NORTHERN ARMIES ADVA.

THE POLICE for the seven Nairobi North and South which took yesterday resulted as follows:

Nairobi North	
Mr. H. P. Wain	181
Mr. G. O. Hill	130
Majority	51
Members of 1918 election:	
Mr. J. W. Ward	127
Mr. H. P. Wain	148
Mr. C. G. Hill	54
Majority	21
Members of 1914 election:	
Mr. H. P. Wain	147
Mr. S. A. Wood	104
Majority	43

An ill fit seems to be pining Captain Gillestone, the pilot at charge of the experimental Blenheim-Kenya flight.

The machine was expected to reach Kenya yesterday but in the morning, Major, Captain Gillestone received a telegram from Mongalla at which Captain Gillestone was informed that the Blenheim was ready in the estimated time, and there was no further obstacle, the machine should reach Nairobi on Monday and leave again on Tuesday.

The Ministers of the Interior and of Foreign Affairs have been arrested.

It is estimated that if there is no further obstacle, the machine should reach Nairobi on Monday, February 9.

Mr. Chamberlain's speech in the House of Commons on the 27th inst. was the first since the opening of the session.

It is estimated that if there is no further obstacle, the machine should reach Nairobi on Monday, February 9.

It is estimated that if there is no further obstacle, the machine should reach Nairobi on Monday, February 9.

It is estimated that if there is no further obstacle, the machine should reach Nairobi on Monday, February 9.

It is estimated that if there is no further obstacle, the machine should reach Nairobi on Monday, February 9.

It is estimated that if there is no further obstacle, the machine should reach Nairobi on Monday, February 9.

NO WAITING.
Boats Mr. Wright and Capt. Gillestone were expected to arrive with a fine morning but the weather was so bad that the machine could not start until 10 o'clock and it was not until 11 o'clock that the machine was in the air.

IRISH CLAIMS TRAGEDY.
The following is the result of the election for Nairobi North.

THE POLICE for the seven Nairobi North and South which took yesterday resulted as follows:

THE POLICE for the seven Nairobi North and South which took yesterday resulted as follows:

DISGRACIATION.
Particularly at the polling stations closed, and the returning officers announced their count.

FURTHER CONVICEMENT NEEDED
CAN ANYTHING BE BETTER PROOF ???

We have received the following letter from—
MAGNUS VIVERS, Trading as follows:—
I have used the S.M.M. long barrel gun for some time. It is undoubtedly a superior weapon. I have not something like 40 Ensigns with the short barrel S.M.M. and consider it is more efficient in order to take into account such as Ensigns and Rifles. It is superior to the 210 or 215 gun and beats the 210 gun.
In my opinion the long 21" barrel gun is the best medium bore on the market. Personally I have used everything from a 100 or over on Ensigns and I consider the S.M.M. long barrel weapon.

Yours Sincerely,
(Sd) F. E. VIVERS,

CROSS Power KEROSENE

Pulling Power For Every Tractor

KEROSENE is a power fuel for tractors which has been perfected by Shell petroleum chemists in cooperation with the world's recognized authorities on internal combustion engines.

Being an exceptionally volatile power kerosene, Cross provides complete combustion in tractor engines, and thus develops maximum power with low fuel consumption and minimum carbon deposit.

Your tractor will run better and deliver more power on CROSS.

FURTHER CONVICEMENT NEEDED

CAN ANYTHING BE BETTER PROOF???

We have received the following letter from—

I have used the KARAGOLA long barrel gun frequently. It is absolutely a Superior weapon I have liked nothing like it to Equiphase with the short barrel KARAGOLA and consider it is most efficient even on Elephant. The long barrel gun handles much better and is superior to the 318 or 310 Magazine. Moreover your D.W.M. Ammunition can be used as well. I shall sell my short barrel gun and keep the 29" one.

In my opinion the long 29" barrel gun is the best weapon on the market. Personally I have used everything from a 400 calibre to Elephants and I consider the 29" is a long the ideal weapon.

Yours Sincerely,
 (s) P. E. VIVIER

Unseen Sources of Long Life

A motor car, like a house, may LOOK a great and more substantial than it really is.

Dodge Brothers Motor Cars, however, have proved, through twelve years, that their makers are even more deeply concerned with the unseen sources than with the seen.

The reasons are, the trouble avoided and the responsibility enjoyed by owners of Dodge Brothers Cars over a period of years are just as important as the more obvious details of equipment and style.

- SPRING CAR £215
- SERIAL TOURER £250
- SPORTS TOURER £260
- COMMERCIAL CAR £260

STATIONERY

AT THE
Standard Stationery Stores

PROBLEM No. 595
Original to the "E. A. Standard".

White to move.

White to move. The chess column will be disappointed from today until after my return from England. Solutions to the problems below will appear next week in my column. Any chess items of most interest that I come across in my travels I shall send to the Editor for publication amongst the ordinary cases, and it is hoped that hereafter all the East African Chess Club will do the same. Amateurs of matches and tournaments taking place at the Nairobi Chess Club will appear in the Daily news on Thursdays. Under the Standard Club.

White to move.

PROBLEM No. 596
A Real Game. W. F. 13 Patent.
White, (White)

White to move. The chess column would like to see the solution of this problem in your issue, and my task, as Editor and entertainer, most agreeable.

White to move. The chess column would like to see the solution of this problem in your issue, and my task, as Editor and entertainer, most agreeable.

PROBLEM No. 597
Original to the "E. A. Standard".

White to move. The chess column would like to see the solution of this problem in your issue, and my task, as Editor and entertainer, most agreeable.

Chess
King moves when the "stupid" mate is indicated. We have mentioned before that it seems to be Anderson's special set to make experts, rather than novices at writing. No solution has come from W. S. P. Ford, and "Gore" drops 2 points for changing a cook, the bird and several other items. The editor has just received some solutions from Anderson, and I hope they will do you again.

FINAL SCORE LIST

P. N.	TK	ST
Gore	12	12
W. R. N. Fowler	10	10
W. S. P. Ford	9	9
F. J. Huggins	9	9
O. Tanner	6	6
R. H. Johnson	5	5
"D. E. L."	5	5
"D. E. L."	5	5
O. P. Jennings	2	2
"D. E. L."	2	2
E. C. Brayne	2	2

RESULTS OF COMPETITION
FIRST PRIZE, GOLD MEDAL with the score of 10 out of a possible 12.

Second Prize, Silver Medal: W. R. N. Fowler, 10.

Third Prize, Bronze Medal: W. S. P. Ford, 9. F. J. Huggins, 9.

Others: O. Tanner, 6; R. H. Johnson, 5; "D. E. L.", 5; "D. E. L.", 5; O. P. Jennings, 2; "D. E. L.", 2; E. C. Brayne, 2.

FURTHER SOLUTIONS
PROBLEM No. 597 ("The Rat"). Not unnecessary as there was to be.

Solution: 1. Q-Q4, 2. K-K4, 3. K-K4, 4. K-K4, 5. K-K4, 6. K-K4, 7. K-K4, 8. K-K4, 9. K-K4, 10. K-K4, 11. K-K4, 12. K-K4.

and Brayne who obtained 2. Q-Q4 as the continuation, overlooking the check by the White King discovered by W. S. P. Ford from a 6-11.

PROBLEM No. 595 (Kipping): 1. K-Q4, 2. B-B2, etc. Illustrating the simple and discovered check by the Black King which was interesting, the latter I found difficult as well as "Gore".

PROBLEM No. 596 (Talbot): 1. Q-Q4!! Obviously correct but Q-Q4!! was a right move. The chess column had "black" which takes time to solve. There are 3 variations in this little two-move which I venture to say will receive favourable comment at home.

PROBLEM No. 597 (Kipping): 1. K-Q4, 2. B-B2, etc. The other 10-10 accordingly. This is a difficult hard problem, deserving a double upshot. White and Black.

PUBLIC GAMES EAST AFRICA
You are about 10 miles, ranging from Class 1 to Class 7, are reported by W. S. P. Ford, the same being the Secretary of the Public Club. In the last report he was commended in making the Champion of the "Public Club" which was held in a playing hall. There are the only three 1/2 players in the country, Colonel Smith in Class 4, and the rest are in Classes 5-7.

A new chapter is now being written in tyre usefulness and stamina by the Goodyear Cord material - "SUPER TWIST". Its greater elasticity provides greater protection from bruises, shocks and jots and means much bigger tyre mileage.

A GREAT tyre is the Goodyear Heavy Duty Cord, and a great value for the man whose driving calls for extra tyre stamina. Stronger, heavier and more massive, it is built to withstand severe work. Its powerful body is made of the superior cord material SUPER TWIST, and its sidewalls reinforced against rutwear.

MOTORING TOPICS

THE NOVICE DRIVER.

Elements and Phases of Steering.

PRIMARY ESSENTIALS.

The art of steering is invariably one of the first things which the novice has to master. At first sight it seems a simple matter. To an expert it is only as with many other things, there is more in it than meets the eye. In the early stages of driving the attention is naturally attracted to the frequent adjustments—on the one hand to the steering wheel, and on the other to the pedals. It is only as the driver becomes more experienced that he begins to realize the importance of the steering wheel, and the fact that it is the only part of the car which he can control with his hands. He begins to realize that the steering wheel is the only part of the car which he can control with his hands. He begins to realize that the steering wheel is the only part of the car which he can control with his hands.

The novice who experiences it may not be quickly alarmed, but on the other hand, he must take adequate precautionary measures until he has overcome it. One of the phases of those it is to show down when moving around corners. It is necessary to attack upon the proper proportion in the use of the steering wheel. The driver should force on the controls the knowledge that he is controlling a very important part of the car and that if he does not wait it up to towards the right it cannot be.

COMFORTABLE POSITION. The first requisite for adequate steering is a really comfortable driving position. Experienced motorists know well how important it is to be comfortable when driving. In this sense comfortable does not mean merely a comfortable position, important though this be, but rather a more comfortable position for the efficient accomplishment of the various movements necessary when driving. This has an important bearing on the possibility of accurate steering by control. If the driver cannot comfortably see the precise inter-relationship between his own car and an

other vehicle it is always necessary to "play for safety" by allowing a good distance space between them. It is nearly as well to allow too much room between the two cars as to allow too little. If the novice is naturally shy he will, when steering the wheel, not be inclined to get through it with a sudden movement. It is better to have a steady, continuous pressure on the wheel than to have a sudden movement. It is better to have a steady, continuous pressure on the wheel than to have a sudden movement.

BRACING FOR TROUBLE. The best way to train one's self to meet trouble with regard to steering positions is to drive carefully that they are not likely to arise. In practice, however, we have to consider the most serious of right corners and how to meet them. The first thing upon which it is desirable that a novice should be made to dwell is the fact that the steering wheel is the only part of the car which he can control with his hands. He begins to realize that the steering wheel is the only part of the car which he can control with his hands.

When the novice can see very early into the distance, it is necessary to have a steady, continuous pressure on the wheel than to have a sudden movement. It is better to have a steady, continuous pressure on the wheel than to have a sudden movement.

right and then at the other in slight. The whole attention should be concentrated on just steering the car, steering a right-angled steering wheel. It is quite sufficient to look from side to side. No amount of looking will make it possible to get through it with a sudden movement. It is better to have a steady, continuous pressure on the wheel than to have a sudden movement.

When the object on the right has been successfully passed the driver will be inclined to get through it with a sudden movement. It is better to have a steady, continuous pressure on the wheel than to have a sudden movement.

the car passes there is no need to alter the steering direction; the nose will follow naturally, as the wheel is so great. Another thing, however, in steering is responsible for a novice. The most common mistake is to keep the car too close to the line. It is better to have a steady, continuous pressure on the wheel than to have a sudden movement.

FURTHER CONVICEMENT NEEDED CAN ANYTHING BE BETTER PROOF???

We have received the following letter from F. E. VIVERS, Esq. Game Department, Tanganyika Territory reading as follows: F. E. VIVERS, Esq. Game Department, I have used the 9.2mm. long barrel on Elephant. It is undoubtedly a superior weapon I have tried several of the 12 Bore and 12 Bore, and consider it a most efficient weapon on Elephant. The long barrel gun however while it killed a rhinoceros and I consider on this also superior to the Elephant and Rhino, it is superior to the 11B or 8B Magnum. Moreover your D.V.M. Ammunition can always be relied on. I had and my best barrel gun and keep the 9" gun." "In my opinion the long 9" barrel gun is the best medium bore on the market. Personally I have used everything from a 200 overbore on Elephant and I consider the 9.2mm. just the ideal weapon."

Yours Sincerely,
(Sd.) F. E. VIVERS,
Game Department, Tanganyika Territory.

The Coffee Cane

When the Coffee Planters Union, after a period of nearly two years, revived the Coffee Cane Union and less of progress, it is to be noted that the Union has been reformed as the C.P.U. It is important that this point should be understood because while the Coffee Planters Union is not more than one-third of the number of planters, in the Kenya Cane Union, the former one-third of the planters is not more than one-third of the number of planters in the Kenya Cane Union. It is to be noted that the Union has been reformed as the C.P.U. It is important that this point should be understood because while the Coffee Planters Union is not more than one-third of the number of planters, in the Kenya Cane Union, the former one-third of the planters is not more than one-third of the number of planters in the Kenya Cane Union.

DISTRICT NOTES.

Tika.

A BROWN about THE RAILWAY... The new Club at Tika is now practically completed and two more have been laid there. One has been situated and a further one to be laid in the near future. The work has been done in the month of 1920 and unless the gentlemen were so kind as to contribute for this money and to take the work in hand, the problem becomes very acute. The Club Committee are usually called in the afternoon and are meeting at the Club. The Club is situated in the middle of the town and is a very attractive building. The Club is situated in the middle of the town and is a very attractive building. The Club is situated in the middle of the town and is a very attractive building.

THE SPORTS CLUB

This Sports Club is now to a new and better site, situated on the high ground above the Club. The members of the club are now in the new site as they have been ready to go to the new site. The Club is situated in the middle of the town and is a very attractive building. The Club is situated in the middle of the town and is a very attractive building. "STANDARD" FEATURE PAGE

Unseen Sources of Long Life

A motor car, like a house, may LOOK a great deal more substantial than it really is. Dodge Brothers Motor Cars, however, have proved, through twelve years, that their runners are even more deeply concerned with the unseen goodness than with the seen.

The expense saved, the trouble avoided and the dependability enjoyed in command by owners of Dodge Brothers Cars over a period of years, are also as important as the more obvious details of equipment and style.

A new chapter is now being written in tyre usefulness and stamina by the Goodyear Cord material "SUPERWIST". Its greater elasticity provides greater protection from bruises, shocks and jars and ensures much longer tyre mileage.

A GREAT tyre is the Good-year Heavy Duty Cord, and a great value for the man whose driving calls for extra tyre stamina. Stronger, heavier and more massive, it is built to withstand severe work. Its powerful body is made of the superior cord material SUPERWIST, and its side-wall reinforced against rutwear.

RARE AFRICAN COPPER

Mineral Rights in East Africa
The East African Standard has been informed that a rare and valuable mineral, copper, has been discovered in the East African territories. The discovery was made by a party of explorers who were engaged in a survey of the region. The copper is of a high quality and is estimated to be present in large quantities. It is believed that the discovery will have a great effect on the copper industry in East Africa.

East African Trade Outlook.
The East African Standard is pleased to announce that the East African trade outlook for 1927 is very bright. The trade is expected to be much better than in 1926. This is due to a number of factors, including the recovery of the European economy and the increase in the demand for East African products.

THE AFRICAN COMMISSIONER
The African Commissioner is pleased to announce that the African trade outlook for 1927 is very bright. The trade is expected to be much better than in 1926. This is due to a number of factors, including the recovery of the European economy and the increase in the demand for African products.

"STANDARD" FEATURE PAGE

THE IMPORTANCE OF MENTAL FITNESS.

Young Golf Professional's Standpoint.

By HENRY C. JONES

The young British professional has been receiving more attention during the past few weeks than ever before, and yet despite this more ephemeral than anything that has ever been said of him, he is not doing his best to show for he knows that there are many upon whom he has to depend, and he is a member of the "Young Amateurs" and is not to be taken for granted.

It is not only the young professional who is being looked upon as a novelty, but the old professional also, who is being looked upon as a novelty.

A PROFESSIONAL'S DAY.

Take my word for it, no player has more to do on a professional's day than on a day when he is playing for his own club. He has to be ready for anything, and he has to be ready for anything, and he has to be ready for anything.

It is not only the young professional who is being looked upon as a novelty, but the old professional also, who is being looked upon as a novelty.

and cannot, therefore, break his schedule for the hours of practice which he needs.

I am sure it is great that he has developed the art of concentration which playing golf has given him, but it is not quite correct to say that when I have been engaged in a long business career, my partnership with Walter Hagen for a year, I have had quite a big game, that only in some subsequent years may I have of the same nature of the world, but that I maintain no concentration, for I make no effort to forget the novel or my partner, or anything else.

KEEPING FIT.

Now what can be put into the game besides his natural skill. The more playing of golf that is such a simple matter to the professional golfer than it is to the amateur, the more he knows that he is not to be taken for granted.

It is not only the young professional who is being looked upon as a novelty, but the old professional also, who is being looked upon as a novelty.

THE AMERICAN PROFESSIONAL WHO HAS BEEN ON THE SCENE FOR SOME TIME IS BEING LOOKED UPON AS A NOVELTY.

The American professional who has been on the scene for some time is being looked upon as a novelty. He is being looked upon as a novelty because he is not doing his best to show for he knows that there are many upon whom he has to depend, and he is a member of the "Young Amateurs" and is not to be taken for granted.

It is not only the young professional who is being looked upon as a novelty, but the old professional also, who is being looked upon as a novelty.
