## THE NEW MOTOR TAXATION

To the Editor, "E.A. Standard."  
Referring to my letter to your issue of the 15th Dec. Clabon Fenie has been good enough to write in his issue a very thorough and very correct account of taxation on motor cars. I have gone very thoroughly into the matter and in my opinion this is probably the best account of the matter I have seen and so this I am prepared to give my own opinion.

I shall not attempt to elaborate Mr. Clabon Fenie's, but find I wish to emphasize the point that the motor tax is not a tax on the car, but a tax on the use of the car. It is not a tax on the car, but a tax on the use of the car. It is not a tax on the car, but a tax on the use of the car. It is not a tax on the car, but a tax on the use of the car.

It should be the damage done to the car by the road. Another point is the Governor at the time the engine and motor taxation was introduced made a statement in the Chamber saying there would be no point in it unless it was so framed that where he has broken his word.

portunity of "moving" a protest. Are we to keep to follow the lead of an official majority who are still silent on the side, on which there are a betterly informed man? Is the better is so thick that we can not see across for some of our own people?

and consent that if they are not already members of the I.M.C.A. they would now join, which is the best advice we can give them. One day, they may find a lot of trouble about all the matter into the middle of Sixth Avenue and Hastings Street, which are the main thoroughfares of the town.

## "VALUE FOR MONEY"

To the Editor, "E.A. Standard."  
I have read with considerable amusement an article in your issue of Wednesday, December 19th, headed "New Motor Tax" by Mr. Clabon Fenie. It prompts this reply to the Hon. Mr. Conway Harve.

Whether this was inspired by Mr. Harve himself or some other who took place at the meeting of the Ken. Farmers and Stock Raisers Association last Sunday. Mr. Conway Harve did come with me, and have been to justify the New Motor Tax, but the meeting declined to accept his proposal that the motor tax be based on the value of the car.

Yours etc.,  
P. W. LEWIN.

## ROADMAKING IN NAIROBI.

To the Editor, "E.A. Standard."  
I am glad to see that a public appeal to the Nairobi Corporation or anyone else, who can give an indication why the three main thoroughfares of the following streets—Harving Street and Sixth Avenue, and a portion of North Avenue are blacked up with road metal and have been left in that state. We do not know whether it is due to over-spending, caused by the embargo of the Corporation to get the cost of the work done for the late visit of H.R.H. the Prince of Wales, and that they need all this time for recuperation, as we find it difficult to consider it an ornament.

apart from the fact that hundreds of people are prevented from crossing the road from our corner to the Stanley Hotel, and vice versa also from the Stanley Hotel to the Stanley Hotel.

We consider it a great nuisance and discomfort, also a great inconvenience to the public, and if the Corporation could have the language being used at times, we

**MULE HARNESS TIED UP WITH WIRE.**

Two Cruelty Cases Before the Court.

**FINES FOR OWNERS**

Two cases of cruelty to animals, one in regard to a mule and the other regarding an ox, were heard in the Resident Magistrate's Court on Thursday. In each case the mule and ox drivers were charged, the owners being fined and the drivers being cautioned.

The "disgraceful state" of a mule's harness was referred to by the Magistrate. The mule was found in a state of neglect on Thursday. It was charged with permitting cruelty to an animal. The mule was cautioned on the spot, and the harness was confiscated. The mule was taken to the pound, and the harness was placed on its neck. The harness was tied up in a number of places with wire and string and the Magistrate referred to it as "miserable."

**WINDING PIANO**

The winding piano was played at 10.15 in Berlin, between two of the great chess "big" subscribers called "The Dresden." Having then 20 years of age, became the world famous composer of endgame and problems and Black, then 22 years old, was already a well-known player.

**Court's Limitations.**

The Magistrate remarked that there was not even to be any change in the Ordinance providing for the confinement of the horses.

**A Lane Ox.**

In the second case another Indian was charged with cruelty to an ox by permitting it to be worked when lame. He pleaded "guilty" saying that the ox was not lame but merely weary about the harness. The Magistrate examined the ox in the Court compound and on returning to the Court said that "any one could see that the ox was lame and not fit to be used for the R.A.S.P.C.A."

The driver of the ox was cautioned that the ox was not to be worked when lame and that if he had ordered him to work the animal.

Leader of Elected Members Refuses to Accept Auditor's Report Confidentially. By 19 votes to 18 Naivasha District Farmers' Association on Saturday, at a meeting in the Hill Inn, Naivasha, resolved a resolution passed at a previous meeting rejecting the Government's scheme for local administration of roads.

LOCAL GOVERNMENT CRITICIZED. The Commissioner in London has been informed that the Government is considering a proposal to transfer to the local authorities the management of roads in Kenya.

Advantages and Disadvantages. The transfer of management to the local authorities has advantages and disadvantages. The advantages are that it would save the Government the cost of maintaining roads and that it would give the local authorities more control over their own roads.

The Roads Survey. Mr. Duce said the present survey has been based on the 1927 figures. There was provision for the Commissioner for additional grants, but the 1927 grant was insufficient and would be inadequate for any new roads.

A Plain Idea. There was a failure, said Lord Delamere, to give any money to the local authorities. The Government was unwilling to meet the cost of the roads.

Many people here would have been glad to see the Government do more for the roads. The Government has failed to do its duty and has allowed the roads to fall into a state of disrepair.

When the Third Supplementary Estimate, 1933, was being considered by the Kenya Legislative Council on Friday, the Hon. T. A. Wood, Chairman of the Committee of Local Government Accounts, presented a paper on the subject of the audit of accounts of local government.

The Commissioner reported that an inspector of accounts would be attached to the staff of the Commissioner of Local Government and it was proposed that he should audit the accounts of local government.

Mr. Wood said that the Hon. Mr. Wood (Nairobi) had given an account to the committee in London and that they were satisfied with the arrangement. He thought that the committee would be satisfied with the arrangement.

**A Long Debate**

The Commissioner of Local Government said the matter had been debated in great detail and Mr. Wood had failed to carry with him any other member of the Select Committee. The general view was that it would be desirable to adopt in this country the policy in force in South Africa for many years regarding local government audit.

Under the new Ordinance, Government was making large outlays in local governing authorities and the local governing authorities would advise the auditor.

The most serious factor with which the builder of an eight-cylinder crankshaft will need to contend is the liability of a light crankshaft to give a weak crankshaft.

(Continued from page 1.)

A Council established under the  
Commissioner, advised that the  
taxation, could only be imposed  
if the Government had the  
consent of the Council. The  
Commissioner, however, stated  
that the Government had the  
consent of the Council.

When they got to the  
Commissioner's office, they

Mr. Atkinson stated that  
the Government had the consent

improvement of the country.

suggested that the Government  
should be asked to withdraw the  
Bill.

The whole country said Mr.  
Dunn was in favour of the pro-  
posal, and that the Government  
should be asked to withdraw the  
Bill.

Mr. Atkinson moved that  
the Government be asked to  
withdraw the Bill, and that the  
Government be asked to  
ask the Council for their  
consent to the taxation.

Mr. Ward seconded  
the motion, and stated that

### SINKING AND THE MOTOR TAX.

(Continued from page 6.)

service save the single loss of value. It is able to suggest that motor vehicles are liable and therefore it is evident for taxation. They are essential for competition for the marketing of motor vehicles and therefore they should be encouraged, but taxed out of existence. It is generally admitted that the more we reduce the rate of tax on the motor vehicle, the better for trade will be and the loss will be the most of value. It is a matter of fact that the motor vehicle is a means by which we can move goods. Surely £1000 a year is a sufficient contribution to the Colony's Revenue from a small number of motor vehicles.

#### No Urgent Need.

Seeing that that with its large surplus funds accumulating year after year, the Colony had no urgent need to increase the tax on motor vehicles, it is not surprising to consider the incidence of the present system of taxation only in relation to the future.

No one who gives thought to the question will suggest that it is a matter of fact that the present form of motor taxation is a means by which we can move goods. Surely £1000 a year is a sufficient contribution to the Colony's Revenue from a small number of motor vehicles.

#### Alternative Methods

An article was seen all will admit that it is hardly for the Colony. It is a matter of fact that the present form of motor taxation is a means by which we can move goods. Surely £1000 a year is a sufficient contribution to the Colony's Revenue from a small number of motor vehicles.

It will not be possible that they would have been under the old system. It is a matter of fact that the present form of motor taxation is a means by which we can move goods. Surely £1000 a year is a sufficient contribution to the Colony's Revenue from a small number of motor vehicles.

#### Public Opinion.

Public opinion being so strongly opposed to the new taxation, it is not surprising to consider the incidence of the present system of taxation only in relation to the future.

Lord Plunket Scott is reported to have stated that the proposed motor tax should have been introduced in the Budget of 1922. It is a matter of fact that the present form of motor taxation is a means by which we can move goods. Surely £1000 a year is a sufficient contribution to the Colony's Revenue from a small number of motor vehicles.

**MOTOR TAXATION.**  
 To the Editor, "E.A. Standard."
