A pronounced advantage the He Live Standard Six Seden enjoys over other cars in its Beld is its r hearing motor.

As contrasted to a Four or to a Six still powered with the older type 3 or 4-bearing motor its performance superiority is so great as to be almost unbelievable until you actually experience it.

You'll find it trigger-quick in getaway, of great power and speed, and with the supreme smoothness and quiet ness inherent only to the 7-bearing type of motor design. Its finely-modeled body, of genuine hardwood construction like the world's highest priced cars, is a symptony in blue, with the lighter shade of the body

Nigerian Official's Journey in British Light Car.

A LEAVE EXCURSION.

Route Details of an Interesting dry Weather Journey.

An administrative officer of the Nigerian Service has opened up to East African motorists interesting possibilities of a new route from the East to the West Coast.

Without any great difficulty he travelled from Kano in Nigeria to Mombasa in a Morris Cowley two-seater ear in thirty days, covering in that time a distance of 3,000 miles.

His chief excitement was the loss of the trailer by firs together with half of his petrol supplies. It speaks well both for the car and the condition of the road that the motorist was able with such a light vehicle to trans-port a trailer for nine days.

The Choice of Champions

A MONG America's Jeading teams players Keds are an unquestioned favorite. Wherever tennis matches are played you will see Keds worn—not only by champions, but by the majority of players.

or players. Tennis superts choose Keds for their light, say comfort, their sturdy wasa, and heir ability to grip on any playing surface. And these are sucurity the features of Keds that will appeal to you. Keds speed up your game; they give you that features are successed to you need in a pinch. Keds are lifed abose for tennis and outdoor genera.

Come in today for your Keda. When you come here you can be sure of getting genuine Keda. Look for the name Keda on the shoes.

WORLD IN MOTOR CAR LEADS

Unique Beauty — a 7-Bearing Motor

A pronounced advantage the De Luxe Standard Six Sedan enjoys over other cars in its field is its 7-bearing

As contrasted to a Four or to a Six still powered with the older type 3 or 4-bearing motor to performance augmentority is so great as to be almost unbelievable until you actually experience it.

You'll find:

You'll find it trigger-quick in getaway, of great power and speed, and with the supreme smoothness and quiet ness inherent only to the 7-bearing type of motor design. Its finely-modeled body, of genuine hardwood construction like the world's highest priced cars, is a symphony in blue, with the lighter shade of the body

and an Array of Costly Car Features

proper and the fenders handsomely set off by the darker tone of the upper body.

In the interior there is further evidence of costly upanity, for Chase Velmo Mohair Velvet is used for the upholstery, the steering wheel is of solid walnut, and the the instrument board and window ledges are of walnut finish.

Among many notable attractions included in its standard equipment are front bumpers, bumperettes, motometer, 4-wheel brakes, and 5 disc wheels.

And Nash has set the price so low as to be but little more than that of a Four or cheap Six.

#### THE COTTON MARKET.

At the March meeting of the xecutive Council of the Joint last African Board it was sug-ested that the time had arrived certof, that the time had arrived for establishing a cetton commat-teriorapposed of members of the Mamebater and Laverpool Cotton Associations, together with num-cless of the control of the con-bonard, to sit alternated in Mas-cheston and Laverpool. The Chairman pointed our that when the board was established chiesends with SPF Willies (then Mr. Illindury, of the British Cot-ton-Graving, Association, and Mr. Frederick Jackson, the chairman Germeration, and it had even de-Germeration, and it had even de-Germeration, and it had even de-

cided that while those two sources would ecosperate where necessary, with the Jeint East African Bond, it was not advised by that they should be directly represented on the board, since they both had direct contact with the toloubal content of the contact with the toloubal content of the content of the toloubal content of the time being, questions required to the development of cotton growing to those two organisations.

It was pointed out that the present moment would in any case be unsuitable for bringing about an understanding between Manchester and Liverpeol on this matter owing to the frietion recently created by the attempt on the part of Manchester to establish a separate cotton market of its own.
