To the Cape and back on "BP"

Congratulations on your fine motor fuel which I used throughout my 10,000 miles flight to the Cape and back on Imperial Airways Survey. I found every drop perfect and ample supplies everywhere. In all the amazingly varied conditions "BP" gave perfect carburation. My previous satisfactory experience with "BP" and the fact that it is manufactured by a wholly British Company influenced my choice of your fuel.

LANZ TRACTORS DO IT

CHEAP, EFFICIENT, SIMPLE, RELIABLE. MECHANICALISED FARMING AND TRANSPORT.

Experience in many districts in East Africa has proved that ploughing costs with these Lanz Tractors range from 60 cents to Shs. 2.50 per acre for fuel and Lanz Oil, depending upon the nature of the soil, depth of ploughing and whether old or new land.

Sisal Cultivation with the 22 h.p. Lanz and disc or tyre cultivator is equally cheap.

Maize Shelling with power provided by the smaller tractors costs only 14 to 20 cents per bag.

Average Furrow Capacities on medium soil are three to four furrows for the 22 h.p. Lanz, and 6 to 8 for the 38 h.p. Lanz.

All Lanz Tractors operate on Crude Oil, costing about one shilling per gallon or less, according to district.

They are the most simple to operate, and thoroughly reliable tractors on the market. No carburetors, distributors, wiring, magnets, or inlet and exhaust valves to get out of order. Their sturdy construction, low P.M.P., and freedom from complication, mean a low rate of depreciation.

For Power and Road Hauling — 12.5 h.p. Bull Dog. (In stock) For Ploughing, and all purposes — 22 h.p. 38 h.p. (In stock) We regret that for the moment we are sold out of the 22 h.p. models but further shipments arrive shortly.

FULL STOCKS OF ALL NECESSARY SPARE PARTS CARRIED, AND SERVICE PROVIDED AT OUR MAIN DEPOTS.

THE KILIMANGJARO AREA.

A District with Immense Potentials.

A VISITOR'S VIEWS.

The following account of a trip through the Kilimanjaro district of Tanganyika with descriptions of the various localities, has been compiled as a result of a tour which was recently undertaken through that area on the part of Messrs. M. M. M. and J. M. M. to the Kilimanjaro district.

Kenya. Most of the districts are fertile and labour is plenty. The main rivers which rise at present at Mombasa in the lower part of the hills, in the near future, are said to be naturally spawning. There are sheep in the district but no goats at present. Although much of cultivation is in the valley, the lower slopes are very fertile and well watered. Much is at a lower altitude rather inferior. A very prominent feature is the presence of the Mombasa hills, which are said to be the source of the Mombasa river. There are also some hills in the district which are said to be the source of the Mombasa river.

There are several small streams in the hills surrounding the town and extending to the sea. The hills are very fertile and well watered. Much is at a lower altitude rather inferior. A very prominent feature is the presence of the Mombasa hills, which are said to be the source of the Mombasa river.

The coffee plantations in the district are very extensive and well watered. Much is at a lower altitude rather inferior. A very prominent feature is the presence of the Mombasa hills, which are said to be the source of the Mombasa river.

ed that this was the case for such months. The work is public roads, but it is not yet complete. A good road is being made from the district to the coast. The district is very fertile and well watered. Much is at a lower altitude rather inferior. A very prominent feature is the presence of the Mombasa hills, which are said to be the source of the Mombasa river.

Exhaustive trials, tests and comparisons on the famous General Motors proving ground have demonstrated conclusively that Buick's road performance is neither surpassed nor even equalled.

Test the Greatest Buick Ever Built Yourself.

Drive it beside another make of car.

On hills notice how the Buick forges ahead and outdistances the other car.

On the level feel the thrill of complete road mastery the Buick gives you. See how with effortless ease it passes the other car and with magnificent acceleration leaves it far behind.

Fastwork as they will prove to you that Buick's road performance attainments are unequalled, and are well the result of an inspiration which might be given by occasionally high testing speedometers.

# CHRYSLER "50"

BUILT AS ONLY CHRYSLER BUILDS

If you will picture the Chrysler "50" on the one hand, and the only four other four cylinder cars of large production on the other, the amazing difference between them will make your choice an astonishingly simple matter. In full size, family roominess, in beauty of appearance and furnishings, in wonderful performance and economy you will need no one to point out to you that the Chrysler "50" is quite alone in the field—that there is really no comparison in value.

OUR WOMEN'S PAGE

A Letter from Paris

(By Rosa Daxi)

THE SHIRT

There is a very common mistake in buying shirts. One often sees a shirt with a collar that is too high and stiff, and the buttons are too large and heavy. Such a shirt is not only uncomfortable but also unbecoming.

THE NECK

One of the most important parts of a woman's wardrobe is her necktie. It should be chosen to complement the dress and to suit the occasion. A simple, well-made necktie is always a safe choice.

THE HAIR

There is a great deal of talk about the hair. Some women spend a great deal of money on hairdressing, while others are content with a simple, natural style. The key is to find a style that suits your face and is easy to maintain.

THE EYES

The eyes are the windows of the soul. They should be treated with care and attention. Wearing the right kind of glasses and using eye drops when necessary can help to keep them healthy and clear.

SAVE ON YOUR SINGLET

Most of the singlets that we see in the shops are made of a cheap material and are of a poor quality. They are not only uncomfortable but also do not last long. It is worth paying a little more for a singlet that is made of a good material and is well-made.

COMFORT FOR THE CONVALESCENT

When a patient is allowed to sit up and is able to walk, it is a great relief. However, it is important to do so gradually and to avoid any strain. The patient should be kept comfortable and rested at all times.

THE DRESS

A dress is a woman's pride and joy. It should be chosen to suit her figure and to be in fashion. A simple, well-made dress is always a good choice. It is important to pay attention to the details, such as the collar, the sleeves, and the hem.

THE SHOULDER

The shoulders are one of the most important parts of a woman's body. They should be kept in good health and supported by a strong back. Wearing a bra that is too tight can do more harm than good.

THE WRIST

The wrists are often neglected. However, they are important for many activities. It is important to keep them strong and healthy by doing some simple exercises.

THE HAND

The hands are the tools of a woman. They should be kept in good health and protected by gloves when necessary. It is important to pay attention to the skin on the hands and to use a good hand cream.

THE NECKTIE

The necktie is a small but important part of a woman's wardrobe. It should be chosen to complement the dress and to suit the occasion. A simple, well-made necktie is always a safe choice.

THE HAIR

There is a great deal of talk about the hair. Some women spend a great deal of money on hairdressing, while others are content with a simple, natural style. The key is to find a style that suits your face and is easy to maintain.

THE EYES

The eyes are the windows of the soul. They should be treated with care and attention. Wearing the right kind of glasses and using eye drops when necessary can help to keep them healthy and clear.

THE SHIRT

There is a very common mistake in buying shirts. One often sees a shirt with a collar that is too high and stiff, and the buttons are too large and heavy. Such a shirt is not only uncomfortable but also unbecoming.

THE NECK

THE SHOULDER

The shoulders are one of the most important parts of a woman's body. They should be kept in good health and supported by a strong back. Wearing a bra that is too tight can do more harm than good.

THE WRIST

The wrists are often neglected. However, they are important for many activities. It is important to keep them strong and healthy by doing some simple exercises.

THE HAND

The hands are the tools of a woman. They should be kept in good health and protected by gloves when necessary. It is important to pay attention to the skin on the hands and to use a good hand cream.

**Princess Umema Benefits by PHOSFERINE**

Mrs. N. Burke, Governor of the Ex-Sultan of Turkey's Granddaughter, writes: "PHOSFERINE is an excellent tonic and did my Princess Umema, the Ex-Sultan's little grand-daughter, a great deal of good. It gave her a good appetite and vigour. When 'Governorship' to the Imperial Family, a Congestive condition through a chronic and strenuous period, before the break-up, when fear and danger surrounded us, she took 'Phosferine.' I was enabled to vary on it, to strengthen my nerves, tuning up my nervous system, to increase my vitality and vigour. Taking 'Phosferine' regularly, helped me to lose weight and weariness, caused by the great heat, and I am very glad 'Phosferine' is available to the ordinary citizen, as then prevalent, and made by the forces of 'Nature' in the town."
