MOMENTOUS AIR FLIGHTS

ATLANTIC CROSSED BY LONE AIRMAN.

Lindbergh's Triumphant Dash.

UNPRECEDENTED SCENES AT LE BOURGET.

Captain Charles Lindbergh starting from Long Island at 7.52 on Friday morning took his flight across the Atlantic in a single day. His flight was on Saturday night at 10.22.

The airman made his eight-hour dash alone and spent approximately thirty minutes in the air.

Wild scenes of excitement both in Paris and New York heralded the achievement. New York went mad with joy at the news of the flight, in a congratulatory message, which said Lindbergh's flight crosses the record of American aviation.

[DUNCAN BRETHER'S AGENCY]

London, May 29.—Captain Charles Lindbergh's triumphant dash across the Atlantic in a single day, was the most momentous flight in the history of aviation. Lindbergh's flight was on Saturday night at 10.22.

The airman made his eight-hour dash alone and spent approximately thirty minutes in the air.

Wild scenes of excitement both in Paris and New York heralded the achievement. New York went mad with joy at the news of the flight, in a congratulatory message, which said Lindbergh's flight crosses the record of American aviation.

THE BIRTH OF A NATION.

London, May 29.—The birth of a nation was celebrated in New York City on Saturday night, when the airman Charles Lindbergh landed in Paris after his triumphant dash across the Atlantic in a single day.

The airman made his eight-hour dash alone and spent approximately thirty minutes in the air.

Wild scenes of excitement both in Paris and New York heralded the achievement. New York went mad with joy at the news of the flight, in a congratulatory message, which said Lindbergh's flight crosses the record of American aviation.

R.A.F. 11,000 MILES WORLD NON-STOP FLIGHT ATTEMPT.

Accomplished over Africa Without Hitch.

London, May 29.—The world's first non-stop flight of 11,000 miles was accomplished over Africa without a hitch. The airman, Charles Lindbergh, landed in Paris after his triumphant dash across the Atlantic in a single day.

The airman made his eight-hour dash alone and spent approximately thirty minutes in the air.

Wild scenes of excitement both in Paris and New York heralded the achievement. New York went mad with joy at the news of the flight, in a congratulatory message, which said Lindbergh's flight crosses the record of American aviation.

Terrible Accidents That ZIAM-BUK AVOID

If you are afflicted with an ailment that defies treatment, or if you are suffering from a chronic ailment, read the following:

In a letter from London, England, Mr. E. Jones writes: "I was for months troubled with a terrible ailment which was caused by a fall from a ladder. The local medical officer did not seem to be of any use. I had been told that ZIAM-BUK was the only medicine that would cure my ailment. I bought a box of ZIAM-BUK and took it as directed. In a few days I was able to walk again. I am now perfectly well and have no more of my ailment."

Write for a free trial of ZIAM-BUK to the ZIAM-BUK Co., Ltd., 10, Abchurch Lane, London, E.C. 4.

A BRILLIANT HOLIDAY.

Folks at Home Have a Good Time.

FROM OUR LONDON CORRESPONDENT. London, April 21. The holiday season in the British Empire has been a most successful one. The weather has been generally good, and the people have enjoyed it very much. The railway companies have reported a record business, and the hotels and restaurants have been full.

A Message for Women.

From the dawn of art womanhood until just now, the physical choice to which all women are subjected, a heavy strain over the body, during the critical periods, and during the period before and after childbirth, the body has been subjected to a great amount of physical strain. It is a wonder, then, that what women so frequently suffer with backache, bearing-down pain, rheumatic twinges, neuralgic twinges, nervousness, faintness, depression, nervousness, and various irregularities of the urinary system.

Every anxious woman will find Dr. Ross's Female Kidney Pills a blessing in time of need. They are recommended by many grateful, suffering women who were recovered from lameness, dizziness, nervousness, and various irregularities of the urinary system, by the use of Dr. Ross's Female Kidney Pills.

Temptation!

CHOCOLATES, candies and cakes! What a temptation for children to eat excessively of these temptations. To satisfy their craving for "sweet things" give them Quaker Oats in cakes, puddings, or in any one of the many other ways it can be prepared. At the same time, you provide their systems with the proteins, vitamins and mineral salts so necessary in the proper formation of bone and muscle.

All members of your family will greatly benefit by a daily diet of this excellent health food.

Quaker Oats

THE IMPORTS.

Coming to details of the tonnage of principal imports the April only of this year. Current totals are high by a long way, not less than 5,040 tons being earned as against 1,900 in April 1926—an increase of 1,600 tons. Kevonin oil comes next with an increase of 373 tons and petrol with an increase of 165 tons.

KARRIER
Commercial Light Vehicles

Achievement.

For the reliable manner in which it transports goods or passengers over rough virgin country the KARRIER Rigid Six-Wheeler must appeal to you as an outstanding achievement. Greatly improved traction over all types of road and track results from its application of power to four rear wheels which accommodate themselves to the even contour of the ground. Apart from its ability to travel across country the machine is capable of quick considerable speeds over made roads.

ARCHDEACON OWENS' INDICTMENT.

Alleged Abuses of a Kenya Ordinance.

The Ven. Archdeacon Owen has been indicted by a series of articles in the "Manchester Guardian" for alleged abuses of an ordinance of administration in Kenya.

It will be a matter of regret to those who are familiar with the work of the Archbishop, and who know the facts of his life, and who are familiar with the methods of administration prescribed by the ordinance, that anyone who reads the indictment contained among Archbishop Owen's articles should not be misled into believing that the Archbishop is a man who is not to be trusted.

It is not a matter of regret to those who are familiar with the work of the Archbishop, and who know the facts of his life, and who are familiar with the methods of administration prescribed by the ordinance, that anyone who reads the indictment contained among Archbishop Owen's articles should not be misled into believing that the Archbishop is a man who is not to be trusted.

It is not a matter of regret to those who are familiar with the work of the Archbishop, and who know the facts of his life, and who are familiar with the methods of administration prescribed by the ordinance, that anyone who reads the indictment contained among Archbishop Owen's articles should not be misled into believing that the Archbishop is a man who is not to be trusted.

drives appliances in shops, as shop and office boys, municipal employees, transport workers, etc. These boys and the many smaller activities which absorb labour. The total labour requirements for agriculture and other non-agricultural activities are as follows:—

April 1957, Oct 1957, April 1958	110,688
Oct 1957, March 1958, April 1958	117,165
For the present period, April 1958 to September 1957	127,400
Total	354,853

It will be seen that the number of adult males should be at least 147,520, similarly from October 1957 to March 1958, 154,063 which males are required.

For Agriculture (men only)	57,594
For other than agriculture (female)	105,126
Total	162,720

The actual average of women and juveniles in employment in April 1958 is shown as 200,000. The total labour force of the colony is shown as 390,000. The balance between 15 and 40 years of age of this number, the official returns suggests that 50 per cent are suitable for hard work, the balance, who might be employed at 40-60 per cent. This, probably 5-625, may be in employment, but not engaged or engaged in the fishing industry in the King of Africa.

From North and Central Kenya, Nairobi, Mombasa, Taita and the Phoenix Islands as a whole, the percentage of males who come out to work 80 per cent is regarded as satisfactory, varying as it does from 72 to 92 per cent of the male native population between the ages previously stated. The returns however, show that

From North and Central Kenya, Nairobi, Mombasa, Taita and the Phoenix Islands as a whole, the percentage of males who come out to work 80 per cent is regarded as satisfactory, varying as it does from 72 to 92 per cent of the male native population between the ages previously stated. The returns however, show that

and in principle we support the view that the length of contract be limited to 12 months wherever possible. The advantages of a fixed term of contract in a labour market are:—

(1) It is known that Government has been frequently criticised for its failure to provide a labour market which is not a labour market. It is known that Government has been frequently criticised for its failure to provide a labour market which is not a labour market.

(2) It is known that Government has been frequently criticised for its failure to provide a labour market which is not a labour market. It is known that Government has been frequently criticised for its failure to provide a labour market which is not a labour market.

Conservancy Labour.

PLANTERS, PROPRIETORS AND CONTRACTORS (COMBINED) have submitted to the Government a memorandum regarding the employment of conservancy labour.

The memorandum states that the Government should consider the employment of conservancy labour in the same manner as it does in the case of other types of labour.

The memorandum states that the Government should consider the employment of conservancy labour in the same manner as it does in the case of other types of labour.

Remington SHEATH KNIVES

MEN of the great outdoors—Big Game Hunters, Explorers, Guides, Trappers—cannot fail to appreciate a knife especially designed for their use.

This new Remington knife is beautiful in design, keen of edge, and will render you a lifetime of service.

Ask your dealer to show you the Remington line.

Remington Arms Company, Ltd., P.O. Box 115, Enfield, England.

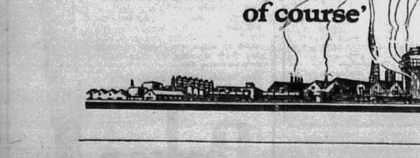

Tyre Craft

DUNLOPS work into their tyre tread scores. You see, just as carbon, when mixed with pure soft iron, turns into tough, strong steel, so similarly rubber is greatly strengthened when permeated with fine carbon powders. The finer the powder the more thoroughly can the rubber absorb its fortifying properties, and the greater therefore its beneficial effect.

It is hard to imagine anything finer than scores on Dunlops, like all craftsmen, imagined first and made last.

First of all they burned zinc to get scorched powder called 'zinc oxide', and then they burned hydro-carbon gases and vapours to get 'amorphous carbon'. Apart from rubber, these are the main ingredients of a perfect tyre tread, and the Dunlop way is the only perfect way to make it.

Competitors may tell you that this is all scores, but ask any tyre user which is the longest wearing tread rubber he has ever experienced and he will say that in

GOOD EQUIPMENT Makes a Good Farmer Better

Trebles the Cutting Capacity of An 8 Foot Ox Drawn Binder

Suppose a storm was coming up and you were hurrying as fast as you could to finish cutting your grain. If you could suddenly transform your 8 ft. ox drawn binder into a machine that would cut three times the width, wouldn't it be a wonderful help? Why not have this kind of a machine to start with and cut in three the number of days required to harvest your crop? The McCormick Deering 10 ft. tractor binder will cut twice as much grain in a day as an 8 ft. binder because it receives the power for operating the cutting and binding mechanism from the tractor through the power take-off. The man who drives the tractor can operate the binder without extra help under ordinary conditions thus releasing the man usually required on the binder for other duties.

Hot weather does not reduce the efficiency of this out-

fit. You can cut grain from daylight until dark without stopping. You can put a man on the outfit during the noon hour. The machine travels at a faster forward speed than an ox drawn binder but you can reduce the forward speed and still operate the cutting mechanism of the machine at normal speed when grain is down and tangled. If the binder should clog you can stop the tractor and still operate the cutting mechanism on the binder until the machine clears itself. Thirty-five to forty acres a day is an ordinary day's cutting. If you operate more hours, of course, you can increase this capacity.

If you are going to need a new binder this year, it will be worth while to consider the McCormick Deering tractor binder because of the great amount of time and labour it saves. Come in and let us tell you about it.

THE F. A. CUP FINAL.

Arsenal Goalkeeper's Tragic Blunder.

ROUSING SCENES AT WEMBLEY STADIUM.

Trophy Leaves England for First Time in History.

(From a Special Correspondent.)

For the first time in the history of the Cup competition the Cup left England. It was won by Arsenal by Cardiff who have the record for the longest time in the final round at Wembley Stadium. The game was a goal to goal.

The weather was fine though gaily, and there were 90,000 people present with records outside the gates wanting to leave the crowd. A large number on the feet of a goalkeeper—surely one of the most records in modern professional football, whose chief glory seems to be found in exploits of his wonderful "kick" play—did not seem to be in the least affected by the heat.

An additional injury could be mentioned in the fact that Lewis, the man whose nerve and hands failed him only once, but as he was playing in a Welsh international play, Lewis's mistake was all the more delicate, because, up to that point, he had been 20 times without a goal, neither side had shown sufficient command of the ball to make any ball scoring. This too, was in a decisive game.

The Welsh players are not so well known as those of the other side, but they are no less capable of a decisive win, and in a practically perfect afternoon.

THE FIRST SHOT. In following this implied criticism of the play, however, it is only necessary to add that the Welsh were not so much as they were in the Welsh international play, and that they were not so much as they were in the Welsh international play.

THE WELSH SINGERS. The Welsh players are not so well known as those of the other side, but they are no less capable of a decisive win, and in a practically perfect afternoon.

THE WELSH SINGERS. The Welsh players are not so well known as those of the other side, but they are no less capable of a decisive win, and in a practically perfect afternoon.

THE WELSH SINGERS. The Welsh players are not so well known as those of the other side, but they are no less capable of a decisive win, and in a practically perfect afternoon.

Forward, who had accumulated little up to date, got in a position that was well timed to take full advantage of the goalkeeper's blunder.

The Welsh players are not so well known as those of the other side, but they are no less capable of a decisive win, and in a practically perfect afternoon.

LADIES' FASHIONS

A Letter from Paris

(By Diana Davs)

...therefore her wardrobe is so well chosen as to be well suited to the season in the form of vivid colours and light shades. She will still usually wear the one-piece frock, but she will also wear the dress, the pattern and unusual design, which, unless they are used frequently, are sure to be some something of a fashion in the season to come. To be completed, for example, always to go out in the season in the same brilliant shades of striped pattern, the same green or red that, the same face-also, and the same gaily embroidered gloves, would certainly become a new mark of the new season if you cannot have a change.

THE SIMPLICITY

At a recent show of a new one or two ideal morning toilets for the woman, the model who wore it was a neat little affair in many ways, definitely not a fashion, but one that in which would not fall to the ground. It was a simple, clean, and simple dress, with a high collar, and a simple, clean, and simple design. It was a simple, clean, and simple dress, with a high collar, and a simple, clean, and simple design.

A dress of charming simplicity in appearance to produce effect. The cuts and folds are all at the back as in cream sergeants, while the folds the child colour note in the design.

The pleasant look of new fashions in apparel, and the opinion is now that an almost total change of new models from which to choose. Everything is perfectly simple, of course, for the woman who will find her own style, but who often creates a desire for her own style, and then demands it. But for the woman whose dress makes a statement.

...striped gown striped with a white skirt. This was worn with a white and black striped blouse with a white skirt, and little girls jumping from under the blouse and falling over the grey gloves. Here the red had come into the new, very faded-looking and very gloomy. It was kept in countenance by the red leather pockets and the red leather "flowers" in the lapel.

...HARD-KNITTED MOWER. In one case I saw a knitted silk jumper suit. It was a very exclusive jumper suit and not only one of its kind. There is no reason, however, why it should not be copied to be an outdoor sweater and general outfit, an occasion. The colour of this very exclusive suit was, rather dark shade of blue. The colour of this very exclusive suit was, rather dark shade of blue. The colour of this very exclusive suit was, rather dark shade of blue.

NEW LIGHT UPON LAMPFRASE

There is a refreshing regard about the latest types of lamp shades. With a piece about the size of a handkerchief, the lampshade is a simple, clean, and simple design. It is a simple, clean, and simple design. It is a simple, clean, and simple design.

...A distinctive colour, in dark red, grey, and black and red checked crepe, which also forms the sleeve puffs.

CRICKET IN S. AFRICA

Close of the Currie Cup Tournament.

TRANSVAAL WINS. [Pace One Over Commencement] ... The Currie Cup Commencement ... The Currie Cup Commencement ... The Currie Cup Commencement ...

THE TOURNAMENT

The tournament, continued commencing at the various centres and over the major part of the past season has revealed the time of the unshaded superiority of the Transvaal over all the other provinces, largely owing to the coaching of Nepe and Hall. The Transvaal players have been very successful in their efforts, emphasizing quite as lightly the superior technicality of their play. The Transvaal players have been very successful in their efforts, emphasizing quite as lightly the superior technicality of their play.

COTTON GROWING IN THE EMPIRE.

Prospects in Africa and India.

It is not too long since that the cotton crop in the Empire was regarded as a very satisfactory one. In the case of the different types of cotton which the various industries of the Empire had been producing, the total output for the year 1926 was 1,000,000 tons. This was the first time since the war that the cotton crop in the Empire had reached such a high level.

Mr. J. Arthur Hutton, who presided, pointed the adoption of the report and accounts both of which he described as very satisfactory. He also pointed out the difficulties which the cotton and other industries of the Empire had been experiencing. He also pointed out the difficulties which the cotton and other industries of the Empire had been experiencing.

After having a debate on the subject, the meeting adjourned. Mr. Hutton then presided over the meeting. He also pointed out the difficulties which the cotton and other industries of the Empire had been experiencing.

RESULTS IN INDIA.

Following the work of the Association in the cotton-growing countries of the Empire, Mr. Hutton said that in the Punjab the crop had been very successful. Last year the total yield was 1,000,000 tons. This was the first time since the war that the cotton crop in the Empire had reached such a high level.

With regard to the West India report was not so satisfactory. The quality of the cotton was a little inferior and the first crop was not so successful in the West India. This was the first time since the war that the cotton crop in the Empire had reached such a high level.

AFRICAN EXPERIMENTS.

Turning to Africa, Mr. Hutton said that the cotton crop in the southern provinces of Nigeria was very successful. This was the first time since the war that the cotton crop in the Empire had reached such a high level.

It is not too long since that the cotton crop in the Empire was regarded as a very satisfactory one. In the case of the different types of cotton which the various industries of the Empire had been producing, the total output for the year 1926 was 1,000,000 tons. This was the first time since the war that the cotton crop in the Empire had reached such a high level.

STRAK in EAST AFRICA.

In East Africa there had been a slight setback. It was found that the cotton crop in the East Africa was not so successful as in the other parts of the Empire. This was the first time since the war that the cotton crop in the Empire had reached such a high level.

In Tanganyika, a little progress had been made, and the cotton crop in the East Africa was not so successful as in the other parts of the Empire. This was the first time since the war that the cotton crop in the Empire had reached such a high level.

SUDAN, IRAQ, AND AUSTRALIA.

In the Sudan there was a large and satisfactory crop. In Iraq, the cotton crop was also very successful. In Australia, the cotton crop was not so successful as in the other parts of the Empire. This was the first time since the war that the cotton crop in the Empire had reached such a high level.

The most satisfactory feature about the cotton crop in the East Africa was that it was very successful. This was the first time since the war that the cotton crop in the Empire had reached such a high level.

Summarizing the results, Mr. Hutton said that the cotton crop in the Empire was very successful. This was the first time since the war that the cotton crop in the Empire had reached such a high level.

It is not too long since that the cotton crop in the Empire was regarded as a very satisfactory one. In the case of the different types of cotton which the various industries of the Empire had been producing, the total output for the year 1926 was 1,000,000 tons. "FARMERS" READ THIS

Messrs. Gailey & Roberts Ltd., Nairobi.

I've been fairly enthusiastic about the "Thirty" as regards its performance at Mtwani—but that is nothing to what, I feel about it after six weeks work in this District.

I have completed 45 days' work at Njoro and Bongai and during that time have completed the astonishing average of 500 acres ploughed and 400 acres double sowed.

Given that two acres of double sowing, correspond to one of ploughing, it works out at 780 acres ploughed in 45 days, and at a fuel consumption of 1.54 gallons of paraffin per acre and 94 gallons of oil per acre!

When one considers that out of the forty-five days it has raised on about thirty of them, and that the machine has completed over 2,000 acres of ploughing without being touched, there is no doubt possible as to outstanding economy and reliability of this Model.

There cannot be another tractor in the world that can approach these figures.

Incidentally, I have covered as much land here in six weeks as I did in sixteen at Mtwani. This shows the nature of the land at Mtwani.

Yours faithfully, (Sgd.) J. R. WARBURTON.

'BRITISH EAST AFRICA'

To the Editor, "E. A. Standard":
The article in the Standard of the 22nd inst. is a very interesting one, but I am sorry to find that it contains several errors. The first is the statement that the British East Africa was a colony of the British Empire. This is not true. It was a protectorate. The second is the statement that the British East Africa was a colony of the British Empire. This is not true. It was a protectorate. The third is the statement that the British East Africa was a colony of the British Empire. This is not true. It was a protectorate.

To the Editor, "E. A. Standard":
I have read with interest the article in your issue of the 22nd inst. regarding the proposed new constitution for the British East Africa. I am sorry to find that it contains several errors. The first is the statement that the British East Africa was a colony of the British Empire. This is not true. It was a protectorate. The second is the statement that the British East Africa was a colony of the British Empire. This is not true. It was a protectorate. The third is the statement that the British East Africa was a colony of the British Empire. This is not true. It was a protectorate.

THE CHARM OF PARIS IN SPRING

New Rules of the Road.

[Paris Correspondent] Paris, April 20, 1927. ... The charm of Paris in spring ...

Although he is sixty-four, M. Broussard is no less a politician ...

English holiday-makers would find Paris delightful just now ...

RULES OF THE ROAD.

Motoring in France has always had a certain fascination ...

From now onwards a driver will not get away with it on the main road ...

It is in THEATRELAND. Paris is theatre-crazy just now ...

At May 14 the Zanibar Hotel for Magicians ...

It has been decided to open a Government School at Zanibar for Arab girls ...

pleasure outside his home, and discovering later the simple way of managing him, makes the play doubly interesting.

THE piece at the Studio is called, "Mops," and is of a more highbrow order than "Cristy."

The fresh grain of the gorgeous tones of the perfume ...

The Americans who discovered the town ...

English holiday-makers would find Paris delightful just now ...

THE interesting anecdote which was created by the removal of Napoleon's body from its lonely tomb ...

They are complaining of the lawless treatment which tourists ...

Behind that excuse, however, lies probably another explanation ...
