ADRIFT IN A CANOE IN THE INDIAN OCEAN.

Extraordinary Experience of a Man and Two Girls.

SEVEN DAYS' ORDEAL

A romance of the Indian Ocean which might have ended in a tragedy is described graphically in the message from Lamu published below. A man and two girls set off to cross a creek in Pemba Island in a small cance.

A storm blew up. A sorm Diew up.

After seven days and nights during which their slender craft was tossed about the Indian ocean and its occupants suffered great privations, a landing was effected between Lamu and Kipini, hundreds of miles

Kenya and Uranda Gevernmentel
Alcalampateloid by the asManagementel
Mentalampateloid by the asManagementeloid by the asManagementel mental flights subsidised by the From the meagre information which we are able to publish today it is assumed that the "Peliean", the seaplane originally se-lected for the service, has at long last been reconditioned and that it is intended to employ it when, in the near future, the flights see umed. Even though the illfated attempts of a few munths ago must have had a somewhat had effect on the public's feith in the practicability of se Hast African air mail, it does not reonire much imagination to visua lise the time, be it soon or late. when the East African nermonies will rely more and mans on or - A and when new doubt as to the utility of this wery medern means of transport will to ranquished by its proved atmess. The arguments advanced at the sought to show how business be tween the Home country and Kenya could be speeded up by an air mail are not weakened because of initial setbacks. The moving of time which can be effected is of almost incalculable wither, and it is much more important at the present time that this superflight should receive amention than that there should so unsitconsideration given to the development of a possenger acris That the latter will eventuace also a certainty, although it may he some time before it becomes a resconized link in the issumey to and from Britain. In the most time it is most important to omntrate on the carriage of mails and goods by air and we are unitdefinitely of the opinion that it the duty, not only of the Govern ments of Kenya and Ummda,who indeed have already de-monstrated a practical interest in the matter-but of the people of the two countries to ensurage by all means in their power the Michespet of the Electrons.

Dramatic Proof of Nash 7-Bearing Motor Supremacy

The vibration that annoys you so much in so many motor cars starts in the crankshaft. The Nash engine deserves the name of The Nash engine deserves the name of the world's smoothest type, because it has 7 bearings to support the crankshaft thoroughly and firmly. 7 bearings to take the sledge-hammer blows of several thousand engine explosions a minute.

Many six-cylinder motor cars STILL have 3 or 4 main bearings. Nash has 7.

It costs considerably more to place 3 more bearings in alignment, to dynamically balance 3 more bearings, to drill 3 more bearings for the Nash system of force-feed lubrication, but it gives the Nash owner performance-smoothness which is the envy of his friends.

When you select your next motor car, be sure to ask how many main bearings. Each one of the 23 Nash models has 7!

THE DAVIS CUP.

France Wins the Tronby for the First Time.

AMERICANS DEPRATED

(THROUGH REUTER'S AGENCY.)

Thindelphia, Sept. 8.

The Challenge Round at the Davis Gup opened here to day heatween U.S.A. (the holders) and France (challengers), when the following singles matches were

played:

R. Lacoste (France) beat W. M.

Johnston (U.S.A.), 6/8, 6/2,

W. T. Tilden (U.S.A.) beat H.

Cochet (France), 6/4, 2/6, 6/2,

8/6

0 6/2, 6/4

France thus wins the challenge round and the trophy by three matches to two.

*This is the first occasion that France has won the Davis Cup. although they were challengers in 1925 and 1926.

Why are International Harvester Tractors Being so Generally Adopted?

Here's the Answer:

Does tractors make farm work exoret. They enable toster field work to be done. They enable more work to be accompledied. Tractor farming is more profitable. Tractors save time, when time is needed. Toward strating gives more time for state dutine. Tractors save man laster. They can timele help owned and outputs over reads and consenial held prover. These tractors are reads to work in all kinds of weather dot are not subject to design. They cost including also not working.

Excessive perspiration is a sign of weakness

Not, of course, the perspiration due to heavy exertion or heat, but the "Cold perspiration" and nightsweats which accompany weakening diseases, such as Tuberculosis. These nightsweats are not only a sign of weak ness but they also weaken the body. To conquer this weakness you should build up your forces right from the core by strengthening the body-cells with calcium, their vital constituent. Kalzana will do this for you

Kalzana tablets contain calcium in a special chemical com-bination, which causes the calcium to be readily absorbed by the body and retained. The strengthening influence of Kalzana will be noticed even after a few days by a lessening of nights weats.

In Tuberculast. The strengthening effect of Kalzana is of special importance in Tuberculosis. The fortified cells are more easily able to resist the stankes of the beatili, while an excessive content of calcium in the organism causes calcium to be deposited in and around the infected places in the lungs, by which process the beatilit are "caged in" so that

How did we get all these customers. By persuading each of them to buy ONE RAINBOW BELT.

Most of them picked an extra hard drive for the first trial. No doubt some of them thought, "Here's where I get rid of that fellow who wants me to tr. one of his RAINBOW BELTS. I'll put one on that tricky drive and in about three months it will look like a real rainbow."

Did the trial belt make good!

Answer: COUNT THE CUSTOMERS.

That kind of a test in your plant would convince you-wouldn't it! Why don't you make it!
