TOWN COUNCIL'S LIFE AGAIN EXTENDED.

Pending Passage of New Legislation.

MAYOR'S EXPLANATION.

In the Town Council on Tuesday the Mayor (Councillor T. A. Ward) drew attention to certain correspondence which was presented to the Council in which it was requested that a further Council should be constituted for the present Council should be extended for a further period of six months in view of the Government legislation.

The Mayor said that the position was the same as one which had arisen before, as Government had made these proposals, but for the time to pass before a meeting of the Council prior to the close of its term of office. He had therefore taken it upon himself to extend the Council for the time being, but any other way out of the difficulty.

There was no discussion by Councillors on the subject.

Tiger in a Hat.

NOVEL SIKHAR EXPERIENCE IN HYDRABAD.

In the divided district of Hyderabad, a great stir and excitement was caused by the news that a tiger had been shot when a village party in Hyderabad had been invited to a village about four miles away, and after killing a man, had taken up his quarters in the house and had not yet been seen since he came out.

The three sikhar, stationed in the village and finding the report correct, they approached the last Tiger Forest Officer took up his position three weeks in front of the tiger. Suddenly the tiger sprang his head and shoulders up and the forest officer, naturally, shot him in the shoulder. The tiger roared into the hat.

One of the guests scrambled up on to the roof of the hat and holding a hold in the shaft, shot the man-eater through the head.

Ship of Romance.

AMERICAN WOMAN'S GIFT FOR CHILDREN.

The Friend Ship—400-ton illuminated schooner—will become a place of recreation and adventure for hundreds of boys and girls.

The ship has been given to the people of Great Britain by an American, Mrs. Arthur B. Tappan, in order to foster their spirit of education and love of travel.

Commander Winkler, of the Royal and Shakedown Expeditions, will be in command, and the vessel will consist chiefly of young Gentlemen men who have made about a sailor's life.

She will be brought in a few weeks from Cardiff, where the necessary is being completed, to the George's Moorings, near the Tower Bridge, where the first batch of children will be admitted to her decks for rudimentary lessons in seafaring.

There will be old but still able men to the criterion of the British Empire, and members of her will be brought out in the summer. The crew will consist of an ordinary seaman, and later they will be taught how to steer and handle the sails.

After the Friend Ship has left Tower Bridge she will sail on the south coast, calling at various ports, where she may be received ready by the militia on her first voyage. In September she will sail north, and by October she will arrive at the Tower Bridge.

Distinguished Visitors' Mooring. Shanty singing will be a merry feature of the ship's programme.

A Cologne named P. I. Seltzer was charged before Mr. Gellie in the Resident Magistrate's Court yesterday with being drunk and incapable on Tuesday evening. Accused pleaded guilty and was fined three 10/- or in default of payment three days imprisonment.

The promotion of Mr. Fred. C. Hill to the position of Postmaster is announced in the Kenya "Official Gazette."

World Money Exchange. Paris, 124 1/2; July 5. New York, 487 1/2; London, 124 1/2.

We are led to conclude that the root cause of our difficulties is to be found within the monetary system.

It is important that such an inquiry should be made as to whether the Government is to be held responsible for the present state of affairs.

It is difficult to conceive how either of these objects is to be achieved unless the monetary system, and, at the same time, the basis of an effective reduction of the burden of taxation.

Actually the king, member on a 'false' trial. There have been reports, I believe, in the American States, that during their recent visit King Amunzulu and Queen Bhebe had a good deal of shopping and took in the hills to the British Government.

It was also taken this presentation to the Government by the representatives of both the French and English Governments.

It is added that 'to deal effectively with the situation a budget surplus of at least £75,000,000 should be created.

I am afraid that I cannot compete with your Sibirica correspondent in recording such a tremor. However it may interest your readers to know that there was a distant tremor at the night of May 29 at Nakuru, at about 9.30 p.m.—I am surprised that it has not been commented upon before. I am also surprised that the Antislava House of that date in Jug-Slavia were not mentioned by the British-Intelligence. How were some of the Balkans and Armenia begin in the Balkans and Armenia. I would never be so bold as to say that the Antislava House of that date in Jug-Slavia were not mentioned by the British-Intelligence. How were some of the Balkans and Armenia begin in the Balkans and Armenia.

A RAILWAY GRIEVANCE.

To the Editor, "E.A. Standard."
I am very glad to see that you are so strongly on the subject of Indian railways who are prejudicial to the New South India colonies or rather to those who have recently arrived from India and who have to find a better mode of transport of those people clamouring to the effect of the most common dragging in their own country.

BAND OF MERCY

A column devoted to the interests of the Junior Branch of the E.A.S.P.C.A. Edited by the Hon. Secretary, Box 157, Nairobi.

Kind words flow every day... Warm every heart... We are now and being good days... Leaving us smug...

Branch and those contributions have now mounted up to Sh. 135... Last night I will tell you how it is going.

Entertainment... It would be nice if the members could get up some entertainments... in aid of the Society. I would be glad to have the names of any societies or members...

A Letter from James Watson... 'May I say "Cheerio" to all the boys and girls members of the E.A.S.P.C.A. once again? I hope everyone is very well. My heart is very sad because a letter came from Freda Ballaly...

Our Boy... At the end of June the Junior Branch Membership was 948... Only fifty were in a thousand! Harry got boys and girls or there would be no help left for those come from overseas!

Stakes... 'Where are all the snakes I heard were being made? Remember boys are given monthly for the girl or boy who sends in the right snake. James Watson has sent me Sh. 20. Centa 22 in snake...

Membership Cards... Mrs. Andrews has finished the membership cards and they will all be given on this month... beautiful cards specially drawn for us!

A Great Friend and Helper... We have also got to thank Miss Golyer very much for the beautiful heading for our monthly column... It will make it very attractive!

Removed... We beg to inform our customers that we have removed our business (now in Indian Bazaar) to Madatally Building Government Road, next to J. Darewski and opposite Eadies Ltd.

A Talk on Animals... Mr. Kearson bowed all his thanks our Junior Branch and as he talked an enormous amount of interest in Kenya he was delighted to hear that so many boys and girls have been helping to protect and care for all the dumb animals...

single resemblance. Of course they wouldn't like to be told that "Chicky" pulled in the head and I noticed his hands were just like people's I know... The way animals are fattened in Kenya... The Society has one inspector at present but he spends all his time protecting all the animals...

How to Help in Case of Cattle and Pigs... The inspector has been visiting various districts in Kenya lately but most of the time he is here in Nairobi... If you find a stray animal or sick animal take it to him at the Police Headquarters...

A Great Animal Lover... One of the world's great animal lovers, Mr. Cherry Kearton is in Nairobi on a visit. The S.P.C.A. has been very kind to have him and the first prize of the March Year was his book "Photography"...

Doonholm Dairy... Box 11, Nairobi FOR Pure Milk and Cream. From Farm to Consumer.

Also was questioned by the French and Belgian authorities.

Experts at Croyden state that the exit door in the fuselage was opened by bolts in the inside and with a piston which was a happening as the doors in passenger aeroplane open outward and the force of the wind made almost impossible to open them while a machine was flying.

LABOUR LEADER AND INDIAN ATTITUDE.

Co-operation Offers Repudiated.

(THROUGH BETTER'S AGENCY.) London, July 5. Mr. George Lansbury speaking at the fourth session of the Commonwealth Labour Conference devoted attention to the withdrawal of the Indian delegates from the conference late last night at a point against the attitude of British Labour towards the Indian Congress.

Mr. Lansbury declared that the British Labour movement was pledged to constitutional action, Labour representatives were on the Simon Commission because they were Labour representatives to secure the interests of their Indian brethren.

Whereas our friends in India say that they, however hardly they judge the British Government, are not capable of the impossible, we will continue to work for the day when India will become a part of the self-governing part of her own continent in the commonwealth of nations be reformed.

INTERESTING CEREMONY AT BURU.
Presentation to Mr. and Mrs. C. K. Archer.

A DEPUTATION'S TRIBUTE.

STANDARD OBSERVANCE:
Burur, July 5
On Tuesday morning of last week a deputation, representative of the organized public bodies of the Buru District, consisting of Messrs J. H. Galley, Vice-President of the Buru Farmers' Association and Capt. W. Kirim, Esq., R.F.A., Capt. W. H. Blicher and Mrs. Blicher of the Buru Sports Club and Mr. Blicher and Mrs. Blicher of the East African Women's League, waited upon Mr. C. Kenneth Archer for the purpose of presenting him with a walking gaiter, subscribed for by the Residents of the Buru District.

The present took the form of a handsome sterling silver tray on which the following simple inscription was engraved:

Presented to C. Kenneth Archer by the Residents of Buru District on the occasion of his marriage.

Major J. H. Galley, in introducing the deputation, said: "Mr. Archer, we have come here this morning as representatives of the organized public bodies of the District, the Buru Farmers' Association, the Buru Sports Club and the East African Women's League, on a very pleasant mission. The composing of your marriage has afforded this District an opportunity for the expression of their appreciation and gratitude for the immense amount of work you have done in the interests and for the benefit of our Local Associations and the Colony in general. The work has demonstrated to our minds that you are the one man who has been enabled by reason of your genius and energy to discharge your voluntary obligations in a manner commensurate with the admiration of the people of this Colony. As a Farmer, we would especially recall the fact that our present position is largely due to measures which you have conceived and carried through.

In conclusion, we wish to offer you and your wife our most cordial congratulations on your marriage and to express the hope that you may continue to enjoy the good things of life."

Mr. Archer to receive the present from the hands of the deputation. Mr. Archer thanked the deputation on behalf of Mrs. Archer and himself and asked them to convey their thanks to the ladies represented there which morning for their handsome and generous wedding presents which could not have taken a more acceptable form. Any public body had been privileged to do so he had always received with much pleasure and he realized that in the main he had acted correctly as the municipality of the District and the various associations which were held by settlers in the District. He felt it more than generous of the East African Women's League and the Buru Sports Club to identify themselves with the Buru Farmers' Association, with which he had been associated for a number of years, in making the presentation; and no more welcome present of the kind he had ever received than that that should receive it from the hands of the sports of the morning profession, of which profession, he was a member, and that it should be accompanied by a speech, he was afraid in the nature of a lecture, and most respected Settlers.

Mr. and Mrs. Archer then entertained the deputation to tea.

The Speed Limit.

LACK OF SPEEDOMETER NO EXCUSE FOR BREAK.

Four cases of exceeding the speed limits were before Mr. Gamble in the Resident Magistrate's Court on Thursday.

Mr. C. Finch was charged with driving a motor car at a speed of 25 miles per hour on July 4, and pleaded guilty. A fine of Shs. 20/ was imposed.

Mr. H. S. Taylor was charged with driving a motor car in the Government Road on Wednesday at 25 miles per hour, and also pleaded guilty, a similar fine being imposed.

Mr. G. W. Silling was charged with driving a motor car at 25 miles per hour in Government Road, accused pleads guilty and the usual fine was imposed.

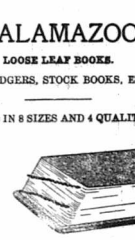

An Indian motor car was charged with driving a motor car at 25 miles per hour. Accused pleaded guilty but said that the car he was driving was a Ford and had no speedometer. The Indian trade said he was afraid that could not be taken into consideration and imposed the usual fine.

Ministry Service.
 A number complained that the district service in the district had been interfered with, in that a large proportion of the personnel had been removed to another district. In view of the fact that the personnel were being withdrawn from the district and in view of the fact that the Chief Veterinary Officer had given several assurances in public that the service should not be interfered with in any way, this withdrawal gave rise to serious criticism and the feeling of the meeting was that they had been deceived with quite unfairly and that the authorities should' take steps with a view to securing a remedy.

POULTRY NOTES.

Size in Poultry.

I have been reading a very interesting article by Powell Owen on how to obtain eggs in poultry. I have been reading "The Eastern World". Size is to a certain extent a matter of convenience, but we, in Kenya, do not want the enormous birds bred in England and America for all their purposes. Size in eggs is a most worthy aim to have in view. The size of the egg will be lost if all the attention is given to the weight. Large birds like the Australorp, White Leghorn, or the Silver Gamecock, small bodied birds, but both lay well. Eggs from small eggs will weigh less than those from large eggs. The weight of the egg will be lost in the incubation of the egg. Some breeders say that small eggs are more incubated than average ones. Still, there is no objection in good shape, medium sized eggs. In making up a breeding pen it is necessary to have good, well-grown hens, large, healthy, well and with well-developed bodies. It will be found desirable to breed from under-sized hens. Very often the main body, if it is from a good laying strain, will be a little on the small side, but, as long as the strain is a good one for egg production, this will matter provided the hens are good bodied birds. If one has a breeding pen which has over a large sum of money, there is a tendency to combine every egg that is laid. This is a mistake. However valuable the pen, it is better to keep the long run. Eggs from a pen of this description should be put carefully selected as from a country laid pen. To obtain size in the birds one should be careful to select the best conditions and feeding. It is better to have a smaller, but better, pen than a larger, but poorer, one. It is better to have a smaller, but better, pen than a larger, but poorer, one. It is better to have a smaller, but better, pen than a larger, but poorer, one.

IMPORTANCE OF A BRITISH INQUIRY.

"STANDARD" CORRESPONDENT.
London, June 13.

The British public will soon enjoy an outstanding news and feature paper in London without exception from the point of view of the report of the proceedings of the annual session of the Government to investigate the circumstances under which the police took evidence from Miss Irwin Berkeley, who was, as it is reported, charged with Sir Leo Money with committing an offence against public decency in Hyde Park. After these enquiries by the press, it was suggested that for parity the two police forces were given evidence, and the usual legal machinery was then set in motion to examine statements very carefully submitted.

A short account was given to the Council of a meeting which took place on 18th May between eight Members of the Council and the Hon. Young Commissioner.

A Big Question.

Of course the whole question of police procedure is applied to the private individual in under examination, and while I express no opinion as to what the tribunal will say to the officers concerned, I am quite sure that it will express very decided views as to the line of action which should be taken in future in conducting interrogatories of this nature.

The police seem to have assumed that they can hold any person under any circumstances, and put under a minute examination, without any real form of law. These methods might be applied to every one of us, and we can hold this view without expressing any opinion whatever upon the merits of the particular case which started this enquiry.

SEE MY SHINING PALACE.

(By Diana Patrick.)

This new novel takes its title from the lines by Edgar Poe, "The Cent Milky".

It is a story of a beautiful, imaginative girl whose wealth allows her to be so very much married by the action of an old and impoverished family.

Her shining palace surrounds above the shining sands on which it is erected, but in the end she is able to rebuild. Written with real sympathy and depth of understanding it is a story that speaks with the life of modern youth. As family with, and the family without—modern traditions which inevitably constrain.

THE AUSTRIAN CHURCH AFFAIRS IN CHAOS.

Authority of Episcopacy Weakened Beyond Repair.

THE PRAYER BOOK

(PARISH) CORRESPONDENT.
London, June 11.

During the last few days Parliament has been almost entirely preoccupied with the Prayer Book controversy. The subject discussed in the House yesterday and was continued today, and the result was not least startling, so that I cannot include in this column anything more than the bare bones of the controversy, viewing it from the standpoint of those who support the revised Prayer Book and those who oppose it.

Assuming the measure in default of the House to be referred to the committee for the Church, in the first place, the authority of the Episcopacy will have been weakened beyond repair. It is not only that, when the whole body of Bishops, which with the exception of six, has supported the Prayer Book, and laid itself upon the altar of necessity for the sake of the Church, finds itself face to face with a situation that the majority do not retain the confidence of the laity, they will feel again free to play any wild card of their own choosing. It is not only that, in the maintenance of discipline, a large number of parishes or on withdrawing any section one way or another, whose course of action results will be that the Anglican Catholic movement, seeing that the cause is not in its hands, will be forced to make a re-valuation, and that it cannot be so simple as those who would recognize its cause, will regard the former as a mere gathering of persons, but that the Episcopacy, in the form of established rule, will find itself definitely lost, and that this result will be in its own hands. This result will be in its own hands. This result will be in its own hands.

Here and There

Church of England, but actually increases all our civil and religious liberties for which our forefathers suffered martyrdom.

Identified with Roman Catholicism

The leaflet then proceeds to make a strenuous attack on Ritualism in the Church, describing it as a very high, Roman Catholicism. It then proceeds to attack the Roman Catholicism in the Church, describing it as a very high, Roman Catholicism. It then proceeds to attack the Roman Catholicism in the Church, describing it as a very high, Roman Catholicism.

TO THE EDITOR, "E.A. STANDARD."

Mr. White's reference to the fact that Mr. B. H. Myer's letter a few days ago in the Standard suggests that the Government is not in the habit of consulting the public in matters of this kind is very interesting. It is not only that, when the whole body of Bishops, which with the exception of six, has supported the Prayer Book, and laid itself upon the altar of necessity for the sake of the Church, finds itself face to face with a situation that the majority do not retain the confidence of the laity, they will feel again free to play any wild card of their own choosing.

THE LOCUST MENACE IN KENYA.

OVERWHELMING NATURE OF THE INFESTATION DESCRIBED.

Weak and Inadequate Methods of Coping with the Plague.

A DEPRESSING TOUR.

Pitiable Limitations of the Warfare in the Nairobi and Gilgi Districts.

NEED FOR A FULL AND FRANK OFFICIAL STATEMENT EMPHASIZED.

The appalling nature of the locust invasion of Kenya is made apparent in the following account of a visit by a representative of the "East African Standard" to one of the worst areas of infestation.

Miles of miles land in Gilgi and Nairobi is thick with hoppers hungry feeding and the vast army is being augmented by millions of recruits as the eggs are hatched.

There is every indication that the responsible authorities failed to realize the potential seriousness of the plague weeks ago and that the measures being taken to cope with the problem are on so small a scale as to be practically futile.

Instead of large gangs of boys with proper equipment and controlled by an adequate staff of Europeans comparatively few workers are employed at widely scattered places with totally inadequate sprays.

The need for facing the facts of an extraordinarily serious situation and of doing everything possible to meet it by inviting the full co-operation of the public is stressed if a grave misfortune is to be prevented from developing into a calamity.

AN INVESTIGATOR'S STORY.

On Wednesday morning, with the intention of getting the personal views upon the Deputy Director of Agriculture, who is conducting the Campaign against the locust invasion, and of seeing personally both the extent of the infestation and the manner in which it is being met, I was invited by the Deputy Director to accompany him to Nairobi, where I was to see the Deputy Director's headquarters.

There are some 150 men employed in the locust campaign, the vast majority of whom are natives. The two large swarms of flying locusts were seen in the last three days, reported as having been in the direction of the Mpigi River, settled on the locality for the night and saw of the locusts on the night of the 6th. A second swarm was seen to have crossed the Mpigi river on the 7th. Little damage was done, as the locusts had not yet begun to settle in any one locality.

"LOOKING" TO WIRELESS.
Successful Trial in London.
THE MACHINE.

A small brass cylinder covered with sheets of paper received, touched by a sliding platinum brush, and each springing into a different degree of vibration, the paper, the strip of brass and the spring, the paper and the half minute the cylinder was rotated, the paper was removed, the production of a photograph.

In this case, the first description of the machine was given in the British of Captain Fulton's "Photograph," a half transmitted from an instrument a few yards away, but the same principle had previously been transmitted, with exactly the same result, from Paris to Vienna, a distance of 600 miles.

Here says the "Daily Express" was concrete proof of a picture-by-wireless, invention that was worth offering to the public in the transmission, and the picture receiving instrument had all the light and shade, all the character of the original photograph.

Captain Fulton has completed arrangements with most of the Continental broadcasting companies and in further the transmission of pictures will become a regular part of the programme.

The British Broadcasting Corporation has stated that the Government will have to be consulted through Captain Fulton before, however that his invention will be introduced into Great Britain at the same time as on the Continent.

Simply.
 A receiving instrument, which will cost £25, can be worked by any amateur, and can be used with any televisual or better wireless set. All the receiver has to do is to be placed in a room, and a few drops of a chemical solution, for to send the cylinder, and the machine does the rest.

The future of the "Photograph" seems a much "wider field than that of entertainment. Holland-Yard has shown great interest in it, because of the maps and photographs of wireless or marine purposes can be transmitted. Cheques, letters, or credit, contractual drawings, and X-ray

"THE BLIND CANON LEAD THE BLIND".
An Appeal on Behalf of the Masai.
UNPROGRESSIVE PEOPLE.

The July number of "Herald" contains an interesting letter from Mrs. Furness, Old London. It writes:

"Will you be so kind as to publish these few words of mine in your paper 'Herald' in order that my countrymen may know the fate of those Masai who live in Masai land. Since it comes to this district of the Kikuyu I have seen the people there progressing in search of civilization but in our country of the Masai the people are still in the dark and even now they have not been enlightened in the slightest because our old men are still overlooking things (they worship those who are called 'Lahabi'—meaning medicine men).

Government officials are making great efforts to help the Masai, but the letter do not want anything to follow their ancient customs even until this very day. The Government of all men in order that their eyes may get education, but children do not want their eyes to be taken away, even now children for no good reason at all. If the government officials say 'We want the children,' they do not send their children willingly, but they say, 'We cannot refuse because if we refuse, the Government will take them away from us by force.' If it is a question of their own free choice they will not send their children at all because they do not know the value of education. They are satisfied that they want their children to lead cattle instead of going to school."

"Our old chiefs have no Christmas to give them in the month, I earnestly pray for help from our young old chiefs, two or three men to guide our elders, in order that they may be able to utilize their own free choice, in order to become acquainted with the civilization of other countries."

"The blind cannot lead the blind."

photographs can be sent through the ether across continents in three and a half minutes. Maps and plans can be traced to airplanes.

The possibilities of the invention are immense, even while it is still in the earliest infancy.

NITROPHOSKA I.G.
A COMPLETE FERTILISER CONTAINING Nitrogen, Phosphoric Acid and Potash.

Manning with essential nutrients will only give the best results if the three main foods are present in adequate quantity on the plants in an easily assimilable form at the time when the crop is growing. This requirement can be satisfied in the simplest way by PHOSKA I.G. manufactured by the German firm NITRO-AGROCHEMIE, (the famous German Dyestuff Trust).

PHOSKA I.G. is stable and does not revert to the independent elements, because the method of manufacture involves combination of the ingredients to a considerable extent chemical combination.

The high Phosphorus content of NITROPHOSKA I.G. means a considerable economy in freight, storage, and use. In Districts with more or less fall, rainy seasons, the fertilizer is best applied towards the end of the rainy period. The following is the appropriate form of NITROPHOSKA I.G. in its rate of application:

COFFEE per acre 200 lbs. to 250 lbs.
CEREALS per acre 150 lbs. to 200 lbs.
 NITROGEN 15.5% PHOSPHORIC ACID 15.5% Water soluble, 1.5% Citrate and Citric acid soluble Phosphoric Acid and 20% Water Soluble POTASH.

Yours faithfully, John H. Harris KENYA LAND TRUST

The Committee of the Society which reported the prolonged delay in the creation of a Land Trust for the natives of Kenya.

Naboth's Vineyard. Meawhile, I signed an article on the subject from the "Nation and Africanist".

The Governor of Kenya will not before the Legislative Council for approval a Bill (locally known as the "Native Lands Trust Bill").

It is to be understood that it is a remarkable fact that a Bill which has not only been introduced but is to be introduced.

The Bill creates a Central Native Lands Trust Board and also Local Advisory Boards.

Mr. Joseph H. Sturges, who has just returned to New York from his recent exploration in the Orange District of Ecuador.

Commitment, an unofficial, English, and a native, but it is to be found to receive advice from the local Board.

And now we come to the constitutional question which is to be dealt with by the Bill.

REASON.

REASON.

Consequent upon a persistent rumor that an organization as strong as the Klu Klux Klan and the Bohemists had appeared in Kenya, the Admiralty ordered the EFFINGHAM to investigate.

A torn piece of the "E. A. Standard" with the words "Don't be overtaxed—Come to us" was their only clue. With characteristic thoroughness the Navy has nailed the rumor and made a wonderful discovery.

In this age of secret societies and anarchy, they have found an organization unique in its beneficence. It is K. Mavor's Garage with its offer of Ford's for sale and thoroughly sound service in all branches of motor work.

SALISBURY ROAD

To the Editor, "E.A. Standard." Sir—Many "Moons" ago I was notified by the Corporation that Salisbury Road was to be reconstructed and generally put in good condition. "But" there is always the "but" which is "but" certainly the idea here is undoubtedly good, for shakings up one's lawns for the miring of the lawn is not in our best interests. But (again) it is not for one's own sake that we should improve the roads, but for the sake of the "Primo of Wales," who will give the Corporation a certificate for the condition of one of the main roads in the city.

Yours etc. JAMES BOY.

POWER FROM WASTE.

To the Editor, "E.A. Standard." Sir—All power users are very well known and interested in waste which can be converted into power. The credit of the new invention is due to the fact that it is not only a waste but it is a waste which is good for power purposes. It is a waste which is good for power purposes. It is a waste which is good for power purposes.

THE SETTLEMENT SCHEME.

To the Editor, "E.A. Standard." Sir—The millions of unemployed in the world are being held up as a capital settlement scheme is a little disappointing. It is not enough to show a certain number of unemployed, but it is not enough to show a certain number of unemployed, but it is not enough to show a certain number of unemployed.

OUR WOMEN'S PAGE

A Letter from Paris

(BY FRANCES BROWN.)

Self-coloured silk stockings in the new shades are the most popular of the very smart and lovely-looked things.

There is a great vogue for sport shoes. They are made of soft silk to match completely the plain or patterned dress with which they are worn.

When the most delicate and subtle shades of an evening gown, such as the accepted French black, blue and other tints, are used, they are very effective.

Supplies jewelry is also a current vogue with the fashion-able designer. It holds wonderful fads, effective when worn with a possible fashion-able costume.

Diagnose any ailment of the body, which you consult the specialist, as to speak, on the matter. Amalga of those glancing glances or handiwork, as they are called, are the last word.

The false hair has definitely returned for wearing wear. It holds wonderful fads, effective when worn with a possible fashion-able costume.

The latest "raided" basket, woven as made of artificial silk, with that irrefragable favourite, the camellia, really first in the Parisienne's wardrobe. There is no question as to a close second, then, the most beautiful thing made, and strictly to the latest effect.

NEEDLEWORK WISDOM.
(By FRANCES BROWN.)
An impulsive warning. When you want to form a garment quickly and inexpensively, first try the design on the material to be used. Unembroidered. Now wind the camellia on the silk to be used in the bodice, and the sewing silk to be used in making the garment on the

top of the machine. Do the satisfactory from the wrong side, then lay the thread in the bobbin to the right side. This is essential because heavy embroidery silk or rayon thread will break through the machine needle. Lengthen the thread, and thread through the machine. The effect is very good where a touch of embroidery is required. When finishing, push the needle and thread through the machine. The effect is very good where a touch of embroidery is required.

A place for corollary silk. To keep embroidery silk from working smoothly and you are looking for a new style, a strip of light weighing paper under the material; this holds it firmly and prevents stretching.

THE MOST BATTER FOR FRITTERS.
Very heavy cooks know exactly the right way to prepare the batter which makes so much trouble. Here is a tested recipe, which will be found successful.

MISS KATHEEN BATES A.R.C.M.
Prepares and Coaches Singers and Instrumentalists for the
Musical Festival July 30-Aug. 4.
ENTRIES CLOSE ON JULY 14.

A happy addition to the smart wardrobe is the bronze lace gown. Here the lace is combined with intricate brown geometric which is set into points of lace insertion.

Skalloped skirt characterizes the south-land style suits that have found most favour with the Parisienne. "Henna" are somewhat discarded as regards many materials. A broad collar and skirt worn at the waist, recent dress shows but no horizontal lines, snags, pockets, and skirt being intricately finished with a broad edge about an inch in width. Often, in the case of a draped skirt, the advantage of satin is used. This, of course, is always, left unadorned.

Very smart was the Eton collar worn with a certain type of suit, comprising a frock in a draped pattern of orange, green, mauve and blue, and an orange suit, with an orange silk bow at the collar.

Now and, very becoming are handkerchiefs cut. Cuffs that are made liberally of fine knitted dress through two creases. Both dress and the elegant the latest interpretation of the Vanille suit, very large and important-looking.
