, will affect its second-hand value considerably.

In this connection the position of racing points, the ease with which they may be carried out and the simplicity or otherwise of cleaning the car occupy a position of primary importance.

The results of the field meet will not be published and a very good indication of the race is obtained by observing the state of the post, which will give a fair idea of the number of favoured cars on the track.

It may be mentioned that not before has been so well preferred, as they are much more durable than the other types of material, and in addition, they are easier to clean. For obvious reasons too many plated cars should be avoided.

The quality of the upholstery should be examined carefully, with a view to judging how it will wear. When an upholsterer makes any repair by impression on a leather seat, the repair is usually made in a way which is not particularly pleasing to the eye, and it is better to have a seat which is made in the first place of a material which is more durable than leather.

It should be pointed out that the most successful treatment during the first 200 miles is to run the car at a moderate speed, and to avoid any heavy work, as this will be essential if it is to give of its best

HOME ATHLETICS.

Opening of Road Racing Season.

THE FIRST MEETING.

(From Our Own Correspondent.) London, Oct. 21. Motor racing, which will now advance with each passing week, when some men have not yet started, has not yet begun to open its eyes to the fact that the racing season is now open, and that the racing season is now open, and that the racing season is now open.

FINISH.

The Cambridge Harrier's 21 miles race at Epsom on Saturday was the second such feature of the season, and received considerable support, one fewer than eight years previous.

For several years a speed of 30 m.p.h. should not be recorded, and the driver should avoid on the fastest pace.

These who have not previously driven a car would do well to have a car which is made in the first place of a material which is more durable than leather.

min. 30 sec., and returned the leading time of 16 min. 51 sec. Cambridge Harrier, with a total of 29 points, won team honours from Sharnbury Harrier and Horse Hill Harrier.

Cambridge Harrier ran short race on the road from about where St. Mary's (Horsy) Harrier from Southgate utilized a road course for their morning open race at Old Bocking. The competing country has been hampered under the fast and moist damp conditions, but still did not interfere with the average.

FINISH.

Other club meetings were held on Saturday, and more for intensely spirited, and Epsom Harrier, in particular have caused to be satisfied with the support.

Another notice to do well was R. H. Hild, who averaged a time of 14 min. 11 sec., of the Race High Harrier, instead of the 14 min. 11 sec. of the Race High Harrier.

Wigness Harrier held a "house" race over a three-mile road course at Hampstead Heath and a member of the promoting

club in St. Taylor was the leading time of 16 min. 7 sec. Once Harrier held their first race on the course, a five-mile handicap, as champion on Saturday, and though Harrier's opponent A. H. Har, the club's first, who was at several points in this race, were washed out, and no backmarker was sufficiently near to give him a chance of going up ground in the early stages.

There was not in the first round, and the limit was 20 min. 10 min. start being first in the leading time of 22 min. 9 sec. E. S. Gombos (11.50) second and R. H. Cross (12.00) third and whose time was 22 min. 54 sec.

THE WALKERS.

Walkers showed some competitive activity on Saturday, the Surrey Walking Club being their main season with a series of 10 miles from South City in the first of several such events in which points will be scored for the month.

Another notice to do well was R. H. Hild, who averaged a time of 14 min. 11 sec., of the Race High Harrier, instead of the 14 min. 11 sec. of the Race High Harrier.

Wigness Harrier held a "house" race over a three-mile road course at Hampstead Heath and a member of the promoting

Studebaker Brockway The SUPER CAR The SUPER TRUCK The SUPER TRACOR. Sole Agents K. McIVOR & Co., Sixth Avenue, NAIROBI.

How far do you intend to drive your CAR?

Nearly any automobile to-day will give you good results for the first 10,000 miles. That's the reason for the general impression that "almost any car is a good car to-day." But before you buy another motor car compare your experience as an owner to that of some friend of yours who owns a Buick. He will tell you that Buick design, Buick quality performance retains their fitness through the second, third and many following tens of thousands miles.

This result is certain. Buick is more expensively built than motor cars in its price class apparently need to be. Any Buick dealer will be glad to show the many uncommon features of Buick design, and to point out the reason for their extra stamias. Enormous volume makes possible superior construction at the Buick price. Buick is an outstanding exception to the belief that "almost any car is a good car to-day." Buick is a better car!

A New Sport Club.

POLICE ORGANISE THEIR OWN ASSOCIATION.

A new sporting and athletic body has been formed in Nairobi which promises to be very active in the opening weeks of December. In most activities members of the Police Force always take part. The prominent part and have been the members of the Police Athletic Club of which they have both members and non-members. For some little time the members of the Police Athletic Club have been organising a variety of sports and social events. The members thank gladly to the enthusiasts and the members of the Police Athletic Club who have been so kind to accept an invitation to the first meeting. The members of the Police Athletic Club have been so kind to accept an invitation to the first meeting. The members of the Police Athletic Club have been so kind to accept an invitation to the first meeting.

district has contributed to the history of the colony, while keeping in all but this matter to be taken in mind. It is well known that for 100 years the history of the East African Colony has been written on a plain, and that the people who have lived in this country have done so. It is a shame to see that the people who have lived in this country have done so. It is a shame to see that the people who have lived in this country have done so.

The new Lady Dering was expected to arrive in England yesterday, and she will be met at the station by her brother, Lord and Lady Dering, and her mother, Lady Dering. She will be met at the station by her brother, Lord and Lady Dering, and her mother, Lady Dering.

THE SUNDAY.

To the Editor, "E. J. Standard."
It has been noted with much concern from time to time that there are numbers of persons who are ignorant of the duties of the British subject. These numbers are increasing. There is a need for a more complete knowledge of the duties of the British subject. It is a pity that the British subject is not better informed of his duties. It is a pity that the British subject is not better informed of his duties. It is a pity that the British subject is not better informed of his duties.

Every quality that is built into any product is measured finally by the degree of its acceptance by the public. Only the best can hope to win and hold the public approval, for approval has ever been based on confidence and confidence must be earned.

Public confidence has made the FORD TOURING the world's most popular passenger car. It has pioneered motor transportation in every quarter of the globe and boasts of fundamental verities has maintained an established leadership.

It costs little to buy, to operate and to maintain and it provides every essential of comfortable and efficient passenger transportation. Selection of three body colors in durable lacquer: Mahogany, Grey and Green.
