No. 4664 REGISTERS AT THE OUTSTALL POST

THE KING CONTINUES TO MAKE SLOW PROGRESS.

In a Better Position than a Week Ago.

DOCTORS SATISFIED WITH IMPROVEMENT.

Queen's Appreciative Reply to the Message From the Canadian Premier.

The bulletins issued during Christmas state that His Mighely continued to make a slight improvement in health While these Milletins are satisfactory, it is pointed out that only by taking the cumulative effect of a number of only by taking the cumulative effect of a number of days that it is possible to give any ind-rotation of progress. The King is, however, much letter than he made a week ago.

The Queen has sent a most appreciative message to Mr. Mackenzie King in reply to the latter's message, on behalf of the people of Canada, expressing his solicitude after the King's health.

The fact that again the day bulletins have been sus-ended is regarded as a hopeful sign.

flee for the importance of a greater bureaucrase.

All this is very wonderful, but it does not mean that Kenya has portions of the Empire. Caution is essential at this time more than ever before in stepping towards the future. In no line of progress is it more needed than in the field of ecolonisation.

On this subject, as on many others bound up with the development of Kenya, I have found a bewildering conflict of opinion. Nowhere else in the outlying portions of the Empire where white settlers are needed are so many opposing theories thrust at the newcomer with passionate earn-mercomer with passionate earn-

Goodyear Popularity is Backed by Over One Hundred Million Tyres.

So overwhelming is Goodyear popularity that every year Goodyear is called upon to build thousands more tyres than any other maker. This leadership has been won upon the roads of the world with actual performance the deciding factor. It has not been won of late. But rather, years ago—and has for years remained unchallenged. To-day, this supremacy is held by Goodyear—held largely through concentrating Goodyear's resources in a new and vastly superior type of tyre—the new Goodyear Balloon, with the new type All-Weather Tread. This tyre represents the latest, if not greatest reason why more people ride on Goodyear Tyres than on any other make.
