THE DOMESTIC SERVANTS REGISTRATION BILL

Arguments For and Against Proposed Legislation.

SELECT COMMITTEE APPOINTED.

Division of Opinion in Ranks of Elected Members.

The debate on the second reading of the Domestic Servants Registration Bill... The bill has been referred to a Select Committee...

The Committee is the Colonial Secretary (Chairman), the Attorney General, The Chief Native Commissioner, Colonel Durhan, Capt. F. O. Wilson, Mr. G. C. Tounhill, Mr. P. J. Fox, and Canon...

It is a balanced Committee in so far as known points are concerned—almost equally divided, in fact and it seems unlikely at the moment that the Report will be a unanimous one.

MODIFICATIONS ESSENTIAL.

STANDARD SPECIAL CORRESPONDENT.

Mombasa, Wednesday. The Second Reading of the Domestic Servants Registration Bill was moved yesterday by the Colonial Secretary...

Not a New Idea. I wish to make it quite plain that I cannot claim that this is a wholly new or original scheme...

Union Leader's Advice to Employees. A TERRIBLE SUGGESTION—

THAT EASTER EXTENSION SHOULD BE MET BY NEW YEAR'S DAY SACRIFICE.

Mr. J. H. Thomas, Secretary of the National Union of Railwaymen, has addressed a remarkable letter to members of the Union...

Mr. Thomas says: "There is great controversy at the moment both on the platform and in the Press on the subject of peace in industry but it is not parties to any industry at all but are concerned with the situation on the railways."

ARE THERE TOO MANY PUBLIC HOLIDAYS IN KENYA?

Various Answers Suggested by Members of the Legislature.

A TERRIBLE SUGGESTION—

THAT EASTER EXTENSION SHOULD BE MET BY NEW YEAR'S DAY SACRIFICE.

Amongst the less serious business of Legislative Council last week was consideration of the Public Holidays Amendment Bill...

Discussion was marked by the suggestion from one of the Elected Members that the extension of the Easter holidays should be balanced by the sacrifice of one of the existing holidays...

The General Manager of Railways opposed the Bill on the grounds that there is sufficient public holidays already...

CARS FOR 1928.

Developments to Be Expected.

CHANGES IN DESIGN.

It may seem early days to talk about 1928 models...

While no very sweeping changes are likely to be introduced...

And bodywork today looks as importantly in the mind of the motorist...

Color Improvements.

The most talked about change allusion is a modification of the transmission system...

There is no question that a great deal of experimental work is going on in this direction...

shown at Olympia for introduction to the public.

Some makers have been working on the problem for a longer period...

Another development concerning which has been mentioned...

While the possibilities remain much the same as last year...

With a performance above the ordinary and successfully built by employing a heavier construction...

And bodywork today looks as importantly in the mind of the motorist as does the specification of the chassis.

Color Improvements.

The most talked about change allusion is a modification of the transmission system...

There is no question that a great deal of experimental work is going on in this direction...

For the combustion bodies here and over exhausts are likely to be being used in various forms...

Some very pretty other combinations being offered on standardized models without excess of power...

Other factors which will influence which may likely be noted are as follows...

As regards accessories and fittings, most of the 1928 models will be sold so completely equipped...

There is still a strong tendency to group the instruments in a standard panel...

Summing up, it can definitely be said that no stagnation and no sign of imitating stagnation in the design of chassis on both sides...

Color Improvements.

The most talked about change allusion is a modification of the transmission system...

There is no question that a great deal of experimental work is going on in this direction...

Against the tendency towards higher power ratings in the six-cylinder field...

We have already commented upon the new car exchange program...

PAST, PRESENT AND FUTURE OF KENYA & UGANDA RAILWAY.

Thought-Arresting Statement by Administrative Chief.

FIVE YEARS DEVELOPMENT.

Why Further Rate Reductions Are Considered Impracticable.

The Standard is able to-day to give the full text of the important speech made by the General Manager of Railways when, in the Legislative Council last week, he introduced the Railway Budget for 1927.

EXTENSIONS TO THE CONGO.

(STANDARD SPECIAL CORRESPONDENT.) Mombasa, Thursday. Consideration of the Railway and Port Budget for 1927 by the Legislative Council during the week of this morning was a notable event.

The formal minutes by the General Manager of the Railways and Harbours were as follows: This Council has considered the draft estimates of Harbours and Railways for 1927, and the draft estimates of Harbours and Railways and Harbours Administration, including the man and material services, motor services, and Harbours Administration, for the year 1927.

It will be observed that we are dealing for the first time with the estimates of Harbours and Railways for 1927. It will be seen that the estimates for 1927 are not a simple continuation of the estimates for 1926, but that they are a new departure.

It will not take up the time of this paper to discuss the details of the estimates for 1927, but it is worth noting that the estimates for 1927 are a new departure.

Members will remember that the estimates for 1927 were prepared as a result of the decision of the Government to increase the railway rates for 1927.

The financial side must of course be considered. It is a well-known fact that the railway rates for 1927 are a new departure.

These Railway Estimates were passed by the House of Representatives on the 12th inst.

Port Estimates. The Mombasa Port Estimates were presented to the Council last night.

was estimated last year; these, if the Council will give me leave, I will make some remarks on our position, and the possibilities for the future.

I propose also to deal with some of the proposals which have been put forward by the public, and to mention the estimate for 1927 which I have prepared.

During the latter half of 1926 every possible action was taken to reduce the cost of the railway, and it is a pleasure to report that the result has been a saving of £100,000.

THE DOMESTIC SERVANTS REGISTRATION BILL.

(Continued from page 5.)

employers and employees and the arrangement devices were arranged. He frankly did not believe that the Bill would be passed. He would go on for legislation and the suggestion at the present Bill was that if you registered a servant you would immediately suppress his character. He is, in fact, better of than the Registrar would have. He showed lack in accumulating the original evidence as to whether a native was entitled to a licence. The Registrar was also elected with powers that were more at his disposal. If there was any dispute between employer and employee regarding the registration of the latter the Registrar would have to hear evidence. Mr. Nyabera felt sure that the Bill would be passed but he was not sure. Mr. Nyabera also felt that the native, being poor and simple, would be at a disadvantage beside a well-paid employer and he therefore asked Canon Laker, a representative of native interests, whether he intended to ask Government to appoint a committee to deal with natives in those cases where each employer had the advantage of wealth.

The speaker also thought that the legislation would discourage natives from going to domestic service. He suggested that some of the new people come out of the country. He suggested that some of the natives who had been sent there did so without a willing in their pockets and he proposed that Government should establish funds to enable them to pay the fees under the Bill or that in the first instance the character books should be issued free. He proposed that there was a danger on the part of some employers to impose the conditions of native service on those who did not want to be in that position. He had no doubt whether the legislation was actually going to help the public more, efficient, reliable and more useful servants than those who were now in domestic service. He stated that the Bill was going to affect their character and their future, so that the Registrar would be in a position to control the people registered there and if the Bill went through it would require very careful consideration if it was to be successful. As a result of the Bill, a native who was sent to work in a foreign country was going to be in a superior position. He then stated that the Bill was going to be a disadvantage to those who had no capital and no means of transport. He stated that the Bill was going to be a disadvantage to those who had no capital and no means of transport.

The Women's Point of View
Mrs. P. J. D. (Mrs. P. J. D.) expressed her views on the Bill. She stated that the Bill was going to be a disadvantage to those who had no capital and no means of transport. She stated that the Bill was going to be a disadvantage to those who had no capital and no means of transport.

home, and for that reason also he supported it. He stated that the Bill was going to be a disadvantage to those who had no capital and no means of transport. He stated that the Bill was going to be a disadvantage to those who had no capital and no means of transport.

The Registrar's Task
Mr. Attorney General stated that the Registrar would be responsible for the registration of domestic servants. He stated that the Registrar would be responsible for the registration of domestic servants.

Physical Fitness
The Bill was going to require domestic servants to be physically fit. He stated that the Registrar would be responsible for the registration of domestic servants.

The Complexions of the Women of England

Where will you find such a high average of clear, fresh, radiant complexions as among the women of England?

This is a natural inheritance, but it is due also to an appreciation of the true value and importance of constant use of pure, fine toilet soap to help preserve the skin's clarity and radiance.

Today, one of the favorite soaps in the Old Country is

PEERLESS CERAMIC TOILET SOAP

CONTROL OF DRINKING AMONGST NATIVES.

Water Powers Under a New Measure.

PROHIBITION PLAN.

THE STANDARD SPECIAL CORRESPONDENT.

Some interesting points, including a plan for prohibition for the African, emerged in the course of the brief debate today on the annual report of the Native Water Amendment Bill moved by the Chief Native Commissioner in the Legislative Council.

Mr. Maxwell said the present Bill amended the law in two respects: "By dealing with the manufacture, consumption and sale of liquor in towns or municipalities, and in the several places made provision for prohibiting the sale of liquor in the several places specified in the Bill."

He said that the Bill would also provide for the prohibition of the sale of liquor in the several places specified in the Bill.

Polemics Defied.

The Hon. Mr. Nyerere, who supported the Bill but is said to be the author of a polemic under the Bill included in a statement.

The Attorney General having replied to the statement, the Member for Kilifi suggested that the Bill was given to the committee for the purpose of making amendments to it, and that it was not intended to be passed in its present form.

A Dancer.

The Hon. Mr. Maxwell, in reply to the question of the Member for Kilifi, said that the Bill was given to the committee for the purpose of making amendments to it, and that it was not intended to be passed in its present form.

Beauty, Luxury and Amazing Performance

Never was Buick so luxurious. Graceful Bodies by Fisher, swung fashionably low without reducing road clearance, introduce an entirely new order of fleet, youthful elegance.

Never was Buick so alert. Brilliant advancements in the valve-in-head-motor not only increase power, speed and economy, but impart a litheness and liveliness which is beyond comparison. To prove this, slow down to five miles an hour in high gear—then step on the accelerator and watch results.

Never was Buick so beautiful, so comfortable, so replete with fine fixtures—from hydraulic shock absorbers front and rear to adjustable steering column and tailored form fitting cushions. On any type of road—throughout the entire speed range the hydraulic shock absorbers provide a roadability that is truly amazing.

Powerful—Smooth—Silent

The performance of Dodge Brothers New Motor will be a source of wonder to you. Its smoothness, its few noises, its low running, its few vibrations, you would naturally expect to be found only in cars of much higher price.

Power has been increased by 15%, the motor is 15% faster and all these things are secured at a 1927 working in fact.

You will appreciate too the smooth, and low shift, put over steering, the low transmission and more than a score of other new features.

The new motor, the improved chassis and the new and stronger fenders and doors make practically a new car. But it will drive it at your earliest opportunity.

DEBATE ON THE RAILWAY AND PORT ESTIMATES.

Criticism of Large Provisions for Depreciation and Renewals.

FREIGHT RATES.

Lack of Promise of Further Reductions Causes Disappointment.

The debate on the Railway and Port estimates which took place in the Legislative Council last week suggested that the Imperial Members of the Legislature had given much more consideration to details of the railway administration and working than in past years.

While congratulating the General Manager on his statement and on the efficient manner in which the railway services had been run, the Elected Members were generally of the opinion that there was too great a provision for capital works out of annual revenue and that the present generation was being made to suffer unduly for the benefit of coming generations.

Disappointment was expressed that the Railway Budget statement contained no promise of freight reductions during the coming year and it was urged that the question of further rate reductions at that time should be regarded in the light of dividends to shareholders, namely the people using the Railway.

In his reply the General Manager of Railways again contended that further rate reductions at the present time were not practicable and that the adoption of the policy urged by the Elected Members would mean a return to the unenviable position obtaining in 1926.

AN UNJUSTIFIABLE BURDEN?

These additional traffic will ensure the prompt delivery of goods and of cotton only will promote the welfare of the country. A Letter from Paris

(BY MASA BARI.)

Reminded just now, I cannot think of a fashionable garment compared with a dress which, despite long waiting, I have not yet seen. It is a dress which, when I saw it, I fell to the floor. This fashion is a dress which is all young girls wear at home. It is a dress which is all young girls wear at home. It is a dress which is all young girls wear at home.

The short-sleeved blouse is a long time, but I have seen it in the shops. It is a blouse which is all young girls wear at home. It is a blouse which is all young girls wear at home. It is a blouse which is all young girls wear at home.

The Five-Passenger Essex Super-Six Sedan

In this roomy five-passenger sedan, the owner enjoys the convenience of four doors, a highly attractive interior, and general lines of beauty and the workmanship. The interior equipment includes such things as a fine silk curtain on the rear quarter window, a handsome race rail, rear view mirror, and the instrument board, window ledges, etc., attractively finished in lacquer. Built with adjustable Pullman-type seats.

**Greater Power and Performance
Longer, Roomier,
More Luxurious Bodies.**

POPULAR enthusiasm has risen to new heights in proclaiming the surpassing brilliancy of this Greater Essex Super-Six. Spurred by knowledge that the most eagerly demanded Essex in history was retired to make way for it, public interest has crowded every show room in city and village, to inspect, ride, and place a prior order on this phenomenal car.
