THE 14/28 H.P. MORRIS COWLEY TOURER. 21 1/2 miles per gallon of petrol. 1000 miles or more per gallon of oil.

TODAY horse-power rating has an entirely new value. It is not size that determines a car's power and performance, but efficiency—and it is in the building of efficient cars that Great Britain leads the world.

Morris from the outset has built only high efficiency cars, and consistently through the years the power unit of the Morris has been more and more developed, towards greater efficiency, increased economy.

The Purity of H & S'S SCOTCH WHISKY.

Throughout the world no stimulant is so popular as Scotch Whisky; as a perfect safe beverage in all climates, it is unsurpassed. It is supreme on account of its PURITY, nothing entering into the manufacture excepting pure and wholesome ingredients. Spring water, running over miles of heather-covered hills, milled barley and yeast are the constituent parts. Purity is the natural sequence resulting from a commodity manufactured on these lines.

ITALIAN RACE ON BIRTH CONTROL.

Divorce Manual That Must Not be Sold.

MUSOLINI'S DEGREE

Italy's campaign for the development of the population on the part of the New Italy seemed to the least of Mussolini, in proceeding vigorously against the Rome newspaper of the "British Empire" (The Times).
The appropriate message which Mussolini sent through the Prefect of Milan to the Cardinal Archbishop was on the occasion of the latter's funeral. Mussolini said he would like large families, and that the State between Church and State on the right against birth control.

A circular has now been issued to the Prefect of Italy by Signor Mussolini on two aspects as Minister of the Interior, publishing the sale in Italy of a "Divorce Manual" published in Italian at Rome. The manual purports to explain methods by which divorce can be obtained easily in Hungary.

Mussolini's attitude on divorce is quite as rigid as that of the Catholic Church. Divorce is stated in the circular which has been issued to the Prefect, as incompatible with Italy's racial life, a national and racial even-ness to weaken the population in the position of a minority.
Prize for Big Families.

Hardly a week passes in Italy, nor without Mussolini awarding a special prize, ranging from 500 to 2,000 lire to a family with ten or more children. The ten-child family is the ideal aimed at, and Mussolini declares that it already exists in the population of one of the poorest provinces in Italy.
Recent statistical inquiries into population have proved disappointing. There are, it was revealed, 2,000 communes in Italy, and the Government is determined where the population is either stationary or declining. This number comprises 77 per cent. of all the Italian communes.

There are, according to statistics just published, 15,249 families of six persons, including the parents, in Milan, which are only 2,241 families with eight members, or 112 per cent. of the total. Again there are 31,000

RAIN DESCENDS ON THE GREEN VALLEY.

And Causes a Settler to Become Lyrical.

WHAT PROSPECTS

(STANDARD CORRESPONDENT.)

St. Albans, March 16.—I think that we can now safely say that the long rains have broken. We have had one or two heavy showers last week and now it has rained for the last three or four days continuously and looks like continuing.

We shall soon be sowing our corn again. The wet weather, in the wet year of 1920 and a little in '21, has been a great help. We are sowing all the way to the River. It is a good sign. The rain is a great help. It is a good sign. The rain is a great help. It is a good sign.

GHORUS
We stuck here. We got stuck everywhere. It has been a road. It has been a road. It has been a road.

When we push in the bush, we get lost, unless a lot of us go with us. What.

For those who are too high for the office, who appear to be the forgotten crop, I think it does well here. I understand that the R.F.A. and I have been engaged in a campaign to give Messing Wood as the nucleus of a village in the bush that they get.

As usual the rain has brought me the news of a few more millions of living ants, enough to make the heart of even a King rejoice. I know of several families who are having a good most dinner tonight or should one eat it now?

A Game Rangers Notebook
BY
A Blaney Percival
Edited by E. D. CUMMING.
With illustrations from photographs by the Author and Martin Johnson

It is doubtful whether anyone has ever had better opportunities than Mr. Percival for studying big game in the own East African haunts. As Ranger to the pro-Mr. Percival's book is packed with information on the habits of his quarry which will be of interest to the sportsman and the sportsman pure and simple. The photographs by himself and Mr. Martin Johnson—with which the book is illustrated—are unique.

RECONDITIONING OR SCRAPPING.
Practical Limitations of Chassis Maintenance.

PRESENT CONDITIONS.
One of the most valuable lessons from operating experience that has been contained many times over in the motor industry is the warning about the limitations of vehicle maintenance. The vehicle is a mechanical device, and its performance is dependent on the condition of its parts. It is not possible to maintain a vehicle in perfect condition indefinitely, and the operator must be prepared to accept the fact that the vehicle will eventually require major repairs or replacement of parts.

Another important point is the fact that the cost of maintenance is a significant factor in the operation of a motor vehicle. The operator must be prepared to accept the fact that the cost of maintenance is a significant factor in the operation of a motor vehicle. The operator must be prepared to accept the fact that the cost of maintenance is a significant factor in the operation of a motor vehicle.

Limitations of Repair Shop.
Admitted that several such modifications in other types of vehicles, the present situation is not so favorable. The repair shop is often unable to provide the necessary parts and materials, and the operator must be prepared to accept the fact that the cost of maintenance is a significant factor in the operation of a motor vehicle.

detracting such jobs the operator in charge cannot devote the necessary attention to his ordinary routine duties, with the result that the running repairs must be very desirable.
Again, when the system of maintenance is based principally on an elaborate annual overhaul, there is a tendency to allow certain kinds of wear to run on uncorrected until the operator is obliged to strip out the engine, and to replace it with a new one, which is a very costly operation.

The practice of reconditioning old vehicles is a very important factor in the operation of a motor vehicle. The operator must be prepared to accept the fact that the cost of maintenance is a significant factor in the operation of a motor vehicle. The operator must be prepared to accept the fact that the cost of maintenance is a significant factor in the operation of a motor vehicle.

Working the Wrong Way.
To get a practical idea of the effect of low pressure of reconditioning, the operator must be prepared to accept the fact that the cost of maintenance is a significant factor in the operation of a motor vehicle.

is capable of developing more than the normal power output, which at first sight appears to be very desirable.
But again, that we have to remember that the normal reduction in the diameter of the shafts, which is a very costly operation, is a very important factor in the operation of a motor vehicle.

UFRISA

To the Editor, "U.A. Standard"—**Ufrisa**—Those who have any extensive dealings with the Kakamega Tribes of the North Kenya are sure to come across "Ufrisa". It is a dried wood connected with which bark and galls are covered by a sticky, yellow, and agreeable, which is only the Kakamega who are most of them.

When I first came across it, I was sure to be cured of a fever which had been running for some time, but I was not so sure when I had it in my hands. I was not so sure when I had it in my hands. I was not so sure when I had it in my hands.

The leaves of the plant are packed green and are somewhat like those of the Kakamega tree. The leaves of the plant are packed green and are somewhat like those of the Kakamega tree.

The symptoms of the Ufrisa malarial are said to be, firstly, a pain in the part that was touched by the Ufrisa carrier; this pain then spreads to the rest of the body, severe constipation comes, and so on about the third day pin-point appears which when rubbed, stands hairs of a reddish hue, and small patches of crust. It is had some death may occur from about the fifth to the thirteenth day.

One of the men that the natives consider effective is a green to brown leaf crushed together, smeared with butter, and rubbed over the body when the leaf produces pin-pointe disappear and the Ufrisa victim recovers.

The natives fully believe in all the above, and I know of several cases of natives who have died supposedly from the touch of a snake in connection with the Ufrisa disease.

THE VALUE OF A CUP OF TEA

Makes Women Work Better.

CONTENTMENT

The effect of a cup of tea or coffee, with a brief spell of rest, on women performs an important part in an Industrial Fatigue Research Board report, issued recently.

A factory where workers were given a 15 minutes' rest pause in their work, during which they were given tea and had a free tea provided each afternoon, the percentage of work done during the period was 25% in a normal factory, where the workers had a fifteen minute pause in their work.

The result of the investigation was that the workers who were given tea and had a free tea provided each afternoon, the percentage of work done during the period was 25% in a normal factory, where the workers had a fifteen minute pause in their work.

Nandi Border.

A compact farm of about 1,000 acres which 400 acres are under cultivation; plenty of waste trees, well equipped with farm buildings, good dwelling house with large flower garden, good water. 1,100 acres can be ploughed. Has very pleasant views and is a most healthy district.

Price £2,500 which includes 4 teams of oxen, seven ploughs, 2 disc harrows, stripper harrower, cultivators and other implements. 30 pigs.

This is a genuine bargain, no waste land and the Nandi market at its door; 12 1/2 miles from Usain Gishu main line railway station. Well served by motor road. A purchaser would get an income within eight months.

* Includes supplementary estimates issued this week.

It is to be remembered that the total increase in the Air Estimates is due to the fact that certain Middle East service aircraft chartered to the Colonial Office are now transferred to the Air Force. These amount to about two millions so that there is an actual decrease of about a million and a quarter pound. To these supply estimates have to be added the service of the Debt, payments to the Road Fund, and the other Consolidated Fund Charges. These amounted to the Budget Estimates last year to 642,000,000. In the coming year there will be a certain reduction of 210,000,000 that being the amount by which

Have You tried the touch of this latest CORONA?

CORONA has always been famous for its development and durability, but this new model has an added advantage—a wonderfully light touch.

You would naturally have believed it to be built such a smooth, easy key action, a portable typewriter.

Notice the big machine features throughout—the wide carriage, the full length, two-rod self-reversing ribbon, the standard four-row keyboard, the many little refinements which you would not expect to find in a portable typewriter.

Feed-Film.

AN INNOVATION IN NAIROBI ADVERTISING.

A new and interesting development in advertising is being introduced in Nairobi on Wednesday afternoon when the first film business firm introduced the practice of charge to the Theatre Royal for a view of film display on their latest films. That the public appreciated this novel attraction was amply demonstrated by the fact that there was not one unoccupied in the whole building and a very large number of people stood throughout the performance.

The show was intended to demonstrate the methods and material which are employed and the manufacture of the new Feed-Film Company Ltd.

The programme opened with a Russian News Bulletin.

After Mrs Violet Walsh Leach, the wife of Mr J. Leach, the Post Representative for East Africa, had sung the Canadian National Anthem, the film show was shown. This showed the process of manufacture and assembly of the new Feed-Film from the commencement up to the time the car was driven out of the works and was tested. It says much for the skill of the producers that throughout the five parts, many of which dealt entirely with technical matters, the interest was well sustained. Every Feed-Film used was situated the number plate to the first completed car of the new type. In the last scene showing demonstration of the strength and capabilities of this product were shown. Cars were seen travelling at very high speeds over railway lines and steeply and skidless at the road side have jumped. The appreciation of the audience was demonstrated by continual bursts of applause. The full climbing powers of the car were shown on some of America's famous test hills, and a climax was reached when two different type models were seen ascend the most wonderful snow scenery.

All the combination of the film the screen was raised and a Ford Tudor Sixteen was displayed on the stage. A delightful effect was produced by interior lighting.

Mr Leach said a few words regarding the work of the Feed-Film Company, making special reference to the age which is contribut-

The New Army.

AT HOME' EXPERIENCES IN HAMPSHIRE.

STANDARD CORRESPONDENT.—London, March 22.

It is a long way from the rough and tumble of barracks life to the Army recruit of a few years ago to the conditions of to-day, when the parents usually of young soldiers may visit their recruiting post to find a wide institution stretched in the following terms:

Thomas Atkins Junior, "B. House" in Portland and "Principles-Ten-Miles" 27. "H. S. P." Rect. Six-Miles, was, interestingly, expressing his unimpaired "last" work at the Depot, the Hampshire Regiment at Winchester, where the commanding officer has sanctioned a scheme for quarterly training days for the parents and friends of recruits in training at the Depot.

The institution is also extended to people in the county containing, raising their boys under "County Regiment," so that they may see the actual conditions under which the first stage of a soldier's life is spent. The Hampshire Regiment have in the past years made one of the high percentages of Hampshire men, who have been sent to the depot, and half of their county regiments, and although the experience has been somewhat surprising, the scheme under the balance, there has been a marked improvement, both in the county regiments being very largely recruited by Hampshire men.

of day of particular interest and moment to the Colonies and their dominions. In Kenya for a number of years we have been guilty of an unpropitious neglect of the Festival of Empire, we have neglected the opportunity provided for the celebration and thanksgiving to which the history of the Empire is related by its name and its subject matter in all parts of the world, and we have neglected also to do our utmost to bring to the great work of preparing and freedom, the foundations upon which this history has been built. A few weeks ago, Mr. Balfour, the British Commonwealth of Nations. Mr. Balfour has mentioned that Empire of which we are made up of military conquest and sustained by military force. On the other hand the British Empire is so novel in its character that it has given a new meaning to the word. The British Commonwealth of Nations.

ENCOURAGING OFFICIAL OPINION.
"STANDARD" CORRESPONDENT.
London, March 22. Mr. Balfour has expressed the opinion that the Empire is a more homogeneous unit than it is generally supposed to be. He has stated a programme on occasion for the Empire. The British Commonwealth of Nations. Mr. Balfour has mentioned that Empire of which we are made up of military conquest and sustained by military force. On the other hand the British Empire is so novel in its character that it has given a new meaning to the word. The British Commonwealth of Nations.

REPAIR ROOFS —
To the Editor, "E.L. Standard."
I believe that the immense number of buildings of importance existing upon certain important thoroughfares in Nairobi, the things are being put up, such as has been said.

WATER BOILING
To the Editor, "E.L. Standard."
I have been interested very much to read your correspondence letter in today's issue regarding the experiences with the Public Works Department with respect to water being supplied.

Automatic Lighthouse
So far this particular device has been used without a shadow of doubt. It has been found to be very reliable, and has been found to be very reliable, and has been found to be very reliable.
