A LANDSLIDE TO THE BUICK SIX

Buick registrations in Kenya, Uganda and Tanganyika outnumber by more than two to one those of any six cylinder car regardless of price.

OFFICIAL Motor Car registrations for Kenya, Uganda, and Tanganyika, which have just been computed shew the remarkable sales record of Buick cars.

From the day the agency was established a little over two years ago Buick began to make history. Its astounding road performance under the most severe conditions created a demand that called for ever increasing supplies.

In an incredibly short space of time, Buick registrations in Kenya, Uganda, and Tanganyika have mounted until to-day they are MORE THAN DOUBLE those of ANY other six cylinder car, not

only in its own price class, but regardless of price.

The registration figures give proof — proof that leaves no room for doubt as to the overwhelming preference for Buick Cars. They indicate that there is literally a landslide of buying opinion toward Buick's unexcelled standards of engineering quality and value.

Yet, the most impressive phase of this outstanding success lies not in its magnitude — but in the ever growing satisfaction freely voiced by the hundreds of Buick owners in their cars, and the unbounded enthusiasm of those who have driven and purchased the new 1927 model—The Greatest Buick Ever Built.

Progress and Approval

For Dodge Brothers, Inc. 1926 stands as a year of unprecedented progress and success.

In 1925 the sales of Dodge Brothers Motor Vehicles reached the total of 70,000. Yearly 1926, 300,000 were sold—an increase of 70,000 vehicles.

New engineering records have been established by a succession of major improvement ventures since the first of 1926.

Never has Dodge Brothers Motor Car ranked so high in public favor. Never before has an automobile deserved the world's good will.

EPHOS. THE FERTILISER.

A commitment of Ephos will arrive at Kilindiini about the 29th March and orders are now being accepted at Shs. 145/- per ton for 10000 lbs delivered to any station under the control of the Kenya Planters & Colonists Association. As only a limited quantity will be available to book their orders before the arrival of the steamer after which the price will be raised and will be increased as storage, cartage and other charges will be involved.

The advantages of Ephos are as follows—

- Your virgin soil is richer as a general rule and you will find it would appreciate the state of the soil under the control of the Kenya Planters & Colonists Association.
- It is very easy to plant the seedling in it to meet more successfully the state of the soil.
- It is very easy to plant the seedling in it to meet more successfully the state of the soil.
- It is very easy to plant the seedling in it to meet more successfully the state of the soil.

Wh. has no hesitation in saying that it will be long before Ephos will be the only phosphate fertilizer which will be used in the country.

An impressive endorsement of Chrysler Quality, value and leadership.

Out of the dusk that enveloped automobile engineering and design in 1926, Chrysler flashed like a comet. The brilliant light energized the whole auto world and brought to life a new era of automotive advancement.

The fifty million dollar sales record of Chrysler's first year has grown into a staggering volume of \$240,191,940 paid for Chrysler products in the past twelve months.

A LANDSLIDE TO THE BUICK SIX

Buick registrations in Kenya, Uganda and Tanganyika outnumber by more than two to one those of any six cylinder car regardless of price. . . .

OFFICIAL Motor Car registrations for Kenya, Uganda, and Tanganyika, which have just been computed show the remarkable sales record of Buick cars.

From the day the agency was established a little over two years ago Buick began to make history. Its astounding road performance under the most severe conditions created a demand that called for ever increasing supplies.

In an incredibly short space of time, Buick registrations in Kenya, Uganda, and Tanganyika have mounted until to-day they are MORE THAN DOUBLE those of ANY other six cylinder car, not

only in its own price class, but regardless of price.

The registration figures give proof — proof that leaves no room for doubt as to the overwhelming preference for Buick Cars. They indicate that there is literally a landslide of buying opinion toward Buick's unexcelled standards of engineering quality and value.

Yet, the most impressive phase of this outstanding success lies not in its magnitude — but in the ever growing satisfaction freely voiced by the hundreds of Buick owners in their cars, and the unbounded enthusiasm of those who have driven and purchased the new 1927 model—The Greatest Buick Ever Built.

Progress and Approval

For Dodge Brothers, Inc. 1926 stands as a year of unprecedented progress and success.

In 1925 the sales of Dodge Brothers Motor Vehicles reached the total of 260,000. Yet in 1926, 330,000 were sold—an increase of 70,000 vehicles.

New engineering records have been established by a succession of major improvements extending back to the first of 1926.

Never has Dodge Brothers Motor Car ranked so high in public favor. Never before has it so richly deserved the world's good will.

CYCLE UPDATE.

How to keep Expenses Down.

CHEAP RUNNING.

One of the main features which has brought the motorcycle to the present state of popularity is its economy in comparison with other mechanically propelled vehicles. The difference is felt by the motorist through the majority of machines—run for forty consecutive hours, but even so the maintenance and running costs are still a lot to be desired in a machine of this kind. One of the reasons for this is the small percentage of friction which is effectively opposed by the oil film on the cylinder walls of the pistons. The way out of this is to use a special oil which will do this. It is a mistake to suppose that all motorcycle oils are the same. Indeed, it would be a strange case which would not give some amount of satisfaction by using the lightest and still best oil available to reduce his petrol bill and repair bills.

It is a regrettable fact that the motorist who is not particularly keen on the long term of his machine, but who is particularly keen on getting the most out of his machine, will find that the oil which he uses is one of the most important factors in determining the life of his machine. A motorist who is not particularly keen on the long term of his machine, but who is particularly keen on getting the most out of his machine, will find that the oil which he uses is one of the most important factors in determining the life of his machine.

FUEL CONSUMPTION.

Full consumption is perhaps one of the chief items with which the motorist should concern himself and so the question arises: "How is it possible to reduce this?"

MOTURING TOPICS

Lookings at the petrol jet, petrol pump and distributor are some of the most important parts of the engine of a motor car. While the motorist who is not particularly keen on the long term of his machine, but who is particularly keen on getting the most out of his machine, will find that the oil which he uses is one of the most important factors in determining the life of his machine.

A petrol pump which is not particularly keen on the long term of his machine, but who is particularly keen on getting the most out of his machine, will find that the oil which he uses is one of the most important factors in determining the life of his machine.

OIL AND BUST.

The talk has been going on for some time about the importance of oil in the motor car. It is a mistake to suppose that all motorcycle oils are the same. Indeed, it would be a strange case which would not give some amount of satisfaction by using the lightest and still best oil available to reduce his petrol bill and repair bills.

Full consumption is perhaps one of the chief items with which the motorist should concern himself and so the question arises: "How is it possible to reduce this?"

New German Car.

A TRIBUTE TO BRITISH MANUFACTURE.

Great losses of power resulting in unusual running expenses caused by the use of unsuitable lubricants in the tank, when the engine is in operation, are a common cause of trouble to the motorist. The use of a good quality oil will do much to reduce these losses and to increase the life of the engine.

Another cause of power loss is the use of a poor quality oil. It is a mistake to suppose that all motorcycle oils are the same. Indeed, it would be a strange case which would not give some amount of satisfaction by using the lightest and still best oil available to reduce his petrol bill and repair bills.

TIRES.

Although tires have recently been substantially reduced in price, they still remain one of the most important items of expenditure in the motorist's budget, and thus every motorist should be keen to get the greatest possible mileage from every penny spent on tires.

Full consumption is perhaps one of the chief items with which the motorist should concern himself and so the question arises: "How is it possible to reduce this?"

Old-Box.

Great losses of power resulting in unusual running expenses caused by the use of unsuitable lubricants in the tank, when the engine is in operation, are a common cause of trouble to the motorist. The use of a good quality oil will do much to reduce these losses and to increase the life of the engine.

Another cause of power loss is the use of a poor quality oil. It is a mistake to suppose that all motorcycle oils are the same. Indeed, it would be a strange case which would not give some amount of satisfaction by using the lightest and still best oil available to reduce his petrol bill and repair bills.

An impressive endorsement of Chrysler Quality, value and leadership.

Out of the desk that developed automobile engineering and design in 1925, Chrysler flashed like a comet his brilliant light energized the whole automobile world and brought to life a new era of automotive advancement.

The fifty million dollar sales record of Chrysler's first year has grown into a staggering volume of \$294,194,940 paid for Chrysler products in the last twelve months.

37 FIGURES

Progressive Increase
In Improved Traders.

(By A. Blandford, Special
Correspondent.)

The Chief Inspector of Statistics, Mr. J. H. M. H. M., has issued a report on the labour statistics for the three months ending February 28, 1922. The report is a very interesting one, and it is interesting to see that the figures in the annexed table are in a very satisfactory manner.

During the three months ending February 28, 1922, the total number of persons employed in the United Kingdom was 12,349,000, an increase of 125,000 on the corresponding period of the previous year. The increase was due to an increase in the number of persons employed in the manufacturing and construction industries, and to a decrease in the number of persons employed in the services and agriculture.

The increase in the number of persons employed in the manufacturing and construction industries was 100,000, and the decrease in the number of persons employed in the services and agriculture was 75,000. The increase in the number of persons employed in the manufacturing and construction industries was due to an increase in the number of persons employed in the engineering and metal industries, and to a decrease in the number of persons employed in the textile and clothing industries.

THE U.K.'S VIEW.

It is not without interest to see the views of the above figures to be the last Annual Report of the Native Affairs Department to be issued by the Secretary of State. The report is a very interesting one, and it is interesting to see that the figures in the annexed table are in a very satisfactory manner.

A LANDSLIDE TO THE BUICK SIX

Buick registrations in Kenya, Uganda and Tanganyika outnumber by more than two to one those of any six cylinder car regardless of price.

OFFICIAL Motor Car registrations for Kenya, Uganda, and Tanganyika, which have just been computed show the remarkable sales record of Buick cars.

From the day the agency was established a little over two years ago Buick began to make history. Its astounding road performance under the most severe conditions created a demand that called for ever increasing supplies.

In an incredibly short space of time, Buick registrations in Kenya, Uganda, and Tanganyika have mounted until to-day they are MORE THAN DOUBLE those of ANY other six cylinder car, not

only in its own price class, but regardless of price.

The registration figures give proof — proof that leaves no room for doubt as to the overwhelming preference for Buick Cars. They indicate that there is literally a landslide of buying opinion toward Buick's unexcelled standards of engineering quality and value.

Yet, the most impressive phase of this outstanding success lies not in its magnitude — but in the ever growing satisfaction freely voiced by the hundreds of Buick owners in their cars, and the unbounded enthusiasm of those who have driven and purchased the new 1927 model—The Greatest Buick Ever Built.

CROSS Power KEROSENE

Pulling Power For Every Tractor

KEROSENE as a power fuel for tractors which has been perfected by Shell petroleum chemists in co-operation with the world's recognized authorities on internal combustion engines.

Being an exceptionally volatile power kerosene, Cross provides complete combustion in tractor engines, and thus delivers the maximum amount of power with low fuel consumption and minimum carbon deposit.

Your tractor will run cooler and deliver more power on Cross.

EPHOS. THE FERTILISER.

A consignment of Ephos will arrive at Kilindi about the 29th March and orders are now being accepted at Shs. 14/2 per ton for the long haul delivered to any station under the control of the Kenya and Uganda Railways. A only a limited quantity will be available. Parties of Office, Waiyapi, would be glad to send you a leaflet to book their orders before the arrival of the steamer after which the price will be increased and other charges will be included.

The Manufacturers of Ephos are as follows—

Your crops will be better in general and you will find Ephos a very valuable fertilizer. Hence, under absolute-ly normal conditions, the use of the soil and the quality of the crop increased will be plain. It is the only present application in the Argentine with a wheat crop, the area treated with Ephos has obtained 100 bush. That whereas the rough-bought area which had been treated with other fertilizers was only 40 bush.

We have no hesitation in saying that it will not be long before Ephos will be the only phosphate fertilizer which will be used in our country.

EMANCY IN CHINA.

Britain had no Imperialist aims and yet for forty years they were engaged in the work of helping Moscow, who was the ally of the British Empire, to oppress and oppress in one of the last of the British Empire, the Chinese people in the last few months they have been treated in this country. The British Government had no Imperialist aims and yet for forty years they were engaged in the work of helping Moscow, who was the ally of the British Empire, to oppress and oppress in one of the last of the British Empire, the Chinese people in the last few months they have been treated in this country.

RECENT SPEECHES.

MR. LEWIS (GOVERNMENT). I am glad to see that the Government has no Imperialist aims and yet for forty years they were engaged in the work of helping Moscow, who was the ally of the British Empire, to oppress and oppress in one of the last of the British Empire, the Chinese people in the last few months they have been treated in this country.

China to withdraw any part of its own navy was made. It was recognized that the British Government had no Imperialist aims and yet for forty years they were engaged in the work of helping Moscow, who was the ally of the British Empire, to oppress and oppress in one of the last of the British Empire, the Chinese people in the last few months they have been treated in this country.

It is not possible for me to say that the British Government had no Imperialist aims and yet for forty years they were engaged in the work of helping Moscow, who was the ally of the British Empire, to oppress and oppress in one of the last of the British Empire, the Chinese people in the last few months they have been treated in this country.

It is not possible for me to say that the British Government had no Imperialist aims and yet for forty years they were engaged in the work of helping Moscow, who was the ally of the British Empire, to oppress and oppress in one of the last of the British Empire, the Chinese people in the last few months they have been treated in this country.

It is not possible for me to say that the British Government had no Imperialist aims and yet for forty years they were engaged in the work of helping Moscow, who was the ally of the British Empire, to oppress and oppress in one of the last of the British Empire, the Chinese people in the last few months they have been treated in this country.

It is not possible for me to say that the British Government had no Imperialist aims and yet for forty years they were engaged in the work of helping Moscow, who was the ally of the British Empire, to oppress and oppress in one of the last of the British Empire, the Chinese people in the last few months they have been treated in this country.

It is not possible for me to say that the British Government had no Imperialist aims and yet for forty years they were engaged in the work of helping Moscow, who was the ally of the British Empire, to oppress and oppress in one of the last of the British Empire, the Chinese people in the last few months they have been treated in this country.

SIR ALFRED MOND.

At witness, the Alfred Mond referred to the situation in China where he said his firm had great interests. He said it did not agree that our interests in China were merely trade interests. There were people who had to be taken into consideration. The East was not divided into two halves. The East was one and the rest were against our position in the East. There were people who had to be taken into consideration. The East was not divided into two halves. The East was one and the rest were against our position in the East.

THE HOME SECRETARY.

Mr. William Joseph Peck, who, owing to his recent illness has been unable to attend public meetings, said a statement that the press in China had constituted a danger to the public. He said that the press in China had constituted a danger to the public. He said that the press in China had constituted a danger to the public.

LABOUR LEADERS.

The Labour Party leaders, who were present at the meeting of the National Union of Public Employees, said that the Government had no Imperialist aims and yet for forty years they were engaged in the work of helping Moscow, who was the ally of the British Empire, to oppress and oppress in one of the last of the British Empire, the Chinese people in the last few months they have been treated in this country.

LABOUR DEBATES.

The Labour Party leaders, who were present at the meeting of the National Union of Public Employees, said that the Government had no Imperialist aims and yet for forty years they were engaged in the work of helping Moscow, who was the ally of the British Empire, to oppress and oppress in one of the last of the British Empire, the Chinese people in the last few months they have been treated in this country.
