# KISUMU-KHARTOUM Air Service Selects Buick

**DEMANDING** a car possessing extreme reliability under severe conditions — power — speed — strength and roadability to a degree seldom asked for or expected, the North Sea Aerial & General Transport Ltd. have selected a new 1927 model Buick as their official service car.

With all the cars in the world to choose from, Buick was selected by the engineering staff of this great aerial transport company, a body of technical men whose intimate

knowledge, experience and keen appreciation of fine engineering is probably not excelled in the world to-day.

The route of this car may lie across the sandy desert — over rock strewn wastes — through deep mud or thick forest scrub.

Carrying tools, a spare aeroplane engine, mechanics and emergency supplies, this car will be held at Kisumu, ever in readiness to dash to the assistance of any mail aeroplane in trouble.

MOTURING TOPICS

Life is a Game with Health born of Perfect Teeth

Gibbs Dentifrice FISHING IS THE TIME TO GET SOME GOOD SPORT, AND SOME NICE FISH

MAY & Co. THE SPORTS HOUSE. Phone 32 NAIROBI P.O. Box 47

Theo. Schouten. Ladies and Gentle Hairdresser. The oldest Established, most up to date, premises.

TAWHARI KIA ORA STORE NAIROBI. THE PREMIER UP-COUNTRY STORE.

INSIST ON HAVING VOONIA GARDEN TEA that delicious from CEYLON which is both fragrant and invigorating

Blacklaxs & Brown MACKENZIE BROTHERS, NAIROBI.

THE SPEEDMETER. How to Fix it and a Motor Cycle.

THE COMMON SENSE WAY. There is far more in the history of a speedometer to be known than the mere slipping of the instrument to the handle-bar and setting it to zero.

THE CLEAN BOY. To be judged the greatest of them all the clean boy, naturally.

HEAT OF THE ENGINE. HINTS REGARDING WATER TEMPERATURE.

Some time ago, says an exchange reviewer in the course of a moderately powerful car to the top of one of the steep passes of the Alps, a gentleman...

Many people driving motor cars do not realize that this is a fact, and when the indicator of their water thermometer ascends to a high point...

PROVIDED THE CAR WHICH IS ACCUSTOMED TO WATER-COOLING is not being functioning properly, the water level is high enough, and the water passages and radiator are clean...

THE SPARK PLUGS. The spark-plugs, working from motor spark-plug, and power economy is only secured by having the engine hot.

COPIER. Copier operation also necessitates examination of the state of the water supply resulting from down-jaw into the crank-case.

WATER SUPPLY. Water supply is carried down into the crank-case with low, fine particles of road dust, metal, carbon, etc.

LONG JOHN. ADVISOR TO PASSENGERS ON THE CAMBERR. In view of the widespread popularity of pillow-tide, a few words on the right and wrong methods might not be misplaced.

Reliance Transport. The largest Motor Transport Co. in the East. COFFEE PLANTERS, IMPORTERS, EXPORTERS.

## KENNEL NOTES

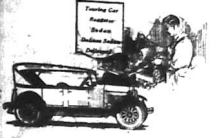

Margaret Coyte

Miss Collier, right, to whom our "Kennel Notes" should be addressed, is responsible for the accuracy of the news items made on information supplied by her. She has just great ideas on the subject of the "Kennel Notes" and is a very keen observer of the dog world. Her notes are published in this column every week, and are of great interest to all dog lovers. Her notes are published in this column every week, and are of great interest to all dog lovers.

There are many dogs in the world, and each breed has its own characteristics. Some are bred for show, some for work, and some for companionship. It is important to know the difference between the breeds and to choose the one that is best suited to your needs.

The dog world is a very interesting one, and there is always something new to learn. If you are interested in dogs, you should read the "Kennel Notes" regularly. They will give you a lot of useful information and keep you up to date on the latest news in the dog world.

## Unseen Sources of Long Life

A motor car, like a house, may LOOK a great deal more substantial than it really is.

Dodge Brothers Motor Cars, however, have proved, through twelve years, that their makers are even more deeply concerned with the unseen goodness than with the seen.

The expense saved, the trouble avoided and the dependability enjoyed in comfort by owners of Dodge Brothers Cars over a period of years, are quite as important as the more obvious details of equipment and style.

# To New Heights of Masterful Performance

With New Body Lines New Colors and Beauty

# HUDSON

In the more beautiful Hudson Essex cars of to-day you will find fulfillment of practically every motoring desire—and at the price you want to pay.

The Touring models present new lines of grace and beauty, in smart combinations of body finish and genuine leather upholstery. Their distinction in performance is combined in appearance that is suitable among the finest cars.

For those who want closed car advantages, the Coach offers handroom and more coloured bodies with nimble, smooth performance and reliability for which the Super-Six is famous. Custom built quality is provided in Hudson Brougham.

More than 800,000 cars have been built by Hudson and Essex on the Super-Six principle. In materials, workmanship and performance, value and performance, these are the best.

Printed and Published by EAST AFRICAN STANDARD, Ltd., High Street, Nairobi, Kenya.

# KISUMU & KHARTOUM Air Service Selects Buick

**DEMANDING** a car possessing extreme reliability under severe conditions — power — speed — strength and roadability to a degree seldom asked for or expected, the North Sea Aerial & General Transport Ltd. have selected a new 1927 model Buick as their official service car.

With all the cars in the world to choose from, Buick was selected by the engineering staff of this great aerial transport company, a body of technical men whose intimate

knowledge, experience and keen appreciation of fine engineering is probably not excelled in the world to-day.

The route of this car may lie across the sandy desert — over rock strewn wastes — through deep mud or thick forest scrub.

Carrying tools, a spare aeroplane engine, mechanics and emergency supplies, this car will be held at Kisumu, ever in readiness to dash to the assistance of any mail aeroplane in trouble.

**MOTOR TOPICS**

**THE FUEL BILL**  
**How Consumption Can be Decreased.**  
**SIMPLE METHODS.**

Adopting fuel economy is not an all-or-none proposition. The driver can save fuel simply driving his car in a more economical manner. It is not necessary to overhaul the engine, or to change the oil, or to use any special fuel. It is only a matter of driving the car in a more economical manner.

First, the driver should check the tire pressure. The tires should be inflated to the correct pressure. Over-inflated tires will cause the car to ride on a smaller contact patch, which will increase the rolling resistance and thus increase the fuel consumption.

Second, the driver should check the engine oil level. The oil should be changed at the correct intervals. Old oil is more viscous and will cause the engine to work harder, thus increasing the fuel consumption.

Third, the driver should check the air filter. A dirty air filter will restrict the flow of air to the engine, which will cause the engine to work harder and thus increase the fuel consumption.

**SOME DRIVING TIPS.**  
In conclusion, it may be pointed out that the driver should always drive in a more economical manner. This means driving at a steady speed, avoiding unnecessary acceleration and deceleration, and using the gears in a more economical manner.

It is also important to check the car regularly. This means checking the tire pressure, the engine oil level, the air filter, and the brakes. Regular maintenance will help to keep the car in good condition and will thus help to reduce the fuel consumption.

**NEW GOODS**  
New Motor Freighting Truck  
Globe Valve  
M. P. de KEELO,  
Govt. Road,  
NAIROBI.

**Unseen Sources of Long Life**

A motor car, like a horse, may LOOK a good deal more intelligent than it really is. Dodge Brothers Motor Cars, however, have proved, through twelve years, that their machines are even more deeply concerned with the unseen goodness than with the seen.

The expense saved, the trouble avoided and the dependability enjoyed is comfort by owners of Dodge Brothers Cars over a period of years, as quiet as important as the more obvious details of equipment and style.

**SWIMMING TENNIS DANCING**  
Apply Manager: Royal Victoria Hotel, NAIROBI.

**BEGINNING TUNING.**

Tuning is the engine, that is, the adjusting of the valves to the correct setting. This is done by adjusting the amount of petrol entering the cylinder, and the amount of air entering the cylinder. The valves should be adjusted so that the engine will run smoothly and efficiently.

The first step in tuning is to check the valve clearance. The valves should be adjusted so that there is a small gap between the valve stem and the valve seat. This gap is called the valve clearance. If the valve clearance is too small, the valve will not open properly, and the engine will not run smoothly. If the valve clearance is too large, the valve will leak, and the engine will not run smoothly.

**Speed Merchants.**

A BRIT HARBEST IN FINES IN ENGLAND.  
London, December 20.  
Flies appeared at the 11th point-count in Bury during the night of December 19-20, 1925. The first fly was seen at 11.12; most of which was paid by several flies. The first fly was seen at 11.12; most of which was paid by several flies.

**ENLARGEMENTS**

Enlargements of motor cars. The most common enlargement is the conversion of a motor car into a light truck. This is done by adding a chassis and a body to the motor car. The motor car is then used as the engine and transmission for the truck.

**MAY & CO.**

**SANDS & Co.,**  
AUCTIONEERS.

## NOTICE.

The terms of Reference of the Labour Commission are as follows—

To examine and report upon the needs of the Colony in respect of African labour outside the Native Reserves and to examine and report upon the following matters:

- (i) The needs of the Colony in African labour for coming year, with regard to the agricultural, industrial and other development.
- (ii) The probable rate of development of the various agricultural industries in the near future, and their needs in respect of African labour.
- (iii) What measure of improvement, if any, may be adopted for the better use of the labour supply now engaged in public or private work.
- (iv) To make any recommendations to which the enquiry under (i), (ii) and (iii) may lead them.

The enquiry shall be limited to areas outside the Native Reserves.

Any person who desires to give evidence before the Commission should communicate with the Secretary, Labour Commission, Agricultural Department, Nairobi, enclosing a memorandum covering the matters which he desires to place before the Commission.

D. L. BLUNTY,  
Secretary.

## THE KILIMANJARO AREA

### A District with Immense Potentials.

#### A VISITOR'S VIEW.

The following account of a trip through the Kilimanjaro district of the various ventures, has been supplied by a resident of Nairobi, who recently returned through this one while on his way from Mombasa to the Kenyan coast.

rather unhealthily, but under a better developed a very promising future. Many of the best of the district, however, have been ruined by the ravages of the locusts, which have done much to reduce the value of the area. The district is a very fertile one, and the soil is very rich. It is a very fertile one, and the soil is very rich. It is a very fertile one, and the soil is very rich.

Farms. Among farms are numerous small plantations, scattered over the district. These are mostly of the rubber tree, which is a very valuable tree. It is a very valuable tree, and the soil is very rich.

#### NATIVE EDUCATION.

We were privileged to visit the Native School at Mombasa, which appears an excellent one. It is a very good school, and the teachers are very capable. It is a very good school, and the teachers are very capable.

**Ready to serve**
