No. 4349 REGISTERED AT THE GENERAL POST OFFICE AS A NEWSPAPER

NAIROBI, THURSDAY, DECEMBER 12, 1927

Price 20 CENTS.

TANGANYIKA'S GOVERNOR REPLIES TO THE KENYA MEMORANDUM.

"Read It With Astonishment and Some Amusement."

A KINDLY THOUGHT SUGGESTS IT IS A HOAX.

Federation Scheme Launched by one of E. A. Governors on his own Account.

The comments by H. E. Sir Donald Cameron, Governor of Tanganyika on the Federation Memorandum of the Executive of the Kenya Convention of Associations, are even more caustic than those of the Governor of Uganda, recently published.

So laudable a kindly thought suggests that the Memorandum is a hoax and he hopes that for the sake of its political efficacy, the community in Tanganyika will not sign a similar document. "We need not all elect to live in the village that voted the Earth was flat."

The Governor of Tanganyika declares he formed on his arrival in England that a federation scheme had already been launched. One of the three Governors launched a scheme on his own account as an individual effort.

So laudable a kindly thought suggests that the Memorandum is a hoax and he hopes that for the sake of its political efficacy, the community in Tanganyika will not sign a similar document. "We need not all elect to live in the village that voted the Earth was flat."

ONE WHO COMES WITH CLEAN HANDS.

When the Governor of Tanganyika, Sir Donald Cameron, arrived in Kenya, he was met by a delegation of the Kenya Convention of Associations. He had no acquaintance with any of the members of the delegation. He was pulling no strings at home.

Sir Donald Cameron. KENYA MEMORANDUM A HOAX?

The Governor of Tanganyika, Sir Donald Cameron, has received the Kenya Memorandum and has expressed his astonishment and amusement at the contents. He has also expressed his hope that the community in Tanganyika will not sign a similar document.

An Imperial Baby

The Governor of Tanganyika, Sir Donald Cameron, has received the Kenya Memorandum and has expressed his astonishment and amusement at the contents. He has also expressed his hope that the community in Tanganyika will not sign a similar document.

The New 1928 Buick

has taken

KENYA

BY STORM

SINCE the introduction of the amazing new Buick two months ago, sales in Kenya have completely outstripped those of any other rival car.

Easy riding qualities never before equalled—and superb power convertible in a flash to the most brilliant possible performance have made Buick for 1928 irresistible to all who have seen and driven them.

For Those You Love

A man had been listening to advice on life insurance.
"I'll go home," said he, "and talk it over with my wife."
"Don't do that," said his adviser, "talk it over first with another fellow's widow."
Not a cheerful suggestion, perhaps, but life insurance deals with fundamental facts.

MOTURING TOPICS

COIL IGNITION.

Simple Explanation of its Principles.

NOT WELL UNDERSTOOD

The spark and coil are all too often a matter for derision and ridicule. It is not surprising that the fact that the coil is a simple device is a source of surprise to many. It is a simple device, however, and it is not surprising that it is a source of surprise to many. It is a simple device, however, and it is not surprising that it is a source of surprise to many.

current, so that it is obvious that coil ignition is necessary based on an existing supply of current from a battery, and this is already available on every car in the form of a 6-volt or a 12-volt storage battery for lighting and electric

The coil changes the low voltage into the 6,000-7,000 volts necessary to jump the plug point gap. Another important factor is kept in mind so that the actual coil is but a part of the complete system.

As explained there must be a battery and in addition a simple mechanical parts, a mass and breaker and a distributor. These parts have to be connected together so that every coil and plug set needs some wiring throughout the loop or circuit system.

As explained there must be a battery and in addition a simple mechanical parts, a mass and breaker and a distributor. These parts have to be connected together so that every coil and plug set needs some wiring throughout the loop or circuit system.

Simplicity of the Coil

The coil is a simple device, and it is not surprising that it is a source of surprise to many. It is a simple device, however, and it is not surprising that it is a source of surprise to many.

The coil is a simple device, and it is not surprising that it is a source of surprise to many. It is a simple device, however, and it is not surprising that it is a source of surprise to many.

to magnetize the iron core and magnetize field or flux of lines of force to produce the secondary winding then suddenly interrupt the flow of current in the primary and the magnetic field collapses of a secondary high voltage current is induced or created in the secondary.

The iron core and breaking the primary circuit in a high voltage current is induced in the secondary winding of the coil.

The iron core and breaking the primary circuit in a high voltage current is induced in the secondary winding of the coil.

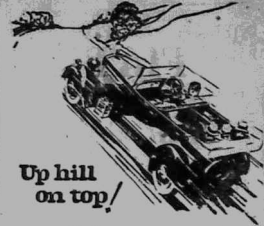

The iron core and breaking the primary circuit in a high voltage current is induced in the secondary winding of the coil.

but which makes-and-breaks with a fixed contact. A small magneto coil mechanism is usually connected across the make-and-break to eliminate arcing at the contacts.

The high-tension distributor comprises a simple race arm of insulating wheel job on the top of the vertical shaft. Within the distributor cover are arranged the respective segments which receive the high-tension current from the rotor induced by a suitable metal contact and metal contact, the contact being covered by the rotor by a carbon brush in the contact.

IT PAYS TO FERTILISE

In experimental tests on growing coffee recently carried out it was found that the best results were obtained from a mixture of the following fertilisers in the named quantities per acre—
230 lbs. Sulphate of Ammonia
150 lbs. Muriate of Potash
100 lbs. Superphosphate
It was found that the trees were far healthier, the crops bigger and the quality of the coffee berries better, resulting in a profit of £10 per acre over others which had not been treated in the above manner.
We carry stocks of Fertilisers, Sulphate of Ammonia and Muriate of Potash.

Reliable

The new Four is of true Dodge fibre in the high quality of its vital parts.

All bearings, shafts, ball valves and springs are of chrome-steel for extra quality and long wear, with low maintenance expense.

Steering is amazingly easy because of the great leverage afforded by the steering gear, and the reduced friction resulting from ball-bearing steering shafts.

The famous Dodge Brakes—12" front brakes (with 4" x 1 1/2" drums) perform with extra margin of safety. The rear brakes are of the same type, giving the car a sure grip.

CHEVROLET

THE ROADSTER For Two Passengers

New lines ~ New Colors and a host of other improvements

IN ADDITION to introducing a new order of elegance, style and distinction into the realm of low priced automobiles, the most beautiful Chevrolet also represents a marked mechanical advancement. Examine any one of the seven attractive models and you will find so many improvements that you will be literally amazed.

Improvements that contribute to even longer life, greater dependability and finer performance? Improvements that assure more pronounced economy, easier operation and a keener sense of owner satisfaction. Improvements that place Chevrolet far ahead of any other car in its price class.

We are holding a special showing of the new models. May we urge you to visit our show room and study the cars? From the new and larger radiator shell to the new automatic stop light, you will find new and finer construction, new and more desirable features—features that will give you a new idea of what the buyer of the low priced car has a right to expect for his money.

Hot Cakes

THE DELECTABLE HOT CAKE is wholesome when made of wholesome ingredients, well mixed, and then baked to a fine golden brown. Hot cakes must be light and fluffy. Lightness comes from proper leavening and the proper leavening for hot cakes is Royal Baking Powder. It is always dependable—always guaranteed pure and wholesome—never leaves a bitter taste and absolutely insures the value of your ingredients and the time you spend in preparing them.

CRIME MENACE IN THE TOWN OF LANU.

Urgent Request for a Stronger Police Force.

DANGERS OF THE NIGHT

THE "STANDARD" CORRESPONDENT writes from Lanu, Dec. 2. One of the most important matters for the attention of the Lanu Executive Committee meeting held on the 12th inst. was the crime wave which has been sweeping the town since the arrival of the first train from Nairobi on the 1st inst. The committee was informed that the crime wave has been sweeping the town since the arrival of the first train from Nairobi on the 1st inst. The committee was informed that the crime wave has been sweeping the town since the arrival of the first train from Nairobi on the 1st inst.

able character take advantage of the situation to profit the streets at night without fear. Citizens are committed along the use from its place near in broad daylight. Rowdy singing and shouting go on at times when the streets are lighted just by the street lamps.

ARMAGEDDON

The meeting of the committee on the 11th inst. was a very important one. It was held in the presence of a large number of the citizens of Lanu. The committee was informed that the crime wave has been sweeping the town since the arrival of the first train from Nairobi on the 1st inst. The committee was informed that the crime wave has been sweeping the town since the arrival of the first train from Nairobi on the 1st inst.

DRY FACTS ON COFFEE DRYING

FOR DRY-FARMERS TROUBLED WITH WET COFFEE, WET-FARMERS STRUGGLING TO GET COFFEE, AND ALL FARMERS WHOSE GARDENS, YIELDS, AND SPARE BED ROOMS ARE DEVOTED TO RUSTY COFFEE.

Our Principals make two types of Mechanical Dryer—'Guardiola' and 'Okkrassa'

The "Guardiola" type is available in seven sizes, handling from 500 lbs. to 5 tons of wet parchment per charge

The "Okkrassa" type comprises twelve sizes ranging over capacities of from one to thirteen tons per charge

There is a choice of eight types of Heater for each type and size of Dryer. Two live steam, two exhaust steam, three direct-fire, and one electric

Prices of complete units, i.e. Dryer, Heater, Fan, and where necessary counter-shaft for fan, range from £125 to £1300 f.o.r. Nairobi.

The cost of the "Five Ton Guardiola" (capacity 40 bags wet parchment), fitted with the most expensive of the above range of Heaters is £240 f.o.r. Nairobi.

The cost of the "Six Ton Okkrassa" (capacity 90 bags per charge) with Heater as above is £355 f.o.r. Nairobi.

The sizes are the largest sizes of Dryers presently in use in the Kenya, but we can quote similarly for any of the fifteen sizes for any station in Kenya or Tanganyika.

We are in certain cases, arrange for payment in two or three annual instalments.

We can supply illustrated catalogues, lease leaves, blue-prints, erecting instructions, fuel and discharge and Dreyer house designs, can quote for complete installation, inclusive or exclusive of the building to house the whole plant

Our Principals are the oldest wholesale and retail manufacturers of Coffee Machinery in the world, with our own works, has been given in various different coffee-growing countries, after a full time in Messrs. McKinnon's shops and drawing office.

Our continued service to our country.

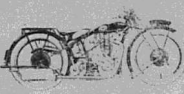

The time required for delivery varies according to conditions at home, averaging about four months from date of order to Nairobi. A further month should be allowed for installation.

ALL PARTICULARS TO SUIT INDIVIDUAL REQUIREMENTS FROM A. N. DAVIDSON.

The New 1928 Buick has taken KENYA BY STORM

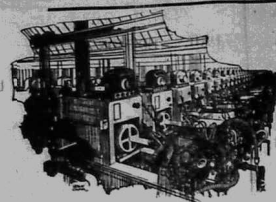

SINCE the introduction of the amazing new Buick two months ago, sales in Kenya have completely outstripped those of any other rival car.

Easy riding qualities never before equalled—and superb power convertible in a flash to the most brilliant possible performance have made Buick for 1928, irresistible to all who have seen and driven them.

Proved in the
finest Testing Plant
in Europe

SUPERLATIVES are much-tried words in advertising these days, yet only a superlative can do justice to the Morris Engine Testing Plant. For this plant is literally the finest of its kind in Europe. Here fifty-six electrical dynamometer machines operate seventeen hours per day making sure that every Morris engine is up to the high standard set for it.

And in addition to the production test plant there is gathered daily a wealth of valuable data by the Engine Research Department of Morris Motors.

The plant itself is of minor interest to the non-technical owner of a Morris. What does concern him is the very wonderful results obtained thereby, in the form of the world's outstanding small car values.

For Those You Love

A man had been listening to advice on life insurance.
"I'll go home," said he, "and talk it over with my wife."
— Just so that," said his adviser, "talk it over first with another fellow's widow."
Not a cheerful suggestion, perhaps, but life insurance deals with fundamental facts.

Reliable

The new Buick is of the Dodge type in the high quality of its metal parts.

All frames, motor case sheets and all types are of chrome-plated or zinc-plated alloy steel, giving great strength and long wear, with low maintenance expense.

Steering is amazingly easy because of the great leverage exerted by the steering gear and the reduced friction resulting from ball-bearing steering knuckles.

The famous Dodge Brothers' 124 horse motor gives a wide range of performance with superior economy. It is covered and cooled by independent fans, which require no extra work.

MOTOR TOPICS

CAR SPECIFICATIONS.

Terms Which Are Often Misunderstood.

SIMPLE EXPLANATIONS

Disappearance of chassis about it in the following paragraphs and in the literature and advertisements issued by the manufacturers. But these necessary technical terms which we have already referred to in these notes to the technical reader that the article is primarily intended. The best that we can do is to go through an ordinary car specification and explain the points as they arise.

The first item which is mentioned with the chassis is the number of cylinders with which the engine is provided, and the number of cylinders of each cylinder stroke to which the motor is provided. The first item which is mentioned with the chassis is the number of cylinders with which the engine is provided, and the number of cylinders of each cylinder stroke to which the motor is provided.

It is usually stated in such estimates (i.e., those being one thing or another) that the engine is of such and such a type, and that the capacity is such and such. The capacity of an engine is usually given in terms of the number of cylinders and the stroke of the piston. The capacity of an engine is usually given in terms of the number of cylinders and the stroke of the piston.

Top-gear Ratio

The top-gear ratio is determined by the arrangement of the final drive, because of the gear there is an alteration in conditions when the drive passes through the gearbox. The other gear ratios however are affected by the gear which is engaged in the gearbox itself. That is a three-speed gear the top-gear ratio is 5 to 1 and the second gear is 10 to 1. This means that the revolution is 10 times as fast in the second gear.

It may well be said, is exactly the same as a car geared to 5 to 1 with 1000 r.p.m. in the case of another car with a ratio of 4 to 1 and 800 r.p.m. The change of gear ratio being in the case usually balanced by the alteration in wheel size.

IT PAYS TO FERTILISE

In experimental tests on growing coffee recently carried out it was found that the best results were obtained from a mixture of the following fertilisers in the named quantities per acre:

- 220 lbs Sulphate of Ammonia.
- 160 lbs Murate of Potash.
- 300 lbs Epsom.

It was found that the trees were far healthier, the crops bigger and the quality of the coffee berries better, resulting in a profit of £15 per acre over areas which had not been treated in the above manner.

We carry stocks of Epsom, Sulphate of Ammonia and Murate of Potash.

INDIANS PREPARE TO APPROACH CONSTITUTIONAL PROBLEMS.

Sympathisers in Britain Oppose Non-co-operation Suggestion.

MR. M. H. MALIK ENLISTS HELP IN LONDON.

Independent Labour Party Memorandum for Consideration in India.

one of the most important sessions of the East African Indian National Congress takes place during Christmas week.

Heretofore little has been known of the Indian attitude to the political situation and in the following report one of their leaders, Mr. M. H. Malik, sets out the result of his work in England.

It was strongly advised against a policy of boycotting the Indian Young Commission.

The report discloses opposition in England to the Kenya Convention Executive's manifesto principles.

THE VIEW OF KENYA'S CRITICS.

It is not only in the Indian press that the views of the Indian National Congress are being expressed. In London, too, the views of the Indian National Congress are being expressed. The views of the Indian National Congress are being expressed in London, too.

It is not only in the Indian press that the views of the Indian National Congress are being expressed. In London, too, the views of the Indian National Congress are being expressed.

Mountain Coffee Soil.

It is a well known fact that the success of a coffee plantation depends on the quality of the soil. The Mountain Coffee Soil is a specially selected and prepared soil, which is ideal for coffee cultivation. It is rich in nutrients and contains the necessary elements for the growth and development of coffee plants.

DISTINCTION.

Some people look at distinction in places. They see a big building or a large crowd of people and they say "that is distinction." But distinction is not a matter of size or numbers. It is a matter of quality. It is a matter of doing things well and of being different from the ordinary.

Dobbies Ltd. OPTHALMIC OPTICIANS

Our opticians are experienced and skilled in the fitting and repair of all kinds of spectacles. We use the latest optical instruments and materials to ensure that your spectacles are of the highest quality and give you the best possible vision.

Christmas Greetings from Kenya.

The Christmas season is a time of joy and goodwill. It is a time when we look back on the year and thank God for all His mercies. It is a time when we reach out to our fellow creatures and wish them a Merry Christmas and a Happy New Year.

Standard Stationery Stores, NAIROBI.

We have a large stock of stationery goods, including pens, pencils, ink, paper, and books. We also have a wide range of Christmas cards and gifts. All our goods are of the highest quality and are available at very reasonable prices.

REVIVING ANTIPOHISMS IN LONDON!

Some Results of Squatter Law Inspections. NERVEOUS COURT CASES. (STANDARD) OVERSEASERS. London, December 10. As we drew to the end of 1937, we ran back upon the passing year with interest. That which was regarded by the local in business as a year of transition. Even some of the South African Railway was completely London in the unforgettable words of our London Magazine, the few seen, an indignation, that the authorities appeared for some time to have forgotten our existence.

In some cases such as representation in the stock market, a duty not to be missed which in other directions, we would have thought to have been left in the hands of the "old" men. But we have been really interested to find that in some cases, a practice has been adopted to make a practice out of "the old" men. I have the feeling that in some cases, a practice has been adopted to make a practice out of "the old" men. I have the feeling that in some cases, a practice has been adopted to make a practice out of "the old" men.

The importance of labor in the production of goods and services is often overlooked. Labor is the backbone of any economy, and it is essential for the growth and development of a nation. It is the workers who create the wealth of a country, and it is their hard work and dedication that make our lives better.

Govt. Road, Nairobi.

continue at the time of the rail. The second case took about two hours to unravel. Deena, Mr. Blackett's new girl, was summoned for having committed irregularities in the Squatter Commission. They put up a spirited defence in the course of which it was stated by the prosecution that Deena had to be free, and as we could not run the natives out of town, we had to run Deena.

A Legal Point. The first case for leaving was adjudged, while the Magistrate handed a report from Mr. W. C. O'Connell (London) who had written for a ruling in the much discussed Squatter Commission. It appeared that Mr. O'Connell had a squatter who had been in possession of a piece of land for some time. The Magistrate was given authority by the Crown to remove him from the land, but the Magistrate refused to do so.

Instead of accepting the Magistrate's decision, the squatter appealed to the High Court. The High Court was divided, but the majority decided in favor of the Magistrate. The squatter was removed from the land, and the Magistrate's decision was upheld.

The High Court's decision was a landmark case, as it established that a squatter who had been in possession of land for a long time could not claim title to the land. This was a great victory for the Government, as it meant that the Government could acquire land for public use without having to pay compensation to the squatter.

The High Court's decision was a landmark case, as it established that a squatter who had been in possession of land for a long time could not claim title to the land. This was a great victory for the Government, as it meant that the Government could acquire land for public use without having to pay compensation to the squatter.

For Health and Strength take Hall's Wine

Weakness comes from poor thin blood and general ill-health. Hall's Wine enriches the blood and gives new tone to the entire system. Depression comes when the nerves are starved and tired. Hall's Wine feeds the nerves and gives them new vitality.

Hall's Wine THE SUPREME TONIC RESTORATIVE

Gives new life and strength in every case of weakness. Recommended by British doctors for over thirty years.

FREE WINEGLASSES A special Crystal Wineglass to hold one dose is given FREE with every large bottle of Hall's Wine. Ask for one when making your purchase.

INDIANS PREPARE TO APPROACH CONSTITUTIONAL PROBLEMS.

(Continued from page 9)

Mr Robert Hamilton M.P. has said Indians should not negotiate with His Highness the Commission, but present a strong case against the proposed Indian Union.

As to Mr Hamilton's plea he has the opinion that a mandatum would be the best course to take. His fervent desire is that the Government should not proceed with the proposed Indian Union. He was opposed to the demand for an official elected Indian Parliament.

He said he would take up the question of Law Court buildings and houses for Judges at Parliament. Mr Norman Lees was opposed to Federation and a Federal Empire, which he said is in the interest of non-European population. He said again that any Indian Government should be a Federal Government, not a Dominion Government, and that it should be a Federal Government, not a Dominion Government, and that it should be a Federal Government, not a Dominion Government.

Mr J. C. Watson, Member Indian Council, was very sympathetic to the Indian cause, and said that he hoped that the Commission would not accept any proposal which would result in a Federal Government.

He said the Government should not accept any proposal which would result in a Federal Government. He said the Government should not accept any proposal which would result in a Federal Government. He said the Government should not accept any proposal which would result in a Federal Government.

Mr S. N. Malik, Member Indian Council, said that he was very sympathetic to the Indian cause, and said that he hoped that the Commission would not accept any proposal which would result in a Federal Government. He said the Government should not accept any proposal which would result in a Federal Government.

Dr Pringley, Member Indian Council, said that he was very sympathetic to the Indian cause, and said that he hoped that the Commission would not accept any proposal which would result in a Federal Government. He said the Government should not accept any proposal which would result in a Federal Government.

Mr Green, Colonial Office, Tanganyika Office, said that he was very sympathetic to the Indian cause, and said that he hoped that the Commission would not accept any proposal which would result in a Federal Government. He said the Government should not accept any proposal which would result in a Federal Government.

Mr Uddin, Member Indian Council, said that he was very sympathetic to the Indian cause, and said that he hoped that the Commission would not accept any proposal which would result in a Federal Government. He said the Government should not accept any proposal which would result in a Federal Government.

very large number of parasites. Undoubtedly on trees where there are an enormous number of ants they do make a bridge with their bodies but it is only necessary to pick the Taxisa tree with the finger to make a new surface. The number of ants required to keep the bridge of Taxisa would not be more than those required for Cheoko. To keep any sort of bridge of ants in contact with the ground when the stem of the tree and contact is made which is made by the ants.

quests on the Insurance Companies. Of course, Insurance Companies cannot be obliged to insure anybody they do not think fit, but there would appear to be no reason why the production of a policy should not be a condition precedent to the flight to a lawyer. I am aware that such a course might bear heavily on people who are just able to acquire and run a car, but it would be a protection to themselves and would ultimately a number of drivers who are not to be treated with a car, whether or not without a road limit.

The Chess Editor would like to receive to all his friends and correspondents and lists of their names should be sent direct to him.

It has always the more subtle a chess player, the more often he is obliged to stand on his toes.

The Indian Match The great event of the National Chess Year, the "International" match book play on Saturday last.

Indians The match between the Indian and European teams was thoroughly well fought.

Table with 2 columns: Player Name and Score. Includes names like Fischer, Harkat, Harkat Ali, Khatib, Kapia.

For the first time in the history of chess in Africa the European team to gain an advantage.

the end of the game. If he gets an advantage he holds on like a bulldog.

But the European showed that he was not to be taken for granted.

A very interesting feature of the game was the frequent repetition of positions.

The game between the European and Indian teams was thoroughly well fought.

The game between the European and Indian teams was thoroughly well fought.

formal presentation to representatives of both Indian and European Clubs.

Mr Edward Deham's Speech

"In presenting this very handsome trophy as a memento given by Messrs. Lever Brothers Limited.

Mr. Deham said that he was sure that the trophy would be a reminder to the players of the value of the game in developing the qualities which make for success.

Mr. Deham said that he was sure that the trophy would be a reminder to the players of the value of the game in developing the qualities which make for success.
