KISUMU KHARTOUM Air Service Selects Buick

DEMANDING a car possessing extreme reliability under severe conditions — power — speed — strength and roadability to a degree seldom asked for or expected, the North Sea Aerial & General Transport Ltd. have selected a new 1927 model Buick as their official service car.

With all the cars in the world to choose from, Buick was selected by the engineering staff of this great aerial transport company, a body of technical men whose intimate

knowledge, experience and keen appreciation of fine engineering is probably not excelled in the world to-day.

The route of this car may lie across the sandy desert — over rock strewn wastes — through deep mud or thick forest scrub.

Carrying tools, a spare aeroplane engine, mechanics and emergency supplies, this car to dash to the assistance of any mail aeroplane in trouble.

KISUMU-KHARTOUM Air Service Selects Buick

DEMANDING a car possessing extreme reliability under severe conditions — power — speed — strength and roadability to a degree seldom asked for or expected, the North Sea Aerial & General Transport Ltd. have selected a new 1927 model Buick as their official service car.

With all the cars in the world to choose from, Buick was selected by the engineering staff of this great aerial transport company, a body of technical men whose intimate

knowledge, experience and keen appreciation of fine engineering is probably not excelled in the world to-day.

The route of this car may lie across the sandy desert — over rock strewn wastes — through deep mud or thick forest scrub.

Carrying tools, a spare aeroplane engine, mechanics and emergency supplies, this car will be held at Kisumu, ever in readiness to dash to the assistance of any mail aeroplane in trouble.

Further Convincement Needed
CAN ANYTHING BE BETTER PROOF???

We have received the following letter from a language territory reading as follows: F. E. Viver, Esq., Game Department, I have used the long barrel on Elephant. It is undoubtedly a superior weapon. I have used the long barrel on Elephant with the short barrel 2.25 and consider it a most efficient I consider on short and medium such as Elephant, I think, it is superior to the 2.25 or long and keep the 28" gun in my opinion the long 28" barrel gun is the best medium bore on the market. Presently I have kept a number from a 900 down to 2000 down to Elephant and I consider the 9.6x32. mm. the best weapon.

Yours Sincerely,
(sd) F. E. VIVER,

Unseen Sources of Long Life

A motor car, like a house, may LOOK elegant but more substantial than it really is.

Dodge Brothers Motor Cars, however, have proved, through twelve years, that their makers are even more deeply concerned with the unseen goodness than with the seen.
