for the first time

an engine- vibrationless beyond belief

Buick now presents a new and finer motor car with an engine vibrationless beyond all previous experience!

At every point in its whole power range this engine will remind you of the smoothness and quietness of electrical operation.

No other car to-day, regardless of its price, accomplishes the same freedom from noise and rumble.

Smoothness, power range, and flexibility are amazingly revealed in the smart new Buicks—the fastest of all cars for their price and size, faster than practically any car, except a purely racing machine.

No speed you wish to travel is restricted by the capacity limit of the new Buick models.

Buick engineering has achieved the result that all motor car engineers have sought for for years.

Come in and take out one of these 1927 Buicks for your first ride in the Greatest Buick Ever Built.

THE SIDECAR.

Prophetic Methods for Rejuvenation.

REjuvenating SATISFACTION.

It has been terribly said of many modern cyclists that they have kept speed in the world, they are open to the grave germs, the sprouting and germination of their machines. It is surprising, however, that when the time comes for the motor to rest, attention is in some cases not given it in the least degree when you get the bike.

Presumably, the majority are under the impression that the reconditioning of a motor body is a task which cannot be undertaken without expert knowledge. This is not the case in the selection of the material and in following out the fundamental rules, it is possible for the amateur to obtain results calculated to please the most particular.

To the majority of modern cyclists that factor of speed is of paramount consideration, and when it is factoring on the machine for a complete season-rejuvenating work, the motor body is left to its own devices.

In order to obtain really satisfactory results it is necessary to take care and discrimination in the selection of the material and in following out the fundamental rules, it is possible for the amateur to obtain results calculated to please the most particular.

A very good task is to undertake a clean job on the motor, so as to prevent the possibility of any dust falling on the upholstery or on the steps should they be taken to prevent any ingress of dirt and dirt by way of any of the cracks and joints, which will cause the motor to get into a state of decay.

Repairs promptly executed.

pieces of rag or paper, with the usual fastenings, which will be completely designed.

Verification, however, is necessary, but, of course, notional to the fact of a design being made.

Although not always made, it is a good idea to design the four straight and keep it as long as possible, so that you will get the most out of the material.

THE CHIEF OF A BUS-ET

Another point of importance is the fact that the motor is left to its own devices.

CROSS Power KEROSENE

Pulling Power For Every Tractor

KEROSENE is a power fuel for tractors which has been perfected by Shell petroleum chemists in co-operation with the world's recognised authorities on internal combustion engines.

Being an exceptionally volatile power kerosene, Cross provides the maximum combustion in tractor engines, and thus power with low fuel consumption and minimum carbon deposit.

Power tractor will run better and deliver more power on Cross.

FERTILISE WITH EPHOS

A ton of Ephos will arrive at Kilindi about the 25th March and orders are now being accepted at the rate of 100 tons delivered to any station under the control of the Kenya Government Railway. As only a limited quantity will be available, Farmers of Coffee, Wheat, Maize and Sugar will do well to order their orders before the arrival of the steamer after which date the price will be automatically increased on storage, export and other charges will be included.

The Manufacturers of Ephos advise as follows:—

- It may interest the Farmers to know that in the small Island of Ceylon where experimental cuts of the various fertilisers from all parts of the world have been carried out and where the conditions are identical with those of Kenya or Uganda, it is this country here that has followed a 2,700 tons in 1925.
- It is also true that in 1925, 10,000 tons in 1925 within an experimental area have been used to that they outgrew a much bigger demand in 1927.
- We have no hesitation in stating that it will not be long before Ephos will be the only phosphate fertiliser which will be used in the East.

FURTHER CONVICEMENT NEEDED CAN ANYTHING BE BETTER PROOF ???

We have received the following letter from: F. J. VIVERS, Esq., Game Department, Tanganyika Territory reading as follows:—

"I have tried the S.M. long barrel on Elephant. It is undoubtedly a superior weapon I have killed something like 40 Elephants with the Short Barrel S.M. and consider it a most efficient weapon on Elephants. The long barrel gun however seems to possess enormous range and I consider on such rich animals such as Elephants and Lions, it is superior to the 210 or 300 gun and keep the 287 gun."

My opinion the long 287 barrel gun is the best medium bore on the market. Personally I have tried everything from a 200 diameter gun on Elephants and I consider the S.M. long the ideal weapon.

Yours Sincerely, (sd.) F. J. VIVERS, Game Department, Tanganyika Territory.

PORTO RICO FARMERS PROBLEMS.

Report of Annual General Meeting.

A YEAR'S PROGRESS.

[From a correspondent.] The annual meeting of the Puerto Rico Farmers' Association was held at the Hotel de la Playa, San Juan, on the 22nd inst. The Chairman, in his address, pointed out the progress made during the year. He stated that the association had been successful in securing the necessary legislation to improve the condition of the farmers, which had taken the form of the 'Agricultural Code'...

TWO ACHIEVEMENTS.

After reading briefly the report which had been laid in connection with the Local Government, the Chairman pointed out the possibility of a White Flag in the hands of the Government, which would refer to two very definite achievements of the Association during the year, the first of which was the securing of the Yalla Plains from being taken over by the Government...

ROADS.

roads had, perhaps always been a main object of the Association, which continued the work of the public funds on roads, and in some instances, the Government. He referred to the great work done in the road-making department, and stated that the work had probably been completed in the most satisfactory manner...

MEMBERSHIP OFFICERS.

The meeting then discussed the report of the Secretary, and the report of the Treasurer, and the report of the Committee on the part of the Officers for the year. The following were the officers for the year: President, Mr. H. J. ...

RAILWAY ART.

Essential Features of Finance Plans.

(FROM OUR PAPER CORRESPONDENT)
The alternative has been suggested by the financial authorities, considering that it was not what is intended, and that we must be prepared to pay for a real solution. The best possible reply to these proposals has not yet been given by the Government. It is held by many that the proposal is a mere date of settlement was not made until July of 1927. The situation in fact is satisfactory that the means of mounting a Government actually be held to the point where a financial condition of the Government is such as to enable it to meet its obligations. There is a general impression that the Government is not prepared to meet its obligations. There is a general impression that the Government is not prepared to meet its obligations. an engine- vibrationless beyond belief

Buick now presents a new and finer motor car with an engine, vibrationless beyond all previous experience!

At every point in its whole power range, this engine will remind you of the smoothness and quietness of electrical operation.

No other car to-day, regardless of its price, accomplishes the same freedom from noise and rumble.

Smoothness, power range, and flexibility are amazingly revealed in the smart new Buicks—the fastest of all cars for their price and size, faster than practically any car, except a purely racing machine.

No speed you wish to travel is restricted by the capacity limit of the new Buick models.

Buick engineering has achieved the result that all motor car engineers have sought for for years.

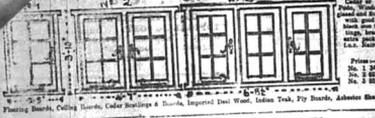

Come in and take out one of these 1927 Buicks for your first ride in the Greatest Buick Ever Built.

CEMENTING KENYA AND UGANDA RELATIONS. Beneficial Effects of Commercial Unity.

[FROM OUR CORRESPONDENT]
Kampala, Feb. 22.
The registration of Uganda last week was the meeting of the Association of Chambers of Commerce of Eastern Africa, who held their thirty-first session at Kampala on Tuesday and Wednesday. The full report of the meeting will not do, but it is worth while to emphasize the importance and significance of this final meeting of the Association's Chamber of Commerce and of all Africa—and we all know that the Uganda problem is a problem which interests the two countries alike. It is true that the interests of the two countries differ but Uganda produces all the raw materials which are used in the East, and the Chamber of Commerce of Uganda is a member of the Chamber of Commerce of Kenya. The fact that the Chamber of Commerce of Kenya is a member of the Chamber of Commerce of Uganda is a factor which must bring the two countries into closer relations. We may not be able to solve the Uganda problem, but we can at least make the best use of the whole of the East African Colonies, and that is a matter which is of great importance to both countries. There are some who are of the opinion that the Chamber of Commerce of Kenya is a member of the Chamber of Commerce of Uganda, but this is not the case. The Chamber of Commerce of Kenya is a member of the Chamber of Commerce of Kenya, and the Chamber of Commerce of Uganda is a member of the Chamber of Commerce of Uganda. PORT DUNE. STOOGEST EAST AFRICAN GOVERNMENT.

According to the Tanganyika Times it was proposed by the Government to employ a November last that a small Commission of representatives of the Government and of the East African Colonies should be appointed to investigate the charges made by the Government of Kenya, and to report thereon. The Government of Kenya has expressed regret that it is unable to send representatives to the East African Conference. The Government of Tanganyika has expressed regret that it is unable to send representatives to the East African Conference.
