**New Heights of Speed,
Power and Safety.**

*Lack of vibration at all speeds;
minimum of pressure required on foot
pedals, ease of engaging clutch, entire
absence of side sway; perfect road
stability, passenger relaxation over
every kind of road, four wheel brakes
of the most dependable type known;
oil filter, air filter, petrol filter,
exclusive vacuum crankcase ventilation
system, counterbalanced crank-
shaft, harmonic balancer on the
crankshaft, insulated chassis, over-
head valves, dual valve springs.*

*Owners of these new Buick creations
express amazement at their im-
mense acceleration, power and
silent, vibrationless running.*

*Try any other make of car and then
drive the new Buick. You, also,
will be surprised at the difference
between the Buick and any other car
you may have driven and thrilled at
the new conception of road performance
where this wonderful car will give you.*

FOR more than two years
the stupendous engineering
resources of Buick and General
Motors have been concentrated
on the development of the new
1927 Buick, a car which now
easily tops any accomplishment
thus far known.

In performance, power, stamina and
economy of operation there is nothing
with which to compare it.

This wonderful new Buick has an ease
of control, quietness of operation,
swiftness of acceleration and beauty
of line that are absent in even the
costliest of cars.

THE CAR SPRINGS.
How to Get Rid of Bump and Grit.
LUBRICATION METHODS.

Nothing is more detrimental to the efficient action of road springs than rust and grit, which not only make the suspension of a car very rough, but they also wear the springs. This trouble was very prevalent a few years ago when springs were heavily coated with grease and dirt. A considerable amount of trouble had to be taken in the course of a year in order to keep a spring working efficiently.

The standard of spring material has risen so that it is now possible to get more life out of them. They can now be made to resist rust and dirt, and they are now made to resist wear and tear. The springs are now made of a special steel which is very hard and strong. This makes them very durable and they will last for a long time.

FURTHER CONVICEMENT NEEDED CAN ANYTHING BE BETTER PROOF ???

We have received the following letter from—

"I am glad to hear that the S.A.M. is long been on the market. It is undoubtedly a superior weapon. I have tried smoking the 40 cigarettes with the Short Barrel S.A.M. and consider it a most efficient weapon on the market. The long barrel gun however seems to possess accuracy from 100 yds. and I consider on that side it is superior to the 40 and 500 yds. and can keep the 500 yds. in my opinion the long barrel is the best medium here on the market. Personally I have tried everything from a 200 yards on the market, and I consider the S.A.M. long the ideal weapon."

"This year, Next year, Sometime, Never."

Always tell off your stores? Nobody is too old to enjoy the fun of this little "meal-time romance."

Bird's, the Pure Custard, goes like Summer cream with all stone fruits. Nothing is so delicious as Bird's Custard with peaches, apricots, plums, or prunes.

This year In the golden Summer, enjoy every fruit as often as possible, with plenty of Bird's Custard.

Sometime It is the good to use when Bird's Custard and sweet fruit fruit is in season. Enjoy them now.

Next year will bring us our delicious fruit, but Bird's Custard is available as ever.

Never forget that Bird's supplies the enjoyment when fruit lacks its usual lusciousness.

**New Heights of Speed,
Power and Safety.**

Lack of vibration, an equally
minimum of gears, rigid up full
pedals, ease of engaging clutch, calcu-
lance of axle work, perfect road
stability, passenger relaxation over
every kind of road, four wheel brakes
of the most dependable type, known
oil filter, oil filter, petrol filter,
rubber vacuum cushions, credit
ing system, automatic clutch,
shell, harmonic balancer on the
roadwheel, modified chassis, over-
head valves, dual valve springs.

Owners of these new Buick creations
express amazement at their in-
creased acceleration, power and
speed, comfortable running.

Try any other make of car and then
drive the new Buick. You also
will be surprised at its difference
between the Buick and any other car
you may have driven and finding it
the new conception of road performance
and the wonderful car with you.

FOR more than two years
the stupendous engineering
resources of Buick and General
Motors have been concentrated
on the development of the new
1927 Buick, a car which now
easily tops any accomplishment
thus far known.

In performance, power, stamina and
economy of operation there is nothing
with which to compare it.

This wonderful new Buick has an ease
of control, quietness of operation,
swiftness of acceleration and beauty
of line that are absent in even the
costliest of cars.

Unseen Sources of Long Life. A motor car, like a house, may look a great deal more substantial than it really is. Dodge Brothers Motor Cars, however, have proved, through two years, that their makers are even more deeply concerned with the unseen goodness than with the seen. The expense saved, the trouble avoided and the dependability enjoyed in comfort by owners of Dodge Brothers Cars over a period of years, are quite as important as the more obvious details of equipment and style. **New Heights of Speed,
Power and Safety.**

Look of vibration at all speeds; minimum of pressure required on foot pedals; ease of engaging clutch; entire absence of side sway; perfect road stability; homogeneous vibration over every kind of road; four wheel brakes of the most dependable type known; air filter; oil filter; petrol filter; exclusive vacuum crankcase ventilation system; counterbalanced crankshaft; harmonic balancer on the crankshaft; insulated chassis; over-head valves; dual filter springs.

Owners of these new Buick creations express amazement at their tremendous acceleration, power and silent, vibrationless running.

Try any other make of car and then drive this new Buick. You also will be amazed at the difference between the Buick and any other car you may have driven and thrilled at the new conception of road performance this wonderful car will give you.

FOR more than two years the stupendous engineering resources of Buick and General Motors have been concentrated on the development of the new 1927 Buick, a car which now easily tops any accomplishment thus far known.

In performance, power, stamina and economy of operation there is nothing with which to compare it.

This wonderful new Buick has an ease of control, quietness of operation, swiftness of acceleration and beauty of line that are absent in even the costliest of cars.

E.A. KERNEL CLUB'S LEADY PROGRESS.
1926 Show Balance in Hand.
SHOW SUCCESSFUL.
The Annual General Meeting of the East Africa Kernel Club was held in the North Hotel, Nairobi, tonight, presided by Mr. James Labrecque, who presided over a most successful and interesting session.
Mr. Chairman in presenting his report for the past year said that he felt an immense amount of credit was due to the Club for having spent a year ago on retaining Dr. H. G. B. Smith as its medical officer, and for the numerous financial matters. He was now pleased to say that, in the result of the past year, the Club was in a position to meet the needs of the members who would shortly be presented to you by the Secretary should an excess of receipts over expenditure of £1,000.

The Secretary had a Report of the Championship Show on October 15, at the grounds of the Agricultural and Horticultural Society. The show was a success, and the Secretary had a great deal to say about it. He stated that the standard of the exhibits was higher than in any previous year, and that the quality and quantity were of an excellent nature.
Two important days were spent in the profit of Champion at the show, and the Club was able to secure a number of valuable specimens.

CAN ANYTHING BE BETTER PROOF ???

We have received the following letter from—

"I have read the 8.2.26. long letter to Dupont. It is undoubtedly a suggestive version. I have killed something like 40 Blaphasts with the Blue Bull 8.2.26. and consider it a most efficient weapon on Blaphasts. The long letter has been sent to my personal copy of the Bulletin of Dupont. On this kill animals such as Amphisbaena and Salamanders is the 21st of 200 Blaphasts. Moreover your D.W.F. Amphisbaena was never hit on a head, but my 8.2.26. killed everything from a 200 down to a Blaphast and I consider the 8.2.26. the best idea weapon."
