BRITISH ISLES TRAVEL BY WORST BLIZZARD FOR 40 YEARS.

Trains Embedded in Huge Drifts for Many Hours.

ISOLATED VILLAGES.

Cross Channel Services Suspended Owing to Gale.

During the Christmas holidays Britain experienced the worst snow storm for over forty years. Great snow drifts seriously interfered with traffic arrangements and trains were completely embedded in drifts. In some districts snow drifts were so thick that trains were themselves snowed up and had to be dug out.

Several villages were completely isolated by huge snow drifts which in Devonshire reached a depth of four feet.

The blizzard passed on to the continent where there are reports of heavy damage.

RESCUE TRAINS SNOWED UP.

Several branch lines were closed and several villages isolated by heavy snowdrifts. Some channels across have been suspended to the extent of the gale.

A sharp frost followed a partial thaw but night made the London streets again almost slippery as a result of which the London County Council announced that it will have to close all its roads with about 200,000 tons of snow to be piled up.

THAWING RAINS.

Meanwhile the thaws in Scotland, with melting snows and rain, have been very heavy. There is great danger of landslides in the Highlands and in the West of Scotland.

POWER

Where Power Counts Most

WHEN the task to be accomplished is difficult—when stamina, dependability and unflinching power are essential—the services of those who know it—“Buy a Buick.”

In Buick for 1928, greater power and greater get-away are imparted by V-type cylinders, 40-horsepower, greater grace and beauty are given by the new low-swinging bodies by Fisher, and the new low-riding comfort seats. The new hydraulic shock absorbers and tailored springs.

Drive a Buick for a few days and find out why Buick is so popular in their power counts most.

Reliable

This new Ford is in true Dodge form in the high quality of its mechanical parts.
 All foreign cars, aside shafts and springs are of chrome vanadium or other costly alloy steel, giving great strength and long wear, with low maintenance expense.
 Steering is unusually easy because of the power leverage exerted by the steering gear, and the reduced friction resulting from ball-bearing steering spindles.
 The famous Dodge Brothers "14" motor lines insure reliable engine performance with exceptional low oil consumption and quiet operation in every road.

THE AMERICAN MOTOR INDUSTRY.

Great Changes During the Year.

UNUSUAL YEAR PERIOD.

Mr. Harry Brewster, Vice-President of the Chrysler Group of General Motors, in New York, writing to the *Motor Vehicle News* in its January issue, says that the production of the Chrysler Group in America during the year was a new thing in its history.

It has been an unusually busy year for the motor industry in America because of the unusually long period of passenger car production in the Chrysler Group. ...before production for 1928. This prediction was based on the pessimism of the Ford Company regarding the make deliveries in limited quantities to their dealers before the end of the year.

October. There is a general conviction that after first deliveries are made to these 8,000 dealers considerable time will elapse before production is at a high rate.

In the meantime several of the large manufacturers have made very definite gains in production during the current year, and exclusive of Ford, a major production in the last year is slightly higher than in the advance of the same period for last year.

General Motor Program.

The General Motors group have been one of the few changes in production this year, and the increase has been due to the increase in the production of the Chevrolet group. The production of the Chevrolet group in America during the year was a new thing in its history.

The year 1932 and 1933 showed tremendous gains over 1931, but there was a drop of nearly 50,000 in 1934 and 1935. The road a definite increase over all previous years, and new indications are that 1937 will show a falling off of 20,000 vehicles or thereabouts. TERRIFIC STORMS IN BRITAIN.

Towns and Villages Cut Off by Snow Drifts.

LONDON AND KENT THE WORST SUFFERERS.

Telegraph, Telephone, Rail, Air and Shipping Services All Interrupted.

Britain is still in the throes of terrific snow storms and severe frost. Owing to roads being blocked by snow and communications being interrupted, there are prospects of food shortages in working villages. London and Kent appear to have suffered most, roads being as much as 12 and 20 feet under snow, while as a result of snow, there, frost and then freezing, the streets in Canterbury are encumbered by two-foot drifts.

Storms in the English Channel caused the suspension of shipping to and from the Continent. Hundreds of would-be passengers being held up.

SEVERE GALES IN THE CHANNEL.

BY WIRELESS.
The stormy state of affairs in the Channel, of which we have written before, has now become so violent that it is almost impossible to get any news from the coast. The gales are so severe that the sea is running high and the waves are breaking over the rocks. The wind is blowing from the west and the rain is falling in torrents.

CONVENTION WILLING TO CONSIDER FEDERATION.

With Proviso That Commission's Proposals Can be Rejected.

EUROPEAN ELECTED MAJORITY AN ESSENTIAL SAFEGUARD IN ANY SCHEME.

Executive and Elected Members to Collaborate in Drafting Memorandum.

The Convention of Associations met in a special session yesterday and reported the problems raised for the first of the African Young Commission. It was agreed that the discussion should be confined to main principles only.

The meeting passed a resolution unanimously expressing its willingness under the influence of broad general considerations to consider any proposals from the Commission which were to the advantage of Kenya and East Africa with the proviso that before any such proposals could be accepted if responsible members of the community expressed any objection thereto.

The Convention further adopted an essential safeguard in the terms of the Federal Members' Manifesto that it would be the business of the grant of a European Elected Majority over all parties in the Legislative Council to secure a satisfactory classification of trainees and to be treated as such.

INFLUENCE OF IMPERIAL CONSIDERATIONS.

The influence of imperial considerations is a factor which must be taken into account in any scheme of federation. It is essential that the interests of the Empire as a whole should be safeguarded.

POWER

Where Power Counts Most

WHEN the task to be accomplished is difficult—when stamina, dependability and unflinching power are essential the advice of those who know is, "Buy a Buick."

In Buick for 1928, greater power, and greater get-away are imparted by vital engine improvements, greater grace and beauty are provided in its new low-swinging bodies by Fisher, greater roadability and riding comfort result from built-in hydraulic shock absorbers and tailored seats.

Drive a Buick for 1928 to-day, and find out why Buick is so popular where power counts most.

CONVENTION & FEDERATION.

(Continued from page 1.)

...indicated any other proposals. On the contrary, the Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates. The Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates. The Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates.

Fundamental Principles.

I do not believe that there is any fundamental principle of the Convention which is not applicable to the Federation. The Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates. The Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates.

Main Goals.

I think the first point to determine in the new pact which we must work out is the fundamental principle of the Convention. The Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates. The Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates.

An English Dominion?

In proposing to establish an English Dominion in the British Empire, I believe that we should consider the fundamental principle of the Convention. The Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates. The Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates.

Fact Shortcomings.

The shortcomings of the Convention are many. The Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates. fully as they would wish to be the means of other communities. It is not to be understood that we are to be a mere appendage to the British Empire, but that we are to be a part of it. The Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates.

Empire Protests.

If I am right in the contention that the greater body that we are to be a part of is the British Empire, then I believe that the Convention should be held in its own name which I understand to be the Convention of the British Colonies and Protectorates. The Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates.

A Movable Centre.

I do not say that Kenya must be the centre of the Federation. The Convention was to be held in its own name which I understand to be the Convention of the British Colonies and Protectorates.
